NOTES TO THE FINANCIAL STATEMENTS for the period 1 April 2005 to 31 December 2005

1. STATEMENT OF ACCOUNTING POLICIES

(a) Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, under the historical cost accounting convention and on a going concern basis.

As the Company is a wholly owned subsidiary undertaking of BUPA, a Company registered in England and Wales, which publishes consolidated accounts, the Company has pursuant to paragraph 17 of Financial Reporting Standard No. 8: Related Party Disclosures (FRS 8) not included details of transactions with other companies which are subsidiary undertakings of the BUPA Group. There were no other related party transactions.

Accounting conventions

A summary of the more significant accounting policies, which have been applied consistently, is set out below.

(b) Cash flow statement

Under Financial Reporting Standard No. 1: Cash Flow Statements (revised 1996) (FRS 1) the Company is exempt from the requirement to prepare a cash flow statement, on the grounds that it is a wholly owned subsidiary undertaking of BUPA, a Company that prepares a consolidated cash flow statement for the BUPA Group.

(c) Taxation including deferred taxation

The charge for taxation is based on the result for the period and takes into account deferred tax.

Deferred tax is provided in full on all timing differences that have originated, but not reversed, at the balance sheet date which result in an obligation to pay more, or a right to pay less or to receive more, tax with the following exceptions:

- Provision is made for tax on gains arising from the revaluation of property to its market value, the fair value adjustment of fixed assets, or gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned and without it being possible to claim rollover relief. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- Deferred tax assets are recognised only to the extent that it is considered more likely than not that there will be suitable taxable profits from which the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on current tax rates and laws.

Trading losses surrendered to other Group subsidiary undertakings are made on a full payment basis.

(f) Pensions and other post-retirement benefits

Contributions to the defined contribution scheme are charged to the profit and loss account in the accounting period in which they occur.
