### 1 ACCOUNTING POLICIES

#### BASIS OF ACCOUNTING

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### GOING CONCERN

The accounts have been prepared on a going concern basis. Having carried out a detailed review of the company's resources, the directors are confident that the company has sufficient cash flows to meet its liabilities as they fall due for at least one year from the date of approval of the accounts.

#### FIXED ASSET INVESTMENTS

All fixed asset investments are initially recorded at cost.

#### DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

#### FINANCIAL INSTRUMENTS

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
