ADAMAS INDUSTRIES LIMITED

Notes to the abbreviated financial statements for the year ended 31st December 2014

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive tax refund, except to the extent that the directors consider that a liability to taxation is unlikely to materialise.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

1.3. Going concern

As set out in the directors' report, the directors are responsible for preparing financial statements that give a true and fair view. The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future.

The immediate parent company, Alfa International Limited, has given a written indication that it will not call the inter company loan repayments within one year from the balance sheet date.

2. Creditors: amounts falling due after more than one year

2014	2013

2,911,907	2,911,907
