This report is made solely to the company's members, as a body, in accordance with Section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

FUNDAMENTAL UNCERTAINTY - GOING CONCERN

NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
YEAR ENDED 30 JUNE 2002

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery - 20%

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

* provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold;

* deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
YEAR ENDED 30 JUNE 2002

1. ACCOUNTING POLICIES *(continued)*

Basis of preparation

The company meets its day-to-day working capital requirements through the ongoing support of its directors, trade creditors and the bank. If this support is removed, it may not be appropriate for the financial statements to be prepared on a going concern basis and as such the company's assets and liabilities may need to be restated.

The financial statements have been prepared on the going concern basis which assumes that the company will continue in operational existence for the foreseeable future.

The validity of this assumption depends on the successful conclusion of the directors managing to pay creditors and remain within its current bank overdraft facility. The financial statements do not include any adjustments that would result if negotiations were not concluded successfully.

Whilst the directors are presently uncertain as to the outcome of both matters mentioned above, they believe that it is appropriate for the financial statements to be prepared on the going concern basis.
