YEAR ENDED 31 DECEMBER 2012

The directors present their annual report together with the financial statements for the year ended 31 December 2012

Under that law, the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit and loss for that period. In preparing these financial statements, the directors are required to:

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 DECEMBER 2012

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards. The financial statements have been prepared on a going concern basis. The directors have considered the appropriateness of the going concern basis in the directors' report on page 2.

The significant accounting policies adopted are described below.

Cash flow statement

The Company has taken advantage of the exemption within Financial Reporting Standard No 1 (Revised) not to produce a cash flow statement as its results are included in the consolidated financial statements of Aon plc which are publicly available.

Related party transactions

The Company has taken advantage of the disclosure exemptions allowed by Financial Reporting Standard No 8, Related Party Disclosures from disclosing transactions with other wholly owned subsidiaries within the Aon plc group.

Turnover

Turnover is earned on a fixed fee basis. Turnover relating to services provided under fixed fee contracts is recognised as the contract activity progresses to reflect the Company's partial performance of its contractual obligations. Turnover reflects the accrual of the right to consideration as contract activity progresses by reference to the proportion of the work performed and represents amounts receivable for services net of value added tax.

Interest receivable

Interest receivable is recognised in the profit and loss account on an accruals basis.

Taxation

Current tax is provided at amounts expected to be paid or recovered using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

In accordance with FRS 19, deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax. Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax returns in periods different from those in which they are recognised in the financial statements.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax balances are not discounted.

Monetary assets and liabilities denominated in other currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

2. TURNOVER

The turnover and profit on ordinary activities before taxation are attributable to the sole principal activity of the company. Turnover is derived from activities in the United Kingdom and is analysed below by the location of the client from whom the business is derived.

(c) Factors affecting current and future tax charges

A gradual reduction in the UK tax rate from 28% to 24% was announced in June 2010. A further 1% reduction was announced in the 2011 Budget with the effect that the corporation tax rate would decrease to 26% from 1 April 2011 and to 25% from 1 April 2012. These changes were included in the Finance Act 2011 which received Royal Assent on 19 July 2011, so were therefore enacted at 31 December 2011 and have been reflected in the amounts recognised as at that date, shown as comparatives for the year ended 31 December 2011.

Further rate changes were announced in the 2012 Budget with the effect that the corporation tax rate would decrease to 24% from 1 April 2012 and then by 1% each year down to 22% in April 2014. The corporation tax rate decreases to 24% (applicable from 1 April 2012) and to 23% (applicable from 1 April 2013) were included in the Finance Act 2012 which received Royal Assent on 17 July 2012. These changes were therefore enacted at 31 December 2012 and have been reflected in the amounts recognised as at that date.

The proposed decrease in the corporation tax rate to 22% was not included in the Finance Act 2012. On 5 December 2012, a further 1% reduction was announced with the effect that the corporation tax rate will decrease to 21% from 1 April 2014. In addition, in the 2013 Budget on 20 March 2013 a reduction in the corporation tax rate to 20% commencing on 1 April 2015 was announced. Neither of these changes were substantively enacted at 31 December 2012 and have therefore not been reflected in the amounts recognised as at that date.
