NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31ST AUGUST 2000

1. Accounting policies

These financial statements have been prepared under the historical cost convention.

Cash flow statement

The company has taken advantage of the exemption contained within Financial Reporting Standard No.1 from the requirement to prepare a cash flow statement on the grounds that it qualifies as a small company as defined by Section 247 of the Companies Act 1985.

Turnover

Turnover represents charges to external customers exclusive of Value Added Tax and trade discounts.

Depreciation of fixed assets

Depreciation has been computed to write off the cost of fixed assets over their expected useful lives at the following rates:-

Leasehold premises	over the period of the lease
Goodwill	10%per annum straight line
Fixtures and fittings	20% per annum straight line
Office equipment	33 1/3% per annum straight line
Instruments	20% per annum straight line
Motor vehicles	25% per annum reducing balance

A full years depreciation is charged in the year of acquisition of an asset but none in the year of disposal.

Stocks

Stocks and work in progress are valued consistently at the lower of cost (on a first in, first out basis) or net realisable value. Cost, where appropriate, includes a proportion of directly attributable overheads.

Debtors

Debtors are shown after providing for any amounts which in the opinion of the directors may not be collected in full.

Deferred taxation

A deferral of corporation tax has arisen due to the different basis on which profits are arrived at for taxation purposes as compared to the basis on which profits are stated in these financial statements. Provision has been made for this taxation to the extent to which it is considered likely to become payable in the foreseeable future and at the rate eventually expected to be charged.
