Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter

Plant and machinery etc	- 25% on reducing balance and 15% on reducing balance
-------------------------	--

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

EU Agricultural Support Schemes

Payments received under EU agricultural support schemes are recognised as income when the business has met all criteria which entitle it to the payments.

For calendar year 2008 onwards, the rules have been revised and the land has to be under the control of the claimant for one day only on 15 May. Therefore 100% of the single farm payment has been recognised in the current year.

No provision has been made for penalties arising from the failure to comply with 'cross compliance' conditions, as defined by the RPA, except for where notification has been received.
