### **NOTES TO THE FINANCIAL STATEMENTS** **FOR THE YEAR ENDED 31ST DECEMBER 2014**

#### **1. ACCOUNTING POLICIES**

The financial statements have been prepared in accordance with EU Endorsed International Financial Reporting Standards ("IFRS"), IFRIC interpretations and the Companies Act 2006 applicable to companies reporting under IFRS.

Published standards that have not been enacted because the implementation date has not been reached are reviewed as part of the Company's on-going IFRS compliance process.

The principal accounting policies, which have been consistently applied, are set out below.

#### **Basis of preparation**

The financial statements have been prepared on the historic cost basis.

#### **Trade and other receivables**

Trade receivables are recognised and carried at original invoice amount less an allowance for uncollectable amounts. An estimate of uncollectable amounts is made when collection of the full amount is no longer probable. Uncollectable amounts are written off when identified.

#### **Sources of estimation uncertainty**

The preparation of the financial statements requires the Company to make estimates, judgements and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and related disclosure of contingent assets and liabilities. The directors base their estimates on historical experience and various other assumptions that they believe are reasonable under the circumstances, the results of which form the basis for making judgements about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.
