Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies remain unchanged from the previous year and have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, under the historical cost convention and on the going concern basis which the directors believe to be appropriate for the following reasons. The company is dependent for its working capital on funds provided to it by ContentFilm plc, the company's ultimate holding undertaking. ContentFilm plc has indicated that for at least 12 months from the date of approval of these financial statements, it will continue to make available such funds as are needed by the company and in particular will not seek repayment of the amounts currently made available. This should enable the company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Income recognition

Income from the exploitation of television rights is recognised on a receivable basis, except where payment is dependent on the television project being completed or delivered, in which case income is recognised on completion or delivery.

Currency translation

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Taxation

The charge for taxation is based on the result for the year and takes into account taxation deferred or accelerated because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Cash flow statement

A cash flow statement has not been prepared because the company is a wholly owned subsidiary of ContentFilm plc and the financial statements of that company contain a consolidated cash flow statement dealing with the cash flows of its group.

Related party disclosures

Under Financial Reporting Standard 8, the company is exempt from the disclosure of transactions with other group undertakings on the grounds that it is a wholly owned subsidiary of ContentFilm plc and its results are included in the consolidated financial statements of that company.
