Employee Engagement

It is Amey Group ("Group") policy to communicate with and involve all employees, subject to commercial and practical limitations, in all matters affecting their interests at work and to inform them of the performance of their Group. Employees are provided with information about the Group through 'Hub', the employee magazine, 'Time to Talk', the line managers monthly cascade briefing process, and email, all of which provide useful business updates across the business. Directors' responsibilities

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

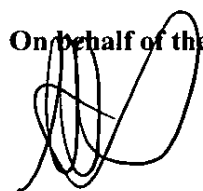

In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and accounting estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

All of the current Directors have taken all the steps that they ought to have taken to make themselves aware of any information needed by the Company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The Directors are not aware of any relevant audit information of which the auditors are unaware.

1 Accounting policies

The financial statements have been prepared under the historical cost convention and are in accordance with applicable United Kingdom Accounting Standards

The following principal accounting policies have been applied consistently in the current or prior year

Going concern

The Company is a subsidiary of Amey UK plc and its financial resources are managed on a group basis. Amey UK plc has a revolving committed syndicated credit facility of £92 million maturing on 2 April 2012 and other committed credit facilities of £40 million maturing between April 2011 and December 2011.

After making enquiries, the Directors have no reason to believe that amounts remaining to be drawn down under the existing bank loan facilities will not be forthcoming and that the group will be able to renew these medium term facilities in advance of their expiry. The Directors believe that the group is well placed to manage its business risks successfully despite the current macro-economic market conditions.

Accordingly, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. The Directors therefore continue to adopt the going concern basis in preparing these financial statements.

Turnover

Turnover represents the value of work done during the year calculated by reference to the value of contracts closed and the movement in work in progress during the year, excluding VAT.

Amounts recoverable on contracts

Amounts recoverable on contracts represent the excess of work done including attributable profit over cumulative payments on account received. Payments on account in excess of work done are included within creditors.

Deferred tax

Deferred tax is recognised on all timing differences where the transaction or events that give rise to an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the balance sheet date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantively enacted by the balance sheet date. Deferred tax balances are not discounted.

Loss making contracts

In the event that a contract is expected to be loss making, the Company recognises a provision for the estimated future losses in full and releases the provision as losses arise.

1 Accounting policies (*continued*)

Pension costs - defined benefit scheme

The Company participates in defined benefit schemes but is unable to identify its share of the underlying assets and liabilities. It has therefore taken advantage of the provision in FRS 17 (Retirement Benefits), which allows the Company to account for them as defined contribution schemes. As a result the pension costs charged against operating profit are the contributions payable to the schemes in respect of the accounting period. Any deficits or surpluses in the schemes in which the Company participates, are disclosed in note 13 to the financial statements. The Company may be required to make contributions to, or receive the benefit of, any deficits or surpluses that may arise in these schemes over time.

Pension costs - defined contribution scheme

The pension costs charged against profit represent the amount of the contributions payable to the scheme in respect of the accounting period.

Turnover and (loss) profit on ordinary activities before tax are attributable to the principal activity of civil engineering, building works and highways maintenance. All turnover arises solely within the UK.

13 Pensions

Defined Benefit Scheme

The Company operates defined benefit pension schemes for the benefit of the employees. The assets of these schemes are administered by trustees in funds independent from the assets of the Company. The Company also provides post-retirement benefits other than pensions to the employees.

The Company pays contributions to defined benefit pension schemes where more than one employer participates and is therefore unable to identify its share of the underlying assets and liabilities of those schemes. Taking advantage of the provision in FRS 17 (Retirement Benefits), which allows the Company to account for it as a defined contribution scheme, the pension costs charged against operating profit are the contributions payable to the scheme in respect of the accounting period.

The net deficit in the schemes in which the Amey Group participates amounted to £63,786,000 at the balance sheet date (2009 – £143,550,000).
