Notes to the Abbreviated Accounts
for the Year Ended 30 June 2014

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The accounts have been prepared on the going concern basis. In assessing whether the going concern assumption is appropriate, the directors have taken into account all relevant information about the future trading including profit and cash forecasts. The business has a history of making profits and is cash generative and this is expected to continue. It is therefore considered appropriate to adopt the going concern basis of accounting in the preparation of the financial statements.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Exemption from preparing a cash flow statement

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover

Turnover represents sales made net of VAT. Turnover is recognised when the goods are physically delivered to the customer.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 20% on cost
Computer equipment	- 20% on cost

Stocks

Stock is valued at the lower of cost and net realisable value. Cost is determined on a first in/first out basis. Net realisable value represents estimated selling price less costs to complete and sell.

Provisions are made for slow moving, obsolete or damaged stock where the net realisable value is less than cost.

Deferred tax

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

Foreign currencies

Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date.

Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction.

Exchange differences are taken into account in arriving at the operating result.
