Holmwood Leasing Limited

Notes to the Financial Statements for the year ended 31 March 2001

1. Accounting Policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

1.2 Turnover

Turnover represents the total invoice value, excluding value added tax, of goods and services rendered and related sales made during the year.

1.3 Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment	- 15% Reducing Balance
Motor vehicles	- 25% Reducing Balance

1.4 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.5 Stock

Stock is valued at the lower of cost and net realisable value.

1.6 Pensions

The pension costs charged in the financial statements represent the contributions payable by the company during the year.

The regular cost of providing retirement pensions and related benefits is charged to the profit and loss account over the employee's service lives on the basis of a constant percentage of earnings.

1.7 Deferred taxation

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors considers that a liability to taxation is unlikely to materialise.

2. Turnover

The total turnover of the company for the year has been derived from its principal activity wholly undertaken in the UK.
