The notes on pages 8 to 13 form part of these annual report and financial statements.

97/99 PARK STREET RENTALS LIMITED**NOTES TO THE FINANCIAL ACCOUNTS****1. ACCOUNTING POLICIES****(a) Basis of accounting**

The annual report and financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets and in accordance with applicable United Kingdom law and accounting standards. The accounting policies have been applied consistently throughout the current and preceding year with the exception of the policy for taxation.

The taxation obligations of the company are settled by the intermediate holding company, Grosvenor Limited, and previously, no tax expense was recognised by the company. The taxation expense of the company is now recognised in the profit and loss account for the year and the economic benefit provided by Grosvenor Limited is reported as a contribution to the profit and loss reserves of the company. The change in accounting policy has no effect on the comparative figures in the primary statements.

The directors' report describes the going concern basis of preparation of the financial statements.

(b) Cash flow statement

The directors have taken advantage of the exemption in FRS1 'Cash flow statements' from including a cash flow statement in the financial statements on the grounds that the company is wholly owned and its parent publishes a consolidated cash flow statement.

(c) Turnover

The turnover shown in the profit and loss account represents gross income including rents receivable in the year.

(d) Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Fixtures & Fittings - 12.5% - 33.33% per annum

In accordance with SSAP19 (Revised) 'Accounting for Investment Properties' no depreciation is provided on freehold or on leasehold properties with an unexpired term exceeding twenty years. The directors consider that this departure from the requirement of the Companies Act 1985 for all properties to be depreciated is necessary for the financial statements to show a true and fair view, since depreciation is reflected in the open market valuation and cannot be quantified separately.

97/99 PARK STREET RENTALS LIMITED**NOTES TO THE FINANCIAL ACCOUNTS****1. ACCOUNTING POLICIES *(continued)*****(e) Investment properties**

Investment properties are valued annually at open market value by independent valuers. Any surplus or deficit on revaluation is transferred to the revaluation reserve, except that if a deficit which is expected to be permanent and which is in excess of any previously recognised surplus over cost relating to the same property, or the reversal of such a deficit, is charged or credited to the profit and loss account.

Profits and losses on the disposal of investment properties are recognised on unconditional exchange of contracts and are calculated by reference to book value and are included in the profit and loss account. On the disposal or recognition of a provision for impairment of a revalued asset, any related balance remaining in the revaluation reserve is also transferred to the profit and loss account as a movement on reserves.

(f) Taxation

All current and deferred tax charges or credits (after the application of group relief, to the extent relevant) are recognised in the company's profit and loss account.

Current UK corporation tax is recognised at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

The company's taxation obligations are settled on its behalf by the intermediate holding company Grosvenor Limited. The benefit of this arrangement is recognised as a capital contribution from Grosvenor Limited to the company (or distribution from the company to Grosvenor Limited where a tax credit arises) with all current and deferred tax assets and liabilities recorded in the balance sheet of Grosvenor Limited.

Deferred taxation is provided in full in respect of timing differences between the recognition of income and expenditure for accounting and taxation purposes. Deferred taxation is not provided in respect of unrealised revaluation surpluses where there is no commitment to sell the asset. Deferred tax credits are recognised to the extent that it is regarded as more likely than not that the related assets will be recovered. As described above, whilst the deferred tax charge or credit is recognised in the profit and loss account of the company, the related deferred tax assets and liabilities are recorded in the balance sheet of Grosvenor Limited. Deferred tax assets and liabilities are not discounted.

2. TURNOVER

Turnover and profit before tax are attributable to one principal activity of the company in the United Kingdom.

In their valuation report, the valuers have noted that as a result of the abnormal market conditions currently prevailing, there is a greater than usual degree of uncertainty in respect of valuations of investment properties.

The historical cost of properties was £10,500,000 (2007 - £10,500,000).
