The Directors' Report

Year ended 31 December 2011

The directors present their report and the financial statements of the company for the year ended 31 December 2011

Principal activity and business review

The principal activity of the company during the year was, and will continue to be, the provision of cable television, telephony, broadband internet and other telecommunication services as well as running some of the telecommunication services over which they are provided

The company is a wholly owned subsidiary undertaking of Virgin Media Inc. The Virgin Media group ("the group") is a leading entertainment and communications business, being a "quad play" provider of broadband internet, television, fixed line telephony and mobile telephony services that offer a variety of entertainment and communications services to residential and commercial customers throughout the UK.

As at 31 December 2011, the group provided services to approximately 4.8 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers and at 31 December 2011 provided mobile telephony services to approximately 1.5 million prepay mobile customers and approximately 1.5 million contract mobile customers over third party networks. As of 31 December 2011, approximately 64% of residential customers on the group's cable network were "triple play" customers, receiving broadband internet, television and fixed line telephony services from the group. In addition, the group provides a complete portfolio of voice, data and internet solutions to businesses, public sector organizations and service providers in the UK through Virgin Media Business.

The group believes that its advanced deep fibre access network enables it to offer faster and higher quality broadband services than its digital subscriber line, or DSL, competitors. As a result it provides its customers with a leading next generation broadband service and one of the most advanced television on-demand services available in the UK market.

On 30 September 2011 the group completed the disposition of its interest in the UKTV television channels to a subsidiary of Scripps Networks Interactive Inc. On 12 July 2010 the group sold its television channel business known as Virgin Media TV.

On 23 March 2012 the company undertook a lease and leaseback transaction with ntl CableComms Derby Leasing Limited, whereby ntl CableComms Derby Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company. Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary.

Year ended 31 December 2011

Key performance indicators (KPI's)

The company's key financial and other performance indicators for the year are considered below

	2011	2010	Comments
Turnover (£000)	18,310	18,082	Turnover has increased by 1.3% primarily due to uptake of broadband from new and existing customers, together with selective price increases, partially offset by a decline in fixed line telephony usage
Gross profit margin (%)	84.9	83.2	This increase reflects changes in the product mix including additional customers subscribing to the higher margin broadband product, partially offset by higher price discounting to stimulate customer activity
Administrative expenses (£000)	11,459	10,649	Administrative expenses have increased by 7.6% during 2011 primarily due to higher asset usage recharges allocated to the company by fellow group undertakings, partially offset by net profit on foreign currency translation of £145,000 (2010 - net loss of £272,000)

Selected statistics for residential cable customers served by the company at 31 December 2011 and 31 December 2010 are shown in the table below

	2011	2010
Products		
Television	28,300	28,900
Fixed line telephone	31,300	31,900
Broadband	32,600	32,200
Total	92,200	93,000
Total customers	37,300	37,600
Products per customer	2.47	2.47

Each television, telephone and broadband internet subscriber directly connected to the company's network counts as one product. Accordingly, a subscriber who receives both telephone and television services counts as two products. Products may include subscribers receiving some services for free or at a reduced rate in connection with promotional offers.

The company reported a decrease in net current liabilities and an increase in total assets less liabilities for the year ended 31 December 2011 as a result of normal operations. During the year, no new external finance was arranged and there was no movement in the called up equity share capital of the company. Operations were financed through the company's inter-company balances with fellow group undertakings.

Future outlook

Detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2011, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. Notes to the Financial Statements

Year ended 31 December 2011

1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

Basis of accounting

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

Fundamental accounting concept

The financial statements have been prepared on the going concern basis because the ultimate parent undertaking has given the necessary assurances that sufficient resources will be made available, so that the company can meet its liabilities as and when they fall due, for at least twelve months from the date of approval of these financial statements.

Cash flow statement

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company, Virgin Media Inc.

Turnover

Turnover represents the value of services provided, stated net of value added tax and discounts, and is attributable to continuing activities, being the provision of cable television, telephony, broadband internet and other telecommunication services and to run certain of the telecommunication systems over which they are provided, all of which is derived from operations in the United Kingdom. The directors consider this to be a single class of business.

Tangible fixed assets

Depreciation is provided on all tangible fixed assets, other than land, so as to write off the cost of a tangible fixed asset on a straight line basis over the expected useful economic life of that asset as follows:

Network assets	3 - 30 years
Other fixed assets	
- Freehold property	30 years
- Leasehold property	period of lease
- Other	3 - 12 years

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

Notes to the Financial Statements

1. Accounting policies (*continued*)

Deferred taxation

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. The resulting exchange differences are taken to the Profit and Loss Account.

Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

2 Other operating income

	2011	2010
	£000	£000
Other operating income	500	—

Other operating income represents an allocation of a VAT rebate received by the group during the year

3. Operating profit

Operating profit is stated after charging/(crediting)

	2011	2010

Loss on disposal of fixed assets	38	—

Increase in provision against amounts owed by group undertakings	—	117

The group's inter-company funding arrangements are managed centrally. Recoverability of inter-company receivables is assessed annually. The provision for non-recoverability may increase or decrease as a result of that review. The impairment review of inter-company indebtedness as at 31 December 2011 concluded that no impairment against amounts due from group undertakings is required (2010 - impairment of £117,000).

Auditor's remuneration of £2,000 (2010 - £1,000) represents costs allocated to the company by fellow group undertakings that pay all auditor's remuneration on behalf of the group.

The directors received remuneration for the year of £2,135 (2010 - £1,553) in relation to qualifying services as directors of this company, all of which was paid by Virgin Media Limited. The company had corporate directors until 30 April 2010 that received no remuneration. On 30 April 2010 new directors were appointed.

Certain expenses are specifically attributable to the company. Where costs are incurred by other group companies on behalf of the company, expenses are allocated to the company on a basis that, in the opinion of the directors, is reasonable.

4. Staff costs

The company does not have any directly employed staff but is charged an allocation of staff costs by the group. Details of staff numbers and staff costs of the group are disclosed in the group accounts of Virgin Media Finance PLC.

In addition, changes to the capital allowances regime were enacted in the Finance Act 2011, including a reduction in the rate of capital allowances on plant and machinery additions from 20% to 18% with effect from 1 April 2012. These rate changes will affect the amount of future tax payments to be made by the company. The unprovided deferred tax assets have been calculated using the enacted rates as at 31 December 2011.
