Directors' Responsibilities

Company law requires the directors to prepare accounts for each financial year which give a true and fair view of the state of the company's affairs and of the profit or loss for that year. In preparing these accounts the directors are required to:

Select suitable accounting policies and then apply them consistently;

Make judgements and estimates that are reasonable and prudent;

Prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the company and enable them to ensure that the accounts comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

NOTES TO THE ACCOUNTS

FOR THE YEAR ENDED 31ST MARCH 2001

1 Accounting Policies

Basis of Accounting

The Accounts have been prepared under the historical cost convention.

The company has taken advantage of the exemptions in Financial Reporting Standard No. 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

Turnover

Turnover comprises of rents received by the company from furnished properties.

Depreciation

Depreciation is calculated to write down the cost or valuation less estimated residual value of all tangible fixed assets other than freehold land by reducing balance over their expected useful lives. The rates and periods generally applicable are:

Furniture and equipment - 25%

Investment Properties

In accordance with Statement of Standard Accounting Practice No. 19, certain of the company's properties are held for long-term investment and are included in the Balance Sheet at their open market values. The surplus on revaluation of such properties are transferred to the investment property revaluation reserve. Depreciation is not provided in respect of freehold investment properties.

This policy represents a departure from statutory accounting principles, which require depreciation to be provided on all fixed assets. The directors consider that this policy is necessary in order that the Accounts may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Deferred Taxation

Deferred tax is provided for under the liability method using the tax rates estimated to arise when the timing differences reverse and is accounted for to the extent that it is probable that a liability or asset will crystallise. Unprovided deferred tax is disclosed as a contingent liability.

2 Turnover

The turnover was derived from the company's principal activity which was carried out wholly in the UK.

Turnover is attributable to the principal activity of the company.
