- select suitable accounting policies and apply them consistently,

Notes to the financial statements

28 June 2009

1 Principal accounting policies

Basis of preparation

The financial statements have been prepared under the historical cost convention and in accordance with United Kingdom Generally Accepted Accounting Principles

The financial statements of the Company are made up to the Sunday closest to the 30 June each year. Consequently, the financial statements for the current period cover 52 weeks ended 28 June 2009

In preparing the financial statements for the current year, the Company has noted the amendment to FRS 8 'Related Party Disclosures' which became mandatory for all accounting periods beginning on 6 April 2008. However, this does not have an effect on the Company because, as a wholly owned subsidiary undertaking of News Corporation whose financial statements are publicly available, the Company has taken advantage of the exemption in FRS 8 'Related Party Disclosures' not to disclose transactions with other members of the group headed by News Corporation.

The principal accounting policies have been applied consistently throughout the year and the preceding year.

Consolidated financial statements

Under Section 400 of the Companies Act 2006 the Company is exempt from the requirement to prepare group financial statements since it is a wholly owned subsidiary of Newscorp Investments which prepares consolidated financial statements which are publicly available.

Cash flow statement

The Company is exempt from the requirement of FRS 1 'Cash Flow Statements' to include a cash flow statement as part of its financial statements because it is a wholly owned subsidiary undertaking of News Corporation which prepares consolidated financial statements which are publicly available, in which a consolidated cash flow statement is included.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Investments

Investments are recorded at cost and adjusted for any impairment provisions. When an impairment has been identified it is reflected in the profit and loss.
