### STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2015

---

The Directors present their Strategic report for the Company.

#### BUSINESS REVIEW

The principal activity of the Company is that of a radio station. Turnover for the year ended 31 March 2015 amounted to £9,070,000 (31 March 2014: £9,588,000). Turnover is slightly lower than last year in a difficult advertising market. The directors expect the general level of activity to continue at current levels.

The Company had net assets at the end of the year of £3,346,000 (2014: £22,687,000).

#### PRINCIPAL RISKS AND UNCERTAINTIES

The Company is a subsidiary of This is Global Limited Group. From the perspective of the Company, the principal risks and uncertainties are integrated with the principal risks of the Group and are not managed separately. The review of the business of This is Global Limited and its subsidiaries which provide an analysis of the main trends and factors likely to affect the development, performance and position of the business, and a description of the principal risks and uncertainties facing the business can be found in the Group financial statements of This is Global Limited.

##### Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the Company uses intercompany borrowings from other Group companies.

##### Market Risk

The key risk to the business is that an advertising slowdown may put pressure on traditional revenues, and reduce the value of the investments held. The risk is monitored and managed through Group management.

##### Interest rate risk

Interest rate risk arises from intercompany balances that bear interest at a fixed rate. The Directors have reviewed the Company's exposure to interest rates and have concluded that the risk is appropriate in relation to the financial results of the Company.

#### FINANCIAL KEY PERFORMANCE INDICATORS

Given the straightforward nature of the business, the Company's Directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or position of the business. The KPIs for the This is Global Limited Group can be found in the Annual Report of This is Global Limited, which is available to the public.

This report was approved by the board on 30 July 2015 and signed on its behalf.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2015

---

#### 1. ACCOUNTING POLICIES

##### 1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. They have been applied consistently throughout the current and prior year.

##### 1.2 Going concern

The Company's business activities, together with the factors likely to affect its future development and position, are set out in the Strategic Report. The Company participates in the group centralised treasury arrangements and so shares banking arrangements with its parent and fellow subsidiaries.

The This is Global group has prepared detailed forecasts of expected future cash flows for the three years ending 31 March 2018 ("the forecast"). The Board considers the forecast has been prepared on a prudent basis taking into account current consensus forecasts of the radio advertising market. However, the group has also prepared a worse than expected downside scenario. Even under this sensitised scenario, the forecasts indicate that the Company can continue to trade for the foreseeable future and operate within its new facility and the associated financial covenants.

##### 1.3 Cash flow

Under FRS 1, "Cash Flow Statement", the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

##### 1.4 Turnover

Turnover comprises revenue recognised by the Company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

Radio airtime revenue is recognised on the date of broadcast and this is considered to be the only material class of business for the Company in the United Kingdom.

##### 1.5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

|                   |   |                 |
|-------------------|---|-----------------|
| Plant & machinery | - | over 2-10 years |
| Office equipment  | - | over 3-5 years  |

##### 1.6 Operating leases

Rentals under operating leases are charged to the Profit and loss account on a straight line basis over the lease term.

Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2015

---

#### 1. ACCOUNTING POLICIES (continued)

##### 1.7 Taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

#### 2. TURNOVER

The whole of the turnover is attributable to the operation of a commercial radio station broadcasting in the West Midlands and Warwickshire. The radio station trades as 100.7 Heart FM.

All turnover arose within the United Kingdom.

#### 3. AGENCY AGREEMENT

Global Radio Services Limited provided personnel and other services to the Company. The amounts included in 'operating charges' contain a charge for these services of £2,154,180 (2014: £1,882,041).

#### 4. OPERATING PROFIT

The operating profit is stated after charging:

|  | 2015<br>£000 | 2014<br>£000 |
|--|--------------|--------------|
| Depreciation of tangible fixed assets: |              |              |

| Operating lease rentals:               |              |              |
| - other operating leases               | 155          | 334          |

Amounts receivable by the Company's auditor in respect of services to the Company and its associates, other than the audit of the Company's financial statements, have not been disclosed, as the information is required instead to be disclosed on a consolidated basis in the consolidated financial statements of the Company's ultimate parent, This is Global Limited.

The audit fee in respect of the Company was £1,000 (2014: £1,000).

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 MARCH 2015

8. TAXATION (continued)

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2014 - *higher than*) the standard rate of corporation tax in the UK of 21% (2014 - 23%). The differences are explained below:

|  | 2015<br>£000 | 2014<br>£000 |
|--|--------------|--------------|
| Profit on ordinary activities before tax   | 3,622        | 4,478        |
| Profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 21% (2014 - 23%) | 761          | 1,030        |
| Effects of:  |              |              |
| Expenses not deductible for tax purpose  | 9            | 21           |
| Depreciation for year in excess of capital allowances  | 24           | 32           |
| Adjustments to tax charge in respect of prior periods  | 6            | -            |
| Current tax charge for the year (see above)  | 800          | 1,083        |

Factors that may affect future tax charges

On 20 March 2013 the Chancellor announced the reduction in the main rate of UK corporation tax to 21 per cent with effect from 1 April 2014. The Chancellor also proposed changes to further reduce the main rate of corporation tax by one per cent to 20 per cent by 1 April 2015; these changes were substantively enacted on 2 July 2013 and therefore the effect of the rate changes created a reduction in the deferred tax asset which has been included in the figures above. It is estimated that this will not have a material effect on the Company. There are no unrecorded deferred tax assets or liabilities.

On 8 July 2015 the Chancellor announced the reduction in the main rate of UK corporation tax to 19 per cent with effect from 1 April 2017, and to 18 per cent from 1 April 2020. This change has not been substantively enacted, and has not therefore been included in the figures above. The impact of the future rate reductions will be accounted for to the extent that they are enacted at the balance sheet date; however it is estimated that this will not have a material effect on the Company.
