**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

**Preparation of consolidated financial statements**

The financial statements contain information about Ancient Mariner Furniture Co. Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company sells furniture via the internet, through their own website and via other online retailers. They also sell to the general public through other retail stores. Sales of goods are recognised on sale to the customer, which is considered the point of delivery. Retail sales are usually by cash, credit card or on credit accounts.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

|                       |                           |
|-----------------------|---------------------------|
| Fixtures and fittings | - 15% on reducing balance |
| Motor vehicles        | - 25% on reducing balance |
| Website               | - 25% on cost             |

**Investment property**

The freehold property is an investment property, but is held at cost, or previous valuation, less depreciation. The directors consider that it is not cost beneficial to obtain professional valuations solely for accounting purposes. This is a breach of the Financial Reporting Standard 102.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Financial instruments**

Basic financial assets, including trade and other receivables, cash and bank balances and investments in commercial paper, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

Basic financial liabilities, including trade and other payables, bank loans, loans from fellow group companies and preference shares that are classified as debt, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**Foreign currencies**

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction.
