#### NOTES TO THE ACCOUNTS

#### FOR THE YEAR ENDED 31ST MARCH 2000

#### 1 Accounting policies

#### **Basis of accounting**

The accounts have been prepared under the historical cost convention and in accordance with applicable accounting standards, together with the Financial Reporting Standard for Smaller Entities (effective March 2000).

The company has taken advantage of the exemptions in Financial Reporting Standard No. 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

#### Turnover

Turnover comprises the value of sales excluding value added tax and trade discounts.

#### Tangible fixed assets and depreciation

Depreciation is calculated to write down the cost or valuation less estimated residual value of all tangible fixed assets other than freehold land by reducing balance method over their expected useful lives. The rates and periods generally applicable are:

Plant and machinery Motor vehicles Furniture and equipment 20% reducing balance 20% reducing balance 20% reducing balance

#### Stocks

Stocks are stated at the lower of cost and net realisable value.

#### **Deferred taxation**

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors consider that a liability to taxation is unlikely to crystallise.

#### Hire purchase and leased assets

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet at their fair value and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease.

All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.

#### 2 Turnover

The turnover was derived from the company's principal activity which was carried out wholly in the UK.
