**1 Accounting policies****Basis of accounting**

The financial statements have been prepared under the historical cost accounting rules.

The company has taken advantage of the exemption from preparing a cash flow statement conferred by Financial Reporting Standard No. 1 on the grounds that it qualifies as a small company under the Companies Act 1985.

**Turnover**

Turnover represents the amount derived from the provision of goods and services falling within the company's activities after deduction of trade discounts and value added tax.

**Depreciation**

Depreciation of fixed assets is calculated to write off their cost or valuation less any residual value over their estimated useful lives as follows:

Plant and machinery	10% on written down value
Motor vehicles	25% on written down value

**Leases and hire purchase contracts**

Tangible fixed assets acquired under finance leases and hire purchase contracts are capitalised at the estimated fair value at the date of inception of each lease or contract. The total finance charges are allocated over the period of the lease in such a way as to give a reasonably constant charge on the outstanding liability.

**Deferred taxation**

Deferred taxation is provided on the liability method in respect of the taxation effect of all timing differences to the extent that tax liabilities are likely to crystallise in the foreseeable future.
