Strategic Report

Year ended 31 December 2013

Principal activities and business review

The principal activity of the company during the year was, and will continue to be, the provision of digital cable, fixed-line telephony, broadband internet and other telecommunication services as well as running some of the telecommunication services over which they are provided

At 31 December 2013 the company was a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media) Virgin Media became a wholly-owned subsidiary of Liberty Global plc (Liberty Global) as a result of a series of mergers that were completed on 7 June 2013 (the LG/VM Transaction) This is referred to in more detail in the consolidated financial statements of Virgin Media Inc which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP

The Virgin Media Inc. consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (U K)

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the U K to both residential and business-to-business (B2B) customers. The group is one of the U K is largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of customers. The group believes its advanced, deep-fibre cable access network enables it to offer faster and higher quality broadband internet services than our digital subscriber line, or DSL competitors. As a result, it provides our customers with a leading next generation broadband internet service and one of the most advanced interactive digital cable services available in the U K market.

As of 31 December 2013, the group provided services to approximately 4.9 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers, providing mobile telephony services to 1.9 million contract mobile customers and 1.1 million prepay mobile customers over third party networks. As of 31 December 2013, 84% of residential customers on the group's cable network received multiple services from the group, and 66% were "triple play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group

In addition the group provides broadband internet, fixed-line and mobile telephony and other connectivity services to businesses, public sector organisations and service providers

On 8 March 2012 the company acquired 100% of the share capital of ntl Midlands Leasing Limited for consideration of the issue of debt of £9,077,797 for 9,077,797 ordinary shares of £1

During 2012 the company undertook a lease and leaseback transaction with ntl Midlands Leasing Limited, whereby ntl Midlands Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary

Strategic Report (continued)

Year ended 31 December 2013

Key performance indicators (KPI's)

The company's key financial and other performance indicators for the year are considered below

Turnover (£000)	2013 210,532	2012 Comments 205,289 Turnover has increased by 2 6% primarily due to an increased uptake of broadband internet, together with successful up-selling and cross-selling to our existing customer base and selective price increases, partially offset by a decrease in fixed-line telephony and digital cable services
Operating profit (£000)	39,591	42,578 Operating profit has decreased by 7 0%, primarily due to an increase in administrative expenses, driven by share based compensation recharges associated with the LG/VM transaction, together with an increase in depreciation expense arising from fixed asset additions, partially offset by a decrease in marketing and other employee costs, and an increase in gross profit resulting from increased turnover

Selected statistics for residential cable customers served by the company at 31 December 2013 and 31 December 2012 are shown in the table below

	2013	2012
Products		
Digital cable	262,700	265,800
Fixed-line telephone	301,600	306,800
Broadband internet	319,200	313,800
Total	883,500	886,400
Total customers	358,200	358,800
Products per customer	2.47	2 47

Each digital cable, fixed-line telephone and broadband internet subscriber directly connected to the company's network counts as one product. Accordingly, a subscriber who receives both fixed-line telephone and digital cable services counts as two products. Products may include subscribers receiving some services for free or at a reduced rate in connection with promotional offers.

Strategic Report (continued)

Year ended 31 December 2013

The company reported a decrease in net current liabilities and an increase in net assets for the year ended 31 December 2013 as a result of normal operations. During the year, no new external finance was arranged and there was no movement in the called up equity share capital of the company. Operations were financed through the company's inter-company balances with fellow group undertakings.

Future outlook

The directors will continue to review management policies in light of changing trading and market conditions Further detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2013, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP

Principal risks and uncertainties

Financial and operational risk management is undertaken as part of the group operations as a whole. The company's operations expose it to a variety of operational and financial risks. These are considered in more detail in the financial statements of Virgin Media Inc. which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP

Directors' Report

Year ended 31 December 2013

The directors present their report and the unaudited financial statements of the company for the year ended 31 December 2013

Results and dividends

The profit for the financial year, after tax, amounted to £1,911,000 (2012 - profit of £54,255,000) The directors have not recommended an ordinary dividend (2012 - £nil)

Directors

The directors who served the company during the year and thereafter were as follows

The directors of the company have been indemnified against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 2006. Such qualifying third party indemnity

provision is in force for directors serving during the financial year and as at the date of approving the Directors' Report

Going concern

After making suitable enquiries and obtaining the necessary assurances from Virgin Media Inc, a wholly owned subsidiary of Liberty Global plc and the intermediate holding company which heads the Virgin Media group, that sufficient resources will be made available to meet any liabilities as they fall due should the company's income not be sufficient, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although at the date of approval of these financial statements they have no reason to believe that it will not do so On this basis the directors believe that it remains appropriate to prepare the financial statements on a going concern basis

Audit exemption

Virgin Media Finance PLC issued a guarantee against all outstanding liabilities to which the company is subject as at 31 December 2013, until they are satisfied in full. The guarantee is enforceable against Virgin Media Finance PLC by any person to whom the company is liable in respect of those liabilities. Since Virgin Media Finance PLC is the smallest group to which the company's accounts are consolidated, the company has taken advantage of the exemption from audit of its individual accounts for the year ended 31 December 2013 by virtue of Section 479A of the Companies Act 2006

Directors' Responsibilities Statement

Year ended 31 December 2013

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures
 disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the Financial Statements

Year ended 31 December 2013

1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below

Basis of accounting

The financial statements have been prepared under the historical cost convention as modified to include the revaluation of certain fixed assets in accordance with the Companies Act 2006, and applicable UK accounting standards

Fundamental accounting concept

After making suitable enquiries and obtaining the necessary assurances from Virgin Media Inc, a wholly owned subsidiary of Liberty Global plc and the intermediate holding company which heads the Virgin Media group, that sufficient resources will be made available to meet any liabilities as they fall due should the company's income not be sufficient, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although at the date of approval of these financial statements they have no reason to believe that it will not do so. On this basis the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

Group accounts

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 18) These financial statements therefore present information about the company as an individual undertaking and not about its group

Investments

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

Cash flow statement

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company

Turnover

Turnover represents the value of services provided, stated net of value added tax and discounts, and is attributable to continuing activities, being the provision of digital cable, fixed-line telephony, broadband internet and other telecommunication services and to run certain of the telecommunication systems over which they are provided Turnover is all derived from operations in the United Kingdom and is recognised as the services are provided to customers. The directors consider this to be a single class of business.

Notes to the Financial Statements

Year ended 31 December 2013

1. Accounting policies (continued)

Tangible fixed assets

Depreciation is provided on all tangible fixed assets, other than land, so as to write off the cost of a tangible fixed asset on a straight line basis over the expected useful economic life of that asset as follows

Network assets

3 - 30 years

Other fixed assets

- Freehold property

30 years

- Short leasehold improvements

period of lease

- Other

3 - 12 years

An amount equal to the excess of the annual depreciation charge on revalued assets over the notional historical cost depreciation charge on those assets is transferred annually from the revaluation reserve to the profit and loss reserve

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable

Deferred tax

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote

Notes to the Financial Statements

Year ended 31 December 2013

1. Accounting policies (continued)

Finance leases

Where the company enters into a lease under which it takes substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease

The assets are recorded in the balance sheet as a tangible fixed asset and are depreciated over their useful economic lives. Finance lease debtors are recorded in the balance sheet, and future instalments payable under finance leases are included within creditors, net of finance charges. Rentals receivable and payable under these finance lease arrangements are apportioned, the finance elements are recorded in the profit and loss account on a reducing balance basis and the capital elements reduce the outstanding liability or asset in accordance with the terms of the contract.

2. Operating profit

Operating profit is stated after charging

	2013	2012
	£000	£000
Depreciation of owned tangible fixed assets	9,120	3,972
Depreciation of tangible fixed assets held under finance lease agreements	26,233	30,429
Loss on disposal of fixed assets	_	198

Auditor's remuneration of £nil (2012 - £21,200) represents costs allocated to the company by fellow group undertakings that pay all auditors' remuneration on behalf of the group

The directors received remuneration for the year of £34,826 (2012 - £19,972) in relation to qualifying services as directors of this company, all of which was paid by, and is disclosed in the financial accounts of Virgin Media Limited In 2013 this included an element relating to compensation for loss of office

Certain expenses are specifically attributable to the company Where costs are incurred by other group companies on behalf of the company, expenses are allocated to the company on a basis that, in the opinion of the directors, is reasonable

3. Staff costs

The company does not have any directly employed staff but is charged an allocation of staff costs by the group Details of staff numbers and staff costs of the group are disclosed in the group accounts of Virgin Media Finance PLC

Included in "Other" are the following net book values of land and buildings		
	2013	2012
	£000	£000
Freehold property	4,291	4,572

During 2012 the company undertook a lease and leaseback transaction with ntl Midlands Leasing Limited, whereby ntl Midlands Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary

Included within the net book value of £206,777,000 is £160,373,000 (2012 - £186,606,000) relating to the assets held under these finance lease agreements. The depreciation charged to the financial statements in the year in respect of such assets amounted to £26,233,000 (2012 - £30,429,000).

As the rights of use of these assets remained with the company, the assets have not been derecognised and presented as reacquired

The transitional provisions of FRS 15 are being followed and that the valuation has not been updated since it was first revalued

In respect of certain fixed assets stated at valuations, the comparable historical cost and depreciation values are as follows

	2013 £000	2012 £000

On 8 March 2012 the company acquired 100% of the share capital of ntl Midlands Leasing Limited for consideration of the issue of debt of £9,077,797 for 9,077,797 ordinary shares of £1

During 2012 the company undertook a lease and leaseback transaction with ntl Midlands Leasing Limited, whereby ntl Midlands Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company. As part of this transaction the company made a capital contribution of £898,701,694 to ntl Midlands Leasing Limited which was immediately applied by that entity under the terms of the headlease. Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary.

In the opinion of the directors the aggregate value of the investments in subsidiary undertakings is not less than the amount at which they are stated in the financial statements

The material investments in which the company holds at least 20% of the nominal value of any class of share capital, all of which are unlisted, are as follows
