Strategic report

The directors present their strategic report for the year ended 31 October 2017.

Review of business

The company's principal activities continued to be acting as a specialist Tour Operator to Canada, selling airline seats and ancillary ground products under the trading name Canadian Affair. All Transatlantic flights are offered by Air Transat, a fellow subsidiary of the Transat Group. Revenue was primarily generated from travel to Canada.

Key performance indicators

Turnover fell by 42 % to £37,623,858 (2016 – £65,253,007).

The key factor affecting the years result was that from June 16, Air Transat branded flight only bookings were booked directly with the Airline and not via The Airline Seat Company.

The company recorded an operating profit of £3,329,275 (2016 – £1,781,346).

Margins increased over the period as a result of an increased proportion of holiday sales versus flight only sales, plus increased airline commission. Overheads were reduced by 10% in the period, as the company looked to mitigate the effects of the reduction in turnover.

The profit for the year after taxation amounted to £2,808,439 (2016 – £1,037,708).

The average number of employees in the company has decreased year on year and is shown in note 6 to the financial statements. This is a result of a planned re-organisation driven by a plan to increase focus on tour operation in favour of flight only bookings.

Shareholders' funds have increased by £808,439 as detailed in the Statement of changes in equity.

Principal risks and uncertainties

Competitive Risks

New operators from Canada to the UK have increased competition on key routes and their progress will be monitored with interest. However, the directors remain confident that the knowledge and expertise provided by the company will ensure it remains a market leader.

Use of derivatives

The company uses forward currency contracts to reduce exposure to the variability of foreign exchange rates, which is then the benchmark for the rate used when pricing holidays.

Exposure to price, credit, liquidity and cash flow risk

Price risk occurs as the travel industry continues to be very challenging, with ever-increasing choices of destinations and airlines to choose from. Customers remain cautious in their spending habits and actively seek good deals and the lowest prices.

Credit risk is low in the company as we do not offer credit facilities to customers. All bookings must be paid in full, else travel arrangements will be cancelled.

Liquidity risk is minimal in the business, given the only loan that we have is an intercompany arrangement. We have a healthy current asset position and a favourable cash flow cycle, whereby client monies are collected well in advance of their being due to be paid to the supplier.

Terrorist activity, meteorological/geological activity, and economic uncertainty continue to be risks for the company, which could result in lost sales. The company works closely with the parent undertaking to manage this risk by identifying and managing key issues.

On behalf of the board

Chris Hedley, Director

3

Directors' report

The directors present their report for the year ended 31 October 2017.

Directors

The current directors of the company are shown on page 2.

Dividends

A dividend of £4,000,000 was paid during 2017 (2016 - £nil). The directors do not recommend a final dividend.

Future developments

The Directors plan to significantly grow the volume of Tour Operating passengers to Canada, in order to replace the flight only sales being distributed either directly with the airline or via UK B2B channels.

Events after the balance sheet date

There have been no material events since the balance sheet date.

Financial instruments

Details of financial instruments are provided in the strategic report on page 3.

Going concern

The company's activities, together with the factors likely to affect its future development and risk management are described in the Strategic Report on page 3. The directors have considered all these factors and believe that the company is well placed to manage its business risks successfully.

Note 20 details the cross guarantees provided within the Transat group and which The Airline Seat Company is party to.

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly they continue to adopt the going concern basis in preparing the annual report and accounts.

Disclosure of information to the auditors

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors and the company's auditor, each director has taken all the steps that they are obliged to take as directors in order to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

Auditors

In accordance with s.485 of the Companies Act 2006, a resolution to reappoint Ernst & Young LLP as auditors will be put to the members at the Annual General Meeting.

On behalf of the board

Chris Hedley Director

Cledley

Directors' responsibilities statement

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period.

In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent, and
- state whether applicable UK Accounting Standards have been followed, subject to any
 material departures disclosed and explained in the financial statements; and

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and the company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Opinion

We have audited the financial statements of The Airline Seat Company Limited for the year ended 31 October 2017 which comprise the Income Statement, Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Financial Position and the related notes1 to 23, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 October 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material
 uncertainties that may cast significant doubt about the company's ability to continue to adopt
 the going concern basis of accounting for a period of at least twelve months from the date
 when the financial statements are authorised for issue.

Independent auditor's report to the members of The Airline Seat Company Limited (Continued)

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern

Independent auditor's report to the members of The Airline Seat Company Limited (Continued)

and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

The financial statements were approved and authorised for issue by the board and were signed on its behalf by:

Chris Hedley

Cledley 19/3/18

Director

1. Authorisation of financial statements and statement of compliance

The Airline Seat Company Limited is a private company limited by shares incorporated and domiciled in England and Wales, registered number 3030025. The registered office is Hillgate House, 13 Hillgate Street, London W8 7SP. These financial statements were prepared in accordance with Financial Reporting Standard 102 (FRS 102) as it applies to the financial statements of the Company for the year ended 31 October 2017. The financial statements are prepared under the historical cost convention and are presented in Sterling.

The financial statements of The Airline Seat Company Limited for the year ended 31 October 2017 were authorised for issue by the board of directors on 13 March 2018 and the balance sheet was signed on the board's behalf by Chris Hedley.

2. Accounting policies

2.1 Basis of preparation

The Airline Seat Company Limited has taken advantage of the exemption available under section 401 of the Companies Act 2006 from the requirement to prepare group financial statements as it is a wholly owned subsidiary of Transat A.T. Inc, which prepares publicly available group financial statements which include the results of the Company and its subsidiaries. These can be downloaded from https://www.transat.com/en-CA/corporate/investors. The Airline Seat Company Limited financial statements therefore purely reflect the Company as an individual undertaking.

The accounting policies which follow set out those policies which apply in preparing the financial statements for the year ended 31 October 2017.

The Airline Seat Company Limited has taken advantage of the following disclosure exemptions under FRS 102:

- (a) the requirements of section 7 Statement of Cash Flows and Section 3 *Financial Statement Presentation* paragraph 3.17(d)
- (b) the requirements of *Basic Financial Instruments* paragraphs 11.39 to 11.48A and section 12 *Other Financial Instruments* paragraphs 12.26 to 12.29
- (c) the requirements of Section 26 Share based Payment: paragraph 26.18 (b), 26.19 to 26.21 and 26.23
- (d) Requirements of Section 33 Related Party Disclosures, paragraph 33.7

Going Concern

The accounts are drawn up on the basis of going concern as the company is profitable, has a strong Balance Sheet, has a good working capital position and has forecast future growth.

2.2 Judgements and key sources of estimation uncertainty

The preparation of financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

The following is the Company's key source of estimation uncertainty:

Taxation

Management estimation is required to determine the amount of deferred tax assets that can be recognised based upon likely timing and level of future taxable profits together with assessment of the effect of future tax planning strategies

2.3 Significant accounting policies

Intangible assets

Intangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses.

Software licences are amortised over a period of 5 years.

The carrying values of intangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable, and are written down immediately to their recoverable amount. Useful lives and residual values are reviewed annually and where adjustments are required these are made prospectively. We consider 5 years to be an appropriate period of amortisation given the complexity and pace of technological change in our industry.

Tangible fixed assets

Property, plant and equipment is stated at cost less accumulated depreciation and accumulated impairment losses. Cost comprises the aggregate amount paid and the fair value of any other consideration given to acquire the asset and includes costs directly attributable to making the asset capable of operating as intended.

Depreciation is provided on all tangible fixed assets at rates calculated to write off the cost, less estimated residual value, of each asset on a straight line basis over its expected useful life, as follows:

Plant and machinery – 3 to 5 years

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable, and are written down immediately to their recoverable amount. Useful lives and residual values are reviewed annually and where adjustments are required these are made prospectively.

Investments

Investments in subsidiary companies are stated at cost less any provisions for impairment.

Impairment of fixed assets

Where an event has occurred that gives rise to doubt about the recovery of the carrying value, an impairment assessment is made. The impairment is calculated by comparing the investment's carrying value to the recoverable amount. The recoverable amount is taken to be the higher of realisable value and value in use. Value in use is determined by reference to the expected future cash flows of the business, discounted at a risk adjusted weighted cost of capital.

Financial Instruments

Cash at bank and in hand

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short term deposits with an original maturity date of three months or less.

Forward contracts

The group uses forward foreign currency contracts to reduce exposure to foreign exchange rates.

Short-term debtors and creditors

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the income statement in operating expenses

2.3 Significant accounting policies (continued)

Interest-bearing loans and borrowings

All interest-bearing loans and borrowings which are basic financial instruments are initially recognised at the present value of cash payable (including interest). After initial recognition they are measured at amortised cost using the effective interest rate method, less impairment. The effective interest rate amortisation is included in the finance costs in the income statement.

Deferred tax

Deferred tax is recognised in respect of all timing differences which are differences between taxable profits and total comprehensive income that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements, except that:

unrelieved tax losses and other deferred tax assets are recognised only to the extent that
the directors consider that it probable that they will be recovered against the reversal of
deferred tax liabilities or other future taxable profits.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverses, based on tax rates and laws enacted at the balance sheet date.

Revenue recognition

Revenue is recognised to the extent that the Company obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received excluding discounts, rebates, VAT and other sales taxes or duty. The following criteria must also be met before revenue is recognised:

Rendering of services

The Company recognizes revenue once the service is rendered and all the significant risks and rewards of the service have been transferred to the customer. As a result, revenue from tour operating activities, flight only sales and the related costs are recognized when passengers depart. Commission revenue is recognized when travel is reserved. Amounts received from customers for services not yet rendered are included in current liabilities as Customer deposits and deferred revenues.

Interest income

Revenue is recognised as interest accrues using the effective interest method.

Dividends

Revenue is recognised when the Company's right to receive payments is established.

Operating leases

Rentals payable under operating leases are charged in the profit and loss account on a straight line basis over the lease term. Lease incentives are recognised over the lease term on a straight line basis.

Pensions commitments

Defined contribution scheme

The company operates one defined contribution pension scheme. Contributions to defined contribution schemes are recognised in the profit and loss account in the period in which they become pay

2.3 Significant accounting policies (continued)

Foreign currency

Transactions in foreign currencies are initially recorded in the entity's functional currency by applying the spot exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Share-based payments

The company operates equity settled and cash-settled share-based compensation plans under which it receives services from employees as consideration for equity instruments of the company or cash-settled payments.

Equity-settled transactions

For equity-settled share-based compensation (performance share unit (PSU) plan, the expense is based on the grant date fair value of the awards expected to vest over the period in which the performance and/or service conditions are fulfilled, with a corresponding increase in the share-based payment reserve. The value of the compensation is measured based on the closing price of Transat shares on the Toronto Stock Exchange at grant date, adjusted to take into account the terms and conditions upon which the units were granted, and is based on the units that are expected to vest. For awards with graded vesting, the fair value of each tranche is recognized through profit or loss over its respective vesting period. Any consideration paid by employees on exercising stock options and the corresponding portion previously credited to share-based payment reserve are credited to share capital.

Cash-settled transactions

For cash-settled share-based compensation (restricted share unit (RSU) plan), the expense is determined based on the fair value of the liability at the end of the reporting period until the award is settled. RSUs are awarded annually by the parent undertaking, Transat A.T. Inc, to eligible employees under the plan. The value of the compensation is measured based on the closing price of Transat shares on the Toronto Stock Exchange adjusted to take into account the terms and conditions upon which the units were granted, and is based on the units that are expected to vest. The expense is recognized over the period in which the performance and service conditions are satisfied. At the end of each reporting period, the parent company re-assesses its estimates of the number of awards that are expected to vest and recognizes the impact of the revisions through profit or loss.

3. Turnover

Turnover represents the amounts derived from the provision of services which fall within the company's ordinary activities, stated net of value added tax. All turnover is derived from operations carried out in the United Kingdom, Europe and Canada. Turnover consists of sale of services.

Turnover is analysed as follows:

Geographical area

United Ki	ngdom	Euro	ope	Cana	da	Tota	a/
2017	2016	2017	2016	2017	2016	2017	2016
£	£	£	£	£	£	£	£
37,491,310	63,746,022	76,756	933,668	55,792	573,317	37,623,858	65,253,007

3. Turnover (Continued)

Reclassification of turnover

Discounts offered as part of the total holiday price, historically classified as cost of sales, are now reflected in turnover.

The total amount reclassified in 2016 totalled £980,268 and resulted in both the decrease in turnover and decrease in cost of sales figure in the income statement. The reason for the reclassification is to reflect the true value of turnover.

4. Operating Profit

This is stated after charging:

	2017 ;	2016
	£	£
Foreign Exchange loss	136,126	91,753
Operating lease rentals - land and buildings	189,186	191,068
others (equipment rental)	7,614	9,383
Depreciation of owned assets (see note 10)	54,416	66,802
Amortisation of software (see note 9)	261,007	200,555

5. Auditor's remuneration

The Company paid the following amounts to its auditors in respect of the audit of the financial statements and, where applicable, for other services provided to the Company.

	2017	2016
	£	£
Audit of the financial statements	33,200	32,000
Other assurance services	10,000	23,500
	43,200	55,500

6. Staff costs

a) Staff costs, including directors' remuneration, were as follows

	2017	2016
	£	£
Wages and salaries	2,893,418	2,797,092
Social security costs	286,226	287,982
Other pension costs	157,696	167,671
	3,337,340	3,252,745

Included in wages and salaries is a total expense of share-based payments of £33,542 (2016:£Nil) of which £33,542 (2016:£Nil) arises from transactions accounted for as equity settled share-based payment transactions.

Included in other pension costs are £157,696 (2015: £167,671) in respect of the defined contribution scheme.

8. Tax

(a) Tax on Profit on ordinary activities

The tax charge is made up as follows:

	2017	2016
	£	£
Current tax:		
UK corporation tax at 19.41% (2016:20.00%)	0	237,238
Tax under provided in previous years	900	3,705
Total current tax	900	240,943
•		
Deferred tax:		
Origination and reversal of timing differences	(4,470)	20,496
Tax under provided in previous years	(486)	(3,448)
Effect of change in the tax rate on opening liability	(6,405)	(5,293)
Total change in the deferred tax	(11,361)	11,755
Tax on profit on ordinary activities (note 8(b))	(10,461)	252,698

(b) Factors affecting the current tax charge/(credit) for the year

The tax assessed on the profit on ordinary activities for the year is lower than the standard rate of corporation tax in the UK of 19.41% (2016 – 20.00%). The differences are reconciled below:

	2017 £	2016 £
Profit on ordinary activities before tax	2,797,978	1,290,406
Profit on ordinary activities multiplied by standard rate of corporation		
tax in the UK of 19.41% (2016 – 20.00%)	543,190	258,081
Expenses not deductible for tax purposes	894	1,930
Tax under provided in previous years	414	257
Group Relief	(549,189)	-
Tax Rate Change	(6,405)	(5,293)
Difference between current & deferred tax rate	635	(2,277)
Total tax expense	(10,461)	252,698

(c) Factors that may affect future tax charges

A reduction in the UK corporation tax rate from 21% to 20% took effect from 1 April 2015. Further reductions in the UK corporation rate to 19% from 1 April 2017 and 17% from 1 April 2021 were enacted on 16 September 2016 and the impact of these reductions have been appropriately reflected in these financial statements.

8. Tax (Continued)

(d) Deferred tax

The deferred tax included in the balance sheet is as follows:

	2017 £	Restated 2016 £
Included in provisions for liabilities (note 16)	104,408	115,769
Accelerated capital allowances Other timing differences	104,825 (417)	118,855 (3,086)
Deferred tax Liability	104,408	115,769
At 1 November 2016 Deferred tax debit in profit and loss account		115,769 (11,361)
