**DIRECTORS' REPORT**

The directors of Patalex II Productions Limited ("the Company") present their report and the audited financial statements for the year ended 30 September 2014.

**ACTIVITIES AND BUSINESS REVIEW**

This directors' report has been prepared in accordance with the provisions applicable to companies entitled to the small companies' exemption and therefore does not include a strategic report.

**Activity**

The principal activity of the Company continues to be the business of developing, making, producing, distributing, exhibiting (by any means now or hereafter becoming known) and otherwise exploiting cinematograph films and video and sound recordings; manufacturing, buying, selling and otherwise dealing in cinematograph films, video recordings and any material on which video or sound recordings can be made and all types of equipment capable of being used in connection with the manufacture or processing of cinematograph films or such material for the production, exhibition or playing of cinematograph films or video or sound recordings.

**Business review**

The directors are satisfied with the Company's performance in the year. The Company will be guided by its shareholders in seeking further opportunities for growth.

**FINANCIAL PERFORMANCE**

The retained profit for the year was £91,000 (2013: £591,000) and this was transferred to reserves.

**Dividends**

The directors do not recommend the payment of a dividend (2013: £nil).

**PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS**

As explained in note 1, in the year ended 30 September 2014 the Company has changed from reporting under International Financial Reporting Standards (IFRS) adopted by the European Union (EU) to Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101) as issued by the Financial Reporting Council which the Company has adopted early. This change has not had a material effect on the financial statements.

**PRINCIPAL RISKS AND UNCERTAINTIES**

The Company seeks to minimise its exposure to financial risks other than equity and credit risk.

Management focuses on both the overall balance sheet structure and the control, within prudent limits, of risk arising from mismatches, including currency, maturity, interest rate and liquidity. It is undertaken within limits and other policy parameters set by the RBS Asset and Liability Management Committee (RBS ALCO).

The Company is funded by facilities from Royal Bank Leasing Limited. These are denominated in the functional currency and carry no significant financial risk.

**Interest rate risk**

Structural interest rate risk arises where assets and liabilities have different re-pricing maturities.

The Company manages interest rate risk by monitoring the consistency in the interest rate profile of its assets and liabilities, and limiting any re-pricing mismatches - see note 12.

**DIRECTORS' REPORT (continued)****PRINCIPAL RISKS AND UNCERTAINTIES (continued)****Credit risk**

The objective of credit risk management is to enable the Company to achieve appropriate risk versus reward performance whilst maintaining credit risk exposure in line with approved appetite for the risk that customers will be unable to meet their obligations to the Company (see note 12).

The key principles of the Group's Credit Risk Management Framework are set out below:

- approval of all credit exposure is granted prior to any advance or extension of credit.
- an appropriate credit risk assessment of the customer and credit facilities is undertaken prior to approval of credit exposure. This includes a review of, amongst other things, the purpose of credit and sources of repayment, compliance with affordability tests, repayment history, capacity to repay, sensitivity to economic and market developments and risk-adjusted return.
- credit risk authority is delegated by the Board and specifically granted in writing to all individuals involved in the granting of credit approval. In exercising credit authority, the individuals act independently of any related business revenue origination.
- all credit exposures, once approved, are effectively monitored and managed and reviewed periodically against approved limits. Lower quality exposures are subject to a greater frequency of analysis and assessment.

**Liquidity risk**

Liquidity risk arises where assets and liabilities have different contractual maturities.

Management focuses on risk arising from the mismatch of maturities across the balance sheet and from undrawn commitments and other contingent obligations.

**Operational risk**

Operational risk is the risk of unexpected losses attributable to human error, systems failures, fraud or inadequate internal financial controls and procedures. The Company manages this risk, in line with the RBS Group framework, through systems and procedures to monitor transactions and positions, the documentation of transactions and periodic review by internal audit. The Company also maintains contingency facilities to support operations in the event of disasters.

**GOING CONCERN**

The directors, having a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future, have prepared the financial statements on a going concern basis.

**DIRECTORS AND SECRETARY**

The present directors and secretary, who have served throughout the year except where noted below, are listed on page 1.

From 1 October 2013 to date the following changes have taken place:

A P Gadsby	1 April 2014	-

**DIRECTORS' REPORT (continued)****DIRECTORS' RESPONSIBILITIES STATEMENT**

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare a directors' report and financial statements for each financial year. Under that law, the directors have elected to prepare the financial statements in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework, and must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs at the end of the year and the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether Financial Reporting Standard 101 has been followed; and
- make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the directors' report and financial statements comply with the requirements of the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**DISCLOSURE OF INFORMATION TO AUDITOR**

Each of the directors at the date of approval of this report confirms that:

- so far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- the director has taken all the steps that they ought to have taken to make themselves aware of any relevant audit information, and to establish that the Company's auditor is aware of that information.

This confirmation is given and shall be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

**AUDITOR**

Deloitte LLP has expressed its willingness to continue in office as auditor.

Approved by the Board of Directors and signed on its behalf

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PATALEX II PRODUCTIONS LIMITED**

We have audited the financial statements of Patalex II Productions Limited for the year ended 30 September 2014 which comprise the Profit and Loss Account, the Balance Sheet, the Statement of Changes in Equity and the related notes 1 to 15. The financial reporting framework that has been applied in their preparation is applicable law and Financial Reporting Standard 101 Reduced Disclosure Framework.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

### **Opinion on financial statements**

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 30 September 2014 and of its profit for the year then ended;
- have been properly prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements.

**INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF PATALEX II PRODUCTIONS LIMITED (continued)**

**Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the directors were not entitled to take advantage of the small companies' exemption from preparing a strategic report or in preparing the directors' report.

The accompanying notes form an integral part of these financial statements.

**NOTES TO THE FINANCIAL STATEMENTS****1. Accounting policies****a) Preparation and presentation of accounts**

These financial statements are prepared on a going concern basis and have been prepared in accordance with the recognition and measurement principles of International Financial Reporting Standards issued by the IASB and interpretations issued by the International Financial Reporting Interpretations Committee of the IASB as adopted by the EU (together IFRS) and under Financial Reporting Standard (FRS) 101 Reduced Disclosure Framework. The Company meets the definition of a qualifying entity under FRS 100 Application of Financial Reporting Requirements issued by the Financial Reporting Council.

Accordingly, in the year ended 30 September 2014 the Company has undergone transition from reporting under IFRSs adopted by the EU to FRS 101 as issued by the Financial Reporting Council which the Company has adopted early. This transition is not considered to have had a material effect on the financial statements.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to capital management, presentation of comparative information in respect of certain assets, presentation of a Cash-Flow Statement, standards not yet effective and related party transactions. Where required, equivalent disclosures are given in the group accounts of The Royal Bank of Scotland Group plc, these accounts are available to the public and can be obtained as set out in note 15.

The accounts are prepared on the historical cost basis.

The Company's financial statements are presented in Sterling which is the functional currency of the Company.

The Company is incorporated in the UK and registered in England and Wales. The Company's accounts are presented in accordance with the Companies Act 2006.

There are a number of changes to IFRS that were effective from 1 October 2013. They have had no material effect on the Company's Financial Statements for the year ended 30 September 2014.

**b) Revenue recognition**

Turnover comprises income from finance leases and loans and other services and arises in the United Kingdom from continuing activities.

Finance lease income is allocated to accounting periods so as to give a constant periodic rate of return before tax on the net investment. Unearned finance income is subject to regular review, if there is a reduction in the estimated unguaranteed residual value, income allocation is revised and any reduction in respect of amounts accrued is recognised immediately.

Interest income on financial assets that are classified as loans and receivables, available-for-sale or held-to-maturity and interest expense on financial liabilities other than those at fair value are determined using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability (or group of financial assets or liabilities) and of allocating the interest income or interest expense over the expected life of the asset or liability.

**NOTES TO THE FINANCIAL STATEMENTS (continued)****1. Accounting policies (continued)****c) Taxation**

Income tax expense or income, comprising current tax and deferred tax, is recorded in the profit and loss account except income tax on items recognised outside profit or loss which is credited or charged to other comprehensive income or to equity as appropriate.

Current tax is income tax payable or recoverable in respect of the taxable profit or loss for the year arising in income or in equity. Provision is made for current tax at rates enacted or substantively enacted at the balance sheet date.

Deferred tax is the tax expected to be payable or recoverable in respect of temporary differences between the carrying amount of an asset or liability for accounting purposes and its carrying amount for tax purposes. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered. Deferred tax is not recognised on temporary differences that arise from initial recognition of an asset or a liability in a transaction (other than a business combination) that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is calculated using tax rates expected to apply in the periods when the assets will be realised or the liabilities settled, based on tax rates and laws enacted, or substantively enacted, at the balance sheet date.

**d) Leases**

Contracts to lease assets are classified as finance leases if they transfer substantially all the risks and rewards of ownership of the asset to the customer; all other contracts with customers to lease assets are classified as operating leases.

Finance lease receivables are stated in the balance sheet at the amount of the net investment in the lease being the minimum lease payments and any unguaranteed residual value discounted at the interest rate implicit in the lease.

**e) Financial assets**

On initial recognition, financial assets are classified into held-to-maturity investments held-for-trading; designated as at fair value through profit or loss; loans and receivables; or available-for-sale financial assets.

**Loans and receivables**

Non-derivative financial assets with fixed or determinable repayments that are not quoted in an active market are classified as loans and receivables, except those that are classified as available-for-sale or as held-for-trading, or designated as at fair value through profit or loss. Loans and receivables are initially recognised at fair value plus directly related transaction costs. They are subsequently measured at amortised cost using the effective interest method less any impairment losses.

**f) Impairment of financial assets**

The Company assesses at each balance sheet date whether there is any objective evidence that a financial asset or group of financial assets classified as held-to-maturity, available-for-sale, finance leases or other loans and receivables is impaired. A financial asset or portfolio of financial assets is impaired and an impairment loss incurred if there is objective evidence that an event or events since initial recognition of the asset have adversely affected the amount or timing of future cash flows from the asset.

**g) Financial liabilities**

On initial recognition financial liabilities are classified into held-for-trading; designated as at fair value through profit or loss; or amortised cost.

Other than derivatives, which are recognised and measured at fair value, all other financial liabilities are measured at amortised cost using the effective interest method.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

## 1. Accounting policies (continued)

## h) Derecognition

A financial asset is derecognised when the contractual right to receive cash flows from the asset has expired or when it has been transferred and the transfer qualifies for derecognition.

A financial liability is removed from the balance sheet when the obligation is discharged, or cancelled, or expires.

## 2. Critical accounting policies and key sources of estimation uncertainty

The reported results of the Company are sensitive to the accounting policies, assumptions and estimates that underlie the preparation of its financial statements. UK company law and IFRS require the directors, in preparing the Company's financial statements, to select suitable accounting policies, apply them consistently and make judgements and estimates that are reasonable and prudent. In the absence of an applicable standard or interpretation, IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors', requires management to develop and apply an accounting policy that results in relevant and reliable information in the light of the requirements and guidance in IFRS dealing with similar and related issues and the IASB's Framework for the Preparation and Presentation of Financial Statements. The judgements and assumptions involved in the Company's accounting policies that are considered by the directors to be the most important to the portrayal of its financial condition are discussed below. The use of estimates, assumptions or models that differ from those adopted by the Company would affect its reported results.

## Leased assets

Judgement is required in the classification of a lease at inception and after any material amendment to assess whether substantially all the significant risks and rewards of ownership accrue to the lessor or the lessee.

## 3. Turnover

	2014 £'000	2013 £'000
Finance lease income:		
Rents receivable	2,578	2,456

## Staff costs, number of employees and directors' emoluments

All staff and directors were employed by group companies and the accounts of The Royal Bank of Scotland Group plc contain full disclosure of employee benefit expenses incurred in the period including share based payments and pensions. The Company has no employees and pays a management charge for services provided by other Group companies. The directors of the Company do not receive remuneration for specific services provided to the Company.

## NOTES TO THE FINANCIAL STATEMENTS (continued)

## 4. Operating expenses (continued)

**Management recharge**

Management charges relate to the Company's share of group resources such as the use of IT platforms, staff and a share of central resources. These are re-charged on an annual basis.

Impact of tax rate changes	-	(497)
	(433)	(914)
Tax charge/(credit) for the year	26	(468)

Where appropriate current tax consists of sums payable or receivable for group relief.

The actual tax charge/(credit) differs from the expected tax charge computed by applying the blended rate of UK corporation tax of 22% (2013: blended tax rate 23.5%) as follows:

	2014 £'000	2013 £'000
Expected tax charge	26	29
Reduction in deferred tax following change in rate of UK corporation tax	-	(497)
Actual tax charge/(credit) for the year	26	(468)

In recent years the UK Government has steadily reduced the rate of UK corporation tax, with the latest rates substantively enacted in July 2013 now standing at 21% with effect from 1 April 2014 and 20% with effect from 1 April 2015. The closing deferred tax assets and liabilities have been calculated at 20.1% in accordance with the rates enacted at the balance sheet date.

Credit to profit and loss	(428)	(5)	(433)
At 30 September 2014	3,308	14	3,322

## 12. Financial instruments and risk management

## (i) Fair value of financial instruments not carried at fair value

Except as detailed in the following table, the directors consider that the carrying amounts of financial assets and financial liabilities recognised in the financial statements approximate to their fair values. Where the financial instruments are of short maturity, the carrying value is equal to the fair value.

Where the interest rates on finance leases have been fixed by way of an interest rate swap in the parent company, the fair value has been calculated by adjusting the carrying value of the associated mark to market arising on the swap.

The fair value of the borrowings is estimated by discounting future expected cash flows using current interest rates and making adjustments for own credit risk in the current year.

All financial assets are classed as loans and receivables. All financial liabilities are classed as amortised cost.

	2014 Carrying value £'000	2014 Fair value £'000	2013 Carrying value £'000	2013 Fair value £'000

## NOTES TO THE FINANCIAL STATEMENTS (continued)

## 12. Financial instruments and risk management (continued)

## (ii) Financial risk management

The principal risks associated with the Company's businesses are as follows:

**Interest rate risk**

Structural interest rate risk arises where assets and liabilities have different re-pricing maturities.

The Company manages interest rate risk by monitoring the consistency in the interest rate profile of its assets and liabilities, and limiting any re-pricing mismatches.

Finance lease receivables may be based on fixed and/or floating rates. These are funded primarily through balances owed to group undertakings. The re-pricing maturity profile of the financial assets of the Company may be different to that of the associated borrowings and hence give potential exposure to interest rate risk.

The interest profile of the Company's assets and liabilities is as follows:

	Fixed rate £'000	Variable rate £'000	Non-interest earning £'000	Total £'000
<b>2014</b>				
<b>Financial assets</b>

Assuming that the balances receivable and/or payable at the balance sheet date were receivable and/or payable for the whole year, had interest rates been 0.5% higher and all other variables held constant, the Company's profit before tax for the year would have increased by £2,000 (2013: profit before tax for the year would have increased by £1,000). This is mainly due to the Company's exposure to interest rates on its variable rate cash balances. There would be no other impact on equity.
