## **DIRECTORS' REPORT**

The directors present their annual report and the audited financial statements for the year ended 30 June 2003.

### **PRINCIPAL ACTIVITY**

The principal activity of the company is the holding of an investment in Multitone Electronics Plc, a British manufacturer of specialised radio communication systems for sale and lease.

### **REVIEW OF DEVELOPMENTS AND FUTURE PROSPECTS**

The detailed results for the year ended 30 June 2003 are set out in the consolidated profit and loss account on page 6. Turnover for the year was £16,524,000 (2002: £16,023,000) and the loss on ordinary activities before taxation was £382,000 (2002: £2,706,000). The loss for the financial year to 30 June 2003 after taxation and minority interests was £288,000 (2002: £2,706,000).

The directors are satisfied with the improvements made to the operating performance and anticipate that the group will return to profitability in the year ahead.

### **DIVIDENDS**

The directors do not recommend the payment of a dividend (2002: £nil).

### **DIRECTORS AND THEIR INTERESTS**

The present membership of the board is set out on page 1. All directors served throughout the year.

The directors do not have any interest, beneficial or otherwise, in the share capital of the company. The directors' interests in the share capital of the immediate and ultimate parent companies are disclosed in the financial statements of those companies.

### **RESEARCH AND DEVELOPMENT**

The group continues to invest in research and development at a level which is consistent with available resources. Total spend in the year was £553,000 (2002: £1,837,000) of which £287,000 (2002: £501,000) was capitalised in accordance with the group's accounting policy. The expenditure is expected to continue at the lower level for the foreseeable future.

### **PAYMENTS TO SUPPLIERS**

The group agrees terms and conditions for its business transactions when orders for goods and services are placed, ensuring that suppliers are aware of the terms of payment, and also by including the relevant terms in contracts where appropriate. These arrangements are adhered to when making payments, subject to the terms and conditions being met by the supplier. The number of outstanding creditors days at the year end stood at 49 days (2002: 54 days).

### **DISABLED PERSONS**

The group pursues a policy of providing, wherever possible, the same employment opportunities to disabled persons as to others.

### **EMPLOYEE INVOLVEMENT**

The group places considerable value on the involvement of its employees and has continued its practice of keeping them informed on matters affecting them as employees and on the various factors influencing the performance of the group.

**DIRECTORS' REPORT (continued)**

**DIRECTORS' RESPONSIBILITIES**

United Kingdom company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the group as at the end of the financial year and of the profit or loss of the group for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the group will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

**AUDITORS**

On 1 August 2003, Deloitte & Touche transferred their business to Deloitte & Touche LLP, a limited liability partnership incorporated under the Limited Liability Partnerships Act 2000. The company has given its consent to treating the appointment of Deloitte & Touche as extending to Deloitte & Touche LLP with effect from 1 August 2003 under the provisions of section 26(5) of the Companies Act 1989. Accordingly a resolution for the re-appointment of Deloitte & Touche LLP as auditors will be proposed at the forthcoming Annual General Meeting.

## **INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF KANTONE (UK) LIMITED**

We have audited the financial statements of Kantone (UK) Limited for the year ended 30 June 2003, which comprise the consolidated profit and loss account, the statement of total recognised gains and losses, the reconciliation of movements in consolidated shareholders' deficit, the balance sheets, the consolidated cash flow statement, the reconciliation of net cash flow to movement in net debt and the related notes 1 to 23. These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with section 235 of the Companies Act 1985. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditors**

As described in the statement of directors' responsibilities, the company's directors are responsible for the preparation of the financial statements in accordance with applicable United Kingdom law and accounting standards. Our responsibility is to audit the financial statements in accordance with relevant United Kingdom legal and regulatory requirements and auditing standards.

We report to you our opinion as to whether the financial statements give a true and fair view and are properly prepared in accordance with the Companies Act 1985. We also report if, in our opinion, the directors' report is not consistent with the financial statements, if the company has not kept proper accounting records, if we have not received all the information and explanations we require for our audit, or if information specified by law regarding directors' remuneration and transactions with the company and other members of the group is not disclosed.

We read the directors' report for the above year and consider the implications for our report if we become aware of any apparent misstatements.

### **Basis of audit opinion**

We conducted our audit in accordance with United Kingdom auditing standards issued by the Auditing Practices Board, except that the scope of our work was limited as explained below. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. It also includes an assessment of the significant estimates and judgements made by the directors in the preparation of the financial statements, and of whether the accounting policies are appropriate to the circumstances of the company and the group, consistently applied and adequately disclosed.

We planned our audit so as to obtain all the information and explanations which we considered necessary in order to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or other irregularity or error.

However, the evidence available to us was limited in relation to the appropriateness of the carrying value of the investment in Multitone Electronics Plc. Under Financial Reporting Standard no. 11, 'Impairment of fixed assets and goodwill', an impairment review is required to be performed on the investment in Multitone Electronics Plc, with a book value of £22,395,000, as there are indications that the carrying amount of this fixed asset investment may not be recoverable. These indications relate to the subsidiary's net loss for the financial year of £288,000 and its net liabilities of £260,000 at 30 June 2003. The directors of Kantone (UK) Limited have not performed such a review for impairment. In the absence of an impairment review, there were no other satisfactory procedures that we could adopt to determine the appropriateness of the carrying value of the investment. Any adjustment to this figure would have a consequential effect on the loss for the year.

In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

**Qualified opinion arising from limitation in audit scope**

Except for any adjustments to the financial statements that might have been found to be necessary had we been able to obtain sufficient evidence concerning the carrying value of the above mentioned subsidiary in the company's balance sheet, in our opinion, the financial statements give a true and fair view of the state of affairs of the company and the group as at 30 June 2003 and of the loss of the group for the year then ended and have been properly prepared in accordance with the Companies Act 1985.

In respect alone of the limitation on our work relating to investments held in the company's balance sheet, we have not obtained all the information and explanations that we considered necessary for the purposes of our audit.

**NOTES TO THE ACCOUNTS**  
**Year ended 30 June 2003****1. ACCOUNTING POLICIES**

The financial statements are prepared in accordance with applicable United Kingdom accounting standards. The particular accounting policies adopted are described below.

**Accounting convention and basis of preparation**

The financial statements are prepared under the historical cost convention as modified by the revaluation of certain fixed assets and on a going concern basis. The directors consider this basis to be appropriate in the light of confirmation received from the group's parent undertaking, Kantone Holdings Limited, that it will continue to provide adequate financial support to enable the company and the group to continue as an ongoing business.

**Basis of consolidation**

The group financial statements consolidate the financial statements of Kantone (UK) Limited and all of its subsidiaries. The results of subsidiaries acquired or disposed of in the year are included in the consolidated profit and loss account from the date of acquisition or up to the date of disposal.

No profit and loss account is presented for Kantone (UK) Limited as provided by Section 230 of the Companies Act 1985. Included in the consolidated loss for the financial year is a result of £nil (2002: £nil) which was attributable to the shareholders of Kantone (UK) Limited (see note 17).

**Foreign currencies**

In the financial statements of individual companies, transactions denominated in foreign currencies are translated into sterling using the actual exchange rate ruling at the date of each transaction. Monetary assets and liabilities denominated in foreign currencies at the year end are translated at the rates of exchange prevailing at the year end or, where appropriate, at the rate of exchange in related forward exchange contracts. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is included as a translation gain or loss in the profit and loss account. For the purposes of consolidation the closing rate method is used, under which translation gains or losses are shown as a movement on reserves.

**Turnover**

Turnover principally comprises the invoiced value of goods and services supplied by group companies to third parties and in addition the group makes sales under finance lease terms and receives rental income from equipment hire. Amounts recoverable in respect of finance lease sales are included in the balance sheet on the basis of the net investment in finance leases.

Where the group is engaged in the supply of goods and services under contracts which in total may exceed one year in duration, turnover comprises the invoiced value of work carried out to the accounting date. To the extent that the billings are recorded in advance of the relevant turnover, these are included in deferred income. Turnover is exclusive of VAT and relevant sales taxes and after elimination of all intercompany transactions, and is net of returns, trade discounts and allowances.

Rental income from equipment hire is recognised on a straight line basis over the life of the lease. Interest receivable under finance leases is recognised in the profit and loss account on a sum of the digits basis.

**Pension costs**

In the United Kingdom the group operates a defined benefit pension scheme. Pension costs comprise the regular pension cost less the amortisation of any pension surplus and other pension cost variations, as advised by external actuaries (see note 5). Contributions to the scheme are charged to the profit and loss account so as to spread the cost of pensions over employees' working lives with the group. Contributions are made to some employees' own pension schemes and are accounted for as paid.

**Product warranties**

Provision is made for the anticipated cost of expected claims against product warranties on products sold in the year.

## NOTES TO THE ACCOUNTS

### Year ended 30 June 2003

#### 1. ACCOUNTING POLICIES (continued)

##### Tangible fixed assets

Land and buildings are shown at original historical cost or at a subsequent revaluation. Other fixed assets are shown at cost. Equipment on hire is leased to customers under operating lease rental contracts for terms ranging from five to ten years. The equipment is initially recorded in fixed assets at the total cost incurred in bringing the equipment to the point of rental. This includes direct manufacturing costs, installation costs plus an allocation of selling and administration costs.

Depreciation is provided at rates calculated to write off the cost or valuation of each asset on a straight line basis over its expected useful life, as follows:

Freehold land	No depreciation
Freehold buildings	50 years
Long leasehold	50 years
Equipment on hire	The term of each contract
Plant and equipment	3-10 years

##### Investments

Fixed asset investments are shown at cost less provision for any impairment in value.

##### Leases

The group enters into operating and finance leases.

Assets held under finance leases are initially recorded at the fair value of the asset with an equivalent liability categorised as appropriate under creditors due within or after one year. The asset is depreciated over its useful economic life, which in practice is the lease term. Finance charges are allocated to accounting periods over the period of the lease to produce a constant rate of return on the outstanding balance. Rentals are apportioned between finance charges and reduction of the liability and allocated to cost of sales and other operating expenses as appropriate.

Rentals under operating leases are charged to the profit and loss account on a straight line basis over the lease term.

##### Stocks

Stocks, including work in progress, are valued at the lower of cost and net realisable value. Cost comprises prime costs of materials and direct labour together with a share of overhead expenses relating to manufacture.

Net realisable value is based on estimated selling price, less further costs to be incurred to completion and disposal. Provision is made for obsolete, slow moving or defective items where appropriate.

##### Research and development

All expenditure on research and development is written off as incurred except for the cost of producing software, pre-production prototypes and test equipment for new products, including associated labour costs, which is included within tangible fixed assets. Such assets are amortised over their estimated useful life up to a maximum of five years, subject to any provision for impairment. No book value is attributable to patents.

## NOTES TO THE ACCOUNTS

### Year ended 30 June 2003

#### 1. ACCOUNTING POLICIES (continued)

##### Deferred taxation

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no binding contract to dispose of these assets. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

##### Revaluation reserve

Surpluses arising on the revaluation of individual tangible fixed assets are credited to the revaluation reserve (see note 17) which is a non-distributable reserve. Where depreciation charges are increased following a revaluation, an amount equal to such increase is transferred annually from this reserve to the profit and loss account. On the disposal of a revalued fixed asset any remaining revaluation surplus corresponding to the item is also transferred to the profit and loss account.

#### 2. TURNOVER

Total turnover	16,524	16,023

All the group's turnover arises from its principal activity of providing specialised radio communication systems for sale and lease.

The results and net assets by geographical market have not been disclosed as the directors consider this would be seriously prejudicial to the commercial interests of the group.

Sales in respect of finance leases and rental agreements included in turnover above are as follows:

	2003 £'000	2002 £'000
Finance lease sales	1,062	831
Income from equipment hire	1,963	2,363
	3,025	3,194

Assets acquired in the year for the purpose of sale under finance leases totalled £1,062,000 (2002: £831,000).

### 5. STAFF COSTS (continued)

	2003 No.	2002 No.
The average number of persons employed by the group during the year was:		
Development and manufacture	114	128
Sales and service	106	113
Administration	49	58
	<hr/> 269	<hr/> 299
United Kingdom	161	185
Overseas	108	114
	<hr/> 269	<hr/> 299

Kantone (UK) Limited had no employees and the directors received no remuneration from the company in either year.

The aggregate amount of compensation paid by the group to directors in respect of loss of office during the year was £36,345 (2002: £nil).

#### Pensions arrangements

The pension cost figures used in these accounts comply with the current accounting standard SSAP 24 *Accounting for pension costs*. Accounting Standard FRS 17 *Retirement benefits*, has been issued with transitional requirements applying this year.

In the United Kingdom, the group operates a self-administered, funded pension scheme, which is contracted out of the state pension scheme. The scheme provides defined pension benefits related to service, final earnings and capital sums on death. Membership is optional for all staff paid monthly and aged over 21 years.

The group also operates an insured scheme in an overseas company for certain senior management of that company. The liability of the group at the year end in respect of this pension scheme was £209,000 (2002: £186,000) (note 13).

#### SSAP 24 *Accounting for pension costs*

Contributions to the scheme are charged to the profit and loss account so as to spread the cost of pensions over employees' working lives with the group. The contributions are determined by a qualified actuary on the basis of triennial valuations using the projected unit method. The most recent valuation was at 1 January 2002.

The assumptions which have the most significant effect on the results of the valuation are those relating to the rate of return on investments and the rates of increase in salaries, and pensions. It was assumed that the investment returns would be 7.25% per annum pre-retirement and 5.75% per annum post-retirement, that the guaranteed minimum pensions accruing would increase at the rate of 3.5% per annum, and that price inflation would average 2.5% per annum.

The most recent actuarial valuation showed that the market value of the scheme's assets were £14,460,000 and that the actuarial value of these assets represented 89% of the benefits that had accrued to members. The shortfall of £1,773,000 is being spread over the remaining estimated service period of the current membership of 11 years.

The pension charge for the year for the scheme was £459,000 (2002: £372,000).

Since 1 January 2002, the market value of the scheme's assets has declined. Any further impact will be reflected in the next SSAP 24 triennial valuation as at 1 January 2005 based upon which subsequent pension costs will be determined until the adoption of FRS17.

#### FRS 17 Retirement benefits

Under the transitional arrangements of FRS 17, the group is required to disclose the following information about the scheme and the figures that would have been shown in the group balance sheet if FRS 17 applied in full today.

The actuarial valuation carried out as at 1 January 2002 was updated to 30 June 2003 using the different principles which apply for FRS 17 in order to provide the disclosures given below.

The total assets and liabilities of the scheme and the expected rates of return at 30 June were:

	2003 Long term rate of return expected	2003 Value £'000	2002 Long term rate of return expected	2002 Value £'000
Equities	7.25%	9,491	7.25%	10,882
Bonds	4.50%	2,160	4.75%	2,647
Other	4.50%	630	4.75%	-
Total market value of assets		12,281		13,529
Present value of scheme liabilities		(20,704)		(19,551)
Deficit in scheme		(8,423)		(6,022)
Related deferred tax asset		2,527		1,807
Net pension liability		(5,896)		(4,215)

If the above pension liability were recognised in the financial statements at 30 June, the group's profit and loss reserve would be as follows:

	2003 £'000	2002 £'000
Profit and loss reserve excluding pension liability deficiency	(6,438)	(6,184)
Net pension liability	(5,896)	(4,215)
Profit and loss reserve deficiency	(12,334)	(10,399)

The figures shown above were calculated on the basis of the following assumptions:

	2003	2002
Discount rate	5.25%	5.75%
Rate of increase in salaries	3.50%	4.25%
Rate of increase in pensions in payment	2.50%	2.75%
Inflation assumption	2.50%	2.75%

The agreed contribution rate for future years is 17.3%.

### 7. TAX ON LOSS ON ORDINARY ACTIVITIES

#### Analysis of tax credit on ordinary activities

<b>Current tax</b>		
Foreign tax	(31)	(10)
Adjustment in respect of prior periods	-	18
Total current tax	(31)	8
<b>Deferred tax</b>		
Timing differences, origination and reversal	(4)	-
Adjustment to the estimated recoverable amounts of deferred tax assets arising in previous periods	138	-
Total tax credit for the year	103	8

#### Factors affecting the tax credit for the current period

The tax assessed for the year is lower than that resulting from applying the standard rate of corporation tax in the UK of 30% (2002: 30%). The differences are explained below:

	2003 %	2002 %
Standard tax rate for the year as a percentage of losses	30	30
Expenses not deductible for tax purposes	(25)	(1)
Capital allowances in excess of depreciation	55	7
Utilisation of tax losses	(59)	(36)
Movement in short term timing differences	20	(1)
Other deferred tax movements	4	2
Overseas tax rate	3	-
Prior year adjustments	(36)	(1)
Current tax rate for the year as a percentage of losses	(8)	-

#### Factors that may affect future tax charges for the group

Deferred tax has not been provided on revaluations of fixed assets. This tax will only become payable if the assets are sold and rollover relief is not obtained. The estimated amount of tax that would become payable in these circumstances is £142,000 (2002: £154,000).

Save as noted above, a deferred tax asset has not been recognised in respect of timing differences relating to trading losses and depreciation in excess of capital allowances as it is expected that it will take some time for tax losses to be relieved and for the asset to be recovered. The amount of the asset not recognised is £2,768,000 (2002: £2,545,000). The asset would be recovered if future taxable profits were available against which the losses could be relieved.

A deferred tax asset to the sum of £1,332,000 (2002: £1,332,000) has not been recognised in respect of capital losses. The asset would be recovered if future gains arise on the sale of chargeable assets.

Plant and equipment includes labour and overhead costs with a net book value of £1,142,000 (2002: £1,670,000) incurred in respect of producing software, pre-production prototypes and test equipment for new products.

Equipment on hire is sold by Multitone Electronics Plc to its subsidiary, Multitone Rentals Limited, and the estimated unrealised profit on sale is eliminated on consolidation.

**The net book value of land and buildings comprises:**

Freehold land and buildings	1,445	1,485
Long leasehold land and buildings	89	92
	<u>1,534</u>	<u>1,577</u>

Land and buildings are held at a valuation. The group's freehold properties in the United Kingdom were revalued in June 2002 on the basis of open market value for existing use, by Woodford and Company, Chartered Surveyors who are external to the group. In their opinion, the open market value of the properties at that time was £1,485,000. This compared with an existing net book value of £1,096,000. The directors do not believe that there has been a material change in value in the year.

**14. BORROWINGS (continued)**

**Other loans**

Other loans comprise a block discounting facility and a loan facility from a finance house. The loans are secured on current and future receivables under fixed asset rental agreements and finance lease sale agreements. A parent company guarantee has also been given in respect of the loans. The interest rate payable on the other loans ranges from 7.5% to 8.5%.

In June 1999, the group entered into a mortgage agreement in order to purchase the freehold property from which it now operates. The mortgage is over a ten year term and interest is payable at a rate of 1.75% over bank base rate. The mortgage is secured on the property and by way of a guarantee from the parent company. The mortgage has been classified as 'other loans'.
