Notes to the Financial Statements

1. Principal accounting policies

The Company is a private limited liability company incorporated and domiciled in the United Kingdom.

(a) Statement of compliance

The Company's Financial Statements have been prepared and approved by the Directors in accordance with International Accounting Standards ('IAS') in conformity with the requirements of the Companies Act 2006.

The Financial Statements comply with the relevant provisions of Part 15 of the Companies Act 2006 and regulations made thereunder.

(b) Basis of preparation

The Financial Statements are prepared on the historical cost basis.

The Financial Statements are presented in pounds sterling, which is the currency of the Company's primary operating environment, and on a going concern basis although the Company is non-trading. The validity of the going concern basis of accounting is dependent upon the funding position of the Company.

The Directors are of the opinion that the amount owed to the Company by Bradford & Bingley Investments is fully recoverable and that therefore the Company continues to be a going concern. The Directors therefore consider it appropriate to prepare these Financial Statements on a going concern basis.

The Directors do not intend to make any change to the Company's activities and there is no intention that the Company will trade in the coming year.

The Directors consider that the accounting policies set out in this note are the most appropriate to the Company's circumstances, have been consistently applied by the Company in dealing with items which are considered material, and are supported by reasonable and prudent estimates and judgements.

The Financial Statements have been prepared in accordance with IAS in conformity with the requirements of the Companies Act 2006. A summary of accounting policies is set out below. The preparation of the Financial Statements in conformity with these accounting policies and generally accepted accounting principles requires the use of estimates and assumptions that affect the reported values of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of the amounts, event or actions, actual results ultimately may differ from those estimates.
