Checklist

We may return forms completed incorrectly or with information missing.

Please make sure you have remembered the following:

- ☐ The company name and number match the information held on the public Register.
- ☐ You have attached the required documents.
- ☐ You have signed and dated the form.

Important information

All information on this form will appear on the public record.

Where to send

You may return this form to any Companies House address, however for expediency we advise you to return it to the address below:

The Registrar of Companies, Companies House,
Crown Way, Cardiff, Wales, CF14 3UZ.
DX 33050 Cardiff.

Further information

For further information please see the guidance notes on the website at www.gov.uk/companieshouse or email enquiries@companieshouse.gov.uk

Unsecured Creditors	Creditors who are neither secured nor preferential

This report has been prepared by Rachael Maria Wilkinson and Robert Nicholas Lewis as joint administrators of the Companies, solely to comply with their statutory duty to report to creditors under IR16 on the administration, and for no other purpose. It is not suitable to be relied upon by any other person, or for any other purpose, or in any other context.

This report has not been prepared in contemplation of it being used, and it is not suitable to be used, to inform any investment decision in relation to the debt of or any financial investment in the Companies.

Any estimated outcomes for creditors included in this report are illustrative only and cannot be relied upon as guidance as to the actual outcome for creditors.

Any persons choosing to rely on this report for any purpose or in any context other than under IR16 do so at their own risk. To the fullest extent permitted by law, the Joint Administrators do not assume any liability in respect of this report to any such person.

Unless stated otherwise, all amounts in this report and appendices are stated net of VAT.

Rachael Maria Wilkinson and Robert Nicholas Lewis have been appointed as joint administrators of the Companies to manage their affairs, business and property as their agents and act without personal liability. Both are licensed in the United Kingdom to act as insolvency practitioners by the Institute of Chartered Accountants in England and Wales. The Joint Administrators are bound by the Insolvency Code of Ethics which can be found at: <https://www.gov.uk/government/publications/insolvency-practitioner-code-of-ethics>

The Joint Administrators may act as controllers of personal data as defined by UK data protection law depending upon the specific processing activities undertaken. PricewaterhouseCoopers LLP may act as a processor on the instructions of the Joint Administrators. Personal data will be kept secure and processed only for matters relating to the Joint Administrators' appointment. Further details are available in the privacy statement on the PwC.co.uk website or by contacting the Joint Administrators.

PricewaterhouseCoopers LLP is a limited liability partnership registered in England with registered number OC303525. The registered office of PricewaterhouseCoopers LLP is 1 Embankment Place, London WC2N 6RH. PricewaterhouseCoopers LLP is authorised and regulated by the Financial Conduct Authority for designated investment business.

Why we've prepared this document

On 3 September 2020, the Companies went into administration and Rob Lewis and I were appointed as joint administrators.

We tell you in this document why the Companies were put into administration. We give you a brief history and set out our proposals for achieving the purpose of the administrations. We include details of the Companies' assets and liabilities, and say how likely we are to be able to pay each of the classes of creditor.

According to IA86, the purpose of an administration is to achieve one of these objectives:

1. Rescuing the company as a going concern, or if that is not possible or if (b) would achieve a better result for the creditors than (a)
2. Achieving a better result for the company's creditors as a whole than would be likely if the company were wound up (without first being in administration), or finally, if that is not possible
3. Realising the company's assets to pay a dividend to secured or preferential creditors.

In this case, we're following objective (b) as it was not reasonably practical to rescue the Companies as a going concern and/or achieve a better result for creditors than would be likely if the Companies were wound up (without first being in administration).

Our job is to manage the Companies until creditors agree our proposals for achieving the purpose of the administrations and we've implemented them so far as possible. After that the administrations will end.

The whole of this document and its appendices form our statement of proposals for achieving the purpose of the administrations.

For certain of the Companies, we are seeking decisions of the creditors. We summarise these below.

Company	Decision procedure	Decision 1	Decision 2	Decision 3
HBL	Deemed consent	The approval of our proposals for achieving the purpose of administration	That a creditors' committee should not be formed	If as proposed, creditors don't form a committee, the timing of our discharge from liability
NFFP	Deemed consent	The approval of our proposals for achieving the purpose of administration	That a creditors' committee should not be formed	If as proposed, creditors don't form a committee, the timing of our discharge from liability
NARS	Deemed approval	Not applicable	Not applicable	Not applicable
MVR	Deemed approval	Not applicable	Not applicable	Not applicable
NCRC	Deemed approval	Not applicable	Not applicable	Not applicable
NSN	Deemed approval	Not applicable	Not applicable	Not applicable
JCC	Deemed approval	Not applicable	Not applicable	Not applicable
JCCG	Deemed approval	Not applicable	Not applicable	Not applicable
SARC	Deemed approval	Not applicable	Not applicable	Not applicable

If you are a creditor of HBL or NFFP, please see the attached decision notices.

In respect of NARS, NCRC, MVR, NSN, JCC, JCCG or SARC, we're not seeking a decision from the creditors to approve our proposals because we think those companies don't have enough assets to pay a dividend to unsecured creditors (other than from the prescribed part fund in certain cases). So, our proposals for these seven companies will be treated as approved unless enough creditors ask us to seek a decision to approve them. This would happen if at least 10% in value of the company's total creditors ask us to do so (in line with Rule 15.18 IR16) within eight business days of the date we deliver the proposals to you.

If you've got any questions, please get in touch by emailing us at uk_nationwide_suppliers@pwc.com.

Signed.....

Joint administrator of the Companies

At a glance

Pre-pack sale of substantially all of the business and assets

Following our appointment as joint administrators of the Companies on 3 September 2020, we completed the immediate sale of substantially all of the Companies' business and assets to the Purchaser. The sale resulted in the majority of employees transferring to the Purchaser (with the associated reduction in preferential and unsecured claims), along with a six month licence to occupy being granted for 76 of the Companies' leasehold sites.

Additional realisations are expected from assets that were excluded from the sale, including cash at bank, business rates refunds, some book debts and one freehold property.

Secured creditor

The Group was funded by Investec Bank Plc and Barclays Bank Plc. Their lending to the Companies as at the date of administration was approximately c.£31.7m. Please note this does not include HBL and NFFP who do not have any secured debt.

We expect the secured creditors to recover up to 85% of their lending prior to deferred consideration (as explained later). A full recovery may be achieved should the contingency be satisfied and the deferred consideration be paid in full.

Preferential creditors

All of the Companies' employees were previously employed by NCRC and 2,364 have been transferred to the Purchaser under TUPE. Unfortunately, 530 roles were made redundant as 30 of the sites have been closed.

There will be employee related preferential claims in NCRC and MVR. We expect to be able to pay these in full and within the next six to nine months.

We are not anticipating any employee related preferential claims in any of the other Companies.

Unsecured creditors

We expect to pay dividends to unsecured creditors in some of the Companies, via prescribed part funds only. In the table below we set out our current expectations on the dividend prospects to unsecured creditors of these Companies. Unfortunately we do not expect there will be a dividend to unsecured creditors (from the prescribed part or otherwise) in JCC, JCCG or SARC.

Company	Estimated value of net property £	Estimated prescribed part £	Expected dividend %
NCRC	8,656,3408	600,000	less than 1%
MVR	380,183	80,000	less than 1%
NARS	51,384	14,000	less than 1%
NSN	452,567	95,000	Up to 5%

A small dividend might be available to unsecured creditors of HBL and NFFP in relation to a surplus from assets not subject to any form of security.

We are unable to confirm the timing of any dividends at this early stage, but it is prudent to assume that it may take up to 12 months for the administrations to be in a position to distribute the funds.

In line with the standard format for the directors' statement of affairs, the above estimates do not include the costs of realising the Companies' assets or other expenses of the administration. Furthermore, we have not yet received a Statement of Affairs from the Companies' director showing the level of the Companies' liabilities. Therefore, the above estimates are based on initial information from the Companies' records. Until we have received and adjudicated all unsecured creditor claims and confirmed the costs of doing so, we are unable to give a reliable estimate of the net amount available to distribute and the dividend that will be paid. Please note that this guidance is only an indication and should not be used as the main basis for any bad debt provision.

Our work in the administration

Whilst we have completed the sale of a large part of the Companies' business and assets, there remains a significant amount of work to do in the administrations. In broad terms, this is expected to include:

- Working with the Purchaser on post-sale matters connected to the orderly transfer of business, including the collection of assets acquired but currently located at closed sites;
- Managing claims for retention of title, including making an objective assessment of their validity and liaising with the Purchaser in respect of stock counts;
- Return of personal tools and effects belonging to employees made redundant;
- Arranging for the return of third party assets, predominantly courtesy cars;
- Liaising with the Redundancy Payments Service in respect of redundant employee claims;
- Liaising with various agencies, including Jobcentre Plus in respect of support for redundant employees;
- Responding to queries from redundant employees;
- Collecting licence fees from the Purchaser and making ongoing payments of rent (and associated costs) for the period of ongoing property occupation;
- Collecting rent in respect of properties which are sublet;
- Assisting the Purchaser in the assignment of property leases;
- Connecting parties interested in either acquiring the Companies' interest in non-transferring leases or taking on occupation of those sites through liaison with landlords to reduce landlord claims and handing back properties to landlords;
- Monitoring debtor collections and agreeing debt collection commission with the Purchaser;
- Selling the remaining freehold property;
- Requesting and reviewing financial information to be provided by the Purchaser in respect of deferred consideration;
- Fulfilling our statutory duties as joint administrators, including responsibility for the Companies' VAT and tax affairs; and
- Winding down the Companies' affairs generally with a view to their dissolution in due course.

In just over six months' time, we will update creditors on the progress of the administrations, including the above matters.

Actions required by you

Creditors of HBL and NFFP

Due to the potential for a dividend to be available to unsecured creditors, we are inviting creditors to submit their claims to us. We will shortly be providing guidance on how to submit a claim via an online creditors portal. Our preferred method for creditors to submit claims and supporting documents is via the Turnkey (IPS) online portal, as this is the most efficient and cost effective way for us to deal with your claim and also allows you to better track its status, so we recommend the use of the online portal for claim submission. Your unique login details will be sent to you separately.

We are seeking approval of our proposals and other resolutions by way of a decision by deemed consent. The notices seeking deemed consent are attached in Appendix E and contain information relating to the decisions being sought and how creditors can object to the decision. In Appendix F, we have answered some of the common questions which arise in respect of decisions by deemed consent.

If you are happy with the proposed decisions you don't need to take any further action unless you wish to nominate a member of the committee should one be formed.

Creditors of NARS, NCRC, MVR, NSN, JCC, JCCG or SARC

As the only dividends to unsecured creditors of the above seven companies likely to be available are by virtue of the prescribed part funds, it is not necessary for us to seek a decision of creditors to approve these proposals. Instead they will be deemed approved unless sufficient creditors say otherwise, in the manner described earlier.

However, due to the potential for dividends to be available to unsecured creditors of certain of these companies, we are inviting creditors to submit their claims to us. We will shortly be providing guidance on how to submit a claim via an online creditors portal. Our preferred method for creditors to submit claims and supporting documents is via the Turnkey (IPS) online portal, as this is the most efficient and cost effective way for us to deal with your claim and also allows you to better track its status, so we recommend the use of the online portal for claim submission. Your unique login details will be sent to you separately.

The above is a brief summary of the key information for creditors based on what we know so far. Please continue to read the rest of this document. Further information on the administrations can be found online at www.pwc.co.uk/nationwide.

Brief history of the Companies and why they are in administration

We've enclosed at Appendix C, the information required to be provided to you by SIP16. Some of that information is repeated below where beneficial or necessary to do so for the purpose of these proposals.

Background

Nationwide Accident Services Limited and its subsidiaries were the largest multiple-shop owner ("MSO") collision repair company in the UK. The main trading activity comprises the provision of automotive repair services to commercial customers (including insurance providers and car leasing corporates). Group operations were within the UK, with its head office located in Witney, Oxfordshire.

The Group employed 2,899 people. It operated from c.110 sites, which are a mixture of short leasehold, long leasehold and freehold properties.

The Group generated revenues of c.£300m in FY19 with an EBITDA of c.£8.6m and a loss before tax of c.£20.2m. This loss was a result of exceptional items through site closures and associated redundancy payments, alongside interest payment on loan notes.

Due to their prominence in the automotive repair and solutions industry, the Group claims the highest number of manufacturer approvals in the UK and are approved by many of the UK's leading insurance and fleets companies. This includes large customers such as RSA, Admiral, Allianz, Direct Line, Hertz, Redde Northgate and Zurich.

The Group had experienced a downturn in its market through reduced volumes from some of its biggest customers (RSA, Co-op, Admiral, LV) alongside the implications of lower road traffic through Covid-19.

The Group was funded by Investec Bank Plc and Barclays Bank Plc who jointly provided £61.7m of available debt, split between three core facilities: a £31.7m facility, £15m acquisition / capex facility and a £15m overdraft facility.

Further details on the background are provided at Appendix C.

The circumstances leading to our appointment

The Group first engaged PwC to provide stakeholder advice. PwC supported the Group in its discussion with the Pension Trustees and the Lenders. This phase of work was followed by a more comprehensive options analysis report and a larger scope of work performed on reports covering short-term cash flow, contingency planning, an estimated outcome statement and an addendum to the existing options analysis. This was performed in conjunction with ongoing stakeholder support.

The Group had a forecast cash requirement, which the Lenders were not willing to fund. In addition, the Group was in breach of banking covenants. The shareholder was unwilling to put in additional equity to the current capital structure. Furthermore, the Group had explored the possibility of a restructure of the pension liabilities however, the Pensions Regulator and Pension Protection Fund had indicated a substantial payment would be required which the shareholder was not willing to fund. The Lenders' were, for several months, looking to reduce their exposure and discussions had been ongoing but no formal agreement was reached.

In response to the mounting financial pressures and outcomes of advisory findings, the Group instructed Stephens Europe to seek a buyer for the trading businesses of the Group on an accelerated sale basis commencing in June 2020.

The offers received through this sale process were on a trade and assets basis and therefore it was clear that one or more insolvencies would be required to achieve a sale.

On 3 September 2020, the directors made an application to court to appoint administrators and the application was granted in respect of the Companies and Rachael Wilkinson and Rob Lewis were appointed as administrators on that date. Following their appointment, the administrators immediately concluded the sale to the Purchaser.

For the reasons explained throughout this document, the director and the Administrators concluded that a pre-packaged sale of the business and assets of the Companies provided the optimum outcome for creditors and stakeholders. In particular, this was on the basis that:

- The offers which maximised returns to creditors were made on the basis of the transaction being executed via a pre-packaged administration;
- During the sale process, a large customer (8% of revenue) withdrew work from the Group and the Group's biggest customer indicated that they may do the same if a transaction was delayed. Should the Group have lost its biggest customer (c45% of revenue), the interested parties would likely have fallen away or significantly reduced the price they were willing to pay;
- Both the secured creditors supported the transaction; and
- The sale resulted in the transfer of 2,364 employees thereby reducing preferential creditor and unsecured claims.

Pre-administration costs

As detailed above, PwC's initial role was the provision of stakeholder advice, followed by a review of short-term cash flow requirements and options. This work was carried out under an engagement letter with NARS dated 7 February 2020 and then amendment letters dated 16 April 2020 and 27 May 2020. When it became clear that the insolvency of the Companies was inevitable, PwC additionally worked with the Companies' director and legal advisers in preparing for administration.

In Appendix B, we provide further detail on the work this included, which in summary related to preparations for the administration appointments and performing all necessary work to be able to complete the sale.

At the date of our appointment as joint administrators, the unpaid pre-administration costs were as shown below:

Firm	Services	Amount Unpaid £
PwC	Administrators-in-waiting*	313,444
Mayer Brown	Sale and purchase agreement and appointment documents	588,650
Counsel	Court hearing for the administrations	25,000
Burston Cook	Valuation fee	2,160
Total		929,254

**The Administrators will not be seeking to draw unpaid pre-appointment costs in full. We estimate we will request approval for £110,000 only.*

All these figures are exclusive of VAT and in Appendix B we set out how they are divided across the various Companies. These costs were all incurred with a view to the Companies entering administration.

By its nature, a pre-pack transaction involves the performance of work in the period prior to the appointment of administrators, with the sale completing shortly after the appointment. We think that PwC's role in preparing and planning for the administration appointments makes a significant contribution to achieving the purpose of the administrations because it progressed interest from potential buyers and ultimately enabled a pre-pack sale to be achieved. As we outline in this document, we think this represents the best outcome for creditors. We set out at Appendix C alternative options to this approach and the likely result of these. Following the sale being agreed, our work ensured the Companies entered administration in an orderly manner, with minimal disruption to the Companies' business.

To the best of our knowledge and belief, no fees or expenses were charged by any other insolvency practitioner.

The payment of unpaid pre-administration costs as an expense of the administration is subject to approval under Rule 3.52 IR16 and doesn't form part of our proposals, which are subject to approval under Paragraph 53 Sch B1 IA86. If you elect a creditors' committee, it will be up to the committee to give this approval under Rule 3.52 IR16.

But if there's no committee, it will be for the relevant class(es) of creditors to give such approval, as determined by the circumstances of each case. The approving body for each of the Companies is shown later as it is the same body that approves our remuneration as joint administrators.

What we've done so far and what's next if our proposals are approved

Management and financing of the Companies' affairs and business

Sale of business and assets

A sale of the business and assets to the Purchaser was completed on 3 September 2020, immediately following our appointment as joint administrators. The consideration for the sale was £10.6m and the amount attributable to each entity is shown in Appendix C.

As required by SIP16, a detailed narrative explanation and justification of why a pre-packaged sale was undertaken and alternatives considered, is also enclosed at Appendix C. A summary of the transaction is as follows:

- A pre-pack transaction was completed with the Purchaser to purchase the substantially all of the Companies' business and assets for an effective consideration of £10.6m.
- Up to a further £5m of deferred consideration is payable in 12 months time. The deferred consideration is contingent upon certain financial metrics being achieved.
- 2,364 employees have transferred to the Purchaser, significantly reducing employee related claims in the administrations.
- Similarly, the anticipated transfer of up to 76 leasehold properties to the Purchaser is expected to mitigate unsecured claims from landlords.
- Additional realisations are expected from the assets excluded from the sale, specifically cash at bank, business rates refunds, on freehold property and some book debts.
- The sale to the Purchaser enables the statutory purpose of the administrations to be achieved. It represented the best offer received and so provided the best available outcome for creditors as a whole in the circumstances.

Please also see Appendix C for an explanation of the alternative options considered and why they were not considered to be viable or would have resulted in a worse outcome for creditors as a whole.

As noted earlier, whilst we have completed the sale of a large part of the Companies' business and assets, there remains a significant amount of work to do in the administrations. We explain in more detail below, certain of the key areas of work.

Leasehold properties

The Companies traded from, in total, 110 properties in the UK. A number of sites were made up of two or more separate leasehold properties and as described below some sites were a combination of leasehold and freehold.

The majority of the leases were held by NCRC but six were held by other Group companies. On appointment, licences to occupy in respect of 76 sites were granted to the Purchaser.

We will be providing reasonable assistance to the Purchaser following the transaction with regards to an assignment or surrender of the leases. In the meantime, our intention is to collect licence fees and pay ongoing rent from the date of appointment, in arrears and apportioned based on periods of occupation. We have written to landlords to provide details of ongoing arrangements. In the meantime, landlords can contact us at uk_nationwide_landlords@pwc.com.

Freehold properties

The Companies owned 11 freehold / long leasehold properties. Three of these related to sites which were a combination of freehold and short leasehold to make up the entire trading site. In addition, one site was a combination of freehold and long leasehold.

Four properties were sold to the Purchaser immediately. The Purchaser has also paid a 10% deposit on a further five and will pay the remainder once landlord consent has been obtained on the connected leasehold. The remaining two relate to one site which is part freehold and part long leasehold. This property was not part of the sale and will be marketed and sold separately by the Administrators.

Assets excluded from the sale

A number of assets were specifically excluded for the sale to the Purchaser. These include the following:

- Cash at bank;
- Insurance policies and the benefit of any claims;
- Certain leasehold properties which are in the process of being returned to their landlords;
- Book debt realisations;
- Stock subject to retention of title (ROT) and we have invited any potential claimants to contact us; and
- One freehold / long leasehold site.

During the course of the administration and in our periodic reports to creditors, we will provide an update on the realisation of these assets.

Employees

The pre-pack sale of the business has preserved the jobs of 2,364 people who have transferred to the Purchaser under TUPE. As it was not possible to achieve a sale of the business in its entirety and due to the challenging economic situation of the Group, regrettably 530 employees were made redundant immediately on appointment. The redundancies were communicated to employees via webexes on 4 September 2020 due to the late timing of the appointment and that many of the impacted employees were furloughed or working from home due to Covid-19. Where employees were on site they were spoken to individually.

An email followed in the afternoon of 4 September 2020 to the impacted employees in order to confirm the position and provide support in relation to how to make a claim to the RPS for arrears of wages, holiday pay accrued and not taken, statutory notice and statutory redundancy pay.

We immediately contacted the Jobcentre Plus to make them aware of the redundancies. We have provided the Job Centre Plus with anonymised postcode information for the impacted employees so that they can provide local regional support. In order to help employees understand the redundancy support that is available to them in their area, we also sent impacted employees a virtual support presentation prepared by the Jobcentre Plus.

A website has been set-up at www.pwc.co.uk/nationwide, and contains (within the employee section) a number of frequently asked questions and answers that have been published to support employees affected by this situation. These FAQ's also include links to various documents provided by agencies who may be able to provide support and possible new opportunities to employees.

For example, the Administrators were approached by the CEO of Autoraise, a charity whose purpose is to help the vehicle repair industry recruit and support young apprentices to help solve the industry's skills crisis. We then reached out to redundant employees who undertook apprentice roles to make them aware of the support offered.

We have been working closely with the payroll and HR team of the Companies to understand the amounts owed to redundant employees and pre-appointment leavers. We are also liaising with the RPS in relation to the amounts that redundant employees are entitled to claim.

We have set-up an employee mailbox in order to respond to queries from redundant employees. As at 9 September 2020, we had responded to 511 emails from employees.

Four employees have been retained for a short period in order to support the Administrators to return all fleet vehicles, by liaising with fleet providers to ensure an orderly return of their property. One employee was retained in order to coordinate the clearing of the sites, including the return of employees' personal property. The Administrators will work with these individuals and provide the necessary support and ensure they are paid for the work that they provide during the administration.

Connected party transactions

In accordance with SIP13, we are required to disclose any known connected party transactions that occurred in the period following our appointment or any proposed connected party transactions. The Purchaser is not considered to be a connected party for the purposes of SIP13 and so there are no such transactions requiring disclosure.

Directors' conduct and investigations

One of our duties is to look at the actions of anybody who has been a director of the Companies in the three years before our appointment. We have to submit our findings to BEIS within three months of our appointment.

We also have to decide whether any action should be taken against anyone to recover or contribute to the Companies' assets. If you think there is something we should know about and you haven't yet told us, please provide us the details in writing. This is part of our normal work and doesn't necessarily imply any criticism of the directors' actions.

Statutory work we still need to do

In addition to the work set out above, other key areas of work will be as follows:

- We must comply with all relevant legislation and regulations arising as a result of the insolvency of the Companies and our appointments as joint administrators. These typically include periodic reports to creditors, obtaining approval for our remuneration and internal controls to ensure the administration strategy continues to be appropriate and outstanding matters are being progressed on a timely basis.
- During the course of the administration, we will be winding down the Companies' affairs, including responsibility for VAT and tax matters.

Objective of the administration

As explained earlier, we are pursuing objective (b) for all of the Companies, as it was not possible to rescue these Companies as a going concern.

The sale of the business and assets of the Companies has achieved a better outcome for creditors resulting from maximising the value of assets, minimising the costs of realising those assets (and costs of the administrations generally) and reducing the level of creditor claims against the Companies.

The outcome for the secured creditors is expected to have been maximised by virtue of the pre-pack sale and realisation of other assets subject to their security. Preferential creditors are expected to be significantly reduced as a result of the transfer of employees to the Purchaser, but will be paid in full in any event.

Unsecured creditors are expected to receive a dividend in certain cases, which would likely have been reduced or unavailable in other scenarios.

We'll continue to manage and finance the Companies' business, property and affairs from assets realisations. We may also investigate and, if appropriate, pursue any claims the Companies may have. We'll also do anything else we think appropriate, to achieve the purpose of the administrations or to protect and preserve the Companies' assets or to maximise realisations or for any other purpose incidental to these proposals.

Estimated outcome for creditors

Secured creditors

In our SIP16 report in Appendix C, we provide details of the security granted by the Companies to the secured creditor. The Group was funded by Investec Bank Plc and Barclays Bank Plc. Their lending to the Companies as at the date of administration was approximately c.£31.7m.

In broad terms, the Lenders will make recoveries under their security entitlements from:

- cash at bank on appointment subject to set-off (c£15m);
- the sale of the Companies business and assets (after ring-fencing funds for other creditors and expenses of the administrations);
- future book debt realisations;
- the sale of the freehold property; and
- any deferred consideration.

As noted earlier, we expect the secured creditors to recover up to 85% of their lending prior to deferred consideration. A full recovery may be achieved should the contingency be satisfied and the deferred consideration be paid in full.

Preferential creditors (mainly employees)

We expect preferential claims to arise in NCRC and MVR; and we expect these to be paid in full based on what we know currently. It is prudent to assume that any dividend to the preferential creditors will be in six to nine months' time, as the timing is largely dependent on the RPS processing the statutory element of employees' claims first.

Unsecured creditors

In an administration, amounts become available for creditors potentially from three sources: (1) any Prescribed Part fund; (2) any surplus remaining after secured debts have been paid in full; and (3) any uncharged assets. In this case, there are no uncharged assets in any of the Companies.

The Prescribed Part is a fund that has to be made available for unsecured creditors. It's paid out of 'net property'. Net property is floating charge realisations after costs, and after paying – or setting aside enough to pay – preferential creditors in full. But it only has to be made available where the floating charge was created on or after 15 September 2003. The Prescribed Part applies in this case, apart from in HBL and NFFP, as there is a floating charge created on or after 15 September 2003.

The amount of the Prescribed Part is:

- 50% of net property up to £10,000
- 20% of net property above £10,000
- Subject to a maximum of £600,000

We think there will be a Prescribed Part dividend for the unsecured creditors of NCRC, MVR, NARS and NSN, based on what we currently know. We also think there may be a small dividend to the unsecured creditors of HBL and NFFP where there are no secured creditors, however this depends on the final costs of the administration. Our estimates were set out earlier in this report.

Unfortunately we do not expect there will be a dividend to unsecured creditors (from the Prescribed Part or otherwise) in JCC, JCCG or SARC.

Our estimates should be viewed with a degree of caution because of the uncertain final level of claims from unsecured creditors. The level of costs incurred in agreeing claims, declaring and paying dividends will also be a factor.

If we think the costs of agreeing claims and paying a Prescribed Part dividend will be disproportionate to the benefits, we can apply for a court order not to pay the Prescribed Part to unsecured creditors. At the moment we don't plan to make such an application.

Prescribed Part dividends can be paid by administrators without consent of the court. However, the other dividends that may potentially arise in NFFP and HBL would need to be paid by a subsequently appointed liquidator unless the court authorises the Administrators to do so. We will consider the most appropriate course of action once the outcome becomes clearer. If a dividend is likely, we may choose to agree the claims in principle prior to any move into liquidation.

It is prudent to assume that dividends may take up to 12 months to distribute, particularly in companies that hold property interests, as it may take some time to receive and adjudicate the claims from landlords.

Creditors' committee

In relation to HBL and NFFP, as we're seeking the approval of these proposals using a 'deemed consent' decision procedure, we are required to give creditors the opportunity to establish a creditors committee. However, as these two companies had minimal assets and which have been sold to the Purchaser, we do not believe a committee would be necessary or beneficial in these cases.

Therefore we're seeking the agreement of the creditors (of HBL and NFFP) that a creditors' committee should not be formed in those cases. We are not aware of any creditor who has expressed an interest in the establishment (or being a member of) any committee. However, please see this link for a guide to creditors' committees:

<https://www.r3.org.uk/technical-library/england-wales/technical-guidance/creditor-guides/more/29111/page/1/liquidation-creditors-committees-and-commissioners/>

With regards to the remaining seven companies, there is currently no requirement to give creditors the opportunity to establish a committee.

Our fees and disbursements

We intend to propose that our fees should be fixed at £1.2m for dealing with the administrations of the Companies.

This doesn't include the costs of making the Prescribed Part distributions (including the cost of agreeing creditor claims) or remaining in office beyond the statutory period of one year, which we intend to propose should be payable as either a fixed fee or based on the time we and our staff spend on this matter at our normal charge out rates for this type of work (a time cost basis).

Similarly, any costs associated with extending (and thereafter dealing with) the licence to occupy are also excluded from the above fixed fee. We may propose that these costs are also fixed on a time cost basis or linked to the amount charged to the Purchaser (or other third party) by the relevant companies for the ongoing assistance provided.

We also intend to propose that disbursements for services provided by our firm (defined as Category 2 disbursements in SIP 9) are charged as per our firm's policy.

It will be up to the creditors' committee to fix the basis of our fees and Category 2 disbursements. But if there's no committee, it will be for the following classes of creditors to do so instead:

Company	Fee approving body
NCRC	Secured creditors and preferential creditors
NARS	Secured creditors and preferential creditors
MVR	Secured creditors only
NSN	Secured creditors only
Seward	Secured creditors only
JCC	Secured creditors only

Nationwide Accident Repair Services Limited, Mobile Vehicle Repairs Limited, Nationwide Crash Repair Centres Limited, Network Services (Nationwide) Limited, Nationwide Fast Fit Plus Limited, Just Car Clinics Limited, Just Car Clinics Group Limited, Seward Accident Repair Centres Limited and Howard Basford Limited – all in administration

JCCG	Secured creditors only
HBL	Unsecured creditors
NFFP	Unsecured creditors

If the relevant class(es) of creditors or the committee do not fix the basis of our fees and Category 2 disbursements, we may apply to the court to fix them no later than 18 months after the date of our appointment.

However, before the basis of our fees can be approved, we must provide all creditors with the following:

1. Details of the work we have done and propose to do (much of which has been included in this report);
2. Details of the expenses we expect to incur, and
3. If any element of our remuneration is to be paid on a time cost basis, an estimate of the hours likely to be incurred and the hourly rates for that work (a fees estimate).

We will circulate a further report containing this information shortly.

Ending the administrations

Our exit route will depend on the outcome of the administrations. At the moment we think that the most likely exit route is as set out below.

We think there will be funds to pay a dividend for unsecured creditors from the Prescribed Part for NCRC, NARS, NSN and MVR. Assuming that's the case, once we've paid any Prescribed Part dividend and finished our other work, we'll file notices with the Registrar of Companies and the Companies will be dissolved three months later. But if we think that there are matters that should be conducted or investigated in a liquidation rather than in the administration, for one or more company, we may instead apply for a court order ending the administration and for the company to be wound up.

In the Companies where no dividends are available to unsecured creditors (by the Prescribed Part or otherwise), when our work is completed it is likely that we'll file notices with the Registrar of Companies and the Companies will be dissolved three months later.

In the event that a dividend in addition to the Prescribed Part becomes available or in respect of any dividends in HBL and NFFP, once we've finished our work we may apply to the court for permission to pay any surplus funds to unsecured creditors. If this is granted, we'll end the administration by filing a notice with the Registrar of Companies and the company will be dissolved three months later.

If we don't get permission (or choose not to apply to court) we'll put the company into a CVL, or comply with the terms of any court order if different. If the company goes into CVL, we propose that Rachael Maria Wilkinson and Robert Nicholas Lewis are appointed as joint liquidators (or, if replacement administrator(s) are appointed, any person(s) appointed as administrator(s) at the time of the registration of notice of moving from administration to creditors' voluntary liquidation per Paragraph 83(4) Sch B1 IA86) and that any act required or authorised to be done by the joint liquidators, can be done by any or all of them.

Creditors may, before these proposals are approved, nominate a different person or persons as liquidator(s), in accordance with Paragraph 83(7)(a) of Sch B1 IA86 and Rule 3.60(6) IR16.

If necessary to achieve the objective of the administrations and complete our work, we may seek an extension to the period for one or more of the administrations (beyond the statutory period of one year), by consent of the appropriate class of creditor – most likely to be same class as the fee approving body – or by an order of the court.

We'll be discharged from liability in respect of any of our actions as joint administrators at a time set by consent of the appropriate class of creditors, or by an order of the Court. In relation to HBL and NFFP, we are seeking a decision on this matter with these proposals.

Please note that the administrations may be concluded at different times, depending on when we complete our work as administrators of each company.

Estimated financial position

The director of the Companies has not yet given us a statement of affairs for the Companies. This is because we have issued these proposals as soon as reasonably practicable and the director is still in the process of preparing the statements. A copy of the statements will be filed at Companies House in due course.

Pending submission of the directors' statements of affairs, we set out at Appendix D the estimated financial position of each of the Companies as at 3 September 2020.

As required by law, this includes details of the creditors' names, addresses and debts, including details of any security held, to the best of our knowledge at this time.

Administrators' names and addresses:	<p>Rachael Maria Wilkinson of PricewaterhouseCoopers LLP, 3 Forbury Place, 23 Forbury Road, Reading, RG1 3JH</p> <p>Robert Nicholas Lewis of PricewaterhouseCoopers LLP, 7 More London, Riverside, London, SE1 2RT</p>
Appointer's/applicant's name and address:	An order of the court following an application by the director of the Companies
Objective being pursued by the Administrators:	<p>Objective (b) - achieving a better result for the Companies creditors as a whole than would be likely if the Companies were wound up (without first being in administration).</p> <p>If our investigations into the affairs of the Companies, including a review of the director's statement of affairs, conclude that objective (b) is not appropriate in the circumstances, then we will arrange for the administration to be concluded and our appointment to cease to have effect at the earliest opportunity.</p>
Division of the Administrators' responsibilities:	In relation to Paragraph 100(2) Sch B1 IA86, during the period for which the administration is in force, any function to be exercised by the persons appointed to act as Administrators may be done by any or all of the persons appointed or any of the persons for the time being holding that office
Regulation (EU) 2015/848 of the European Parliament and of the Council of 20 May 2015 on Insolvency Proceedings (recast) :	The Regulation applies to this administration and the proceedings are main proceedings.

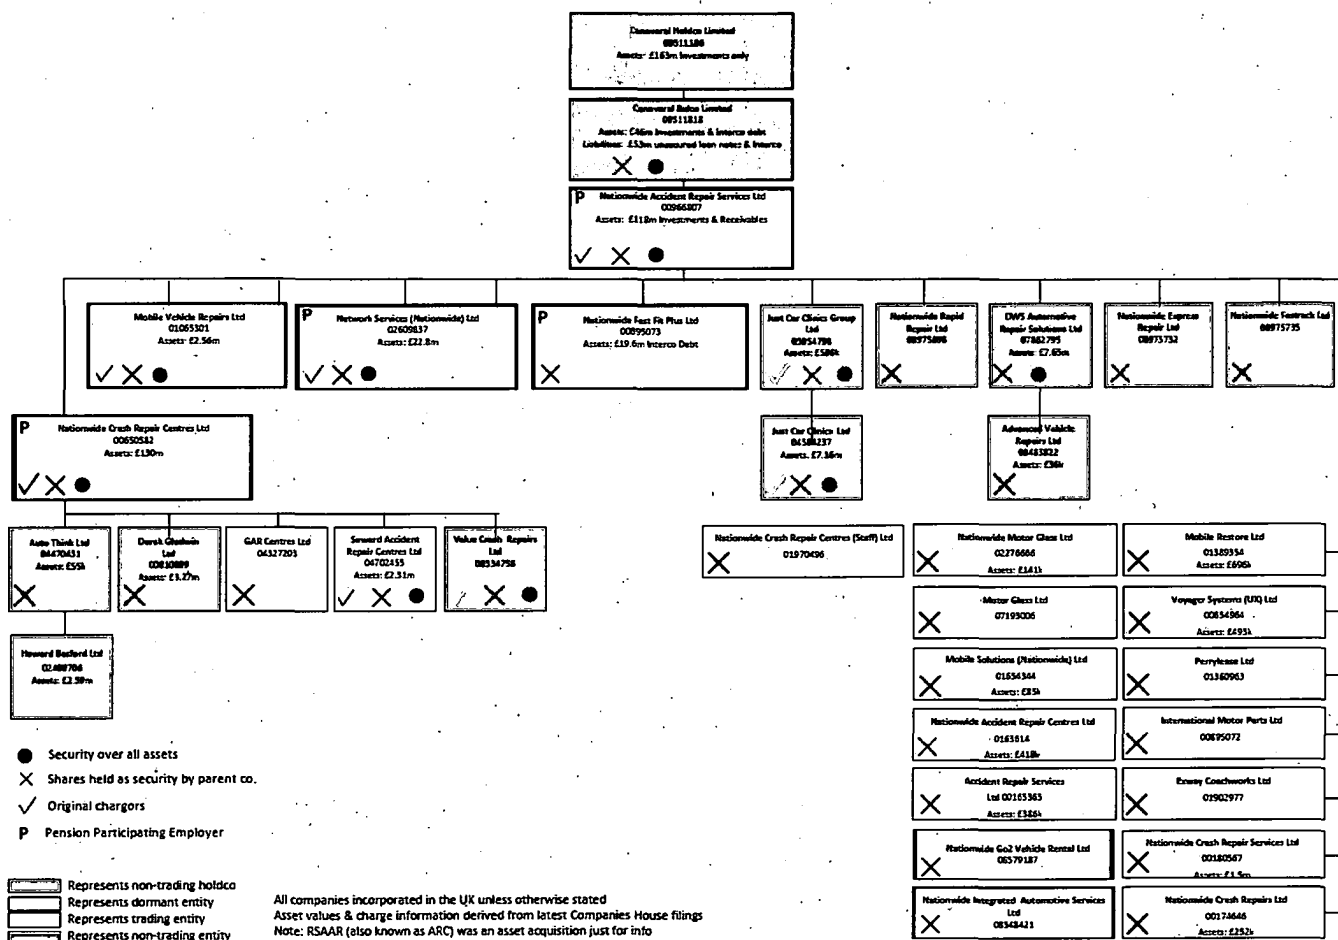

Receipts and payments account

At the time of writing, there have been no receipts or payments in respect of the Companies.

The sale proceeds are in our lawyers client account and will be transferring over to the administration accounts in the next few days.

Appendices

Appendix A: Group structure

Appendix B: Pre-administration costs

The table below provides details of costs which were incurred before our appointment as administrators but with a view to the Companies entering administration. Details of the work done and expenses incurred follow.

	Paid amount (£)	Payment made by	Unpaid amount (£)
Our fees as Administrators-in-waiting	110,000	NARS	313,444*
Expenses incurred by us as administrators-in-waiting:	-	-	-
Mayer Brown International LLP	-	-	588,650
K&L Gates LLP	70,000	NCRC	-
Counsel	55,000	NCRC	25,000
European Valuations Limited	12,500	NCRC	-
Burston Cook	10,000	NCRC	2,160
Total	257,500		929,254

*The Administrators will not be seeking to draw unpaid pre-appointment costs in full. We estimate we will request approval for £110,000 only.

To the best of our knowledge and belief, no fees or expenses were charged by any other insolvency practitioner.

A estimated breakdown of the total unpaid fees and expenses incurred as administrators-in-waiting, allocated per entity, is further detailed below:

Entity	Resulting Allocation	Administrators in waiting	Mayer Brown	Counsel	Burston Cook	Total Unpaid amount (£)
NCRC	83.7%	260,717	489,628	25,000	2,160	777,505
NARS	2.5%	8,090	15,193	-	-	23,283
NSN	8.6%	27,899	52,394	-	-	80,293
MVR	4.5%	14,503	27,237	-	-	41,740
NFFP	<1%	723	1,357	-	-	2,080
JCC	<1%	858	1,611	-	-	2,469
JCCG	<1%	68	128	-	-	196
SARC	<1%	277	519	-	-	796
HBL	<1%	310	582	-	-	892
Total		313,445	588,649	25,000	2,160	929,254

Nationwide Accident Repair Services Limited, Mobile Vehicle Repairs Limited, Nationwide Crash Repair Centres Limited, Network Services (Nationwide) Limited, Nationwide Fast Fit Plus Limited, Just Car Clinics Limited, Just Car Clinics Group Limited, Seward Accident Repair Centres Limited and Howard Basford Limited – all in administration

Allocation methodology

Given the majority of pre-appointment work did not specifically relate solely to one legal entity, we have sought to allocate pre-appointment costs relating to the administrator in waiting and Mayer Brown proportionate to the expected asset recoveries in each legal entity.

For counsel's and Burston Cook costs these have been allocated to the entity to which they directly relate.

Our fees as administrators-in-waiting

Our work was performed under an engagement letter dated 7 February 2020 (amended on 27 May 2020) between PwC and NARS (as described in Appendix C).

Our fees have been calculated on time cost basis, using our usual charge out rates for work of this nature. Our work, performed with a view to the Companies' entering administration, included:

- Negotiating and finalising the terms of the sale contracts with the Purchaser;
- Developing a strategy for the post-appointment period and the realisation of the key assets;
- Production of estimated outcome statements and cashflows;
- Analysis of landlord considerations in respect to leased properties (warehouses, depots, etc);
- Working with the Companies' director in preparing for the administrations;
- Completing our internal procedures in preparation for accepting the appointments;
- Developing a 'day one' strategy for our team, which included the preparation of immediate communications to stakeholders and ensuring a PwC presence at the Companies non-retail main locations immediately following the appointments;
- Reviewing the Companies' employee information, considering the employee strategy and preparing communications to the employees;
- Identifying key areas of risk and how these could be mitigated;
- Preparing statutory documentation and declarations required for effecting the administration appointments and liaising with our legal advisors in this regard; and
- Liaising with counsel and the Companies' legal advisors in respect of witness statements required for the court application to appointment administrators.

Please note that the above is indicative of the key areas of work performed and is not an exhaustive list. We believe that the above work was necessary in order to achieve the objective of the administrations, maximise realisations and minimise losses for creditors. Had this work not been carried out, the Companies are likely to have entered an insolvency process in an uncontrolled manner, which is likely to have had a detrimental effect on the outcome for all creditors.

Expenses incurred

The expenses in the table on the previous page, refer to the following areas of work:

Firm	Service provided
Mayer Brown International LLP	<p>Legal services under an engagement letter dated 13 August 2020 with Rob Lewis and Rachael Wilkinson as administrators in waiting:</p> <ul style="list-style-type: none">• Drafting contracts in relation to the two parties who were dual tracked from 20 August 2020, including liaising with legal representatives of both purchasers on terms, under the ultimate purchaser was granted exclusivity on 30 August 2020;• Finalisation of contracts for the sale to Runmycar Ltd;• Providing advice in respect of the sale in relation to environmental, employment and property matters.• Contingency planning for administration; and• Advice regarding miscellaneous administration matters.
K&L Gates LLP	<p>Legal services provided under ongoing retainer with NARS:</p> <ul style="list-style-type: none">• Preparation of administration appointment documents• Liaising with Counsel regarding the preparation of witness statements for the court hearing to appointment administrators; and• Preparation of paperwork for submission to court.
Counsel	<ul style="list-style-type: none">• Preparation of witness statements for the court hearing to appoint administrators;• Advice in relation to an urgent court application; and• Attendance at an out of hours court hearing.
Eurovals	<ul style="list-style-type: none">• Asset valuation services as described in Appendix C, performed in line with quotation dated 18 July 2020 to Nationwide Crash Repair Centres Ltd.
Burston Cook	<ul style="list-style-type: none">• Property valuation services as described in Appendix C, performed under instructions on 10 August 2020 from Nationwide Crash Repair Centres Ltd.

Approval of pre-administration costs

As previously explained, the payment of unpaid pre-administration costs as an expense of the administration is subject to approval under Rule 3.52 IR16 and doesn't form part of our proposals, which are subject to approval under Paragraph 53 Sch B1 IA86. If you elect a creditors' committee, it will be up to the committee to give this approval under rule 3.52 IR16.

But if there's no committee, it will be for the relevant class(es) of creditors to give such approval, as determined by the circumstances of each case. The approving body for each of the Companies was shown earlier and it is the same body that approves our remuneration as joint administrators. We will seek approval from the relevant classes of creditors in due course.

Appendix C: Copy of our report to creditors on the pre-packaged sale of the business and part of its assets

When viewed on our website, this appendix can be viewed by clicking on the link:

Initial letter to creditors with SIP16 report

Appendix D: Estimated financial position including creditors' details

As the director has not yet given us a statement of affairs for the Companies, we have set out in this appendix the estimated financial position of the Companies as at 3 September 2020.

Please note the following:

- In line with the standard format for a statement of affairs, the following statements exclude the costs and expenses of the administrations, including the costs of agreeing creditor claims and distributing any available funds to creditors.
- Amounts owed to creditors include estimated contingent liabilities that may have crystallised on the appointment of administrators including: liabilities in respect of the Group's defined benefit pension scheme, joint and several liability for unpaid VAT on all entities which are members of the same VAT group and amounts due to landlords such as dilapidations and future rent where alternative tenants cannot be found for properties.

Appendix E: Decision notices

Notice seeking decisions by deemed consent

In accordance with section 246ZF and paragraph 98 of Schedule B1 of the Insolvency Act 1986 and rules 3.38 and 15.7 of the Insolvency (England and Wales) Rules 2016 (IR16)

Name of company

Howard Basford Limited

Registered office address

17a Thorney Leys Park, Witney, Oxfordshire OX28 4GE

Company number

02490706

In the High Courts of Justice Business and Property of England and Wales Insolvency and Companies List (ChD)

Court case number

CR-2020-003637

We (a) Rachael Maria Wilkinson and Robert Nicholas Lewis, joint administrators of the company give notice to creditors seeking decisions by deemed consent about the following matters (b):

(a) Insert full names of administrators / liquidators

- The approval of our proposals for achieving the purpose of administration
- The formation of a creditors' committee

(b) Insert nature of the matter

- If creditors don't form a committee, the timing of our discharge from liability

We are also inviting creditors to make nominations for membership of the creditors' committee, if one is established

(c) Insert proposed decision(s)

The proposed decisions are: (c)

- (1) THAT the administrators' proposals dated 10 September 2020 be approved;
- (2) THAT the administrators be discharged from liability pursuant to Paragraph 98(1) of Schedule B1 to the Insolvency Act 1986 in respect of any action of theirs as administrators 14 days after they cease to be joint administrators of the company;
- (3) THAT a creditors' committee **SHOULD NOT** be established.

d) Insert date of decision

The decision date is (d) 1 October 2020

If you wish to object to the proposed decisions you must do so no later than 23.59 hrs on the decision date. Please refer to the information overleaf.

If less than 10% in value of relevant creditors* object to the proposed decisions in accordance with the procedure set out in this notice the creditors are to be treated as having made the proposed decisions.

If 10% or more in value of relevant creditors* object to the proposed decision[s] the creditors are to be treated as **NOT** having made the decision[s]. If a decision about the same matter is sought again it must be sought using a decision procedure (i.e. by correspondence, electronic voting, or a virtual or physical meeting).

* For the purposes of this notice "relevant creditors" means the creditors who, if the decision were to be made by a decision procedure, would be entitled to vote in the procedure.

Committee:

If you wish to nominate any creditor(s) to be members of a creditors' committee if creditors decide that a committee should be established, please deliver your nomination to us at the address below by 1 October 2020. A nomination can only be accepted if we are satisfied as to the creditor's eligibility under rule 17.4 of the Insolvency (England and Wales) Rules 2016 (IR16).

Objecting to the proposed decisions or requesting a physical meeting:

In order to object to the proposed decisions, you must deliver to us at the postal address shown below, a notice stating that you object to the proposed decisions, to be received by us **NO LATER THAN 23.59 hrs ON THE DECISION DATE**, together **WITH A PROOF** in respect of your claim, in accordance with IR16, failing which your objection will be disregarded.

A form of notice of objection is set out at the end of this notice and a proof of debt form which you can use is attached.

If your debt is treated as a small debt in accordance with rule 14.31(1) IR16 (creditors with claims of £1,000 or less) you must still deliver a proof to us by 23.59 hrs on the decision date if you wish to object to the proposed decision.

If you have opted out from receiving notices you may nevertheless object to the proposed decision if you provide a proof as set out above.

It is our responsibility to aggregate any objections to see if the threshold is met for the decision to be taken as not having been made.

If the threshold is met this deemed consent procedure will terminate without a decision being made and if a decision is sought again on the same matter it will be sought by a decision procedure.

Creditors who meet one of the thresholds in section 246ZE of the Insolvency Act 1986 may, within five business days from the date of delivery of this notice, require a physical meeting to be held to consider the matter[s] set out above. The relevant thresholds are 10% in value of creditors, 10% in number of creditors, or 10 creditors.

A creditor may appeal a decision in accordance with rule 15.35 IR16 by applying to court not later than 21 days after the decision date.

Company number

00895073

In the High Courts of Justice Business and Property of England and Wales Insolvency and Companies List (ChD)

Court case number
CR-2020-003634

We (a) Rachael Maria Wilkinson and Robert Nicholas Lewis, joint administrators of the company give notice to creditors seeking decisions by deemed consent about the following matters (b):

(a) Insert full names of administrators / liquidators

(b) Insert nature of the matter

- The approval of our proposals for achieving the purpose of administration
- The formation of a creditors' committee
- If creditors don't form a committee, the timing of our discharge from liability

We are also inviting creditors to make nominations for membership of the creditors' committee, if one is established

(c) Insert proposed decision(s)

The proposed decisions are: (c)

- (1) THAT the administrators' proposals dated 10 September 2020 be approved;
- (2) THAT the administrators be discharged from liability pursuant to Paragraph 98(1) of Schedule B1 to the Insolvency Act 1986 in respect of any action of theirs as administrators 14 days after they cease to be joint administrators of the company;
- (3) THAT a creditors' committee **SHOULD NOT** be established.

d) Insert date of decision

The decision date is (d) 1 October 2020

If you wish to object to the proposed decisions you must do so no later than 23.59 hrs on the decision date. Please refer to the information overleaf.

If less than 10% in value of relevant creditors* object to the proposed decisions in accordance with the procedure set out in this notice the creditors are to be treated as having made the proposed decisions.

If 10% or more in value of relevant creditors* object to the proposed decision[s] the creditors are to be treated as **NOT** having made the decision[s]. If a decision about the same matter is sought again it must be sought using a decision procedure (i.e. by correspondence, electronic voting, or a virtual or physical meeting).

* For the purposes of this notice "relevant creditors" means the creditors who, if the decision were to be made by a decision procedure, would be entitled to vote in the procedure.

Committee:

If you wish to nominate any creditor(s) to be members of a creditors' committee if creditors decide that a committee should be established, please deliver your nomination to us at the address below by 1 October 2020. A nomination can only be accepted if we are satisfied as to the creditor's eligibility under rule 17.4 of the Insolvency (England and Wales) Rules 2016 (IR16).

Objecting to the proposed decisions or requesting a physical meeting:

In order to object to the proposed decisions you must deliver to us at the postal address shown below a notice stating that you object to the proposed decisions, to be received by us **NO LATER THAN 23.59 hrs ON THE DECISION DATE**, together **WITH A PROOF** in respect of your claim, in accordance with IR16, failing which your objection will be disregarded.

A form of notice of objection is set out at the end of this notice and a proof of debt form which you can use is attached.

If your debt is treated as a small debt in accordance with rule 14.31(1) IR16 (creditors with claims of £1,000 or less) you must still deliver a proof to us by 23.59 hrs on the decision date if you wish to object to the proposed decision.

If you have opted out from receiving notices you may nevertheless object to the proposed decision if you provide a proof as set out above.

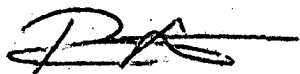

It is our responsibility to aggregate any objections to see if the threshold is met for the decision to be taken as not having been made.

If the threshold is met this deemed consent procedure will terminate without a decision being made and if a decision is sought again on the same matter it will be sought by a decision procedure.

Creditors who meet one of the thresholds in section 246ZE of the Insolvency Act 1986 may, within five business days from the date of delivery of this notice, require a physical meeting to be held to consider the matter[s] set out above. The relevant thresholds are 10% in value of creditors, 10% in number of creditors, or 10 creditors.

A creditor may appeal a decision in accordance with rule 15.35 IR16 by applying to court not later than 21 days after the decision date.

Appendix F: Creditor decisions

FAQs

For HBL and NFFP only: We are seeking approval of the Administrators' proposals and other resolutions by deemed consent. The notices seeking deemed consent are attached to these proposals and contain information relating to the decisions being sought and how creditors can object to the decisions. We have answered some of the common questions which arise in respect of decisions by deemed consent below.

For NARS, NCRC, MVR, NSN, JCC, JCCG and SARC: We're not seeking a decision from the creditors to approve our proposals because we think those companies don't have enough assets to pay a dividend to unsecured creditors (other than via the prescribed part). So, our proposals will be treated as approved unless enough creditors ask us to seek a decision to approve them. This would happen if at least 10% in value of the company's total creditors ask us to do so (in line with Rule 15.18 IR16) within eight business days of the date we deliver the proposals to you.

What is deemed consent and how can I object to its use?

For a decision by deemed consent, relevant creditors are given notice of the Administrators' proposed decision on a matter. In this case we are seeking a decision that:

1. The approval of our proposals for achieving the purpose of administration;
2. That a creditors' committee should not be formed;
3. If creditors don't form a committee, the timing of our discharge from liability.

If you are happy with the proposed decisions you don't need to take any further action unless you wish to nominate a member of the committee should one be formed.

Creditors may object to the decisions being made by deemed consent:

- if less than 10% of relevant creditors object to the proposed decision, the creditors are treated as having made the decision; and
- if 10% or more of relevant creditors object to the proposed decisions then the decisions are treated as NOT having been made, and further decisions will be sought by an alternative decision method (which will only be a physical meeting if one of the relevant thresholds for requesting a physical meeting is met (see below)).

Details of what constitutes a relevant creditor and how a creditor may object to the proposed decisions are included in the decision notices attached to the proposals.

Creditors who meet one of the relevant thresholds can request a physical meeting as well as, or instead of, objecting to the proposed decisions (see below).

It is our responsibility (not the creditors') to aggregate any objections to deemed consent, and to aggregate any requests for a physical meeting, to see if one of the thresholds is met for the decisions by deemed consent not to have been made.

How do I request a physical meeting (PM)?

Creditors who meet one of the thresholds in Section 246ZE IA86 may, within five business days from the date of delivery of the decision notices attached to the proposals, require a physical meeting to be held to consider the decisions detailed in those notices. The relevant thresholds are 10% in value of creditors, 10% in number of creditors or 10 creditors.

If one of the above thresholds for requiring a physical meeting is met we will issue a further notice calling a physical meeting and the original decisions by deemed consent as detailed in our notices attached to the proposals will be superseded.

Details of how to attend and vote at any physical meeting called will be provided in the notice of that meeting. The purpose of a physical meeting called under Section 246ZE IA86 would be to consider the contents of the administrators' proposals. This is not a forum where the administrators are likely to be able to address individual creditors' circumstances. If you have specific queries regarding your particular circumstances, please contact the administrators.

Who decides whether my claim ranks for the purposes of objecting to deemed consent?

The Administrators have the power to accept or reject the whole or any part of your claim for the purpose of objecting to deemed consent and/or requesting a physical meeting (Rule 15.33(2) IR16).

What happens if I disagree with the Administrators' decision?

You're entitled to appeal to the court for an order reversing the Administrators' decision on your claim provided you do so within 21 days of the decision date (Rule 15.35(4) IR16). If the court reverses or varies the Administrators' decision, this could change the decisions/resolutions that were made or passed and/or the court may order us to initiate a decision procedure or make such other order as it thinks just (Rule 15.35(3) IR16).

You also have the right to appeal to the court if you believe that the Administrators are acting/have acted/propose to act in a way which unfairly harms your interests (Paragraph 74(1) Sch B1 IA86).

We recommend that you seek legal advice about the merits of taking these steps in any particular circumstances.

How do I calculate my claim for the purposes of objecting to deemed consent?

Objections to deemed consent are calculated according to the amount of a creditor's claim as at the date on which the Company entered administration, less any payments that have been made to them after that date in respect of their claim and any adjustments by way of set-off in accordance with rule 14.24 IR16 or that would be made if that rule were applied on the date that the objections are counted (Rule 15.31(1)(a)(ii) IR16).

What happens if I cannot yet quantify my claim with certainty?

If your debt is for an unliquidated amount or its value is not ascertained it can count towards the threshold for objecting to deemed consent if the Administrators agree to put on the debt an estimated minimum value for objection purposes and admit the claim for that purpose (Rule 15.31(2) IR16).

What happens if my debt is wholly or partly secured?

If you're a secured creditor whose debt is wholly or partly secured, only the balance (if any) of your debt after deducting the value of your security as estimated by you will count towards the threshold for objections.

What happens if I am a creditor under a hire-purchase, conditional sale agreement or leasing agreement?

If you're an owner of goods under a hire-purchase or chattel leasing agreement, or a seller of goods under a conditional sale agreement, the amount of the debt due and payable to you by the Company on the date the Company entered administration will count towards the threshold for objections. In calculating the amount of any debt for this purpose, no account shall be taken of any amount attributable to the exercise of any right under the relevant agreement, so far as the right has become exercisable solely by virtue of:

- The making of an administration application
- A notice of intention to appoint an Administrator or any matter arising as a consequence, or
- Of the Company entering administration (Rule 15.32 IR16)

Am I bound by the Administrators' proposals if they are approved?

Our proposals, when approved by the creditors, will dictate how the Company's affairs will be conducted in future and how creditors' claims will be addressed. For this reason, it is important that creditors consider them properly.

Strictly private and confidential

To all known creditors

10 September 2020

Our ref: RMW/VR/KM/CD/D355Gv2017

Dear Sirs

Nationwide Accident Repair Services Limited, Nationwide Crash Repair Centres Limited, Network Services (Nationwide) Limited, Mobile Vehicle Repairs Limited, Just Car Clinics Limited, Just Car Clinics Group Limited, Seward Accident Repair Centres Limited, Howard Basford Limited and Nationwide Fast Fit Plus Limited – all in administration (together “the Companies”)

Why you've received this letter

The Companies' records show that you may be owed money by one or more of the Companies. So, I'm writing to tell you that, as shown on the enclosed notice Rob Lewis and I were appointed joint administrators of the Companies on 3 September 2020. We will manage the Companies' affairs, business and property as its agents and without personal liability.

I'm also writing to tell you about the sale of part of the Companies business and assets.

The purpose of administration

The statutory purpose of the administration is to achieve one of these objectives:

- a. rescuing the Companies as a going concern, or if that is not possible or if (b) would achieve a better result for the creditors than (a)
- b. achieving a better result for the Companies creditors as a whole than would be likely if the Companies were wound up (without first being in administration), or finally, if that isn't possible
- c. realising the Companies assets to make a distribution to secured or preferential creditors.

In this case, we are pursuing objective (b) as it wasn't possible to rescue the Companies as a going concern.

Sale of part of the business

I'm pleased to tell you that on 3 September 2020 the majority of the Companies' business and assets were sold to RunMycar Limited (part of Redde Northgate Plc) as a going concern. Details of the sale are in the Appendix.

The sale enables the statutory purpose to be achieved and was the best available outcome for creditors as a whole in all the circumstances. The sale has resulted in 2,364 jobs being saved.

If you're a supplier or customer with an outstanding order, you want to reclaim stock subject to retention of title or you own property hired or rented by the Companies, please call Nick Tilley of Redde Northgate Plc on 03445 170 095. Please also contact Nick Tilley of Redde Northgate Plc if you hold any of the Companies' property.

What you're owed

Our preferred method for creditors to submit claims and supporting documents is via the Turnkey (IPS) online portal, as this is the most efficient and cost effective way for us to deal with your claim and also allows you to better track its status, so we recommend the use of the online portal for claim submission. Your unique login details will be sent to you separately.

If your claim includes VAT, you may be able to obtain VAT bad debt relief six months after your supply. Your local VAT office can help you with this.

How we report to creditors

Our proposals setting out how we intend to achieve the purpose of administration are being published at the same time as this document.

Every six months until the administrations end, we will also issue a report on the progress of the administrations. Our first report will be available at www.pwc.co.uk/nationwide in late March 2021 or early April 2021.

Your rights as creditors

Our appointment means that you can't start or continue legal action, enforce security or repossess any goods held by the Companies unless we agree or the court allows it.

You can find information on administrators' fees and your rights at:

<https://www.icaew.com/-/media/corporate/files/technical/insolvency/creditors-guides/2017/administration-creditor-fee-guide-6-april-2017.ashx?la=en>

Please contact Clare Davison at uk_insolvencydocsrequests@pwc.com if you'd like a paper copy free of charge or have any questions.

Finally, you also have the right to opt out of receiving further documents relating to these proceedings. Please see the attached sheet 'Information provided to creditors on opting out in accordance with Rule 1.39' for full details.

The right to opt out only applies to documents required by the Insolvency Act 1986 or the Insolvency (England and Wales) Rules 2016 to be delivered to creditors generally or to a particular class of creditors. It does not apply to documents or correspondence sent to people in a capacity other than as creditor (e.g. as an employee) or to correspondence sent to individual creditors.

Any formal opt out request should be sent to Clare Davison at the address listed above or by e-mail to: uk_insolvencydocsrequests@pwc.com.

Directors' conduct

One of our duties is to look at the actions of anybody who has been a director of the Companies in the three years before our appointment. We also have to decide whether any action should be taken against anyone to recover or contribute to the Companies assets. If you think there is something we should know about, please write to me at this address. This is part of our normal work and doesn't necessarily imply any criticism of the directors' actions.

Yours faithfully
For and on behalf of the Companies

Rachael Wilkinson
Joint administrator

Enclosures: Appendix
AM01
Information provided to creditors on opting out in accordance with Rule 1.39

Rachael Maria Wilkinson and Robert Nicholas Lewis were appointed as joint administrators of the Companies to manage their affairs, business and property as agents without personal liability. Both are licensed in the United Kingdom to act as insolvency practitioners by the Institute of Chartered Accountants in England and Wales. The Joint Administrators are bound by the Insolvency Code of Ethics which can be found at:

<https://www.gov.uk/government/publications/insolvency-practitioner-code-of-ethics>.

The Joint Administrators may act as controllers of personal data, as defined by the UK data protection law, depending upon the specific processing activities undertaken. PricewaterhouseCoopers LLP may act as a processor on the instructions of the Joint Administrators. Personal data will be kept secure and processed only for matters relating to the Joint Administrators' appointment. Further details are available in the privacy statement on the PwC.co.uk website or by contacting the Joint Administrators.

Appendix

Information regarding the sale of the business and assets of Nationwide Accident Repair Services Limited, Nationwide Crash Repair Centres Limited, Network Services (Nationwide) Limited, Mobile Vehicle Repairs Limited, Just Car Clinics Limited, Just Car Clinics Group Limited, Seward Accident Repair Centres Limited, Howard Basford Limited and Nationwide Fast Fit Plus Limited on 3 September 2020 as required by Statement of Insolvency Practice No.16 (SIP 16)

The purpose of Statements of Insolvency Practice (SIPs) is to promote and maintain high standards by setting out required practice and harmonising the approach of Insolvency Practitioners to particular aspects of insolvency work.

SIP 16 relates to situations where the sale of all or part of a company's business or assets is negotiated with a purchaser prior to the appointment of an administrator and the administrator effects the sale immediately on, or shortly after, appointment. This is sometimes referred to as a 'pre-packaged sale'.

In the lead up to an administration appointment, an insolvency practitioner may act as an advisor to a company or companies as it seeks to make arrangements for a sale. Their role at this time is to advise the companies, rather than the directors or the purchaser.

Following an appointment where no sale agreement has yet been signed, the insolvency practitioner may become the administrator and complete the sale in that role. When considering the manner of disposal of the company's business or assets, an administrator must bear in mind their duties to the company's creditors as a whole.

A copy of SIP 16 can be found at the link below:

<https://www.icaew.com/-/media/corporate/files/technical/insolvency/regulations-and-standards/sips/england/sip-16-e-and-w-pre-packaged-sales-in-administrations-2015.ashx>

More information regarding the purpose and process of administration can be found at the link below:

https://www.r3.org.uk/media/documents/publications/professional/Creditors_Administration.pdf

Information relating to this sale is set out in the remainder of this Appendix.

Background

Nationwide Accident Repair Services Limited and its subsidiaries ("NARS" or "the Group") was the largest multiple-shop owner ("MSO") of collision repair services in the UK. The main trading activity comprises the provision of automotive repairs to commercial customers including insurance providers and car leasing corporates. Group operations were within the UK, with NARS' head office located in Witney, Oxfordshire.

The Group generated revenues of c.£300m in FY19 with an EBITDA of c.£8.6m and a loss before tax of c.£20.2m. This loss was a result of exceptional items through site closures and associated redundancy payments, alongside interest payments on loan notes. Due to its prominence in the automotive repair and solutions industry, NARS claims the highest number of manufacturer approvals in the UK and is approved by many of the UK's leading insurance and fleet companies. The Group experienced a downturn in its market through reduced volumes from its biggest customer (RSA) alongside the implications of lower road traffic through Covid-19. This resulted in year-to-date revenues at 31 July 2020 of £108.3m, down 42% on the comparable period in FY19 (£186.7m).

The Group was funded by Investec Bank Plc and Barclays Bank Plc (together "the Lenders" or "the Banks") who jointly provided £61.7m of available debt, split between three core facilities: a £31.7m facility ("Facility A"), £15.0m acquisition / capex facility ("Facility B") and a £15.0m overdraft facility (which is on demand). At the time of our appointment, Facility A was fully drawn with the others unutilised. Facility A and B were provided in a joint arrangement between Barclays and Investec, with the overdraft facility provided solely by Barclays. All facilities were due to expire in March 2021.

In May 2020, the Group reported a breach of its banking covenants in respect of the financial quarter ending 31 March 2020. Discussions took place between the Group, its ultimate parent company, The Carlyle Group ("Carlyle") and the Lenders regarding a capital injection to reduce the Group's borrowing, but these discussions did not result in an agreement being reached and the Group remained in breach of its covenants.

Following the loss of customers and downturn due to Covid-19, the Group reforecast its budget and planned for an operational restructure to right-size the business for the expected level of business going forward. This exercise identified a funding requirement which was over and above the banking facilities available to it. The requirement was based on a high level of cost associated with a store closure plan alongside the impact of cash reduction due to lower trading volumes for the Group.

As a result of this and the covenant breach, access to the full level of facilities became challenging although the Group was able to secure an element of temporary forbearance from the Lenders to partially use the overdraft facility. While the Group anticipated it could manage without the use of the overdraft facility until the end of July 2020, a small funding requirement was identified to arise in early August 2020. In addition, the medium term forecasts clearly indicated a significant funding requirement to deliver the restructure.

NARS plus three of its subsidiaries are participating employers in the Nationwide Accident Repairs Services Pension Scheme (the "Scheme"), a defined benefit scheme with a significant deficit. In light of the financial difficulties facing the Group, in March 2020 it began to engage with The Trustees of the Scheme, The Pensions Regulator ("tPR") and the Pension Protection Fund ("PPF") (together "The Pension Stakeholders").

In February 2020, the Group instructed PwC to provide stakeholder analysis. PwC supported the Group in its discussions with the Pension Trustees and the Lenders. This was followed by a more comprehensive options analysis report. The options analysis identified a number of potential options which were

discussed with each of the stakeholders, including the Pension Stakeholders, the Lenders and Carlyle.

The options explored were as follows:

- Seek additional funding from the Lenders and / or Carlyle to support either continued trading in the current form or an operational restructure to right-size the business for future expected revenue levels. Both parties confirmed that they were not willing to provide further funding on the existing capital structure.
- Raise further debt from a third party. This was not a viable option given the current position of the business, in respect of its trading performance and funding requirement.
- Pensions restructure. While the Pension Stakeholders indicated they would be open to considering this option, this would only be on the basis of a significant payment to the Scheme. This was discussed with Carlyle whose position remained that they were unable to put in further capital.
- Sale of the business. This was considered to be the only viable option.

In response to the mounting financial pressures and outcomes of advisory findings, the Group instructed Stephens Europe Limited ("Stephens Europe") to seek a buyer for the trading businesses of the Group on an accelerated sale basis commencing in June 2020. The details of the Stephens Europe marketing and sale process are set out later in this document. Key points are summarised here:

- The process began on 24 June 2020;
- 32 parties were approached;
- In addition, an article by Sky News on 7 July 2020 about a buyer being sought for the Group prompted a direct approach from seven parties. 21 parties signed non-disclosure agreements and were provided with further information;
- Interested parties were given until 24 July 2020 to put in an indicative bid;
- Nine parties put in an initial bid for the business on a trade and asset basis, with one party placing an initial offer on a share sale basis;
- Five parties were taken through to the final stage and asked to reconfirm offers, four of which were on a trade and assets basis and the fifth was on a share sale basis;
- The party who had bid on a share sale basis withdrew before final bids were reconfirmed, leaving all bids on a trade and assets basis only. Following reconfirmation of offers, from 20 August 2020 two parties were dual tracked to completion which included the Redde Northgate offer, and
- On 30 August 2020, Redde Northgate confirmed it had final board approval and was granted exclusivity to complete the deal.

On 3 September 2020, the sole director made an application to court to appoint administrators and the application was granted in respect of the following entities:

- Nationwide Accident Repair Services Limited
 - Nationwide Crash Repair Centres Limited
 - Network Services (Nationwide) Limited
 - Mobile Vehicle Repairs Limited
 - Nationwide Fast Fit Plus Limited
 - Just Car Clinics Limited
-

-
- Just Car Clinics Group Limited
 - Howard Basford Limited
 - Seward Accident Repair Centres Limited

Following their appointment, the administrators immediately concluded the sale to Redde Northgate.

For the reasons explained throughout this Appendix, the director and the Administrators concluded that a pre-packaged sale of the business and assets of the above entities provided the optimum outcome for creditors and stakeholders. In particular, this was on the basis that:

- The offers which maximised returns to creditors were made on the basis of the transaction being executed via a pre-packaged administration;
- During the sale process, a large customer (8% of revenue) withdrew work from the Group and the Group's biggest customer indicated that they may do the same if a transaction was delayed. Should the Group have lost its biggest customer (c45% of revenue), the interested parties would likely have fallen away or significantly reduced the price they were willing to pay;
- All the secured creditors supported the transaction; and
- The sale resulted in the transfer of 2,364 employees thereby significantly reducing preferential creditor and unsecured claims.

Additionally, we assessed the likely returns in the event that the Group was broken up and consider the value achieved for the transaction exceeds the break up value of the assets.

The administrators' initial introduction

Rob Lewis was introduced to Nationwide Accident Repair Services Limited and its subsidiaries ("the Group") on 20 January 2020 by a fellow PwC partner, who was known to the Group, having previously advised the Group in relation to pension matters. Rachael Wilkinson was introduced to the Group in May 2020.

The extent of the administrators' involvement before the appointment

PwC engagement letter dated 7 February 2020 with Nationwide Accident Repair Services Limited

Pursuant to the above, PwC was engaged with providing:

- Advice in relation to stakeholder discussions around the Group's trading performance.

Amendment letter dated 16 April 2020

PwC was subsequently engaged to assist the Group in the review of its:

- Reforecast numbers;
- Short-term cash flow review; and
- Options analysis report - options available to the Companies based on the reforecast including implications to the pension scheme.

Amendment letter dated 27 May 2020

PwC was retained to assist the Group with:

- Short-term cashflow review;
 - Update of options available to the Group identified in the previous phase following conversations with stakeholders;
 - Production of an estimated outcome statement; and
 - Contingency planning in the event that a sale of shares could not be achieved and a transaction was needed to be concluded via a pre-pack, or in the event that no buyer could be found and the business needed to be closed.
-

Prior to the appointment, advice was provided to the Companies. Advice was not provided to the directors personally, nor to any of the interested parties, including the ultimate purchaser.

Alternative options considered by the directors before formal insolvency and by the administrators on their appointment and during the administration and the possible outcome(s) of the alternative options

The options considered and compared with the execution of a sale the business via a pre-pack administration were as follows:

- **Continuing to trade the business** outside an insolvency process and the Group seeking to effect a successful turnaround. This was not possible as the Group's banking facilities had already been restricted due to a covenant breach, with the Lenders reticent to extend further funding. In addition, due to the lack of ongoing facilities, the Group had not been able to file its accounts by the statutory deadline, and would have needed to file accounts on a break up basis. Delayed filing of accounts had already caused suppliers to withdraw credit terms and customers to not offer new tenders or place further volumes with the Group.

This scenario would almost certainly have resulted in creditors taking action against the Companies leading to an uncontrolled and unplanned liquidation process, immediate cessation of trading and a break-up sale of the assets generating significantly less value than what has been achieved.

- **Raising further debt** of the Group. Given the appetite of the market (with ongoing economic uncertainty), there was unlikely to be sufficient interest to raise debt or equity for the business against the backdrop of costly lease exits and dilapidation costs, alongside private equity appetite for the business. There was not sufficient value in the Group's asset base for an Asset Based Lend ("ABL").
- **Company Voluntary Arrangement ("CVA")**. A CVA would only deal with unsecured debt and would require either the existing Lenders to continue to fund the business or new lenders to be found, neither of which were viable options for the reasons set out above. Further to this, following discussions it became clear that the pension scheme would have required a substantial cash injection which the Group was not in a position to make.
- **Trading administration**. See below why this wasn't considered to be appropriate.
- **Liquidation / immediate shut down**. This would have resulted in significantly less value being achieved for the Group's key asset, debtors. The majority of contracts with large customers contained clauses which would allow customers to set off additional costs incurred in the event that the Group failed to honour its obligations under the contracts. We considered that in the event that the Group was unable to provide customers with ongoing requirements for work, customers would make significant deductions from amounts owed. Further to this, there would be likely limited value recovered for stock and work-in-progress.

Why it was not appropriate to trade the business and offer it for sale as a going concern during the administration

We considered that a trading administration was not appropriate for the following reasons:

- Given the market testing that had been undertaken prior to the pre-packaged sale, there was no indication to suggest that a trading period in an insolvency would result in any better outcome or offer to purchase the business than that which has been achieved;
 - There was a significant risk that the uncertainty associated with a trading administration would have resulted in a material loss of skilled staff to be able to continue to meet customer requirements. In an insolvent situation these workers would likely look for work with other body shops. This would have resulted in NARS being unable to satisfy customer contracts, impact debtor collections and the value of the business to a potential buyer;
-

- In 2019, 90% of NARS revenue is generated from its top 10 customers with 65% of Group revenues coming from just three customers. The uncertainty associated with a trading administration and perceived risks to continuity of service would have likely resulted in major customers seeking alternative suppliers, in particular, the Group's biggest customer, having already expressed concerns about the financial stability of the Group would have very likely immediately withdrawn work. This would have had a significant impact on the value of the business to a potential interested party as well as debtor collections;
- Notwithstanding that a trading administration was unlikely to result in a better outcome for creditors, the quantum of professional costs and staff costs that would be involved in a trading administration would be significantly higher than in a prepack sale scenario and thereby would directly further negatively impact net creditor returns.

Whether efforts were made to consult major or representative creditors

The Group consulted extensively with the Lenders prior to and throughout the process. This is described in detail in the background section above.

The Group engaged with the Pension Trustees, the PPF and tPR throughout this process. In addition, the Group has been in regular dialogue with its ultimate shareholder (and significant unsecured creditor in respect of shareholder loan notes) throughout the process.

The Group has also engaged with its major customers and major supplier throughout the sale process.

Requests made to potential funders to fund working capital requirements

As noted above, several requests for funding were made to the shareholders by the Group in March 2020, however these requests were declined. In addition, prior to the appointment of administrators, a further request for support was made on 19 June 2020 and on 1 and 14 July 2020 to which no response was received.

Although the Lenders had indicated no further funding would be available and that the facilities would not be renewed on expiry in March 2021, they indicated that they would allow very short term use of the overdraft facility to allow the business to continue to trade whilst a buyer was sought. However, a requirement to use this facility did not arise.

Approaching third party working capital funders was not considered a viable option given NARS' financial difficulties and the existing security structure and indebtedness.

Details of registered charges with dates of creation

Nationwide Accident Repair Services Limited. Charge (1/1)

Charge holder: Barclays Bank PLC (As Security Trustee for the Secured Parties)

Type of charge: Fixed and floating charge

Assets charged: Intellectual property under trademarks UK00002376963, UK00002027249, UK00002171125 and UK2194321; and floating charge covering all the property or undertaking of the Company.

Date of creation: 22 March 2016

Nationwide Crash Repair Services Limited. Charge (1/2)

Charge holder: Barclays Bank PLC (As Security Trustee for the Secured Parties)

Date of creation: 22 March 2016

Whether or not the business or business assets have been acquired from an insolvency practitioner within the previous two years

Neither the business nor business assets have been acquired from an insolvency practitioner within the previous two years.

Stephens Europe Limited ("Stephens Europe") - Sales process

- The Group instructed Stephens Europe on 24 June 2020 to seek a buyer for the trading entities within the Group. 32 parties were identified as those parties which may be interested in purchasing some or all of the trading entities within the Group. This included 12 trade parties and 20 Private Equity houses. PE houses specialising in turnaround or with similar existing investments were targeted. Due to the size of the pension deficit alongside operational turnaround requirements, the Group did not fit the standard PE model and therefore PE houses who were not experienced in the sector were not approached.
- The Stephens Europe sales process was led by a partner experienced in special situations, with a strong network in the sector amongst both trade and PE buyers. Due to the size of the Group and the specialist nature of the business, the Administrators consider that a targeted approach undertaken by a sector expert was appropriate. In addition, PwC, as advisors to the Group also had the opportunity to review the list of potential interested parties and add any additional parties considered appropriate.
- In addition to trade and PE channels, a mainstream news article regarding the sale prompted a further seven inbound queries from a combination of PE and trade parties, for either the business as a whole or a subset of sites and/or operations.
- The Administrators are satisfied that the number and type of parties approached were appropriate for the nature and size of the business.
- Given the size and specialist nature of the business the Administrators did not consider that widespread marketing via the internet would add significant other parties, particularly in light of the news article which put the sale in the public domain.
- Of the 32 trade and PE parties approached, 21 signed non-disclosure agreements and were provided with further information. This information included an overview of the Group and its activities, as well as the opportunity to access a data room containing certain financial information of the Group.
- In order to comply with the timetable of sale completion by 28 August 2020, a date for indicative offers of 17 July 2020 was set and subsequently extended to 24 July 2020.
- Eleven indicative offers were received. Ten of the bids were on a trade and assets basis to be achieved through a pre-pack sale and one was on a share sale basis.
- On 27 July 2020, Stephens shared a summary of the round 1 indicative offers with the Group. The Company also shared the summary with the secured lenders, Carlyle and the Pension Stakeholders.
- The document indicated the five parties that were selected to be taken through to the next round of the process. The selection was based on the value, ability to deliver a transaction quickly and quality of the bids received.
- Each party was then given further information and management presentations were given to non-trade bidders and all were asked to reconfirm bids by 11 August 2020. Four parties reconfirmed bids. However, the party who had bid on a share sale basis withdrew from the process citing a misunderstanding in respect of the Group's reliance on a small number of customers as the key reason. This meant that all offers were on a trade and asset basis.

-
- On 11 August 2020, a call was held with the secured lenders to discuss the four remaining offers. All bids were expected to lead to a shortfall to the secured lenders with the lowest bid offering a return of 34p/£ and the highest bid offering 95p/£. All bids offered a similar return to unsecured creditors via the prescribed part.
 - The Lenders considered that a full recovery of their debt should be achieved and it was indicated around this time to Stephens Europe that Investec may wish to make a credit bid for the trade and assets of the Group as a reserve position as a result of several of the bids not offering a full return to the Lenders.
 - Stephens Europe followed up with each of the bidders to clarify certain points and seek to increase offers to give a greater return to creditors.
 - The additional clarification resulted in two offers being increased to close to 100p/£. However, one would result in the Lenders being repaid the majority of their debt immediately while the other required the Lenders to roll their debt over and be repaid over a longer period of time which was not attractive to the Lenders.
 - At this point the lowest offer was discounted by the Lenders and through further discussions between one of the other bidders and Stephens Europe, it was determined they were unlikely to be able to deliver a deal given the scale of the funding requirement.
 - In addition, on 17 August 2020, one of the secured lenders put forward a credit bid offer for the business should any of the parties not be able to transact to a level which ensured a suitable recovery.
 - On 19 August 2020, following information regarding the possibility that a major customer of the business would not support a sale to one of the parties, that party put in a revised bid.
 - Three of the offers, one trade, one PE and the lender-led, were prioritised as these offered the best outcome for all creditors as well having an ability to transact within the time available.
 - During the second round of diligence, a major customer redeployed their volumes to other suppliers citing nervousness around the Group's solvency, at which point all parties were informed and revised offers were made.
 - Following revised offers being received on 20 August 2020, only the trade bid and the credit bid produced a result which was acceptable to the secured creditors. As a result of the level of secured lending, all bids had the same outcome for the unsecured creditors.
 - The secured lenders expressed a preference for a sale to the trade party but were concerned that should that party drop away during the final diligence phase, there would not be sufficient time to pursue an alternative sale and the risk of losing the Group's biggest customer was significant. Therefore, a dual track approach was taken with the trade bid and the lender credit bid taken forward through final due diligence and contract negotiation simultaneously.
 - On 30 August 2020, the trade buyer reconfirmed and was granted a short period of exclusivity to complete final due diligence and agree the terms of a sale. By 3 September 2020, due diligence was complete and terms were agreed.
 - The director made an urgent application to the court as soon as terms were agreed as by this time over 100 suppliers had ceased to supply parts to the Group and the Group's ability to carry out repairs was
-

significantly impaired. An urgent hearing was granted and the court made the order to place the Companies into administration. Immediately following their appointment, the Administrators concluded a sale of the majority of the trade and assets of the Group to RunMycar Limited, a entity owned by Redde Northgate Plc.

Valuer's details	<p>Property</p> <p>Lewins House Limited ("Burston Cook") performed an independent valuation of freehold and long leasehold properties on behalf of the proposed administrators and the Group. This valuation was dated 14 August 2020 and was performed by David Burston BSc FRICS.</p> <p>Burston Cook has confirmed that all valuers had the relevant experience to value assets of this nature. The valuer responsible for the overall valuations was David Burston BSc FRICS who has the appropriate knowledge to oversee an instruction of this nature.</p> <p>Plant and Machinery and other equipment</p> <p>European Valuations Limited ("EuroVals") performed an independent valuation of plant, machinery and other equipment on behalf of the proposed administrators and the Group. This valuation was dated 17 August 2020 and was performed by John Lawrence MRICS.</p> <p>Both Burston Cook and EuroVals have confirmed their independence and that they carry appropriate professional indemnity insurance in relation to both valuations.</p>
Valuations of the business or the underlying assets	<p>Freehold property</p> <p>The valuation was provided by Burston Cook, on a vacant possession basis for the properties which were sold to RunMycar Limited was £6,605,000. All freehold property owned by Nationwide Crash Repair Centres Limited.</p> <p>Plant, machinery and other equipment</p> <p>The valuation undertaken by EuroVals of the plant, machinery and other equipment owned by the Group is shown below. Valuations were provided on two basis (in situ) and (ex situ).</p> <p>In situ - £4,907,000 Ex situ - £1,715,000</p> <p>The vast majority of the plant and equipment was owned by NCRC. All equipment was sold to the purchaser and the price agreed reflected the costs the Purchaser would incur in removing equipment from sites not purchased.</p>
The date of the transaction	3 September 2020
The identity of the purchaser(s)	Runmycar Limited (Company No. 05120241) is the purchasing entity, which is part of Redde Northgate Plc
Any connection between the purchaser(s) and the directors, shareholders or secured creditors of the Companies or their associates	We note that Redde Northgate is a current customer of the Group and represents c3% of the Group's revenues. Outside of this, there is no other connection with Redde Northgate, the directors, the shareholders or secured creditors of the Group or their associates that we are aware of.

The names of any directors, or former directors (or their associates), of the Companies who are involved in the management, financing, or ownership of the purchasing entity, or of any other entity into which any of the assets are transferred	Not applicable
Whether the directors had given guarantees to a prior financier	None provided
Whether the transaction impacts on more than one related Companies	<p>The transaction impacts the following entities:</p> <p>Nationwide Accident Repair Services Limited Nationwide Crash Repair Centres Limited Network Services (Nationwide) Limited Mobile Vehicle Repairs Limited Just Car Clinics Limited Just Car Clinics Group Limited Seward Accident Repair Centres Limited Howard Basford Limited Nationwide Fast Fit Plus Limited</p>
Details of the assets involved and the nature of the transaction	<p>The transaction is for the immediate sale of the majority of the Companies' assets with the exception of debtors and one freehold property.</p> <p>Please see Schedule 1 to this Appendix for a breakdown of the key assets included in the sale agreement together with their allocated consideration.</p>
The consideration for the transaction, terms of payment, and any condition of the contract that could materially affect the consideration	Please see allocation of consideration in Schedule 1 to this Appendix.
Any options, buy-back arrangements, deferred consideration or similar conditions attached to the transaction	<p>Up to £5m of consideration is payable to NCRC 12 months from the date of the transaction. The payment is contingent upon certain financial metrics being achieved over a 12 month period from the date of the transaction. An amount of either £2.5m or £5m is payable if the contingency is satisfied.</p> <p>A guarantee has been provided by another entity with Redde Northgate Group in respect of RunMycar Ltd's contractual obligations including deferred consideration.</p>
If the sale is part of a wider transaction, a description of the other aspects of the transaction.	All aspects of the transaction are described in this document.
Connected party transactions	Not applicable

The sale and the purpose of administration

Following their appointment, administrators must perform their functions with the objective of achieving the statutory purpose of the administration.

The statutory purpose of administration is to achieve one of these objectives:-

- a. rescuing the Companies as a going concern, or if that is not possible or if (b) would achieve a better result for the creditors than (a)
- b. achieving a better result for the Companies creditors as a whole than would be likely if the Companies were wound up (without first being in administration), or finally, if that is not possible
- c. realising the Companies assets to pay a dividend to secured or preferential creditors.

In general, administrators must perform their functions in the interests of the creditors of the Companies as a whole.

In this case, the Administrators are pursuing objective (b) as it was not possible to rescue the Companies as a going concern.

The Administrators confirm that the sale enables the statutory purpose to be achieved.

The Administrators also confirm that the outcome was the best available for creditors as a whole in all the circumstances.

Information provided to creditors on opting out in accordance with Rule 1.39

As part of our first communication with you, we are required to inform you about your right to elect to opt out of receiving further documents relating to these proceedings as follows:

You have the right to elect to opt out of receiving further documents about these proceedings unless:

- (a) the Insolvency Act 1986 requires a document to be delivered to all creditors without expressly excluding opted-out creditors;
- (b) it is a notice relating to a change in the office-holder or the office-holder's contact details, or;
- (c) it is a notice of a dividend or proposed dividend or a notice which the court orders to be sent to all creditors or all creditors of a particular category to which the creditor belongs.

Any election to opt out will not affect a creditor's entitlement to receive dividends, should any be paid to creditors. Similarly, unless IR16 provide to the contrary, opting-out will not affect any right the creditor may have to vote in a decision procedure or participate in a deemed consent procedure in these proceedings, although the creditor will not receive notice of it.

If a creditor opts out, they will be treated as having opted out in respect of any consecutive insolvency proceedings of a different kind in respect of the same Companies.

A creditor can opt out at any time by delivering written notice to the office holder at the postal address noted in the covering correspondence or by e-mail to: uk_insolvencydocsrequests@pwc.com. The notice must be authenticated in accordance with rule 1.5 IR16 and dated by the creditor. A creditor will be treated as an opted-out creditor as soon as reasonably practicable after delivery of the creditor's election to opt out.

An election to opt out can be revoked at any time by delivering a further notice to the office-holder in writing, authenticated and dated by the creditor. A creditor ceases to be an opted-out creditor from the date the notice is received by the office holder.

Should you have any questions on this process, please use the contact details in the covering correspondence.
