Quadriga Holdings Limited

Strategic Report for the Year Ended 31 March 2015

The directors present their strategic report of the company and the group for the year ended 31 March 2015

REVIEW OF BUSINESS

The group's trading operations are co-ordinated through a network of UK, European, US and African undertakings. The company's functional currency is Sterling.

The trading results for the year and the group's financial position at the end of the year are disclosed in the financial statements and notes on pages eight to thirty three.

Turnover for the financial year ended 31 March 2015 amounted to £53.0 million (2014: £64.9 million, unaudited) and the group incurred an operating loss of £16.3 million (2014: £4.0 million, unaudited). The loss for the financial year after interest and tax was £15.4 million (2014: loss £5.6 million, unaudited).

PRINCIPAL ACTIVITY

The principal activity of the group is creating on-property value via accessible guest-facing technologies and services for the hospitality industry in Europe, North America, Middle East and Africa. The deployed systems and services provide functionality in the areas of internet and network connectivity, guest entertainment, hotel services, and communications.

Strategy and future development

In July 2015, Exceptional Innovation B.V. completed the acquisition of Quadriga Holdings Limited and its subsidiaries, a leading international provider of managed guest services for the hospitality industry and The SmarTV Company, an innovative developer of interactive entertainment solutions for commercial and consumer markets.

The combined companies will form a global technology service provider that maximises guest engagement and satisfaction, enhances the entertainment experience, and increases revenue while delivering operational efficiencies for hotels. The group will have its headquarters in the Netherlands and significant operating subsidiaries located in England and the United States, as well as regional offices in Europe and the Middle East.

Exceptional Innovation's goal is to continue to expand the company's reach and offerings to give hoteliers one global vendor for all of their hospitality technology needs.

Key performance indicators

The group's key performance indicators are Earnings before Interest, Tax, Depreciation and Amortisation (EBITDA) and the number of hotel rooms in which the group's systems are installed.

Reconciliation of operating loss to EBITDA

| | 2015 | 2014 |
|--|--------------|---------------|
| | | Unaudited |
| | £'000 | £'000 |
| Operating loss | (16,268) | (4,041) |
| Depreciation of rental assets | 7,361 | 12,607 |
| Other amounts written off rental assets | 9 | 698 |
| Reversal of prior year impairment of rental assets | (262) | - |
| Amortisation of intangible fixed assets | 2,770 | 2,950 |
| Impairment of intangible assets | 9,057 | - |
| Depreciation of tangible fixed assets | 803 | 806 |
| EBITDA | 3,470 | 13,020 |
| Exceptional restructuring costs | 208 | (310) |
| EBITDA before exceptional restructuring costs | <u>3,678</u> | <u>12,710</u> |

The number of hotel rooms in which the company's systems were installed fell by 15% during the financial year, after having fallen by 13% in the previous financial year.

Quadriga Holdings Limited

Strategic Report for the Year Ended 31 March 2015

Going Concern

During the year, the group's debt financing was made up of a loan from a related party, Interactive Hotel Services Holdings plc ("IHSH"), which accrued interest at 10%. In March 2015 part of the loan was waived, reducing the outstanding balance from £31.0 million to £12.8 million.

On completion of the purchase of Quadriga by Exceptional Innovation B.V. £4.4 million of the loan was waived by IHSH and the remainder repaid in full, by way of a loan from Exceptional Innovation B.V. to Quadriga Holdings Limited of £8.4 million. The group has net current liabilities of £1.6 million at the balance sheet date but following the loan reorganisation the group is in a net current asset position.

Consequently, the company and group financial statements have been prepared on a going concern basis.

Research and development

The group continues to invest in research and development. During the financial year the group incurred and capitalised costs of £1.4 million (2014: £2.2 million, unaudited) and expensed £3.2 million (2014: £3.3 million, unaudited) on the development of proprietary digital technology platforms for the hotel industry. At 31 March 2015, the directors concluded it was necessary to fully impair the capitalised development costs, which had a net book value of £8.1 million.

PRINCIPAL RISKS AND UNCERTAINTIES

The group's business and strategy are subject to a number of risks. The directors have set out below the principal risks facing the business.

The directors of the company are of the opinion that the group has adopted a thorough risk management process that involves the formal review of all the risks identified below. Where possible, processes are in place to monitor and mitigate such risks.

Competitor action

The management seeks to compete effectively and maintain market share by continuously developing and updating its product portfolio and its relationships with key customers along with a regular review of actions from its competitors and developments in the marketplace.

Loss of key personnel

The group employed an average of 241 employees during the financial year ended 31 March 2015 (2014: 250, unaudited). Regular operational reviews ensure that knowledge and key customer and supplier relationships are retained by the management of the group so that the impact of the loss of any employee or agent would be reduced.

Financial risk management

The group's operations expose it to a variety of financial risks that include economic uncertainty, credit risk, liquidity and cash flow risks, interest rate risk, and foreign exchange risk. The group has established a financial management framework that seeks to limit the adverse effects on financial performance by monitoring levels of debt finance and the related finance costs.

The group's assets primarily consist of rental and other fixed assets, trade debtors, installation of equipment in progress and cash. The group's liabilities primarily consist of trade creditors and accruals and loan payable to a related party.

Economic environment uncertainty

The management aims to mitigate the effects of uncertainty in the economic environment by seeking to

- regularly review the company's exposure to customer and supplier payment default risk,
- minimise the company's exposure to fluctuations in hotel occupancy by engaging in fixed fee contracts.

Credit risk

The management actively mitigates the risk of payment default by seeking favourable payment methods and credit arrangements with its customers and by reviewing outstanding payments and provisions for payment default regularly.

Quadriga Holdings Limited

Strategic Report
for the Year Ended 31 March 2015

Liquidity and cash flow risks

Liquidity risk is monitored on an ongoing basis by undertaking weekly cash flow forecasting procedures. In order to ensure continuity of funding, the management seeks to maintain sufficient cash reserves and un-drawn committed borrowing facilities.

The group's objective is to maintain a balance between continuity of funding and flexibility through the use of a loan from its parent company, Exceptional Innovation B V, and an external facility agreement.

Interest rate risk

The exposure of the group to interest rate fluctuations is managed by maintaining funding flexibility through a combination of cash pooling, shareholder funding and borrowings while obtaining a large degree of certainty in its commitments by borrowing extensively under fixed rates.

Foreign exchange risk

The majority of the group's transactions originate in Sterling and Euro, or in the domestic currency of the overseas undertaking involved, with a minimal exposure to foreign exchange fluctuations. The group seeks to further reduce this risk by, where possible, matching foreign currency receipts with payments. The overseas undertakings have a minimal exposure to currency risk as their monetary assets and liabilities are held in their functional currencies, which is mainly Euros.

Employees

The group recognises the value of a workforce drawn from varied backgrounds and requires management to exercise fairness and reasonableness in its human resources practices. The group is committed to operating non-discriminatory policies and practices in relation to recruitment, selection, training, development and promotion without regard to sex, marital status, dependants, disability, colour, race, religion, creed or ethnic origins.

Where existing employees become disabled, it is the group's policy wherever practical to provide continuing employment under normal terms and conditions and to provide training, career development and promotion to disabled employees. If the employee is unable to continue with their own job then consideration will be given to what reasonable adjustments may be made to enable the employee to carry out a role within the group. The group will then make all reasonable efforts to re-deploy the employee within the group.

It is the group's policy to communicate regularly with all employees in the business.

All employees are encouraged to take an active interest in the business and to read the regular communication documents, announcements and notices issued to employees.

The group encourages the existence of regular communication and consultation meetings within the group for all its employees, including the employee representatives on the Business Forum. These meetings offer an opportunity for employees' views and ideas to be made known to and considered by the group and for two-way communication to be achieved.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the Strategic Report, Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law).

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the group and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's and the group's transactions and disclose with reasonable accuracy at any time the financial position of the company and the group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and the group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditor's Report to the Members of
Quadriga Holdings Limited

We have audited the financial statements of Quadriga Holdings Limited for the year ended 31 March 2015 on pages eight to thirty three. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Statement of Directors' Responsibilities set out on page six, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the group's and of the parent company's affairs as at 31 March 2015 and of the group's loss for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

Other matter - Prior period financial statements

In forming our opinion on the financial statements, which is not modified, we note that the prior period financial statements were not audited. Consequently, International Standards on Auditing (UK and Ireland) require the auditor to state that the corresponding figures contained within these financial statements are unaudited.

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention

Basis of preparation

The financial statements have been prepared in accordance with applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice) and under the historical cost accounting rules

Going concern

During the financial year the group's debt financing comprised primarily of a 10% loan issued by Interactive Hotel Services Holdings plc, a related party. The group had net current liabilities of £1.6 million at the balance sheet date, due primarily to this related party loan. On 9 July 2015 the loan was waived in part and then the remainder repaid in full as part of the sale of the Quadriga group to Exceptional Innovation B.V. The group and the company now have net current assets and net assets. In addition, Exceptional Innovation B.V. has loan facilities that will enable it to fund the group's activities, as required.

The company is not a trading entity, therefore it relies on the cash flows generated by other group undertakings to be able to meet its liabilities as they fall due. The directors have considered the availability of these cash flows, their strength and timing and believe the company will meet its obligations as and when they arise.

Consequently, the directors consider there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company and the group to continue as a going concern. Thus they continue to adopt the going concern basis of accounting in preparing these annual financial statements.

Basis of consolidation

The consolidated financial statements include the financial statements of the company and its subsidiary undertakings for the year ended 31 March 2015. The acquisition method of accounting has been adopted. Under this method, the results of any subsidiary undertakings acquired or disposed of in the financial year are included in the consolidated profit and loss account from the date of acquisition or up to the date of disposal.

Under section 408 of the Companies Act 2006 the company is exempt from the requirement to present its own profit and loss account.

The group has taken advantage of the exemption in FRS 8 Related Party Disclosures not to disclose transactions between two or more members of the group, where any subsidiary undertaking which is party to the transaction is wholly owned by a member of the group.

Subsidiary undertakings' audit exemption

The following subsidiary undertakings, which are both included in these consolidated financial statements, are exempt from the requirements of the Companies Act 2006 relating to the audit of accounts under section 479A of the Companies Act 2006.

| Name | Registered number |
|----------------------------|------------------------------|
| Quadriga Worldwide Limited | 0827164 |
| Quadriga EMEA Limited | 3038297 |

Turnover

Turnover consists principally of amounts (excluding value added tax) derived from the rental and outright sale of in-room equipment (including software) to hotels. Rental income is recognised on a straight line basis over the contract life, and outright sales are recognised on the acceptance of the goods by the customer. Income from hotel guests viewing of Pay-TV and other in-room technology based services is recognised as turnover as the service is provided. Turnover also includes amounts derived from the maintenance of this equipment, recognised rateably over the maintenance term.

Goodwill and negative goodwill

Purchased goodwill (representing the excess of the fair value of the consideration given over the fair value of the separable net assets acquired) arising on consolidation in respect of acquisitions since 1 January 1998, is capitalised.

Positive goodwill is amortised to nil by equal annual instalments over its estimated useful life.

Negative goodwill arising on consolidation in respect of acquisitions since 1 January 1998 is included within fixed assets and released to profit and loss account in the periods in which the fair values of the non-monetary assets purchased on the same acquisition are recovered, whether through depreciation or sale.

On subsequent disposal or termination of business acquired since 1 January 1998, the profit or loss on disposal or termination is calculated after charging (crediting) the unamortised amount of any related goodwill (negative goodwill).

Intangible fixed assets and amortisation

Intangible fixed assets purchased separately from a business are capitalised at their cost plus any expenses incidental to its acquisition.

Intangible assets acquired as part of an acquisition are capitalised at their fair value where this can be measured reliably. These are amortised to nil by equal annual instalments over the estimated useful life.

Tangible fixed assets

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

| | |
|-----------------------|---------------|
| Rental assets | 3 to 7 years |
| Office equipment | 5 years |
| Computer equipment | 3 years |
| Fixtures and fittings | 5 to 10 years |

Stock

Stock is stated at the lower of cost and net realisable value.

Taxation

The charge/(credit) for taxation is based on the result for the financial year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19 Deferred Tax.

1 ACCOUNTING POLICIES - continued

Research and development

Research expenditure is charged to the profit and loss account as incurred. Development expenditure is capitalised only where there is a clearly defined project, the expenditure is separately identifiable, the technical feasibility of the related project is considered reasonably certain and where it is anticipated with sufficient certainty that further development costs to be incurred on the same project, together with related production, selling and administrative costs, will be more than covered by a future revenue stream.

Capitalised development expenditure is amortised over the period economic benefits are expected to be derived, which is between 3 and 7 years depending on the nature of the project and the timing of the future revenue stream.

Capitalised development expenditure for each project is reviewed at the end of each accounting period and where the circumstances which justified the deferral of the expenditure no longer apply, or are considered doubtful, the expenditure, to the extent to which it is considered to be irrecoverable, is written off immediately, project by project.

Foreign currencies

(i) foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of group entities at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated to the functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation are recognised in the relevant captions of the income statement. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transaction.

(ii) financial statements of foreign operations

The assets and liabilities of foreign operations whose functional currency is not Sterling are translated at foreign exchange rates ruling at the balance sheet date. The revenues and expenses of these foreign operations are translated at an average rate for the period where this rate approximates to the foreign exchange rates ruling at the dates of the transactions. Gains and losses arising on these translations are taken to reserves, net of exchange differences arising on related foreign currency borrowings.

The exchange rates used in these financial statements are

Average exchange rate for the year ended 31 March 2015 used for income and expense items £1 €1 2741 (2014 £1 €1 1855, unaudited)

Closing exchange rate at 31 March 2015 used for assets and liabilities £1 €1 3674 (2014 £1 €1 2102, unaudited)

Leases

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

Assets acquired under finance leases are capitalised and the outstanding future lease obligations are disclosed under creditors.

Post-retirement benefits

The group operates a number of defined contribution schemes.

The assets of the schemes are held separately from those of the group in independently administered funds. The amount charged against profits represents the contributions payable to the defined contribution schemes in respect of the accounting period.

1 ACCOUNTING POLICIES - continued

Investments

Investments in subsidiary undertakings are stated in the company's balance sheet at cost less any provision for impairment

Cash and liquid resources

Cash comprises cash in hand and deposits repayable on demand, less overdrafts payable on demand

Liquid resources are current asset investments which are disposable without curtailing or disrupting the business and are either readily convertible into known amounts of cash at or close to their carrying values or traded in an active market

Classification of financial instruments issued by the group

Financial instruments issued by the group are treated as equity (i.e. forming part of shareholders' funds) only to the extent that they meet the following two conditions

1 they include no contractual obligations upon the company (or group as the case may be) to deliver cash or other financial assets or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the company (or group), and

2 where the instrument will or may be settled in the company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the company's own equity instruments or is a derivative that will be settled by the company's exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares

Where a financial instrument that contains both equity and financial liability components exists these components are separated and accounted for individually under the above policy. The finance cost on the financial liability component is correspondingly higher over the life of the instrument.

Finance payments associated with financial liabilities are dealt with as part of interest payable and similar charges. Finance payments associated with financial instruments that are classified as part of shareholders' funds are dealt with as appropriations in the reconciliation of movements in shareholders' funds.

2 SEGMENTAL ANALYSES

The directors consider that there is only one class of business being the supply and outright sale of equipment and software enabling the provision of in-room technology based services to hotels and similar services to other markets across Europe and in the USA

The tables below set out information in respect of the business for each of the group's geographic areas of operation. The directors consider that there is no material difference between turnover by origin and by destination

Factors that may affect future tax charges

Reductions in the UK corporation tax rate from 23% to 21% (effective from 1 April 2014) and 20% (effective from 1 April 2015) were substantively enacted on 2 July 2014. In the Budget on 8 July 2015, the Chancellor announced additional planned reductions to 18% by 2020. This will reduce the company's future current tax charge accordingly. The deferred tax asset at 31 March 2015 has been calculated based on the rate of 20% substantively enacted at the balance sheet date.

Deferred tax

A deferred tax asset has been recognised in the accounts in those entities where the directors consider that it is reasonable to forecast that there will be future profits against which the assets can be recovered

The movement on the assets and liabilities recognised this year are as follows

Assets

| | Brought forward (Unaudited) £'000 | Charge to the P&L £'000 | Translation £'000 | Carried forward £'000 |

Quadriga Holdings Limited

Notes to the Financial Statements - continued for the Year Ended 31 March 2015

For the remaining entities no deferred tax asset has been recognised on the timing differences set out below as, in the opinion of the directors, their ability to obtain the tax benefit is dependent upon suitable profits arising in the relevant statutory company in the future, that are either not currently foreseen or which cannot be estimated with sufficient certainty

9 PARENT COMPANY

In the previous financial year the results of the company and its subsidiaries were included in the consolidated financial statements of Interactive Hotel Services Limited, an intermediate parent of the company as at 31 March 2015 and 2014. Hence, in the prior year the company prepared and filed unaudited company only financial statements, relying on the audit exemption set out in s479A of the Companies Act 2006.

As permitted by Section 408 of the Companies Act 2006, the profit and loss account of the parent company is not presented as part of these financial statements. The parent company's loss for the financial year was £19,854,000 (2014 £14,121,000 loss, unaudited, restated).

In the previous financial year the directors conducted an impairment review of the company's investments in its subsidiaries and concluded that there was no impairment. However, a subsequent review of the calculations, performed after the accounts had been filed, indicated an impairment of £11,500,000 in the carrying value of the investments as at 31 March 2014.

The error was detected during the current financial year and in accordance with the requirement stated in FRS 3 *Reporting Financial Performance*, the impairment is now recognised retrospectively and certain comparative figures in the company balance sheet have been restated.

The directors also performed an impairment review of company's investments in its subsidiaries and intra-group debtors as at 31 March 2015, which resulted in an impairment of £13,300,000 in the carrying value of investments and an impairment of £8,364,000 in the carrying value of debtors.

10 PENSION

The group has established a defined contribution scheme for UK employees in the Scottish Widows Stakeholder Scheme for Quadriga Worldwide Limited under which post-retirement benefits are provided. This scheme was established on 1 December 2013.

Staff engaged outside the UK are covered by local arrangements, normally defined contribution schemes.

The charge to the profit and loss account in respect of the financial year was £503,000 (2014 £529,000, unaudited). Pension contributions of £nil (2014 £nil, unaudited) were accrued as at 31 March 2015.

A full review of the unamortised balance of intangible assets is performed at each balance sheet date in accordance with FRS 11 *Impairment of Fixed Assets and Goodwill*. Following such impairment review as at 31 March 2015 the directors concluded it was necessary to fully impair all goodwill and development costs with the carrying amount of £1,078,000 and £8,063,000, respectively.

The directors have also reassessed the period during which it is expected to benefit from the negative goodwill and concluded it was appropriate to fully release it to the profit and loss account in this financial year.

20 FINANCIAL INSTRUMENTS

The group's principal financial instruments, which exclude short-term debtors and creditors, comprise loans and cash. The main purpose of these financial instruments is to raise finance for the group's operations.

The main risks arising on these financial instruments are set out in the Strategic Report.

Financial liabilities

| | 2015 | 2014 |
|---|-----------------|-----------------|
| | | Unaudited |
| Group | £'000 | £'000 |
| Related party loan and accrued interest | (12,840) | (29,259) |
| Finance leases | (387) | (499) |
| | <u>(13,227)</u> | <u>(29,758)</u> |

The weighted average interest rate in the current and prior financial years was 10% on the loan. The finance leases have finance lease charges of 2.32% to 17%.

Financial assets

The group has only floating rate financial assets, comprising interest bearing cash deposits. There are no interest free financial assets in either financial year.

The currency profile of financial assets at the end of the financial year was

| | 2015 | 2014 |
|----------|--------------|--------------|
| | | Unaudited |
| Group | £'000 | £'000 |
| Sterling | 192 | 904 |

| Other | <u>1,814</u> | <u>2,432</u> |
| | <u>3,371</u> | <u>6,034</u> |

Foreign currency risk

The group's principal currency risk exposure is in respect of its UK subsidiary companies which receive finance in Sterling and lend this to trading subsidiaries whose assets are mainly held in Euro. The overseas operations have a minimal exposure to currency risk as their monetary assets and liabilities are held in their functional currencies.

Liquidity risk

The group's objective is to maintain a balance between continuity of funding and flexibility through the use of a loan from its parent company, Exceptional Innovation B.V., and an external facility agreement.

Quadriga Holdings Limited

26 POST BALANCE SHEET EVENTS

On 9 July 2015 the entire share capital of Quadriga Holdings Limited was acquired by Exceptional Innovation B V, a company incorporated in the Netherlands (for more details, please see note 24) Following this transaction, Quadriga Holdings Limited and certain subsidiary companies became guarantors for an external facility agreement of EUR 50 million obtained by Exceptional Innovation B V

On the date of the acquisition, the loan from Interactive Hotel Services Holdings plc, the immediate parent company, was waived by £4.4 million and the remainder was repaid in cash. To fund this repayment an intercompany loan of £8.4 million was advanced to Quadriga Holdings Limited by Exceptional Innovation B V

Due to this change, Quadriga Holdings Limited is the largest group for which consolidated accounts are prepared as at and for the year ended 31 March 2015
