NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 AUGUST 2003

1. **Accounting policies**

These financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents charges to external customers for services provided during the period, and is shown exclusive of Value Added Tax and trade discounts.

Depreciation and diminution in value of assets

Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates:-

Leasehold premises	over the period of the lease
Goodwill	10% per annum straight line
Asset under finance lease	over the period of the lease
Fixtures and fittings	20% per annum straight line
Office equipment	33 1/3% per annum straight line
Instruments	20% per annum straight line
Motor vehicles	25% per annum reducing balance

A full years depreciation is charged in the year of acquisition of an asset but none in the year of disposal.

Stocks

Stocks and work in progress are valued consistently at the lower of cost (on a first in, first out basis) or net realisable value. Cost, where appropriate, includes a proportion of directly attributable overheads.

Debtors

Debtors are shown after providing for any amounts which in the opinion of the directors may not be collected in full.

Deferred taxation

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. In accordance with Financial Reporting Standard No.19, full provision has been made to the extent to which it is considered more likely than not to become payable/recoverable in the foreseeable future and at the rate eventually expected to be charged.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

FOR THE YEAR ENDED 31 AUGUST 2003

Leasing

Leasing rentals payable on agreements which transfer substantially all the risk and rewards associated with ownership of the lessee ("finance leases") are capitalised within fixed assets, and the obligation to pay future rentals included in creditors as a liability. The interest charges implicit in such a lease are written off to the profit and loss account in proportion to the balance outstanding during the year.

All other leasing rentals ("operating leases") are written off to the profit and loss account as incurred.

Goodwill

Goodwill is the difference between the amount paid on the acquisition of a business and the aggregate fair value of its separable net assets. It is being written off in equal annual instalments over its estimated economic life.

Pension costs

The company operates a defined contribution pension scheme and pension contributions are charged to profit and loss account to spread the cost of the pensions over the employees working lives.

Grants received

Grants related to capital expenditure on tangible assets are credited to the profit and loss account at the same rate as the depreciation on the assets to which the grants relate.

2. **Turnover**

Turnover is attributable solely to continuing operations and derives from the activities of music training and consultancy services.
