GALAXY RADIO MANCHESTER LIMITED

STRATEGIC REPORT

FOR THE YEAR ENDED 31 MARCH 2021

Introduction

The Directors present their Strategic report for Galaxy Radio Manchester Limited (the "Company").

The Directors, in preparing this strategic report, have complied with section 414C of the Companies Act 2006. It has been prepared solely to provide the shareholders with information to assess how directors have performed their duty to promote the success of the Company for the year ended 31 March 2021.

Business review

The principal activity of the Company, a subsidiary of the Global Media & Entertainment Limited group ('the Group'), is unchanged from last year and is the production and transmission of radio programmes and the sale of radio advertising and sponsorship.

Turnover for the year ended 31 March 2021 amounted to £3,971,000 (2020: £4,682,000).

Principal risks and uncertainties

The Company is a subsidiary of Global Media & Entertainment Limited Group, limited by shares. From the perspective of the Company, the principal risks and uncertainties are integrated with the principal risks of the Group and are not managed separately. The review of the business of Global Media & Entertainment Limited and its subsidiaries, which provides an analysis of the main trends and factors likely to affect the development, performance and position of the business, and a description of the principal risks and uncertainties facing the business, can be found in the Group financial statements of Global Media & Entertainment Limited.

Liquidity risk

In order to maintain liquidity to ensure that sufficient funds are available for ongoing operations and future developments, the Company uses intercompany borrowings from other Group companies.

Market Risk

The key risk to the business is that an advertising slowdown may put pressure on traditional revenues, and reduce the value of the investments held. The risk is monitored and managed through Group management.

Interest rate risk

Interest rate risk arises from intercompany balances that bear interest at a fixed rate. The Directors have reviewed the Company's exposure to interest rates and have concluded that the risk is appropriate in relation to the financial results of the Company.

Financial key performance indicators

Given the straightforward nature of the business, the Company's Directors are of the opinion that analysis using KPIs is not necessary for an understanding of the development, performance or position of the business. The KPIs for the Global Media & Entertainment Limited Group can be found in the Annual Report of Global Media & Entertainment Limited, which is available to the public.

This report was approved by the board on 6 December 2021 and signed on its behalf.

2. Accounting policies (continued)

2.2 Financial reporting standard 101 - reduced disclosure exemptions (continued)

New accounting standards

The following new standards, amendments to standards and interpretations issued by the International Accounting Standards Board ("IASB") became effective during the year ended 31 March 2021. The accounting policies adopted in the presentation of these financial statements reflect the adoption of the following new standards, amendments to standards and interpretations as of 1 April 2020. The adoption of these standards has not materially impacted the Company's earnings, Balance Sheet, or introduced additional disclosure requirements:

- Amendments to IAS 1 and IAS 8: Definition of Material

2.3 Exemption from preparing consolidated financial statements

The Company is a parent Company that is also a subsidiary included in the consolidated financial statements of its immediate parent undertaking established under the law of an EEA state and is therefore exempt from the requirement to prepare consolidated financial statements under section 400 of the Companies Act 2006.

2.4 Going concern

The financial statements have been prepared using the going concern basis of accounting. The Company's business activities, together with the factors likely to affect its future development and position, are set out in the Business Review section of the Strategic report on page 1. The Company participates in the group centralised treasury arrangements and so shares banking arrangements with its parent and fellow subsidiaries.

2. Accounting policies (continued)

2.5 Revenue

Revenue recognition is based on the satisfaction of performance obligations, and an assessment of when control is transferred to the customer. The transaction price is allocated to these identified performance obligations, including an estimate of any variable consideration, and stated net of any sales taxes, agency commissions and trade discounts.

Under IFRS 15, the Company must evaluate whether the goods or services are transferred over time or at a point in time for each performance obligation.

A summary of how the key classes of revenue are recognised is provided below:

Radio advertising	Point in time, at date of broadcast
Sponsorship	Over the term of the contract
Internet revenue	Over the term of the contract
Transmission fees	Over the term of the contract
Production of adverts	Point in time, on date of release to clients
Enterprise revenue	Point in time, on agreed settlement with all parties

Contract assets

A contract asset is the right to consideration in exchange for goods and services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

2.6 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.7 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

GALAXY RADIO MANCHESTER LIMITED
NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 MARCH 2021

2. Accounting policies (continued)

2.8 Share capital and reserves

Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Profit and loss account

Retained earnings includes the cumulative net gains and losses recognised in the profit and loss account.

2.9 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

Depreciation on other assets is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

- Office furniture, plant & equipment - over 2 - 10 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.10 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

Investments in unlisted Company shares, whose market value can be reliably determined, are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in the Statement of comprehensive income for the period. Where market value cannot be reliably determined, such investments are stated at historic cost less impairment.

Investments in listed company shares are remeasured to market value at each balance sheet date. Gains and losses on remeasurement are recognised in profit or loss for the period.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED 31 MARCH 2021

2. Accounting policies (continued)

2.11 Creditors

Creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Creditors are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.12 Provisions for liabilities

Provisions are made where an event has taken place that gives the Company a legal or constructive obligation that probably requires settlement by a transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to profit or loss in the year that the Company becomes aware of the obligation, and are measured at the best estimate at the Balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are made, they are charged to the provision carried in the Balance sheet.

2.13 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the Statement of Comprehensive Income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the Balance Sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax liabilities are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.14 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.
