Notes

(forming part of the financial statements)

1. Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial information.

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards.

Going concern

The company's business activities, together with factors likely to affect its future developments and position, are set out in the Business Review section of the Directors' Report.

The financial statements have been prepared on the going concern basis which the directors believe to be appropriate for the following reasons. The company is dependent for its working capital on funds provided to it by Carillion Construction Limited, the company's parent undertaking. Carillion Construction Limited has provided the company with an undertaking that for at least 12 months from the date of approval of these financial statements, it will continue to make available such funds as are needed by the company and in particular will not seek repayment of the amounts currently made available. This should enable the company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment.

The directors having assessed the responses of the partners of the company's parent Carillion Construction Limited to their enquiries have no reason to believe that a material uncertainty exists that may cast significant doubt about the ability of Carillion Construction Limited to continue as a going concern.

Cash flow statement

Under Financial Reporting Standard 1, the company is exempt from the requirement to prepare a cash flow statement on the grounds that it qualifies as a small company, as defined by the Companies Act 2006, Sections 382 to 384.

Investments

Fixed asset investments are stated at cost less provision for impairment.

Taxation

The charge for taxation is based on the result for each year and takes into account deferred taxation, calculated in accordance with the requirements of FRS19 "Deferred taxation". Deferred tax assets or liabilities, which arise from timing differences between the recognition of gains and losses in the financial statements and their recognition in the tax computation are calculated on a non-discounted full provision basis. Assets are calculated on the same basis, but are recognised only to the extent that it is probable that they will be recovered.

Transactions with related parties are disclosed in note 9.
