# 1. Introduction and circumstances giving rise to the appointment of the Joint Administrators

On 27 July 2018, the Company entered Administration and Geoffrey Paul Rowley and Jason Daniel Baker were appointed as Joint Administrators.

This document, together with its appendices, forms the Joint Administrators' statement of proposals to creditors in accordance with Paragraph 49 of Schedule B1 to the IA'86 and the Insolvency Rules. The proposals are deemed delivered two business days after they are dated.

Certain statutory information about the Company and the Administration is provided at **Appendix A**.

## **Background information regarding the Company**

The Company was incorporated on 29 August 1989 as Totas Euroservices Limited. It has since changed its name five times, the most recent change being on 31 October 2007 when the name changed from Spyker F1 Team Limited to Force India Formula One Team Limited.

The sole shareholder of the Company is OIH, a company incorporated in Luxembourg.

We understand that OIH is ultimately majority controlled by two Indian businessmen:

- Dr Vijay Mallya; and
- Subrata Roy.

The Company operated as the Sahara Force India Formula One team, competing in the FIA Formula One World Championship ("F1"). F1 is sanctioned by the FIA and owned by FOG. As at the date of appointment, the Team was in 6th place in the 2018 Formula One Constructors championship.

## Events leading to the appointment of the Joint Administrators

The Company derived its income from a number of sources including prize monies from FOG, commercial sponsorships, driver incomes and refunds from HMRC in relation to an annual research and development claim. The Company has however been loss making for a number of years with its funding shortfall met by way of capital injections from its shareholder. Accumulated losses to 31 December 2016 were £275 million which reduced to £270 million as at 31 December 2017 following a profit of £5.4 million in that financial year. As at 31 December 2017 the Company had net liabilities of £31 million.

In November 2017, OIH became the subject of a freezing order obtained by a group of Indian banks who had obtained judgement for \$1.45 billion against Dr Mallya. The freezing order included the shares of the Company owned by OIH.

From discussions with the Company's senior management team we understand the Company has experienced cash flow problems for an extended period of time and has been reliant upon goodwill of suppliers often requiring for payment plans to be entered into to assist cash flow.

In 2018 the Company was also in receipt of two loans from BWT, its main sponsor, of £757,000 and €535,000 to assist with its cash flow. FOG also supported with early payment of prize monies to support the Company's cash flow.

During 2017 and 2018 a number of key creditors had not been paid for a significant period of time. This included Mercedes, who provided engines, gearboxes and lubricants for the cars, who were owed £13.7 million at the date of the appointment and Brockstone, who represents one of the Team's drivers Sergio Perez. On 23 May 2018, Brockstone served a statutory demand on the Company for payment of the sum of USD 4,011,651. That demand remained unpaid.

On 5 June 2018, HMRC issued a winding up petition against the Company in relation to the non-payment of PAYE/NIC. The hearing for this was due to take place on 25

# 1. Introduction and circumstances giving rise to the appointment of the Joint Administrators

July 2018. The petition debt was paid; however, Formtech with a debt in the sum of £2.3 million supported the petition and therefore it could not be withdrawn.

The Team's principal sponsor BWT terminated its contract with the Company on 1 July 2018.

On 20 July 2018 Brockstone made an application to the Court for the Company to be placed into Administration.

On 25 July 2018, Santander Bank became aware of the winding up petition and froze the Company's Bank accounts.

A hearing took place at the High Court in London on 27 July 2018. Following representations to the Court from parties including Brockstone, BWT, Formtech, Mercedes, FOG and the Company, an order was made for the appointment of Geoffrey Rowley and Jason Baker as Joint Administrators.

## Joint Administrators Prior Professional Relationship

FRP was instructed by the Company on 30 May 2018 to provide advice on the following matters:

- the short term cashflow forecast for the Company and its funding requirements;
- the practicalities of running an administration of the Company in the context of F1;
- a proposed time-to-pay agreement with HMRC (which was ultimately not successful);
- 4. the impact of a winding-up petition issued by HMRC against the Company;
- the Company's relationship with its primary sponsor, BWT;
- the progress of discussions between the Company and FOG; and
- the progress of discussions concerning a potential sale of the underlying business and assets of the Company as a going concern to three interested parties, each of whom appeared to be sufficiently credible and able to support the Company's future operations within the F1.

Force India Formula One Team Limited (In Administration)
The Joint Administrators' Proposals

### The objective of the administration

Until 15 August 2018, the Joint Administrators, considered that a rescue of the Company as a going concern in accordance with paragraph 3(1)(a) of Schedule B1 to the IA '86, was reasonably achievable.

For the reasons set out below, during the course of that day, it transpired that objective (a) was no longer achievable. At that point, the purpose of the administration switched to the objective set out in paragraph 3(1)(b) of Schedule B1 to the IA '86 i.e. seeking to achieve a better result for the Company's creditors as a whole than would be likely if the Company had been wound-up (without first being in administration).

### The Joint Administrators' actions

Full details of work already undertaken is set out in the schedule of work attached at **Appendix C.** 

For the sake of completeness, a narrative of my actions, decisions and rationale is included below.

### On Appointment

The Administration order was made at 8.06pm on Friday 27 July 2018. The Team was due to race in Hungary during the course of the upcoming weekend. Immediately following the appointment, the FIA and FOG were contacted to ensure that the Team could compete in the race. In addition, we sought assurances that appropriate insurances remained in place. Following confirmations from the FIA and FOG the Team raced in Hungary on 29 July 2018.

Cash available in the Company's Bank account on appointment totalled £240k. This was insufficient to meet immediate costs, such as the outstanding wages for July 2018 of some £2.2 million (gross). During the course of the weekend the Joint

Administrators sought to ensure that there were sufficient funds in place to allow for options to be assessed. A £5m unsecured loan was obtained from BWT.

On 30 July 2018, we attended the Company's principal site in Silverstone to speak to staff and explain the position. The net July wages totalling £1.3m were paid as normal on 1 August 2018 as a consequence of the loan from BWT.

#### Trading

The Joint Administrators took control of the trading aspects of the business. Following payment of the wages, an assessment was carried out in relation to expected trading costs during the course of August. It was estimated that there was a funding requirement of £9.6millon for August to include the July and August salaries, ongoing car build costs, shut down maintenance costs as well as preparatory costs for the forthcoming races at Spa and Monza. No meaningful income was forecast to be received in August.

As part of our assessment of the trading positon, we sought to determine which suppliers needed to be paid on an urgent basis to maintain operations as well as liaising with suppliers generally and resolving Retention of Title queries.

## Regulatory framework and key stakeholders

Following appointment, immediate discussions where held with the FIA, FOG and Mercedes. The FIA are the regulator for the Formula One World Championship with FOG being the commercial rights holder for participation in the sport. As indicated previously, Mercedes provide the engines, gearboxes and lubricants for the Team's cars. It was evident that without the support of these key parties, a going concern resolution would not be possible.

The purpose of discussions was to understand the effect of the appointment and also the possible options that would be open to the Joint Administrators in the event of a return to solvency or a sale of the business and assets. In both scenarios' discussions

were held in relation to trying to establish the availability of future prize monies given the underlying contracts between the Company, FOG and the FIA.

#### Asset Valuation

We instructed Lambert Smith Hampton to prepare a valuation in respect of the Company's freehold and leasehold property. Gordon Brothers were also instructed to value the other physical assets including the cars. A summary of the valuations (pre costs of realisation) are below:

| 8,102,472 | 17,985,472 8,102,472 | Total                                            |

### Interested parties and sale process

We were aware of a number of interested parties who had been in dialogue with either OIH as the shareholder to purchase the Company, or with the Company to purchase its underlying business and assets prior to my appointment. Once the Administration Order had been granted we engaged with numerous interested parties, receiving in excess of 20 expressions of interest. The opportunity to acquire the Team received significant exposure through the worldwide media.

Force India Formula One Team Limited (In Administration)
The Joint Administrators' Proposals

The sale process was managed through an online dataroom with non-disclosure agreements being required to be signed before the release of information. Substantive discussions and correspondence were had with interested parties to explain the expected procedures to either rescue the Company or acquire its underlying business and assets. Key discussions included the challenges that existed in taking the Team forward both financially and in relation to key contractual relationships.

In addition to a potential sale of the business and assets we were also aware that a number of interested parties were in discussions with the shareholder prior to the appointment, for the potential rescue of the Company.

In dealing with the interested parties we concluded that it was necessary to reach a swift resolution of the Company's position in light of a number of important matters including:

- a forecast minimum expenditure for August of some £9.6 million with no meaningful forecast income;
- a limited asset base to absorb the trading losses that were being incurred;
- key members of staff, who we concluded were one of the most valuable assets, being the subject of offers of employment from other teams competing in F1.

We therefore asked that all interested parties submit their proposals for either the rescue of the Company or the purchase of the underlying business and assets by 5pm on Friday 3 August 2018. Various offers were received including more than one party advising they had reached terms with OIH to acquire the shares of the Company to then deliver a rescue and return the Company to solvency. Offers were also received to purchase the business and assets in a number of different forms.

Given there was more than one party advising the Joint Administrators that they had agreed terms with OIH to purchase the shares of the Company and with the offers for the purchase of the business and assets having been received in various formats,

the Joint Administrators decided to revert to all parties and ask for revised bids to be submitted on a best and final basis by 4pm on Monday 6 August 2018.

For parties wishing to rescue the Company as a going concern we asked that proof be provided of binding terms having been reached with OIH for the acquisition of the shares of the Company. We confirmed that completion of the acquisition of the shares of the Company could be conditional on consent being obtained from the Indian Banks to them releasing the shares from the freezing order held over the shares. We also sought confirmation that sufficient funding would be injected into the Company to restore solvency both in relation to current liabilities as well as sufficient funding for a minimum of 12 months following the conclusion of the Administration.

Following the deadline on Monday 6 August 2018 we were in receipt of 5 proposals. Only one of the bids was on the basis of a rescue of the Company as a going concern. This proposal provided proof of a transaction with OIH (with the consideration being held by the solicitors acting for OIH). All of the other bids were to purchase the business and assets of the Company.

The proposal to rescue the Company as a going concern was received from Racing Point being an entity formed to acquire the Company backed by a number of investors including Lawrence Stroll, Andre Desmarais, Jonathan Dudman John Idol, John McCaw Jr, Michael de Picciotto and Silas Chou. Importantly, the Racing Point proposal to rescue the Company also included a fall back offer to acquire the business and assets of the Company for £90 million in the event that the acquisition of the shares from OIH could not be completed within a specified time.

## Rescue of the Company vs Sale of Business and Assets

In conducting the administration of a company, Administrators must perform his or her functions with the hierarchy of objectives set out in Paragraph 3 of Schedule B1 of the IA'86 as follows:

The Administrator of a Company must perform his functions with the objective of

- (a) rescuing the company as a going concern, or
- (b) achieving a better result for the company's creditors as a whole than would be likely if the company were wound up (without first being in administration), or(c) realising property in order to make a distribution to one or more secured or
- (c) realising property in order to make a distribution to one or more secured or preferential creditors.

With Racing Point having made a proposal to rescue the Company in accordance with Para 3(1)(a) a careful assessment was undertaken in conjunction with our lawyers Mishcon de Reya LLP together with Leading and Junior Counsel as to whether the Racing Point proposal to rescue the Company was reasonably achievable.

The Joint Administrators had evidence of terms having been agreed between Racing Point and OIH (completion to be subject to the consent of the Indian Banks varying the terms of the freezing order or a court order). The Joint Administrators were satisfied that Racing Point was willing and able to provide sufficient funding to restore and maintain the solvency of the Company as was required to achieve purpose (a).

A significant consideration for the Joint Administrators in deciding to accept Racing Point's offer was that even if objective (a) subsequently fell away (because, for example the consent of the Indian Banks was not, in the event, obtained within the time stipulated) and objective (b) had to be pursued, it was anticipated that all creditors would be paid in full.

Terms were then agreed with Racing Point for an exclusivity agreement prior to a transaction being completed. The exclusivity agreement provided that should consent to the completion of the acquisition of the shares of the Company not have been

achieved by close of business on Tuesday 14 August 2018 then the parties would proceed with a business and asset transaction.

In entering into the exclusivity agreement consideration was given to the ongoing position of the Company incurring a significant trading loss, there being a limited physical asset base and the risk of the loss of key staff.

Racing Point provided a £15 million loan to the Company to enable the ongoing payment of costs including the time critical development of the 2019 racing car. This was unsecured and was to rank *pari passu* with unsecured creditors in respect of repayment. This enabled BWT to be repaid their loan of £5 million.

On the basis of the agreement for Racing Point to acquire the shares of the Company and to then restore solvency, we liaised with all stakeholders with a view to making an application to Court to end the Administration. Other interested parties were thanked for their interest on 7 August 2018 and advised that a rescue of the Company was proceeding.

Following completion of the exclusivity agreement significant work was undertaken to prepare the application to Court with supporting witness statements and evidence necessary to cause for the Administration order to be discharged. This included liaison with Leading Counsel and Mishcon de Reya together with producing a report on the estimated future funding necessary to restore solvency (both with and without the benefit of prize monies from FOG).

The Joint Administrators and advisors were in contact with the solicitors acting for OIH as well as the solicitors acting for the Indian Banks. Significant efforts were made to seek to ensure that the application to discharge the Administration order would be heard no later than Friday 17 August 2018 having regard to all staff returning from the summer break on Monday 20 August 2018 and the next race taking place in Spa over the weekend of 24-26 August 2018.

The FIA, FOG and Mercedes were apprised of developments as matters progressed.

Over the next few days matters were finalised by the Joint Administrators and their advisors to make the necessary applications to court for the proposed exit from Administration, with continuous ongoing discussions between all stakeholders.

### Sale of the business and assets

Despite ongoing discussions between the various parties to allow for Racing Point to complete its acquisition of the shares of the Company, by 14 August 2018 the required consents of the Indian Banks had not been obtained and nor had a court order been obtained.

On 15 August 2018 Racing Point advised of their intention to proceed with a purchase of the Company's business and assets for £90m as provided for in the exclusivity agreement of 7 August 2018.

It was clear to the Joint Administrators on 15 August 2018, that a rescue would not now be achieved within the requisite timescale. Having taken detailed legal advice, the Joint Administrators proceeded to an asset sale. In reaching their decision the Joint Administrators took into account the importance of retaining key staff, and the fact that staff were shortly to return from their summer holidays, with the upcoming race in Belgium due to take place a few days after their return.

The Joint Administrators took a commercial decision that a swift sale was, therefore, necessary, in particular to avoid the risk of a significant loss in value of the business and assets.

On 16 August 2018 a sale of the Company's business and assets was completed for a consideration of £90 million which was received in full at completion. The sale agreement also provided for Racing Point to meet certain additional employee liabilities for pension contribution arrears (there being 3 months) as well as all of the August salaries. This represents additional consideration of approximately £2 million that would otherwise have been a preferential creditor (pension arrears) or an administration expense (accrued August salaries to completion).

### Post-sale matters

Following the sale we worked closely with the FIA and FOG to assist in ensuring that the new team met the necessary obligations to race. These matters were finalised on 23 August 2018, just prior to the formalities of the Belgian Grand Prix.

#### **Legal Claims**

Since my appointment I have been made aware of a number of significant preappointment legal claims against the Company. These principally relate to sponsorship arrangements and commission payments. It is my understanding that the Company lacked the financial resources to meet the legal costs necessary to defend these claims in an appropriate manner leading up to Administration. The Company's lawyers do however consider the claims for commission to be without merit and accordingly it will be necessary to defend such claims.

The claims may be summarised as follows:

Party A - a claim of approximately £10 million as commission for introducing a sponsor. This claim is presently scheduled for trial in July 2019 and we shall be working with the Company's lawyers ahead of the matter either being settled or proceeding to trial.

Party B – a claim of approximately £8 million as commission for introducing a sponsor

We have also received a claim since our appointment for approximately £3 million in relation to introducing an interested party to acquire the Company (which did not occur). We are liaising with our solicitors to establish the merits of this claim.

BWT have also advised they consider they have a material claim for damages arising from the termination of their sponsorship agreement.

The Company also has at least one potential claim against a third party relating to cancelled sponsorship. The quantum has been advised as being in excess of £5 million Force India Formula One Team Limited (In Administration)

The Joint Administrators' Proposals

and we are now working with the Company's lawyers and Leading Counsel ahead of a claim being issued for recovery of monies owing.

#### 엄

Lawyers acting for OIH have notified the Joint Administrators that they consider their client to be a creditor of the Company in the sum of £159 million. Amounts advanced by OIH have been recorded as capital within the Company's statutory accounts since at least 2008. The Joint Administrators have received legal advice that OIH is not a creditor for the sums claimed. The advice received is that OIH is a debtor of the Company for a sum of at least £4.2 million. At present the Company has reserved its position against OIH for the recovery of these monies given the potential outcome of there being a surplus available for OIH as the shareholder.

### **Receipts and Payments Account**

A copy of the Joint Administrators' receipts and payment account to date is attached as **Appendix B**.

As stated above, initial funding was provided by BWT totalling £5 million. This was repaid on receipt of £15 million from Racing Point. Costs discharged to-date principally relate to salary related payments for July 2018 and immediate trading costs to enable the Team to compete at up-coming races.

In addition, the Administration has provided support to Racing Point to enable critical payments to be made immediately post sale. This has only been done on the basis that funds were provided in advance of payments by Racing Point until they were able to set-up new bank accounts.

### The directors' Statement of Affairs

The directors of the Company have been asked to submit a Statement of Affairs under paragraph 47 of Schedule B1 of the IA'86. To date no statement has been provided. Details of the financial position of the Company at the latest practical date prior to

Administration and prepared from information available to the Joint Administrators is provided at **Appendix F**. As and when the directors' Statement of Affairs is received it will be filed with the Registrar of Companies.

### Matters requiring investigation

We are required as part of our duties to establish what assets the Company owns and to consider the way in which the Company's business has been conducted, and we are required under the provisions of the Company Directors Disqualification Act 1986 to report to the Secretary of State for Business Energy and Industrial Strategy on the conduct of the directors. If you have any information or concerns regarding the way in which the Company's business has been conducted or have information regarding potential recoveries for the estate, please contact the Joint Administrators as soon as possible.

We shall be reviewing the pre-appointment transactions of the Company in view of our statutory obligations to recover any assets dispersed or determine whether there have been any breaches in the officers fiduciary obligations.

### The end of the administration

The Administration will end automatically after twelve months from the date of appointment of the Joint Administrators. This period can be extended with consent of the creditors for up to twelve months or longer by application to the Court as required.

If the Joint Administrators think the Company has no property which might permit a distribution to its unsecured creditors, or if they also consider that an exit from the Administration into Liquidation is not appropriate they will send a notice to the Registrar of Companies in accordance with Paragraph 84 of Schedule B1 to the IA'86 to bring the Administration to an end and three months after the filing of the notice the Company will be deemed to be dissolved.

If the Joint Administrators are of the view that a dividend will become available to the unsecured creditors (other than by virtue of the prescribed part) it is appropriate for the Company to move from Administration into CVL pursuant to Paragraph 83 of Schedule B1 to the IA'86. If applicable the Joint Administrators will take steps to place the Company into CVL.

Should a dividend not become available to the unsecured creditors but it is still appropriate for the Company to enter Liquidation, the Joint Administrators will petition the Court pursuant to Paragraph 79 of Schedule B1 to the IA'86 for an order to bring the Administration to an end with a consequential order for the compulsory winding up of the Company.

Pursuant to Paragraph 83 of Schedule B1 to the IA'86, should the creditors not nominate a Liquidator, the proposed Liquidators in a CVL are to be the Joint Administrators or any successor office holders. Any act to be done by the Liquidators may be done by all or any one of them. Pursuant to Paragraph 83(7)(a) of Schedule B1 to the IA'86 and the Insolvency Rules, creditors may nominate a different person as the proposed liquidator, provided that the nomination is made after the receipt of these proposals and before these proposals are approved.

The Joint Liquidators in a compulsory winding up will be appointed by the Court and may be the Administrators, or any successor office holders.

If the Joint Administrators are of the view that it is appropriate for the creditors to consider the approval of a CVA the proposed supervisors are to be the Joint Administrators or any successor office holders. Creditors may nominate different supervisors when considering whether to approve the CVA proposals.

## Decision of creditors by correspondence

The Joint Administrators are required to seek a decision from the Company's creditors under Paragraph 51 of Schedule B1 to the IA'86 on the following matters:

- Approval of the Joint Administrators' Proposals, with or without modifications;
- The appointment of a creditors' committee

with the Insolvency Rules The decision is being sought by means of voting by correspondence, in accordance

the determination of the creditors' committee: If, as a result of the vote, a creditors' committee is appointed, the following will require

# 3. The Joint Administrators' remuneration, disbursements and pre-administration costs

### Joint Administrators' remuneration

A schedule of the work to be undertaken during the Administration is set out at **Appendix C** together with an estimated outcome statement which includes an estimate of the expenses likely to be incurred by the Joint Administrators. Assumptions made in preparing the summary of work, estimated expenses and the fees estimate where a time cost resolution is proposed are set out in the schedule of work.

The Joint Administrators' remuneration will be drawn from the Company's assets and it is proposed that it will be charged as a set amount. Further details of how this will be calculated is set out below. The basis of the Joint Administrators' remuneration has not yet been approved by creditors, and the Joint Administrators have accordingly not drawn any remuneration in this case.

Should the Company subsequently be placed into Liquidation and the Joint Administrators appointed as Joint Liquidators, the basis agreed for the drawing of the Joint Administrators' remuneration will also be that utilised in determining the basis of the Joint Liquidators' remuneration, in accordance with the Insolvency Rules.

The Joint Administrators' remuneration will be charged in three elements, which are explained below:

Remuneration charged by reference to the time incurred in attending to matters arising

It is proposed that time incurred in dealing with investigations and creditors (to include the disputed creditor legal claims) against the Company is charged by reference to time incurred. This is set out on the fee estimate attached at **Appendix C**. The rationale for this is principally based on the uncertainty in the time that is required to deal with the required investigations and the legal claims and will ensure that they are dealt with appropriately. The time charged is based on computerised records capturing time charged by myself and my staff in dealing with the conduct of those

aspects of the case being charged on a time cost basis and I proposed these are presently capped at £500,200. Matters dealt with during the assignment are dealt with by different members of staff depending on the level of complexity and the experience required. Time is charged to the case in units of six minutes. Charge-out rates are based on individual expertise, qualification and grade. The costs of the firm's support staff are not directly charged to the estate unless dealing with directly identifiable case specific matters.

Charge out rates are reviewed at least annually, details of FRP's charge out rates are included at **Appendix C**.

Remuneration charged on a percentage of successful claims

It is proposed that the Joint Administrators' remuneration for dealing with legal claims brought by the Company against third parties be fixed at 15% of gross realisations from successful claims. The percentage realisations will ensure the remuneration is determined by successful outcomes.

Remuneration charged as a set amount

All other elements of the Joint Administrators remuneration is proposed to be charged as a fixed fee in respect of the general and remaining categories of work set out in the schedule of work attached at **Appendix D.** This will be set at 2.25% of the £90 million achieved for the business assets being £2,025,000 and drawn from the sale proceeds only.

We shall be requesting the approval this part of the remuneration on a set basis will give certainty to creditors over the sum to be charged, reduces the administrative burden to provide detailed time recording information to creditors and represents a fair and reasonable reflection of the work already carried out, the successful outcome achieved from the sale of the business and assets and the work to be undertaken by the Joint Administrators.

# 3. The Joint Administrators' remuneration, disbursements and pre-administration costs

### Joint Administrators' disbursements

The Joint Administrators' disbursements are a recharge of actual costs incurred by the Joint Administrators on behalf of the Company. Mileage payments made for expenses relating to the use of private vehicles for business travel, which is directly attributable to the administration of the Company, are paid by FRP at the HMRC approved mileage rate. It is proposed mileage is recharged and drawn at the HMRC approved mileage rate prevailing at the time the mileage was incurred.

## Pre-administration costs charged or incurred by the Joint Administrators

Attached at **Appendix D** is a statement of pre-administration costs charged or incurred by the Joint Administrators. I am seeking to obtain approval from creditors for the payment of this amount and a stand-alone separate resolution is included on the proxy form attached.

## Creditors' ability to challenge the Joint Administrators' remuneration and expenses

Creditors have a right to request further information from the Joint Administrators and further have a right to challenge the Joint Administrators' remuneration and other expenses under the Insolvency Rules following receipt of a progress report. Further details of these rights can be found in the Creditors' Guide to Fees which you can access by using the following link <a href="https://creditors.frpadvisory.com/info.aspx">https://creditors.frpadvisory.com/info.aspx</a> and select the one for administrations. Alternatively a hard copy of the relevant guide will be sent to you on request.

## 4. Estimated outcome for the creditors

### Estimated Outcome Statement

We attach at **Appendix C** an estimated outcome statement which has been prepared from the information provided by the Company's senior management team, advice received in connection with the value of the Company's assets, estimated sums due to creditors and an estimate of our remuneration and other expenses that may be incurred during the course of this administration. The assumptions made in preparing the estimated outcome statement details are set out in the schedule of work.

Based on the information available to date and the assumptions made I set out below the anticipated the outcome for creditors.

### **Outcome for Secured Creditor**

There are no secured creditors registered at Companies House.

### **Outcome for Preferential Creditors**

Employees were paid their July 2018 salaries by the Joint Administrators from funds the Joint Administrators were holding. Following the sale of the business and assets all employees were transferred under TUPE (Transfer of Undertakings (Protection of Employment) (Amendment) Regulations 2014) to Racing Point. Any outstanding claims for unpaid pensions contributions, arrears of notice and unpaid holiday pay will be paid by Racing Point. Therefore I do not anticipate any preferential claims.

### **Outcome for Unsecured Creditors**

Based on the assumptions made in the estimated outcome statement it is currently estimated that there will be sufficient funds available to pay all creditors in full. This is also on the assumed basis that we do not become aware of any other creditors and the various legal claims against the Company are unsuccessful in accordance with the legal advice the Joint Administrators have received to date. This distribution will be paid following the Company being placed into liquidation. Should all creditors be paid in full, there will be a distribution to OIH as the shareholder.

Force India Formula One Team Limited (In Administration)
The Joint Administrators' Proposals

We attach at Appendix C an estimated outcome statement.

#### Prescribed Part

The prescribed part is a carve out of funds available to the holder of a floating charge which is set aside for the unsecured creditors in accordance with Section 176A of the Insolvency Act 1986. The prescribed part only applies where the floating charge was created after 15 September 2003 and the net property available to the floating charge holder exceeds £10,000.

A prescribed part is not appropriate because there is no floating charge and all creditors will be paid in any event

## Cash at Bank/Funds on Account

Liaised with BWT to provide a loan of £5 million to immediately pay the July 2018 employee salaries and essential Administration trading payments to suppliers.

Ensure all pre bank accounts are closed, and any balance of funds remitted.

Cash at Bank/Funds on Account

Liaised with Company's previous bankers, Santander to unfreeze bank accounts to allow funds to be deposited to allow employee salaries to be paid. To remit the balance of funds to the Administrators from bank accounts. Once funds received from Santander, requested Company bank accounts to be frozen, cancel all direct debits, standing orders and credit cards and remit funds to the Administration estate.

Requested copies of bank statements to trace the movement of monies and location of assets.

### Solvency Review

At the outset of the Administration the Administrators commenced a review of the Company's cash flows for the remainder of FY18 and for FY19 to establish the funding requirement to enable the solvent rescue of the Company.

The Administrators sensitised management's forecast cash flows to estimate the funding requirement in the events of possible loss of prize money and/or sponsorship income, as well as other additional costs. A report was prepared on the basis creditors would be repaid in full, is inclusive of the costs and expenses of the Administration and proposed funding lines.

### Sale/Rescue of Business

Explored different options to rescue of the business and a sale of the business and assets. Discussed with legal advisors and interested parties

### Solvency Review

No further work to be carried out.

### Sale/Rescue of Business

Provide assistance to Racing Point under further assistance clause of the contract.

## **DISBURSEMENT POLICY**

Disbursements are expenses met by and reimbursed to an office holder in connection with an insolvency appointment.

There are two types of disbursements; direct disbursements (known as Category 1) and indirect disbursements (known as Category 2)

## Category 1 disbursements:

items as case advertising, storage, bonding, searches, insurance. These are payments to independent third parties where there is specific expenditure directly referable to the appointment in question, these include but are not limited to such

Category 1 disbursements can be drawn without prior approval

## Category 2 disbursements

charge category 2 disbursements. These are expenses that are directly referable to the appointment in question but not to a payment to an independent third party. With the exception of mileage FRP do not

Mileage payments made for expenses relating to the use of private vehicles for business travel, which is directly attributable to the insolvency estate, are paid by FRP at the HMRC approved mileage rate prevailing at the time the mileage was incurred, at the time of this report this is 45p per mile.

Category 2 disbursements require prior approval in the same manner as an office holder's remuneration.
