Directors' report for the year ended 31 December 2008

The directors present their report and the financial statements for the year ended 31 December 2008.

Principal activities

The company's principal activity during the year was the extraction of minerals.

Business review

The directors were satisfied with the result of the company during the year.

The Wareham quarry site holds significant sand reserves and no significant change to the activities of the company is anticipated in the foreseeable future.

Results and dividends

The loss for the year, after taxation, amounted to £112,000 (2007 - loss £57,000).

The directors do not recommend the payment of a dividend (2007 - £nil).

Directors

The directors who served during the year were:

C Chapron

D Palmer-Jones (appointed 1 October 2008)

P-A Hjort (resigned 30 September 2008)

No director who held office on 31 December 2008 had an interest in the company's shares either during the financial year or at 31 December 2008.

Environmental impact

Waste management in the UK is in transition. As a society we accept that our current rate of consumption of natural resources is unsustainable and that we need to be more efficient, while making the most of our resource base of raw materials and energy.

At SITA, our vision is to get to a point where the majority of waste materials will have been reused, recycled or recovered for their energy content. We want to reach a stage where there is no longer any 'waste', because we recognise the intrinsic value of the materials we handle as a secondary resource.

For this, we have re-engineered our group to generate more value from our customers waste, enabling them to reduce their environmental impact through our recycling and energy recovery activities.

The change is challenging, but we have already achieved a great deal. In 2008, we recycled almost 30 per cent of the 10.6 million tonnes of materials handled and we generated more than one million megawatt-hours of electricity - enough to power nearly 220,000 homes for a year.

2008 saw important achievements in the four priority areas that we have defined as contributing to our sustainability:

People: we improved our health and safety performance for the third successive year.

Professional: we enhanced our service and gained planning approval for a number of new facilities.

Profit: we invested £70 million in our business and forged new strategic partnerships.

Protection: we achieved high standards of compliance and a significant cut in our overall carbon emission.

Directors' report for the year ended 31 December 2008 Principal risks and uncertainties

The SITA Group has established a risk committee that evaluates the main risks facing the Group and the measures in place to manage those risks. The principal risks and uncertainties facing the Group are broadly grouped as: operational risks, competitive risks, legislative risks, health and safety risks and financial instrument risks.

Operational risks

The SITA Group's operations involve some major public sector contracts, ranging from periods of 7 to 25 years or more, where default on the contract may result in substantial compensation payments to the client.

Long-term contracts also expose the Group to the risk that the contract's revenue profile over the life of the contract may not be sufficient to compensate the Group for unforeseen cost increases, and hence losses may result. The Group has put in place rigorous tender approval procedures to ensure all risks are properly considered. The Group's management and review procedures are aimed at ensuring any problems are identified at an early stage and steps are taken to mitigate any losses arising.

The success of the Group's operations is dependent upon the recruitment and retention of good quality staff. The Group's strategy seeks to make the SITA Group the preferred employer in the waste management sector through its employment policies.

Competitive risks

Part of the SITA Group's business involves contracts with local authorities which are subject to periodic competitive tender. Renewal of these contracts is uncertain and based on financial and performance criteria.

The remaining business relies upon short-term contracts and non-contractual business from industrial and commercial customers, which is subject to normal price competition in the open market.

Legislative risks

The waste management business is subject to strict legislation and regulation. These standards are subject to continuous revision. Compliance with new standards can impose additional costs on the Group, and failure to comply could result in heavy penalties. The Group's management systems aim to ensure compliance with all relevant regulations.

Health and safety risks

The SITA Group acknowledges that its employees working within the waste management industry face significant potential hazards in their everyday work. The Group makes every effort to ensure that its Health and Safety policies are of the highest standard, are fit for purpose and are strictly adhered to on a daily basis.

Financial instrument risks

The Group has established a risk and financial management framework whose primary objectives are to protect the Group from events that hinder the achievement of the Group's performance objectives.

Use of derivatives

On certain major contracts, the SITA Group uses interest rate swaps in respect of the related funding to reduce exposure to interest rate movements.

Exposure to price, credit, liquidity and cash flow risk

Price risk arises on financial instruments because of changes in, for example, commodity prices or equity prices. The Group's major joint venture and associated investments, which the Group does not intend to sell in the short-term, are held at net asset value and are therefore not exposed to price risk.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Group policies are aimed at minimising such losses, and require that deferred terms are only granted to customers who demonstrate an appropriate payment history and satisfy credit worthiness procedures.

Directors' report for the year ended 31 December 2008 Principal risks and uncertainties (continued)

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Cash flow risk is the risk of exposure to variability of cash flows relating to a recognised asset or liability such as future interest payments on a variable rate debt. The Group produces long-term cash forecasts and monitors cash flows against these on a daily basis to ensure all financial obligations may be met as they fall due. Group funding requirements are periodically agreed with the Suez Group.

Statement of directors' responsibilities

The directors are responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Provision of information to auditors

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as that director is aware, there is no relevant audit information of which the company's auditors are unaware,
- each director has taken all the steps that ought to have been taken as a director in order to be aware of any information needed by the company's auditors in connection with preparing their report and to establish that the company's auditors are aware of that information.

Re-appointment of auditors

The auditors, Ernst & Young LLP, are deemed to be reappointed in accordance with section 386 of the Companies Act 1985 by virtue of an elective resolution passed by the members on 7 July 2003.

This report was approved by the board on

2 8 OCT 2009

and signed on its behalf.

C Chapron Director

Independent auditors' report to the shareholders of Wareham Ball Clay Company Limited

We have audited the financial statements of Wareham Ball Clay Company Limited for the year ended 31 December 2008, which comprise the Profit and loss account, the Balance sheet and the related notes 1 to 17. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an Auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors' responsibilities for preparing the Annual Report and the financial statements in accordance with applicable United Kingdom law and Accounting Standards (United Kingdom Generally Accepted Accounting Practice) are set out in the Statement of Directors' Responsibilities.

Our responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements and International Standards on Auditing (UK and Ireland).

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you whether in our opinion the information given in the directors' report is consistent with the financial statements.

In addition we report to you if, in our opinion, the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and other transactions is not disclosed.

We read the directors' report and consider the implications for our report if we become aware of any apparent misstatements within it.

Basis of audit opinion

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgments made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Independent auditors' report to the shareholders of Wareham Ball Clay Company Limited

Opinion

In our opinion:

- the financial statements give a true and fair view, in accordance with United Kingdom Generally Accepted Accounting Practice, of the state of the company's affairs as at 31 December 2008 and of its loss for the year then ended;
- the financial statements have been properly prepared in accordance with the Companies Act 1985; and
- the information given in the directors' report is consistent with the financial statements.

C Chapron Director

The notes on pages 8 to 13 form part of these financial statements.

Notes to the financial statements for the year ended 31 December 2008

1. Accounting policies

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

At 31 December 2008 the company had current liabilities of £4,983,000 (2007 - £4,871,000). The directors are of the opinion that the going concern basis continues to be the appropriate basis for the preparation of the financial statements as a fellow group undertaking has confirmed its intention and ability to provide such financial support as may be necessary to allow the company to continue to operate as a going concern and to meet all of its obligations in full for the next twelve months from the date of approval of these financial statements. The company's parent company has also confirmed that the company will not be required to pay amounts due to other group undertakings unless the company has sufficient funds to pay other creditors in full.

1.2 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS 1.

1.3 Turnover

Turnover comprises amounts receivable by the company in respect of goods and services supplied, exclusive of Value Added Tax and trade discounts, but inclusive of Landfill Tax.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Long leasehold property - mineral

On the basis of minerals extracted

Quarry engineering

- On the basis of minerals extracted

Plant & machinery

- 3 - 10 years, straight line

1.5 Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exception:

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the period in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

1.6 Site restoration provision

The company estimates its total future cost requirements associated with the closure and restoration of mineral sites. Such costs include the final capping of the site. The company provides for these costs over the life of the quarry.

Notes to the financial statements for the year ended 31 December 2008

2. Turnover

The whole of the turnover is attributable to the one principal activity of the company being the extraction of minerals.

All turnover arose within the United Kingdom.

3. Operating profit

The operating profit is stated after charging:

	2008	2007
	£000	£000
Depreciation of tangible fixed assets:		
- owned by the company	-	72

For the years ended 31 December 2008 and 31 December 2007, auditors' remuneration has been borne by a fellow group company.

During the year, no director received any remuneration in respect of his services as director of the company (2007 - £NIL).

4. Staff costs

The company does not directly employ any staff.

5. Interest receivable

		2008 £000	2007 £000
	Interest receivable from group companies	<u>81</u>	91
6.	Interest payable		
		2008 £000	2007 £000
	Discount on provisions On loans from group undertakings	15 315	16 351
		330	367

	Closing shareholders' deficit	(4,983)	(4,871)

16. Related party transactions

Under the provisions of Financial Reporting Standard 8, the company is not required to disclose details of related party transactions with Group entities as it is a wholly owned subsidiary, and the consolidated financial statements in which the company results are included are available to the public.

17. Ultimate parent undertaking and controlling party

The ultimate parent undertaking is GDF Suez SA, a company incorporated in France.

The largest group of which Wareham Ball Clay Company Limited is a member and for which group financial statements are drawn up is that headed by GDF Suez SA, whose consolidated financial statements are available from 16 Rue de la Ville l'Eveque, Paris, France. The smallest such group is that headed by SITA Holdings UK Limited, a company registered in England & Wales. The consolidated financial statements of the SITA Holdings UK Limited Group may be obtained from SITA House, Grenfell Road, Maidenhead, Berkshire, SL6 1ES.

In the opinion of the directors, SITA Holdings UK Limited controls the company as a result of controlling 100% of the issued share capital of Wareham Ball Clay Company Limited. GDF Suez SA is the ultimate controlling party, being the ultimate controlling party of SITA Holdings UK Limited.

On 22 July 2008 the company's previous ultimate parent undertaking, Suez SA, merged with Gaz de France. Prior to the merger, Suez transferred its shareholding in SITA Holdings UK Limited's parent undertaking, Suez Environment UK Limited, held by its subsidiary Suez Environnement, to a new entity, Suez Environnement Company ("the Company") and distributed 65% of the Company's capital to Suez shareholders. After this distribution the merged GDF SUEZ held a 35.41% interest in the Company. On 22 July 2008 Suez Environnement Company shares were listed for trading on the Euronext Paris and Euronext Brussels stock exchanges.
