### 1 Accounting policies

#### 1.1 Accounting convention

The financial statements are prepared under the historical cost convention

The financial statements are prepared on the basis of going concern, which assumes that the company will be in operational existence for the foreseeable future. This depends upon the continued support of the shareholders who have undertaken to provide such support to enable the company to meet its debts as and when they fall due. The financial statements do not include any adjustments that would result if such support was withdrawn.

#### 1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

#### 1.3 Turnover

Turnover represents amounts receivable for the provision of administrative services through an agency.

#### 1.4 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.

#### 1.5 Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into CHF at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.
