Strategic report

For the year ended 30 April 2015

The directors present their strategic report on the Company for the year ended 30 April 2015.

Review of the business

East London Bus & Coach Company Limited is a public transport operator, operating primarily contract services within the Greater London area. The Company operates a fleet of 739 buses and employs 2,400 people.

Results and performance

The results of the Company for the year ended 30 April 2015 show a profit on ordinary activities before taxation of £6,274,000 (2014: profit £3,511,000) and turnover of £166,620,000 (2014: £157,402,000). The Company has net liabilities of £63,833,000 (2014: net liabilities £41,925,000).

Business environment

Along with fellow subsidiaries South East London & Kent Bus Company Limited ("Selkent") and East London Bus Limited ("ELB"), the Company provides public transport services, primarily under contract to Transport for London ("TfL"), under a number of five-year contracts with varying termination dates, which are extendable if qualitative metrics are achieved for a further two years at the Company's discretion.

TfL offer around 700 such contracts, and most of the significant national transport operators are active to a greater or lesser extent in the London bus marketplace.

TfL monitors the activities of operators closely, with particular emphasis on timekeeping and customer service standards. The contracts it awards generally have an incentive/penalty regime to promote quality delivery.

The Company benefits from being part of the UK Bus (London) Division of Stagecoach Group plc, a nationwide public transport operator.

Strategy

A full review of the business was undertaken prior to, and following, its acquisition in 2010, and a significant opportunity was identified to add value through a turnaround of the under-performing business and through synergies with the other UK Bus operations within Stagecoach Group. The strategy was initially focused on addressing the structurally high cost base at the acquired business and on bidding for contracts that would earn a realistic return. We have now achieved our aspirations for mid to upper single-digit operating margins and our focus is now on maintaining tight control of costs while seeking to bid competitively for new contracts.

Strategic report (continued)

For the year ended 30 April 2015

Future outlook

The bus passenger environment in London is expected to continue to provide opportunity for growth. Bus operators are expected to continue to invest in new vehicles and improve profitability through operational efficiencies.

The directors believe the continued investment in the fleet, commitment to staff training and continuous monitoring of operational efficiency will enable the Company to improve its level of performance in the future.

Having completed our restructuring of the business, we are pleased with our performance in the competitive tended market, and are optimistic on the prospects for the future profit growth.

Principal risks and uncertainties

The management of the business and the execution of the Company's strategy are subject to a number of risks.

The management and reporting of risk is undertaken at Group level, rather than at an individual business unit level.

The principal risks and uncertainties of Stagecoach Group plc, which includes those of the Company, are discussed in the Group's 2015 annual report (paragraph 1.4.6 of the Strategic Review), which does not form part of this report.

The principal risks and uncertainties for the Group that are also applicable to the Company are:

Insurance and claims environment

The Group receives claims in respect of traffic incidents and employee claims. The Group protects itself against the cost of such claims through third party insurance policies. An element of the claims is not insured as a result of the "excess" on insurance policies. There is a risk that the number or magnitude of claims are not as expected and that the cost to the Group of settling these claims is significantly higher or lower than expected.

Fuel price fluctuations

The cost of fuel is a significant expense for the Company and the price can fluctuate widely in the market place. The Group seeks to minimise its exposure in this area through the use of fuel hedge contracts by fixing the price of a proportion of estimated fuel purchases throughout the term of the contracts with TfL.

Key performance indicators ("KPIs")

The directors of Stagecoach Group plc manage the Group's performance on a divisional basis. For this reason, the Company's directors believe that analysis using KPIs for the Company is not necessary or appropriate for an understanding of the development, performance or position of the business of the Company. The development, performance and position of the UK Bus (London) Division of Stagecoach Group plc, which includes the Company, is discussed in the Strategic Review (paragraph 1.4.7) of the Group's 2015 annual report which does not form part of this report.

Strategic report (continued)

For the year ended 30 April 2015

Financial risk management

The Company's activities expose it to a variety of financial risks including the effects of changes in interest rates, credit risk and commodity prices. The effects of changes in interest rates and commodity prices are managed at a Group level by a central Group treasury function. The Company has implemented policies, which require appropriate credit checks to be performed on potential customers before sales are made. All credit checks are performed centrally by Stagecoach Services Limited, a fellow group company.

Directors' report (continued)

For the year ended 30 April 2015

The directors present their report on the affairs of the Company, together with the audited financial statements and independent auditors' report, for the year ended 30 April 2015.

Results and dividends

The results of the Company for the year ended 30 April 2015 show a profit on ordinary activities before taxation of £6,274,000 (2014: £3,511,000) and turnover of £166,620,000 (2014: £157,402,000). The profit for the financial year amounted to £5,198,000 (2014: profit £2,909,000). The directors do not recommend the payment of a dividend (2014: Nil).

The directors have received a guarantee of financial support from Stagecoach Group plc due to the net liability position and therefore the directors consider the going concern assumption for the preparation of these financial statements is appropriate.

Future Developments

Future developments have been discussed in the strategic report on page 4.

Financial Risk Management

Financial risk management has been discussed in the strategic report on page 5.

Employees

Employees are central to the Company's strategy to deliver its business plan. A well motivated and engaged workforce will in turn create optimum performance and efficiency within the business. The business objectives are achieved through training, developing and engaging employees in delivering an excellent service to customers and maintaining high operational standards.

Training and development

We have consistently sought to recruit and retain the best employees in the markets in which we operate. The Company invests significantly to ensure that our staff are properly trained and able to offer the best customer service. The Company, under guidance from central UK Bus (London) management, operates staff development, graduate trainee and apprentice engineer programmes.

Directors' report (continued)

For the year ended 30 April 2015

Employees (continued)

Employee involvement

The Company is committed to employee participation and uses a variety of methods to inform, consult and involve its employees. Employees participate directly in the success of the business through the Stagecoach Group's bonus and other remuneration schemes and are encouraged to invest through participation in share option schemes.

Disabled persons

The Company recognises its obligations to give disabled people full and fair consideration for all vacancies within the statutory medical requirements which have to be met for certain grades of staff. Wherever reasonable and practicable, the Company will retain newly disabled employees and at the same time provide fair opportunities for the career development of disabled people.

Donations

Donations to charitable organisations amounted to £497 (2014: £220).

The Company does not make political contributions and accordingly there were no payments for political purposes during the year (2014: Nil).

Statement of Directors' responsibilities

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 *Reduced Disclosure Framework* (FRS 101).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, including FRS 101 have been followed, subject to any material departures disclosed and explained in the financial statements;
- notify its shareholders in writing about the use of disclosure exemptions, if any, of FRS 101 used in the preparation of financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

Directors' report (continued)
For the year ended 30 April 2015

Statement of Directors' responsibilities (continued)

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of the company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditors and disclosure of information to auditors

Each director, as at the date of this report, has confirmed that insofar as they are aware there is no relevant audit information of which the Company's auditors are unaware, and they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

The auditors, PricewaterhouseCoopers LLP, have indicated their willingness to continue in office, and a resolution concerning their re-appointment will be proposed at the next Annual General Meeting of the Company.

Indemnification of Directors and officers

The Company maintains Directors' and Officers' Liability Insurance in respect of legal action that might be brought against its directors. The Company has indemnified each of its directors and other officers of the Company against certain liabilities that may be incurred as a result of their offices.

Independent auditors' report to the members of East London Bus & Coach Company Limited
For the year ended 30 April 2015

Report on the financial statements

Our opinion

In our opinion, East London Bus & Coach Company Limited's financial statements (the "financial statements"):

- give a true and fair view of the state of the company's affairs as at 30 April 2015 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

What we have audited

The financial statements comprise:

- the balance sheet as at 30 April 2015;
- the profit and loss account and statement of other comprehensive income for the year then ended;
- the statement of changes in equity for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS101 "Reduced Disclosure Framework".

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, the information given in the Strategic Report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Other matters on which we are required to report by exception

Adequacy of accounting records and information and explanations received

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Directors' remuneration

Under the Companies Act 2006 we are required to report to you if, in our opinion, certain disclosures of directors' remuneration specified by law are not made. We have no exceptions to report arising from this responsibility.

Responsibilities for the financial statements and the audit

Our responsibilities and those of the directors

As explained more fully in the Statement of directors' responsibilities set out on page 7, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland) ("ISAs (UK & Ireland)"). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

What an audit of financial statements involves

We conducted our audit in accordance with ISAs (UK & Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Financial statements to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Notes to the financial statements

For the year ended 30 April 2015

1 Principal accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied throughout the year, unless otherwise stated.

1.1 Basis of accounting

These financial statements have been prepared in accordance with Financial Reporting Standard 101, 'Reduced Disclosure Framework' (FRS 101) and the Companies Act 2006 (the Act). FRS 101 sets out a reduced disclosure framework for a 'qualifying entity' as defined in the standard which addresses the financial reporting requirements and disclosure exemptions in the individual financial statements of qualifying entities that otherwise apply the recognition, measurement and disclosure requirements of EU-adopted IFRS.

The Company is a qualifying entity for the purposes of FRS 101. Note 22 gives details of the Company's parent and from where its consolidated financial statements prepared in accordance with IFRS may be obtained.

The Company's date of transition from EU-adopted IFRS to FRS 101 was 1 May 2012. The Company has notified its shareholders in writing about, and they do not object to, the use of the disclosure exemptions used by the company in these financial statements.

FRS 101 sets out amendments to EU-adopted IFRS that are necessary to achieve compliance with the Act and related Regulations. The impact of these amendments to the Company's previously adopted accounting policies in accordance with EU-adopted IFRS was not material in terms of the shareholders' equity as at the date of transition and as at 30 April 2015 and on the profit for the year ended 30 April 2015.

At 30 April 2015, the Company had net liabilities of £63,833,000 (Year ended 30 April 2014: £41,925,000). The directors have received confirmation of continuing financial support from the ultimate holding company. Accordingly, the financial statements have been prepared on the going concern basis.

1.2 Functional and presentational currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in 'sterling' ('£'), which is the Company's functional and presentational currency.

1.3 Revenue recognition

Revenue principally comprises of revenue from the operation of contracted bus services in London and the South East of the United Kingdom ('Turnover'). Turnover is shown net of value-added tax, rebates and discounts. Revenues incidental to the Company's principal activity (including advertising income) are reported as other operating income.

(a) Sales of services

The Company recognises revenue when the amount of revenue can be reliably measured. Performance based incentives are recognised in the year in which they become certain by reference to data provided by TfL.

Notes to the financial statements (continued)

For the year ended 30 April 2015

1 Principal accounting policies (continued)

1.3 Revenue recognition (continued)

(b) Interest income

Interest income is recognised on an accruals basis.

1.4 Property, plant and equipment

All public service vehicles are stated at cost less accumulated depreciation on the adoption of IFRS under the IFRS 1 transition rules. Land and buildings are stated in the balance sheet at cost, or their revalued amount, being the fair value at the date of revaluation, less any subsequent accumulated depreciation. Other fixed assets are shown at cost, net of depreciation and any provision for impairment.

Depreciation on revalued buildings is charged to income. Where depreciation charges are increased following a revaluation, an amount equal to the increase is transferred annually from the revaluation reserve to the profit and loss account as a movement on reserves. On the subsequent sale or scrappage of a revalued property the attributable revaluation surplus remaining in the revaluation reserve is transferred directly to the profit and loss reserve.

Depreciation is provided at rates calculated to write off the cost or valuation, less estimated residual value, of each asset on a straight-line basis over its estimated useful life, as follows:

Freehold buildings	50 years
Leasehold land and buildings	over the period of lease
Public service vehicles ('PSVs')	7 to 12 years
Plant and equipment	3 to 10 years
Furniture and fittings	3 to 10 years

Freehold land is not depreciated.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than the estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within other gains/(losses) in the profit and loss account.

Public service vehicles ('PSVs') are generally depreciated over periods ranging from 7 to 12 years after making allowances for estimated residual values.

Notes to the financial statements (continued)

For the year ended 30 April 2015

1 Principal accounting policies (continued)

1.5 Stocks

Stock comprises of fuel and vehicle spare parts and is stated at the lower of cost and net realisable value. Provision is made for obsolete, slow moving or defective items where appropriate.

1.6 Financial assets

The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. The Company classifies its financial assets in the following category:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost and gains and losses are recognised in the profit and loss account. They are included in current assets. The most significant financial assets under this category are 'debtors due within one year' and 'cash at bank and in hand'.

1.7 Cash at bank and in hand

Cash at bank and in hand includes cash in hand, deposits held at call with banks with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

1.8 Ordinary shares

Ordinary shares are classified as equity. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

1.9 Trade payables

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

1.10 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the profit and loss account over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless at the balance sheet date, the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Notes to the financial statements (continued)

For the year ended 30 April 2015

1 Principal accounting policies (continued)

1.11 Pensions and retirement benefit obligations

Certain employees of the Company are members of the East London & Selkent pension scheme, a defined benefit pension scheme that is also open to certain employees of other Group companies. It is funded through payments to a trustee-administered fund, determined by periodic actuarial calculations. The Company also contributes to a defined contribution scheme.

For the period until acquisition by Stagecoach Bus Holdings Limited, the retirement benefit obligation was held by a fellow group company and as the Company was unable to identify its share of the underlying assets and liabilities, the contributions paid by the Company are accounted for as if the scheme was a defined contribution scheme.

On acquisition by Stagecoach Bus Holdings Limited, the assets and liabilities of the East London & Selkent pension scheme were recognised.

In respect of the defined benefit scheme, obligations are measured at discounted present value whilst scheme assets are recorded at market value. The recognised net asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the scheme. An economic benefit is available to the Company if it is realisable during the life of the scheme or on settlement of the scheme liabilities.

The operating and financing costs of the defined benefit plan is included within operating profit and is disclosed separately in the notes to the financial statements; service costs are spread systematically over the working lives of employees and financing costs are recognised in the periods in which they arise. Actuarial gains and losses are recognised immediately in the statement of other comprehensive income. Mortality rates are considered when retirement benefit obligations are calculated.

Past service costs and adjustments are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period (the vesting period), in which case the past service costs are amortised using a straight-line method over the vesting period.

A full actuarial valuation is undertaken triennially for the scheme and updated annually using independent actuaries following the projected unit credit method. The present value of the scheme obligations is determined by discounting the estimated future cash outflows using interest rates of high quality corporate bonds which have terms to maturity equivalent to the terms of the related obligations. Experience adjustments and changes in assumptions which affect actuarial gains and losses are reflected in the actuarial gain or loss for the year.

For defined contribution schemes, the Company pays contributions to separately administered pension schemes. Once the contributions have been paid, the Company has no further payment obligations. The Company's contributions to defined contribution schemes are charged to the profit and loss account in the year to which the contributions relate.

Notes to the financial statements (continued)

For the year ended 30 April 2015

1 Principal accounting policies (continued)

1.12 Share-based payment transactions

The company operates a "Buy as You Earn Scheme" (BAYE). BAYE enables eligible employees to purchase shares from their gross income. The Company provides two matching shares for every share bought from the first £10 of monthly investment, subject to a maximum Company contribution of shares to the value of £20 per employee per month.

1.13 Provisions for liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that the Company will be required to settle that obligation and the amount has been reliably estimated. Provisions are measured at the Directors' best estimate of the expenditure required to settle the obligation at the balance sheet date and are discounted to the present value where the effect is material. The increase in the provision due to passage of time is recognised as interest expense

1.14 Tax

The tax expense represents the sum of the income tax charge for the year and deferred tax.

Current tax assets and liabilities are measured at the amount expected to be paid (or recovered) to tax authorities, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets and liabilities are generally recognised on all temporary differences arising between the tax base of assets and liabilities and their carrying amounts in the financial statements. However such assets and liabilities are not recognised if the temporary difference arises from initial recognition of goodwill, or from the initial recognition (other than a business combination) of other assets and liabilities that affects neither the accounting nor taxable profit or loss.

Deferred tax assets are recognised only to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilised.

Deferred tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply when the related asset or liability is settled.

The income tax effects of items recorded in either other comprehensive income or equity are recognised in the statement of other comprehensive income or the statement of changes in equity respectively. Otherwise, income tax is recognised in the profit and loss account.

1.15 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as the lease expense. Operating lease payments are recognised as an expense in the profit and loss account on a straight line basis over the lease term.

Under finance leases and hire purchase contracts, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, the assets acquired are recorded in the balance sheet as an asset (at the equivalent of the purchase price) and as an obligation to pay future hire purchase capital instalments or finance lease rentals. Assets held under hire purchase arrangements are depreciated over their useful life.

Obligations from hire purchase contracts and finance leases within creditors represent the total of the capital payments outstanding at the balance sheet date. Future finance charges are not included.

The interest element of hire purchase and finance lease obligations are charged to the profit and loss account over the period of the hire purchase or finance lease.

1.16 Dividend distribution

Dividends on ordinary shares are recorded in the financial statements in the period in which they are approved by the shareholders, or in the case of interim dividends, on the period in which they are paid.

9 Tax on profit on ordinary activities

a) Charge for the year

	Year ended 30 April 2015 £'000	Year ended 30 April 2014 £'000
Current tax:		
UK corporation tax on profits of the year	882	27
Adjustments in respect of prior year	(27)	66
Total current tax	855	93
Deferred tax:		
Origination and reversal of timing differences	291	674
Adjustments in respect of prior years	(70)	(165)
Total deferred tax (note 16)	221	509
Tax charge	1,076	602

The tax assessed for the year is lower (year ended 30 April 2014: lower) than the standard rate of corporation tax in the UK 20.92% (2014: 22.84%). The differences are explained below:

b) Factors affecting the tax charge for the year

	Year ended 30 April 2015 £'000	Year ended 30 April 2014 £'000
The effective tax rate for the year is reconciled to the actual tax credit as follows:		
Profit on ordinary activities before tax	6,274	3,511
Profit on ordinary activities multiplied by standard rate of income tax in the UK of 20.92% (2014: 22.84%)	1,312	802

Tax charge for the year	1,076	602

Notes to the financial statements (continued)

For the year ended 30 April 2015

9 Tax on profit on ordinary activities (continued)

c) Factors that may affect future tax charges

Changes to the UK corporation tax rates were announced in the Chancellor's budget on 8 July 2015. These include reductions to the main rate to reduce the rate to 19% from 1 April 2017 and 18% from 1 April 2020.

As the changes had not been substantively enacted at the balance sheet date their effects are not included in these financial statements. Had this change of rate to 18% been substantively enacted at 30 April 2015, the estimated impact of the balance sheet would be a reduction in the deferred tax asset of £891,282 from £8,912,819 to £8,021,537

17 Retirement benefit liability

The Company contributes to the East London & Selkent pension scheme which is a defined benefit scheme under common control of the group entities.

Until acquisition by Stagecoach Bus Holdings Limited, under IAS 19 the East London Bus & Selkent pension scheme was accounted for as a defined benefit plan in the financial statements of the Group's ultimate UK parent company, East London Bus Group Holdings Limited, and defined contribution accounting was used for this and other Group companies. Following its acquisition by Stagecoach Bus Holdings Limited on 15 October 2010, the East London Bus & Selkent pension scheme was accounted for as a defined benefit plan in the Company's financial statements, and defined contribution accounting has been used for other Group companies.

The Company made contributions to a defined contribution scheme totalling £1,312,000 (2014: £774,000).
