Strategic Report

Year ended 31 December 2013

Principal activities and business review

The company's principal activity was, and will continue to be, that of a holding company. The material investment of the company is shown in note 7. The investment in the subsidiary company remains fully impaired due to that company having net liabilities.

At 31 December 2013 the company was a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media). Virgin Media became a wholly-owned subsidiary of Liberty Global plc (Liberty Global) as a result of a series of mergers that were completed on 7 June 2013 (the LG/VM Transaction). This is referred to in more detail in the consolidated financial statements of Virgin Media Inc which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP. The Virgin Media Inc consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (U.K.).

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the U.K. to both residential and business-to-business (B2B) customers. The group is one of the U.K.'s largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of customers. The group believes its advanced, deep-fibre cable access network enables it to offer faster and higher quality broadband internet services than our digital subscriber line, or DSL, competitors. As a result, it provides our customers with a leading next generation broadband internet service and one of the most advanced interactive digital cable services available in the U.K. market.

As of 31 December 2013, the group provided services to approximately 4.9 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers, providing mobile telephony services to 1.9 million contract mobile customers and 1.1 million prepay mobile customers over third party networks. As of 31 December 2013, 84% of residential customers on the group's cable network received multiple services from the group, and 66% were "triple play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group.

In addition the group provides broadband internet, fixed-line and mobile telephony and other connectivity services to businesses, public sector organisations and service providers.

The company reported a decrease in net current liabilities and an increase in total assets less current liabilities for the year ended 31 December 2013 as a result of normal operations. During the year, no new external finance was arranged and there was no movement in the called up equity share capital of the company.

The directors do not use key performance indicators (KPI's) to assess the performance of the company as its principal activity is that of a holding company.

The company has not received any dividends from its subsidiaries during the period (2012 - £nil).

Future outlook

The directors will continue to review management policies in light of changing trading and market conditions. Further detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2013, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

Directors' Responsibilities Statement

Year ended 31 December 2013

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year.

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Notes to the Financial Statements

Year ended 31 December 2013

1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

Basis of accounting

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

Fundamental accounting concept

After making suitable enquiries and obtaining the necessary assurances from Virgin Media Inc, a wholly owned subsidiary of Liberty Global plc and the intermediate holding company which heads the Virgin Media group, that sufficient resources will be made available to meet any liabilities as they fall due should the company's income not be sufficient, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although at the date of approval of these financial statements they have no reason to believe that it will not do so. On this basis the directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

Group accounts

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 14). These financial statements therefore present information about the company as an individual undertaking and not about its group.

Investments

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investments recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

Cash flow statement

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company.

1. Accounting policies *(continued)*

Deferred tax

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote

2. Operating profit

The directors received remuneration for the year of £803 (2012 - £500) in relation to qualifying services as directors of this company, all of which was paid by, and is disclosed in the financial accounts of Virgin Media Limited. In 2013 this included an element relating to compensation for loss of office
