### **Notes to the Abbreviated Financial Statements for the year ended 30 September 2001**

#### **1. Accounting Policies**

##### **1.1. Accounting convention**

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

##### **1.2. Turnover**

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

##### **1.3. Tangible fixed assets and depreciation**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery	-	20% Straight Line
Fixtures, fittings and equipment	-	15% Straight Line
Motor vehicles	-	25% Straight Line
Computer equipment	-	25% Straight Line

##### **1.4. Leasing and hire purchase commitments**

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

##### **1.5. Stock**

Stock is valued at the lower of cost and net realisable value.

##### **1.6. Pensions**

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

##### **1.7. Deferred taxation**

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors consider that a liability to taxation is unlikely to materialise.
