STATEMENT OF ACCOUNTING POLICIES

31 MAY 1995

The financial statements have been prepared under the historical cost convention using the following accounting policies:

Going concern

It is not considered appropriate to prepare the accounts on a going concern basis, and therefore fixed assets have been reclassified as current assets and all liabilities shown as current.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 from including a cash flow statement in the financial statements on the grounds that the company is small.

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred taxation

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.
