#### 1 ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements, except as noted below

- The amendment to FRS 17 'Retirement Benefits' is not relevant to this company as it is exempt from disclosing its share of the underlying assets and liabilities of the DB scheme in accordance with FRS17
- FRS 20 (IFRS 2) Group and Treasury Share Transactions has been adopted

The following new and amendment to standards are not yet effective

- Amendment to FRS 20 (IFRS 2) vesting conditions and cancellations

#### Basis of preparation

These financial statements have been prepared in accordance with the Companies Act 2006, UK applicable Accounting Standards and applicable Statements of Recommended Practice. The particular accounting policies are described below

#### (a) CONVENTION

These financial statements are prepared in accordance with the historical cost convention

### (b) INTEREST INCOME AND EXPENSE

Interest income and expense is accounted for on an accrual basis

## (c) TURNOVER AND INCOME RECOGNITION

Turnover represents management fees, commissions and other income receivable, exclusive of Value Added Taxation Income has been recognised where services have been provided

### (d) COST OF SALES

Cost of sales represent placement fees, which are recognised on an accruals basis

## (e) TANGIBLE FIXED ASSETS

Tangible fixed assets are depreciated under the straight line method so as to write off their cost over the shorter of their estimated useful lives or, where appropriate, remaining lease periods. Furniture, fittings and equipment are depreciated over an estimated useful economic life of three years.

## (f) FIXED ASSET INVESTMENTS

Fixed asset investments are held at cost less provision for any permanent diminution in value. Any such provision is charged to the profit and loss account in the period in which it arises

The Company is exempt from the obligation to prepare group accounts under s400 of Companies Act 2006. The Company's accounts are included in the consolidated financial statements of Deutsche Bank AG.

## (g) TAXATION

The charge for taxation is based on profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS19

The recoverability of the Deferred Tax Asset is dependent on future taxable profits in excess of those arising from the reversal of the Deferred Tax Liability

### (h) CASH FLOW STATEMENT

The Company is exempt from the requirement to prepare a cash flow statement under Financial Reporting Standard 1 (Revised 1996) as it is a wholly owned subsidiary undertaking of a company which prepares consolidated financial statements which are publicly available

## (i) PENSION SCHEMES

Directors and employees of the Company are members of group defined benefit contribution schemes operated by DB Group Services (UK) Limited, details of which are disclosed in the financial statements of that company

### (i) PENSION SCHEMES (continued)

The expected cost of pensions payable under the group's funded defined benefit schemes, and of other unfunded postretirement benefits, is charged to the Company by the Principal Employer and is recognised in the Profit and Loss Account so as to spread this cost over the service lives of employees in schemes. Variations from the regular cost are spread over the expected remaining service lives of current employees in the schemes and are included in the recharge to the Company. The costs are assessed in accordance with the advice of qualified actuaries, the last formal actuarial valuation was carried out at 31 December 2009 for pensions and 31 December 2009 for other post-retirement benefits.

The Company is unable to identify its share of the underlying assets and liabilities of the schemes and information regarding any surplus/deficit of the scheme is not currently available as of 31 December 2009 and as such adopts the FRS 17 exemption for the accounting of actuarial gains and losses which are borne by the Principal Employer—Further details of the schemes as required by FRS17 are disclosed in the statutory financial statements of DB Group Services (UK) Limited

The Company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the Company in an independently administered fund. The amount charged to the profit and loss account represents the contributions payable to the scheme in respect of the accounting penod.

#### (i) FOREIGN EXCHANGE

Transactions in foreign currencies are translated into Pounds Sterling at the dates of transactions. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the rates ruling at that date. These translation differences are dealt with in the profit and loss account.

# (k) SHARE-BASED COMPENSATION

The cost of awards to employees that take the form of shares are recognised over the period of the employees' related performance. The schemes are classified as being equity settled

Payments are accounted for in equity at fair value on the grant date with a corresponding charge in profit and loss over the vesting period of the award. The recharge of the related expense from the Parent company offsets the charge within equity

### (I) GOING CONCERN

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

### Share-Based Compensation Plans Used For Granting New Awards in 2008 and 2009

#### Restricted Equity Units Plan

Under the restricted Equity Units Plan, the Company grants various employees deferred share awards as retention incentive which provides the right to receive common shares of the Group at specific future dates. The expense related as Restricted Equity Units awarded is recognized on a straight-line basis over the requisite service periods, which is generally four to five years.

The Company also grants the same group of employees exceptional awards as a component of the Restricted Equity Units as an additional retention incentive that is forfeited if the participant terminates employment prior to the end of the vesting period. Compensation expense for these awards is recognized on a straight-line basis over the requisite service period.

## DB Share Scheme

Under the DB Share Scheme, the Company grants various employees deferred share awards which provide the right to receive common shares of the Group at a specified future date. Compensation expense for the awards granted in relation to annual bonuses was recognized in the applicable performance year as part of the compensation earned for that year until performance year 2004.

From performance years 2005 and onwards, awards under this plan are granted as retention incentive only. Awards granted as retention incentive are expensed on a straight-line basis over the vesting period, which is generally three years. The award vests either in multiple tranches (graded vesting) or on a specific date (cliff vesting) and are share settled and are issued as both off-cycle and as part of the annual bonus round.

### 15 SHARE BASED COMPENSATION (continued)

### DB Global Share Plan

The DB Global Share Plan is an all-employee program which awards eligible employees ten shares of the Group's common shares as part of their annual compensation. A participant must have been working for the DB Group for at least one year and have had an active employment contract in order to participate. The number of shares to part-time employees and those in various categories of extended leave was on a pro-rata basis. Compensation expense related to the DB Global Share Plan is recognized on a straight line basis over the requisite service period of one year from the date of grant. Awards vest on November 1 of the year following the grant and are forfeited if the participant terminates employment prior to vesting.

### **DB Equity Plan**

The DB Equity Plan is a scheme established in 2007, which awards eligible employees the right to receive common shares of the DB Group at specified future dates. The expense related to the DB Equity Plan is recognized on a straight-line basis over the requisite service period. The awards vests either in multiple tranches (graded vesting) or at one date (cliff vesting). In cases where the award has a graded vesting schedule, each vesting portion is amortized separately on a straight-line basis over the requisite service period.

Plan rules for the DB Equity Plan allow in specified cases for early retirement before the award vests. Expense recognition is accelerated for awards granted to staff who are or become eligible for early retirement according to the defined criteria of the plan.

### Compensation Expense

Expense related to share awards is recognized on a straight-line basis over the requisite service period. The service period usually begins on the grant date of the award and ends when the award is no longer subject to plan-specific forfeiture provisions. Awards are forfeited if a participant terminates employment under certain circumstances. The accrual is based on the number of instruments expected to vest. The entity recognized compensation expense related to its significant share-based compensation plans, described above, as follows.

In £	<u>2009</u>	<u>2008</u>

DB Share Scheme / Restricted Equity Units Plan	1,006,883	711,263

As of 31 December 2009, unrecognized compensation costs related to non-vested share-based compensation was £565,138 (2008 £1,240,990), which is expected to be recognized over an average period of approximately 0 6 years (2008 1 3 years)

## Recognised Amortisation expense for Univested Stock Compensation Awards

This balance is based on the grant date value and is therefore at fixed values and represents that part of the ultimate commitment to its employee that has already been amortised.
