1. Accounting Policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention.

1.2. Turnover

1.3. Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 10 years.

1.4. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Motor vehicles - 25% Reducing Balance

1.5. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6. Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

1.7. Deferred taxation

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors consider that a liability to taxation is unlikely to materialise.
