Strategic Report for the year ended 31 March 2017

Introduction

The directors present their strategic report of ABSL Power Solutions Ltd for the year ended 31 March 2017.

Principal activities

The principal activity of the Company is the supply of integrated power systems. The business researches, designs and manufactures battery packs for highly demanding markets specifically space.

Operating and financial review

In the year ended 31 March 2017 ABSL Power Solutions Limited built on the performance of the year ended 31 March 2016 to maintain and improve the profitable operation of the company. The business progresses in securing opportunities for the company moving forward in the global space battery market.

Principal risks and uncertainties

The Company's customers are principally governments, their agencies and inter-governmental agencies in Europe and the United States. A severe curtailment of government spending could impact orders for the Company's products and consequently its turnover and profitability. The Directors consider that, whilst the Company cannot be immune from such pressures, the specialist markets it serves are less likely to be severely impacted by budget cuts.

The Company develops and sells products which the Directors consider are technically very advanced. Inherent in any company that relies on developing new products exploiting advanced technologies, is the risk that a new product does not achieve its anticipated performance and consequently does not justify the investment that has been made to bring it to market.

Future developments

The business is continuing to explore new cell technologies for its products as customer demands for greater flexibility and enhanced power capabilities. This business will also explore the potential to collaborate on product development utilising the capabilities of the broader EnerSys organisation and look for opportunities beyond the aerospace and defence markets, which have been the traditional mainstay of the business.

Key performance indicators

Given the straightforward nature of the business, the directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development performance or position of the business.

This report was approved by the board on 200 December 2017 and issued on its behalf

Directors' report for the year ended 31 March 2017

Introduction

The directors present their annual report and the audited financial statements of ABSL Power Solutions Ltd ("the Company") for the year ended 31 March 2017. The Company's registered number is 02840892.

Results and dividends

The profit for the financial year amounted to £1.1m (2016: £0.8m).

No interim dividend was paid during the year (2016: £nil). The directors do not recommend payment of a final dividend (2016: £nil).

Research and development

Research and development expenditure amounted to £nil (2016: £nil).

Environmental safety and health

The directors take their responsibility in this area seriously and have in place appropriate reporting procedures which ensure that all incidents are notified and actions reviewed. The RoHS, WEEE and COSHH directives are all complied with. Where qualified exemptions exist, in respect of batteries, the Company is working with its suppliers to meet the requirements ahead of time.

Financial risk management

IFRS 7 Financial instruments: disclosures, requires disclosure on financial risk management in the financial statements and accordingly this is presented in note 3, of these financial statements. On this basis no discussion of financial risk management is made in the directors' report.

Directors

The directors who held office during the year and up to the date of signing the financial statements are listed on page 2.

Creditor payment policy

The company's policy is to agree terms of trading which are appropriate for suppliers' markets and to abide by such terms where suppliers' obligations have been met.

The average creditor payment period at 31 March 2017 was 27 days (2016: 27 days).

Political donations and political expenditure

The Company made no political donations and incurred no political expenditure during 2017 (2016: £nil).

Charitable donations

The Company made no charitable donations during 2017 (2016: £nil).

Directors' report for the year ended 31 March 2017 (continued)

Statement of directors' responsibilities

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditors and disclosure of information to auditors

So far as the directors are aware, there is no relevant audit information of which the company's auditors are unaware; and each of the directors believes that they have taken all the steps that ought to have been taken as a director in order to make them aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Auditors

A resolution to re-appoint Ernst & Young LLP as auditors will be put to the members at the Annual General Meeting.

By order of the Board

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ABSL POWER SOLUTIONS LTD.

We have audited the financial statements of ABSL Power Solutions Ltd for the year ended 31 March 2017 which comprise the Statement of Comprehensive Income, the Statement of changes in Equity, the Statement of financial position and the related notes 1 to 19. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 101 'Reduced Disclosure Framework'.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Strategic report and the Directors' report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31st March 2017 and
 of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 'Reduced Disclosure Framework'; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ABSL POWER SOLUTIONS LTD. (continued)

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.
- the Strategic Report and the Directors' Report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have identified no material misstatements in the Strategic Report or Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Accounting policies

1 General information

AUTHORISATION OF FINANCIAL STATEMENTS AND STATEMENT OF COMPLIANCE WITH FRS 101

ABSL Power Solutions Limited ("the Company") is a limited company incorporated and domiciled in the United Kingdom. The address of its registered office and principal place of business is

Building F4 Culham Science Centre Abingdon Oxfordshire United Kingdom OX14 3ED

The financial statements of the Company for the year ended 31 March 2017 were authorised for issue in accordance with a resolution of the directors on 22nd December 2017.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101) and in accordance with applicable accounting standards. The financial statements are prepared under the historical cost convention.

The Company's financial statements are presented in Sterling, which is also the Company's functional currency, and all values are rounded to the nearest thousand pounds (£'000) except when otherwise indicated. The Company's financial statements are individual entity financial statements.

The principal accounting policies adopted by the Company are set out in note 2 below.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied.

2.1 Financial reporting standard 101 - reduced disclosure exemptions

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- a) the requirements of IFRS 7 Financial Instruments: Disclosures;
- b) the requirement in paragraph 38 of IAS 1 *Presentation of Financial Statements* ('IAS 1') to present comparative information in respect of:
 - (i) paragraph 79(a)(iv) of IAS 1 Presentation of financial statements;
 - (ii) paragraph 73(e) of IAS 16 Property, Plant and Equipment;
 - (iii) paragraph 118(e) of IAS 38 Intangible Assets; and
 - (iv) paragraphs 76 and 79(d) of IAS 40 Investment Property;
- (g) the requirements of paragraphs 10(d), 10(f), 39(c) and 134-136 of IAS 1 Presentation of Financial statements;
- (h) the requirements of IAS 7 Statement of Cash Flows;
- (i) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors;
- (j) the requirements of paragraph 17 of IAS 24 Related Party Disclosures ('IAS 24');

Accounting policies

2 Summary of significant accounting policies (continued)

(k) the requirements in IAS 24 to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;

2.2 Key judgements and sources of estimation uncertainty

The preparation of financial statements requires management to make assumptions, estimates and judgements that affect the amounts reported as assets and liabilities as at the balance sheet date and the amounts reported as revenues and expenses during the year. Use of available information and application of judgement are inherent in the formation of estimates. Actual results in the future may differ from those reported.

Going concern basis of accounting

In the year to 31 March 2017 the company made a profit of £1.1m.

The company has met its day to day working capital requirements and has the provision of working capital facilities supported by its parent company, EnerSys Holdings UK Ltd. The directors of that company have confirmed to the directors of ABSL Power Solutions Limited that they will continue to provide financial support to the company for the foreseeable future.

In the light of the information currently available to them, the directors believe that the company's parent company will support it in providing adequate funds to meet its day to day obligations. On this basis, the directors consider it appropriate to prepare the financial statements on a going concern basis.

Revenue recognition

Revenue, which excludes value added tax and trade discounts, represents the fair value of services supplied and the value of long-term contract work completed.

Leases

Leases of property, plant and equipment where the Company has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term.

Leases where the lessor retains a significant portion of the risks and rewards of ownership are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Accounting policies

2 Summary of significant accounting policies (continued)

Foreign currency translation

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

Property plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance expenditures are charged to the income statement during the financial period in which they are incurred.

Depreciation is calculated using the straight-line method to allocate the cost of each asset to its residual value over its estimated useful life as follows:

Leasehold improvements 20% straight line Furniture and fixtures 20% straight line

Computer equipment 33% to 50% straight line Plant and equipment 10% to 20% straight line

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains and losses on disposals are determined by comparing the disposal proceeds with the carrying amount and are included in the income statement.

Intangible assets

Research and development

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects relating to developing new integrated power systems are recognised as intangible assets when it is probable that the project will be a success, considering its commercial and technological feasibility, and costs can be measured reliably. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Development costs that have a finite useful life that have been capitalised are amortised from the commencement of the commercial production of the product on a straight-line basis over the period of its expected benefit, not exceeding ten years.

Computer software

Acquired computer software licences are capitalised on the basis of costs incurred to acquire and bring to use the specific software. These costs are amortised using the straight-line method over their estimated useful lives of three to five years.

Accounting policies

2 Summary of significant accounting policies (continued)

Impairment of fixed tangible assets and intangible assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

Inventories and work in progress

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first in, first out (FIFO) method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Work in progress is valued at cost, less the cost of work invoiced on incomplete contracts and less foreseeable losses.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement.

Trade payables

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

Employee benefits

The Company operates a defined contribution plan for which the Company pays contributions to privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Share capital and share premium

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Accounting policies

2 Summary of significant accounting policies (continued)

Current and deferred income tax

The tax expense represents the sum of current tax and deferred tax.

Current tax

The tax payable is based on the taxable profit for the year. Taxable profit differs from pre-tax profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss, it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

Borrowings

Borrowings are recognised upon origination at fair value of the sums paid or received in exchange for the liability, and subsequently measured at amortised cost using the effective interest method. Interest free payables are booked at their nominal value.

3 Financial risk management

Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (primarily currency risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

(a) Market risk

(i) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from various currency exposures, predominantly with the Eurozone as a proportion of the company's sales are to customers in those countries. During the year, net transactions in currencies other than GBP amounted to approximately £3.6m. (2016: £2.7m), If the currencies above had weakened/strengthened by 10% against the GBP with all other variables held constant, the post-tax profit for the year would have been approximately £0.4m higher/lower.

Accounting policies

3 Financial risk management (Continued)

(ii) Cash flow and fair value interest rate risk

The Company has interest bearing liabilities. Short and medium term financing requirements are provided by a current account arrangement with EnerSys Luxembourg Finance Sarl. The balance owed to which was £3.8m as at 31 March 2017 (2016: £5.5m). These borrowings currently bear interest at a rate of 3.0% per annum (2016: 3.0%).

The Company has made a long term loan to EnerSys Luxembourg Finance Sarl with a balance of £4,750,000 at 31st March 2017 (2016 £4,750,000). The accrued interest on the borrowing at 31st March 2017 owed by EnerSys Luxembourg Finance Sarl was £1,001,144 (2016, owed by EnerSys Luxembourg Finance Sarl, £864,667)

As such, management consider that the Company is not significantly exposed to foreign exchange, cash flow and fair value interest rate risk.

(b) Credit risk

Credit risk arises from cash and cash equivalents, and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with a minimum rating of "A" are accepted. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, the credit quality of the customer is assessed taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by management. Management monitors the utilisation of credit limits regularly.

(c) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in raising funds to meet its cash commitments as they fall due. Liquidity risk may result from either the inability to realise financial assets quickly at their fair values or from the inability to generate cash inflows as anticipated. Management monitors rolling forecasts of the Company's liquidity reserve and cash and cash equivalents on the basis of expected cash flow.

Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders. The Company have focused on maximising shareholder value.

Notes to the financial statements for the year ended 31 March 2017

4 Analysis of Turnover

At 31 March 2017, the Company is organised on a worldwide basis into four main geographical segments. A geographical analysis of turnover is as follows:

	2017	2016
	£'000	£'000
United Kingdom	212	1,713
Europe	5,127	3,734
North America	330	417
Rest of the world	297	74
Total	5,966	5,938

5 Profit before income tax

The following is the disclosure of expenses by nature:

	Notes	2017	2016
		£'000	£,000
Employee benefit expense	17	2,403	2,328
Depreciation of property, plant and equipment	9	121	159
Amortisation of intangibles	8	8	32
Costs of inventories included in cost of sales		606	452
Advertising costs		28	13
Occupancy costs		248	233
Other expenses		1,717	1,924
Total cost of sales, selling and distribution costs, research and development expense and administrative expenses		5,131	5,141

Services provided by the Company's auditors and network of firms

During the period the Company obtained the following services from the Company's auditors at costs as detailed below:

	2017	2016
	£'000	£'000
Audit services		
- statutory audit of company	30	29

Notes to the financial statements for the year ended 31 March 2017 (continued)

6 Total net interest (receivable) / payable and similar charges

	2017	2016
·	£'000	£'000
Interest receivable on loan to parent company	(162)	(171)
Interest payable on loan from previous parent company	76	92

The useful economic life for development costs is considered by the directors to be five years, except where it is known that likely future economic benefits from these development costs are less than five years. In such cases, the useful economic life is considered to be the period over which future economic benefits are anticipated to be recognised.

There were no executives who acted as a director during the year (2016: nil) and were a member of ABSL's Company personal pension scheme. The scheme is a funded scheme of the defined contribution type.

Notes to the financial statements for the year ended 31 March 2017 (continued)

16 Pension costs

The Company has established a pension scheme covering many of its employees. The scheme is a funded scheme of the defined contribution type.

Pension costs for the defined contributions scheme are as follows:

	2017	2016
	£'000	£'000
Defined contribution schemes	81	79

17 Operating lease commitments - minimum lease payments

At 31 March 2017 the Company has lease agreements in respect of properties, plant and equipment, for which the payments extend over a number of years.

	2017 £'000		2016 £'000	
Future minimum lease payments within the following periods	Properties	Plant & equipment	Properties	Plant & equipment
Within one year	160	6	165	6
Later than one year and less than five years	640	12	-	18
Total	800	18	165	24

The property lease above was signed in May 2017 and has been included above for completeness. The new lease commences directly after the end of the previous lease with no break in tenancy.

18 Capital commitments and contingent liabilities

At 31 March 2017, the following guarantees were in place in relation to the Company's operations:

2017 £'000	2016 £'000
350	350
50	50
400	400
	£'000 350 50

No economic outflow is expected as a result of these contingencies.
