Directors' report

The Directors present their annual report, together with the audited financial statements for the year ended 30 June 2004.

Principal activities

The principal activity of the company is the design, manufacture and printing of flexible packaging.

Results and dividends

The profit after taxation for the period under review was £8,850,000 (2003: £8,245,000). The directors do not recommend the payment of a dividend (2003: £Nil). The operating results and future prospects are satisfactory.

Business review

On 10 November 2003, the company acquired the entire issued share capital of Amcor Flexibles Winterbourne Ltd (formerly known as Rexam Medical Packaging Ltd).

Directors and directors' interests

The names of the directors appear on page 1.

None of the directors have any notifiable interests in the shares of the company or other group companies.

Creditor payment policy

It is the company policy to pay its suppliers in accordance with the terms of trade, which may be agreed at the time of order. At the period end, the amount owed to trade creditors by the company was equivalent to 41 (2003: 44) days of purchases from suppliers.

Charitable and political contributions

Donations for charitable purposes amounted to £10,080 (2003: £4,076).

Employee involvement

Employees are provided with information on matters of concern to them, principally through the management structure and notice boards. Views of employees are sought as appropriate through the management structure.

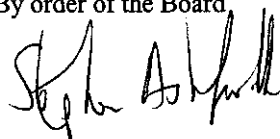

Employment of disabled persons

The company policy recognises the importance of, and provides for, equality of opportunity in all aspects of employment for disabled persons.

Auditors

The company has dispensed with the obligation to appoint auditors annually.

By order of the Board,

SA Ashforth
Secretary

Statement of directors' responsibilities

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Report of the independent auditors to the members of Amcor Flexibles UK Limited

We have audited the financial statements on pages 5 to 24.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

The directors are responsible for preparing the directors' report and, as described on page 3, the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibilities, as independent auditors, are established in the United Kingdom by statute, the Auditing Practices Board and by our profession's ethical guidance.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report to you if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company is not disclosed.

Basis of audit opinion

We conducted our audit in accordance with Auditing Standards issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the company's circumstances, consistently applied and adequately disclosed.

We planned and performed our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Opinion

In our opinion the financial statements give a true and fair view of the state of the company's affairs as at 30 June 2004 and of its profit for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The company's financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules, modified by the revaluation of certain freehold and long leasehold properties.

Under FRS 1, the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

Investments

Investments held as fixed assets are stated at cost less provision for diminution in value.

Turnover

Turnover is stated net of sales taxes and allowances.

Intangible fixed assets

Purchased goodwill (both negative and positive) arising on business combinations in respect of acquisitions before 1 January 1998, when FRS 10 Goodwill and Intangible Assets was adopted, was written off to reserves in the year of acquisition. When a subsequent disposal occurs, any related goodwill previously written off to reserves is written back through the profit and loss account as part of the profit or loss on disposal.

Purchased goodwill (representing the excess of the fair value of the consideration given over the fair value of the separable net assets acquired) arising on business combinations in respect of acquisitions since 1 January 1998 is capitalised. Goodwill is amortised to nil by equal annual instalments over the estimated useful life of 20 years.

Negative goodwill arising on consolidation in respect of acquisitions is included within fixed assets, and released to the profit and loss account in the periods in which the fair values of the non-monetary assets purchased on the same acquisition are recovered, whether through depreciation or sale.

Tangible fixed assets

Freehold and long leasehold property is carried at cost until professionally valued and is then stated as valued at open market value on an existing use basis. The remaining fixed assets are stated at historical cost. In adopting FRS 15, the directors have elected to retain the current valuation and carry this forward as the value to be written off in future.

Depreciation

Depreciation is applied on a straight-line basis over the estimated economic lives of the assets. The rates applied are:

| | |
|---|---------------------|
| Freehold and long leasehold property | 1% |
| Plant | 7% |
| Equipment, including computer equipment | 20% - 33% |
| Short leasehold property | Period of the lease |
| Capitalised R&D | 20% |
| Freehold land is not depreciated. | |

Notes (continued)

1 Accounting policies (continued)

Stocks

Raw materials are valued at the lower of actual cost on a FIFO basis and net realisable value. Work-in-progress and finished goods are stated at the lower of cost and net realisable value. For manufactured stocks, cost comprises material plus direct conversion costs and attributable overheads at normal output levels.

Government grants

Capital based government grants received are included within accruals and deferred income in the balance sheet and credited to the profit and loss account over the estimated useful lives of the assets to which they relate.

Research and development

Research and development expenditure is written off as incurred, except that development expenditure incurred on an individual project is carried forward when its future recoverability can be foreseen with reasonable assurance.

Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Leased assets

The rentals under operating leases are charged to the profit and loss account on a straight-line basis over the lease term.

Assets obtained under finance leases and hire purchase contracts are recorded in the balance sheet as tangible fixed assets and as an obligation to pay future rentals, the interest being charged to the profit and loss account on the annuity method.

Pensions

The company operates both a defined benefit scheme and a defined contribution scheme.

Defined benefit scheme

The cost of providing retirement pensions and related benefits is charged to the profit and loss account over the periods benefiting from the employees' services. The effects of variations from regular cost are spread over the expected average remaining service lives of the members of the scheme. The difference between the charge or credit to the profit and loss account and the contributions paid to the schemes is shown as an asset or liability in the balance sheet. The assets of the scheme are held separately from those of the company.

Defined contribution scheme

The amount charged to the profit and loss account represents the contributions payable to the scheme in respect of the accounting period. The assets of the scheme are held separately from those of the company.

20 Contingent liabilities

The company is party to a cross-guarantee arrangement with its parent company in respect of bank borrowings.

As a member of the Amcor Group for VAT purposes, the company has joint and several liabilities for all amounts due to H.M. Customs & Excise under this arrangement. The group continues to trade profitably and the directors do not foresee the crystallisation of any liability under this arrangement.

21 Pension schemes

Defined benefit scheme

The company operates a defined benefit pension scheme for its UK employees who joined the company before 1 October 2001. Trustees administer the Scheme, and its funds are separate from the company. The fund is valued at least every three years by an independent qualified actuary and the total contributions are paid on the basis of this advice. The last actuarial valuation of the scheme was as at 5 April 2004. The valuation used the projected unit method. The actuarial value of the assets in aggregate was £76.1 million, which represented £13.7 million less than the amount required to secure the accrued benefits calculated on the basis of service to the date of valuation, and projected pensionable earnings.

The principal actuarial assumption used in the valuation was that over the long term the annual rate of return on investments would exceed the annual rate of increase in pensionable remuneration by 2.25%.

The main factors causing the reduction in the funding level since the 2001 valuation are poor investment returns and a change in actuarial assumptions. The Group made special contributions during the year of £2,040,000.

The pension charge for the period of £3,137,000 includes £1,139,000 in respect of the amortisation of experience deficits that are being recognised over 12 years, the average remaining service lives of employees.

There is a prepayment of £4,783,846 in the balance sheet, representing the difference between the amount charged in the profit and loss account and the amount paid into the pension scheme.

Whilst the Group continues to account for pension costs in accordance with the Statement of Standard Accounting Practice 24 Accounting for Pension Costs, under FRS 17 Retirement Benefits the following transitional disclosures are required:

The major assumptions used in the valuation updates were:

| | 30 June 2004 | 30 June 2003 | 30 April 2002 |
|---|--------------|--------------|---------------|
| Rate of increase in salaries | 4.00% | 4.00% | 4.00% |
| Rate of increase in pensions in payment and deferred pensions | 2.50% | 2.50% | 2.50% |
| Discount rate applied to scheme liabilities | 5.50% | 5.50% | 6.00% |
| Inflation assumption | 2.50% | 2.50% | 2.50% |

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice.

The table below sets out the assumed long-term rate of return on the Plan assets. Different rates of return are assumed for the different asset classes; the assumed rates shown are net of expenses.

Scheme assets

The fair value of the scheme's assets, which are not intended to be realised in the short-term and may be subject to significant change before they are realised, and the present value of the scheme's liabilities, which are derived from cashflow projections over long periods and thus inherently uncertain, were:

Defined contribution scheme

For employees who joined the company after 1 October 2001, the company operates a defined contribution scheme, to which it contributes between 4% and 12% of pensionable pay, according to age and seniority.

The pension cost charge for the period represents contributions payable by the company to the scheme, and amounted to £426,000 (2003: £30,000).

There were no outstanding or prepaid contributions at the period-end.
