1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

Going concern

The financial statements are prepared on the basis that the company will continue in operational existence for the foreseeable future. This means, in particular, that the Profit and Loss Account and Balance Sheet assume no intention or necessity to liquidate or curtail significantly the scale of the operation. The financial statements have been prepared on this basis given the continuing financial support of the directors and the company's bank.

Goodwill

Purchased goodwill is amortised in equal instalments over its useful economic life, which is estimated to be four years.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives:

Buildings	Between 5 and 99 years
Cold store	5% straight line
Motor vehicles	Between 20% and 25% straight line
Plant, equipment, fixtures and fittings	Between 10% and 33 1/3% straight line

Stocks

Stock is valued at the lower of cost and net realisable value.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.
