2 Accounting policies (continued)

Financial instruments

The company recognises financial instruments when it becomes a party to the contractual arrangements of the instrument. Financial instruments are de-recognised when they are discharged or when the contractual terms expire. The Company's accounting policies in respect of financial instrument transactions are explained below:

Financial liabilities

The company classifies all of its financial liabilities as liabilities at amortised cost

At amortised cost

Financial liabilities at amortised cost including bank borrowings are initially recognised at fair value net of transaction costs directly attributable to the issue of the instrument. Such interest bearing liabilities are subsequently measured at amortised cost of using the effective interest rate method, which ensures that any interest expense over the period to repayment is at a constant rate on the liability carried into the Statement of Financial Position.

Payables

Payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

3 Deferred Tax

The deferred tax asset not recognised in the financial statements is as follows:

	2016	2015
	£	£
Tax losses available	149,371	165,969

Tax losses not recognised relate to capital losses and other non-trade losses. A deferred tax asset has not been recognised as the availability of future profits against which these may be used is uncertain.

4 Liabilities: Amounts falling due within one year

	2016	2015
	£	£
Amounts owed to group undertakings	3,209,793	3,209,793

6 Reserves

Reserve	Description and purpose
Share capital	Nominal value of subscribed shares.
Retained earnings	All other net gains and losses and transactions with owners (e.g. dividends) not recognised elsewhere.

7 Controlling party

The ultimate controlling party and largest group financial statements the company is included in is IngreLux S.a.r.l, a company registered in Luxembourg. The company's immediate parent company is Dr Martens Airwair Group Limited (registered in England & Wales). The directors consider Doc Bidco Limited to be the smallest group for which financial statements including the company are drawn up.

Copies of the accounts may be obtained from the Registrar of Companies, Companies House, Crown Way, Cardiff, CF14 3UZ.

8 Transition to FRS

The company adopted FRS 101 with effect from 1 April 2014 (from the now extant UK GAAP). This did not result in any adjustments to the statement of comprehensive income, statement of financial position or statement of changes in equity.
