Directors' report

The directors present their annual report and the audited financial statements (including the auditor's report) for the year ended 30 September 2013

Principal activities and future prospects

The Company is a wholly-owned subsidiary of ITE Group Plc and operates as part of the group's UK division

The Company's principal activities are the organising of international trade exhibitions and conferences. There have not been any significant changes in the Company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

The Company continues to develop the business and to seek opportunities to expand into new markets.

Results and dividends

The results for the year are set out on page 8.

Dividends of £nil (2012: £nil) were paid in the year.

Directors

The directors who held office throughout the year and to the date of this report were as follows:

Russell Taylor
Edward Strachan
Neil Jones

Supplier payment policy

The Company's policy is to agree payment terms with suppliers when entering into each transaction to ensure that suppliers are made aware of the terms of payment and to abide by the terms of payment. At 30 September 2013, trade creditor days amounted to 0 days (2012: 29 days).

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the aptitudes of the applicant concerned. In the event of members of staff becoming disabled, every effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Going Concern

Having considered the risks and uncertainties in the current uncertain economic environment, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts. Further details are set out in note 1.

Subsequent Events

On 1 December 2013, the company acquired the 60% of Scoop International Fashion Ltd, which it did not already own. The acquired business organises Scoop, a high end womenswear fashion exhibition in the UK.

On 3 February 2014, the company acquired 90% of Summit Trade Events Ltd, which it did not already own. The acquired business organises a number of conferences in the Oil & Gas sector in Turkmenistan.

International Trade and Exhibitions (JV) Limited

Directors' report (continued)

Environment

As a media services company, the Company acknowledges that its business has an impact on the environment, albeit relatively minor. The Company does not manufacture or sell any tangible products. The Company actively controls its energy costs and the office and other waste generated by its business.

As a media services business the Company's activities do not directly affect the environment through emissions to air, water or land. The Company's activities, mostly through its customers and suppliers have an impact on waste and natural resources usage through materials used in assembling exhibition stands and participating in the exhibition. Presently, practice in controlling waste at different exhibitions centres varies widely through the different regions in which the Company operates.

Employees

Details of the number of employees and related costs can be found in note 7 to the financial statements.

Auditor

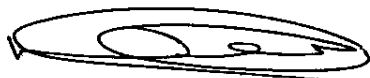

Each of the persons who is a director at the date of approval of this report confirms that

- so far as the director is aware, there is no relevant audit information of which the Company's auditor is unaware, and
- the director has taken all the steps that he/she ought to have taken as a director in order to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006.

Deloitte LLP have expressed their willingness to continue in office as auditor and a resolution to reappoint them will be proposed at the forthcoming Annual General Meeting.

Strategic Report

Key performance indicators and business performance review

The Directors believe that the key performance indicators for the Company are turnover, profit after tax and net assets

The Directors believe that no further measures are necessary or appropriate for an understanding of the development, performance or position of the business

As shown in the Company's profit and loss account on page 7, the Company's sales have increased compared to the prior year at £10.6 million (2012: £8.3 million). The company made a profit after tax of £3.7 million (2012: £5.0 million).

The balance sheet on page 8 of the financial statements shows that the Company has net assets of £6.8 million (2012: net assets of £4.0 million). Details of amounts owed to and from its parent Company and other subsidiary undertakings are shown in notes 13 and 14.

Principal risks and uncertainties

Political uncertainty and regulatory risk

The Company's business is principally carried out in Russia and the CIS. Recent political troubles in Ukraine have impacted the performance of the Group's business in Ukraine, but throughout the period the Group has continued to run its events which are all based on Kiev. The diversity of businesses across sectors and geography provides protection for the longer-term prospects of the Group.

In addition, changes in law or the regulatory environment could have an effect on some or all of the exhibitions of the Group. ITE has reduced the risk by establishing its business as independent Russian, CIS, Turkish or Asian companies fully contributing to the local economy.

Commercial relationships

The Company has key commercial relationships with venues which secure the Company's rights to run its exhibitions in the future. These key relationships are regularly reviewed and the Company seeks to maintain its exhibition rights for at least three years forward for all significant exhibitions.

Venue availability

Damage to a venue making it unavailable for an exhibition could impact upon the Company's short-term trading position. Accordingly the Company carries business interruption insurance policies which protect its profits against such an event in the short term.

Competitor risk

Competition has existed in the Company's markets for some years. The Company faces competitive pressures on a market-by-market basis. Recent increase in venue space available in Moscow has increased the potential for new market entrants in the Moscow exhibition business. In Central Asia, the Company has a strong position in all its markets as the largest international organiser. In Kiev, Ukraine, there are a number of exhibition venues and directly competitive events exist in most of the Company's favoured sectors.

In all of its overseas markets the Company has a strong position as an international organiser achieved through effective use of its international sales network and its established brands for major events. A single exhibition or sector in a market could have its prospects curtailed by a strong competitor launch, however the breadth of the Company's portfolio of events with its geographic and sector diversity reduce the risk of a competitive threat to the Company's overall business.

International Trade and Exhibitions (JV) Limited

Strategic Report (continued)

Principal risks and uncertainties (continued)

Foreign currency and cash flow risk

ITE's business is priced in Euros, Dollars and Sterling. The Company maintains short-term hedging and forward option positions to protect foreseeable 'hard' currency receipts.

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates. The company uses foreign exchange forward contracts to hedge these exposures.

Interest-bearing assets and liabilities are held at fixed rate to ensure certainty of cash flows.

Credit risk

The Company's principal financial assets are bank balances and cash, trade and other receivables and amounts owed by parent and fellow subsidiaries. The Company's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The company has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

Liquidity risk

The company is part of ITE Group Plc. ITE Group Plc and its subsidiaries are committed to provide the necessary level of financial support to the Company to enable it to pay its debts as they become due. ITE Group Plc and its subsidiaries have the necessary financial resources to fulfil that commitment.

Directors' responsibilities statement

The directors are responsible for preparing the annual report and the financial statement in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities

International Trade and Exhibitions (JV) Limited

Independent auditor's report to the members of International Trade and Exhibitions (JV) Limited

We have audited the financial statements of International Trade and Exhibitions (JV) Limited for the year ended 30 September 2013 which comprise the Profit and Loss Account, the Balance Sheet and the related notes 1 to 24. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with chapter 3 of part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 30 September 2013 and of its profit for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

Notes to the accounts

Year ended 30 September 2013

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Companies Act 2006 and applicable United Kingdom accounting standards

The Company has taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from the requirement to produce a cash flow statement on the grounds that it is a wholly-owned subsidiary undertaking and whose parent prepares a group cash flow statement that includes the Company

The company has taken advantage of the exemption from the requirement to prepare consolidated accounts set out in Section 400 of the Companies Act 2006. At 30 September 2013 and 30 September 2012 the company was a wholly-owned subsidiary undertaking of ITE Group plc, a company registered in England and Wales and group accounts have been prepared for that company

Going Concern

In accordance with their responsibilities, the directors have considered the appropriateness of the going concern basis, which has been used in the preparation of these financial statements. The Company's business activities together with the factors likely to affect its future development, performance and position are set out in the Directors' and Strategic report

Performance for the year shows the Company's sales are 28% above prior year at £10.6 million. The Company made a profit after tax of £3.7 million (2012: £5.0 million). The balance sheet on page 9 of the financial statements shows that the Company has net assets of £6.8 million (2012: £4.0 million). Net current liabilities (including cash) are £10.3 million (2012: £6.3 million).

The directors have assessed the financial and operating positions of the company, the net current liabilities on the balance sheet, uncertainties that exist in the current economic climate, along with the support offered to the company from the group and have no reason to doubt the ability of International Trade and Exhibitions (JV) Limited to continue as a going concern.

On the basis of their assessment of the Company's financial position and of the enquiries made of the directors of ITE Group Plc, the Company's directors have a reasonable expectation that the company will be able to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Turnover

Turnover represents amounts receivable for goods and services provided in the normal course of business, net of trade discounts, VAT and other sales-related taxes.

Associates

An associate is an entity over which the company is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control over those policies.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting. Investments in associates are carried in the balance sheet at cost as adjusted by post acquisition changes in the company's share of net assets of the associate, less any impairment in the value of individual investments. Losses of an associate in excess of company's interest in that entity (which includes any long term interests that, in substance, form part of the company's net investment in the associate) are recognised only to the extent that the company has incurred legal or constructive obligations or made payments on behalf of the associate.

International Trade and Exhibitions (JV) Limited

Notes to the accounts

Year ended 30 September 2013

1. Accounting policies (continued)

Revenue and profit recognition

Revenue and profit is recognised on completion of the event. Billings and cash received in advance, and directly attributable costs relating to future events are deferred. The amounts so deferred are included in the balance sheet as deferred event income and prepaid event costs respectively. Losses anticipated at the balance sheet date are provided in full.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Goodwill

Goodwill arising on the acquisition of subsidiary undertakings and businesses, representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight-line basis over its useful economic life, which is up to a maximum of 20 years. Provision is made for any impairment.

Goodwill arising on acquisition in the year ended 30 September 1998 and earlier was written off to reserves in accordance with the accounting standard then in force. As permitted by the current accounting standard the goodwill previously written off to reserves has not been reinstated in the balance sheet. On disposal or closure of a previously acquired business, the attributable amount of goodwill written off to reserves is included in determining the profit or loss on disposal.

Intangible assets

Trademarks are included at cost and depreciated on a straight-line basis over a period of 20 years. Provision is made for any impairment.

Share-based payments

The Company issues equity-settled share-based payments to certain employees. These are measured at fair value (excluding the effect of non-market based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of shares that will eventually vest and adjusted for the effect of non-market based vesting conditions.

Fair value is measured using a Black-Scholes model. The expected life used in the model has been adjusted, for the effects of non-transferability, exercise restrictions and behavioural considerations based on management's best estimate.

Foreign currency

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction or their contractual rate where applicable. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated at the rates of exchange prevailing at that date. Gains and losses arising on the settlement of monetary items are included in profit or loss for the period.

International Trade and Exhibitions (JV) Limited

Notes to the accounts

Year ended 30 September 2013

1. Accounting policies (continued)

Bank borrowings

Bank overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges are accounted for on an accrual basis to profit or loss.

Tangible fixed assets

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment. Depreciation is provided on all tangible fixed assets, other than investment properties, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset on a straight-line basis over its expected useful life, as follows:

Leasehold buildings - 50 years

Plant and equipment - 4 - 10 years

Investments

Fixed asset investments are shown at cost less provision for any impairment.

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis.

Finance costs

Finance costs of financial liabilities are recognised in the profit and loss account over the term of such investment at a constant rate on the carrying amount.

Derivative financial instruments

The Company uses derivative financial instruments to reduce exposure to foreign exchange risk and interest rate movements. The Company does not hold or issue derivative financial instruments for speculative purposes. In accordance with FRS 26, the company is exempt from applying the principles of this standard. However, additional disclosures are made in accordance with FRS 29.

Net deferred tax asset at the end of the year	369	147

Factors affecting future charges

The Finance Act 2013, which provides for a reduction in the main rate of corporation tax from 23% to 21% effective from 1 April 2014, was substantively enacted on 17 July 2013. This rate reduction has been reflected in the calculation of deferred tax at the balance sheet date.

The Government intends to enact future reduction in the main tax rate of 1% down to 20% by 1 April 2015. We estimate that the future rate change to 20% would further reduce our UK deferred tax asset at the balance sheet date from £481,000 to £460,000.

It is expected that the effect of these changes will have an immaterial impact on the amount of deferred tax currently unrecognised.

17. Share-based payments

Share option plans – Equity settled

The Group operates a share option plan for all employees of the Group. Options are exercisable at a price equal to the average quoted market price of the parent company's share on the date of grant. The vesting period is either three or five years and are exercisable up to 10 years from granting. The options are forfeited if the employee leaves the Group before the options vest.

Performance share plans – Equity settled

The Group operated a Performance Share Plan ("PSP") for executives and staff. Awards under the PSP are at an exercise value of either 1p or nil. Awards can be made to an employee over shares up to a maximum of 100% of base salary each year based on market value. The vesting period is three years and the awards are exercisable up to 10 years from the date of grant. The awards are forfeited if the employee leaves the Group before the awards vest. The awards are also subject to a performance target.

18. Contingent liabilities

At 30 September 2013 the Company had no material contingent liabilities (2012 £nil)

19. Derivatives

As at 30 September 2013 the Company has derivatives which are not included at fair value in the accounts

	2013	2013	2012	2012
	£'000	£'000	£'000	£'000
	Nominal	Fair value	Nominal	Fair value
Derivative assets				
Foreign currency forward contracts	21,901	675	81,213	4,215
Derivative liabilities				
Foreign currency forward contracts	39,614	1,083	-	-

The Company utilises currency derivatives to hedge significant highly probable forecast transactions and cash flows. During the year the Company has been party to foreign currency forward contracts in the management of its exchange rate exposures to highly probable forecast Euro currency receipts. The instruments purchased are denominated in Euros.

As at 30 September 2013 the notional amounts of outstanding foreign currency forward contracts that the Company has committed to amounted to £61.5 million. These arrangements are designed to address significant exchange exposures for the next 36 months and are renewed on a revolving basis as required, subject to not committing the Company to less than six months or more than 36 months in the future.

At 30 September 2013, the fair value of these derivatives is estimated to be a liability of approximately £0.4 million (2012 asset of £4.2 million). These amounts are based on market valuations.

The Group has taken out foreign currency overdrafts in Euros and US Dollars to act as a natural hedge against certain currency trade receivable balances. These borrowings have not been designated as hedging instruments by management. All foreign exchange movements on these borrowings and trade receivables are recognised directly in the income statement.
