## **The Directors' Report**

### **Year ended 31 December 2012**

---

The directors present their report and the unaudited financial statements of the company for the year ended 31 December 2012

#### **Principal activities and business review**

The principal activity of the company during the year was, and will continue to be, the provision of cable television, telephony, broadband internet and other telecommunication services as well as running some of the telecommunication services over which they are provided

At 31 December 2012 the company was a wholly owned subsidiary undertaking of Virgin Media Inc. On 5 February 2013, Liberty Global, Inc and Virgin Media Inc entered into a merger agreement ("the Merger Agreement"). Pursuant to the Merger Agreement, Liberty Global, Inc and Virgin Media Inc completed a series of mergers on 7 June 2013 that resulted in the surviving corporations in the mergers becoming wholly owned subsidiaries of Liberty Global plc. This is referred to in more detail in the financial statements of Virgin Media Inc which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

The Virgin Media group ("the group") will continue to operate under the Virgin Media brand in the UK.

The group is a leading entertainment and communications business, being a "quad play" provider of broadband internet, television, mobile telephony and fixed line telephony services.

As of 31 December 2012, the group provided services to approximately 4.9 million residential cable customers on its network. The group is also one of the UK's largest mobile virtual network operators by number of customers, providing mobile telephony service to 1.7 million contract mobile customers and 1.3 million prepaid mobile customers over third party networks. As of 31 December 2012, 85% of residential customers on the group's cable network received multiple services from the group, and 65% were "triple play" customers, receiving broadband internet, television and fixed line telephony services from the group.

The group believes that its advanced, deep fibre access network enables it to offer faster and higher quality broadband services than its digital subscriber line, or DSL, competitors. As a result it provides its customers with a leading next generation broadband service and one of the most advanced TV on-demand services available in the UK market.

Through Virgin Media Business, the group provides a complete portfolio of voice, data and internet solutions to businesses, public sector organisations and service providers in the UK.

During the year the company acquired 100% of the share capital of BCMV Leasing Limited for consideration of the issue of debt of £12,912,836 for 12,912,836 ordinary shares of £1.

On 23 March 2012 the company undertook a lease and leaseback transaction with BCMV Leasing Limited, whereby BCMV Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company. Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary.

## The Directors' Report *(continued)*

Year ended 31 December 2012

### Key performance indicators (KPI's)

The company's key financial and other performance indicators for the year are considered below

	2012	2011	Comments
Turnover (£000)	339,807	294,921	Turnover has increased by 15.2% primarily due to recognition of premium television services revenue in the company, together with the increased uptake of broadband, television and telephony services, partially offset by higher price discounting to stimulate customer activity and retention in light of competitive factors in the market place
Gross profit margin (%)	77.0	84.1	Gross profit margin has decreased due mainly to the increase in revenue from premium television services, which have a low gross margin, together with higher price discounting to stimulate customer activity, partially offset by an increase in customers subscribing to the higher margin broadband product
Administrative expenses (£000)	318,006	307,476	Administrative expenses have increased by 3.4% during 2012 primarily due to increased marketing costs, together with higher asset usage recharges allocated to the company by fellow group undertakings, partially offset by lower employee and outsourcing costs

Selected statistics for residential cable customers served by the company at 31 December 2012 and 31 December 2011 are shown in the table below

	2012	2011
Products		
Television	427,000	417,200
Fixed line telephone	476,000	462,900
Broadband	524,900	492,900
Total	1,427,900	1,373,000
Total customers	593,000	570,350
Products per customer	2.41	2.41

## The Directors' Report *(continued)*

### Year ended 31 December 2012

---

Each television, telephone and broadband internet subscriber directly connected to the company's network counts as one product. Accordingly, a subscriber who receives both telephone and television services counts as two products. Products may include subscribers receiving some services for free or at a reduced rate in connection with promotional offers.

The company reported a decrease in net current liabilities and an increase in net liabilities for the year ended 31 December 2012 as a result of normal operations and the impact of recognising a deferred tax asset in the year. During the year, no new external finance was arranged and there was no movement in the called up equity share capital of the company. Operations were financed through the company's inter-company balances with fellow group undertakings.

#### **Future outlook**

Detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2012, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

#### **Results and dividends**

The loss for the financial year amounted to £40,194,000 (2011 - loss of £120,816,000). The directors have not recommended an ordinary dividend (2011 - £nil).

A deferred tax asset of £80,206,000 has been recognised in the year. This is considered in more detail in note 12.

#### **Principal risks and uncertainties**

Financial and operational risk management is undertaken as part of the group's operations as a whole. The company's operations expose it to a variety of operational and financial risks. These are considered in more detail in the financial statements of Virgin Media Inc, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

#### **Directors**

The directors who served the company during the year and thereafter were as follows:

R C Gale	
C B E Withers	(Appointed 31 December 2012)
J C Tillbrook	(Resigned 31 December 2012)

Virgin Media Inc has indemnified the directors of the company against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 2006. Such qualifying third party indemnity provision is in force as at the date of approving the Directors' Report.

### Going concern

After making suitable enquiries and obtaining the necessary assurances from Virgin Media Inc , a wholly owned subsidiary of Liberty Global plc and the intermediate holding company which heads the Virgin Media group, that sufficient resources will be made available to meet any liabilities as they fall due should the company's income not be sufficient. The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing these financial statements.

### Audit exemption

Virgin Media Finance PLC issued a guarantee against all outstanding liabilities to which the company is subject as at 31 December 2012, until they are satisfied in full. The guarantee is enforceable against Virgin Media Finance PLC by any person to whom the company is liable in respect of those liabilities. Since Virgin Media Finance PLC is the smallest group to which the company's accounts are consolidated, the company has taken advantage of the exemption from audit of its individual accounts for the year ended 31 December 2012 by virtue of Section 479A of the Companies Act 2006.

## **Statement of Directors' Responsibilities**

**Year ended 31 December 2012**

---

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year.

In preparing those financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## Notes to the Financial Statements

Year ended 31 December 2012

---

### 1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

#### **Basis of accounting**

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

#### **Fundamental accounting concept**

The financial statements have been prepared on the going concern basis because Virgin Media Inc, a wholly owned subsidiary of Liberty Global plc and the intermediate holding company which heads the Virgin Media group, has given the necessary assurances that sufficient resources will be made available so that the company can meet its liabilities as and when they fall due, for at least twelve months from the date of approval of these financial statements.

#### **Group accounts**

The company has taken advantage of the exemption from preparing group accounts afforded by Section 400 of the Companies Act 2006 because it is a wholly owned subsidiary of another company incorporated in the United Kingdom which prepares group accounts (see note 20). These financial statements therefore present information about the company as an individual undertaking and not about its group.

#### **Investments**

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

#### **Cash flow statement**

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company.

#### **Turnover**

Turnover represents the value of services provided, stated net of value added tax and discounts, and is attributable to continuing activities, being the provision of cable television, telephony, broadband internet and other telecommunication services and to run certain of the telecommunication systems over which they are provided, all of which is derived from operations in the United Kingdom. The directors consider this to be a single class of business.

### 1. Accounting policies (*continued*)

#### **Intangible fixed assets**

##### *Goodwill*

Positive goodwill arising on acquisition is capitalised, classified as an asset on the Balance Sheet and written off to the Profit and Loss Account over its useful economic life up to a maximum of five years. Goodwill is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value might not be recovered.

##### *Customer lists*

Costs incurred in securing customer lists have been capitalised and written off to the Profit and Loss Account over their useful economic lives up to a maximum of five years. Customer lists are also reviewed for impairment on the same basis as goodwill.

#### **Tangible fixed assets**

Depreciation is provided on all tangible fixed assets, other than land, so as to write off the cost of a tangible fixed asset on a straight line basis over the expected useful economic life of that asset as follows:

Network assets	3 - 30 years
Other fixed assets	
- Freehold property	30 years
- Short leasehold improvements	period of lease
- Other	3 - 12 years

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

#### **Operating leases**

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

#### **Finance leases**

Where the company enters into a lease under which it takes substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease.

The assets are recorded in the balance sheet as a tangible fixed asset and are depreciated in accordance with the above depreciation policies. Finance lease debtors are recorded in the balance sheet, and future instalments payable under finance leases are included within creditors, net of finance charges. Rentals receivable and payable under these finance lease arrangements are apportioned, the finance elements are recorded in the profit and loss account on a reducing balance basis and the capital elements reduce the outstanding liability or asset in accordance with the terms of the contract.

### 1. Accounting policies *(continued)*

#### Deferred tax

Deferred tax is recognised, as appropriate, in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

#### Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote

### 2. Other operating income

	2012	2011
	£000	£000
Other operating income	—	7,270

Other operating income represents an allocation of a VAT rebate received by the group during 2011

### 3 Operating loss (*continued*)

The group's inter-company funding arrangements are managed centrally. Recoverability of inter-company receivables is assessed annually. The provision for non-recoverability may increase or decrease as a result of that review. The impairment review of inter-company indebtedness as at 31 December 2012 concluded that no change in the provision against amounts due from group undertakings is required (2011 - £nil).

Auditor's remuneration of £nil (2011 - £27,000) represents costs allocated to the company by fellow group undertakings that pay all auditors' remuneration on behalf of the group.

The directors received remuneration for the year of £33,058 (2011 - £34,391) in relation to qualifying services as directors of this company, all of which was paid by Virgin Media Limited.

Certain expenses are specifically attributable to the company. Where costs are incurred by other group companies on behalf of the company, expenses are allocated to the company on a basis that, in the opinion of the directors, is reasonable.

### 4 Staff costs

The company does not have any directly employed staff but is charged an allocation of staff costs by the group. Details of staff numbers and staff costs of the group are disclosed in the group accounts of Virgin Media Finance PLC.

### 7. Taxation on loss on ordinary activities

The tax credit is made up as follows

	2012 £000	2011 £000
<b>Current tax charge:</b>		
Current tax on loss for the year	-	-
Total current tax	-	-
<b>Deferred tax:</b>		
Origination and reversal of timing differences	(80,206)	-
Total deferred tax (note 12)	(80,206)	-
Total tax credit on loss on ordinary activities	(80,206)	-

The tax assessed on the loss on ordinary activities for the year is higher than (2011 - higher) the standard rate of corporation tax in the UK of 24.50% (2011 - 26.50%). The differences are explained below

	2012 £000	2011 £000
Loss on ordinary activities before taxation	(120,400)	(120,816)
Loss on ordinary activities multiplied by rate of tax	(29,498)	(32,016)
Effects of		
Expenses not deductible for tax purposes	61,252	32,145
Depreciation in excess of capital allowances	1,869	19,220
Utilisation of tax losses	(32,679)	(16,942)
Group relief surrendered without payment	(944)	(481)
Tax chargeable at lower rates	-	(1,926)
Total current tax	-	-

### Factors affecting current and future tax charges

During the year the main rate of corporation tax reduced from 26% to 24% with effect from 1 April 2012. A number of changes to the UK corporation tax system were announced in the March 2013 Budget Statement. The Finance Act 2012, which was enacted and received Royal Assent on 17 July 2012, reduced the main rate of corporation tax to 23% from 1 April 2013. Deferred tax has been calculated using the enacted rate of 23%.

Legislation to reduce the main rate of corporation tax from 23% to 21% from 1 April 2014 and to 20% from 1 April 2015 was included in the Finance Act 2013 which was enacted in July 2013. These rate reductions had not been substantively enacted at the balance sheet date and therefore are not included in these financial statements. It is expected that the changes would reduce the value of the company's deferred tax asset at 31 December 2012 by £10,462,000.

### 10. Investments *(continued)*

On 7 March 2012 the company acquired 100% of the share capital of BCMV Leasing Limited for consideration of the issue of debt of £12,912,836 for 12,912,836 ordinary shares of £1

During the year the company undertook a lease and leaseback transaction with BCMV Leasing Limited, whereby BCMV Leasing Limited entered into a 10 year headlease agreement over certain of the network fixed assets of the company. As part of this transaction the company made a capital contribution of £1,278,370,000 to BCMV Leasing Limited which was immediately applied by that entity under the terms of the headlease. Subsequently the company entered into a 5 year sublease agreement over the same assets with that subsidiary.

In the opinion of the directors the aggregate value of the investments in subsidiary undertakings is not less than the amount at which they are stated in the financial statements.

The company has taken advantage of the exemption under Section 400 of the Companies Act 2006 not to disclose the aggregate amount of capital and reserves and the result for the year for each of the subsidiary undertakings on the basis that their results are included in the group accounts of Virgin Media Finance PLC (see note 20).

The material investments in which the company holds at least 20% of the nominal value of any class of share capital, all of which are unlisted, are as follows:

	13,547	-

Commitments under finance lease agreements relate to a lease and leaseback transaction with BCMV Leasing Limited, the company's subsidiary, whereby a 10 year headlease was granted over certain of the network fixed assets of BCMV Limited. On the same date, BCMV Leasing Limited entered into a 5 year sublease agreement over the same assets with the company in return for the company contributing capital to partially fund BCMV Leasing Limited's headlease obligations. The intercompany lease debtor is stated at an amount equal to the net investment in the lease, which equates to the present value of the lease payments, discounted at the rate of interest implicit in the lease.

### 16. Contingent liabilities

The company, along with fellow group undertakings, is party to a senior secured credit facility with a syndicate of banks. As at 31 December 2012 this comprised a term facility of £750 million and a revolving facility of £450 million. Borrowings under the facility are secured against the assets of certain members of the group including those of the company.

In addition, a fellow group undertaking has issued senior secured notes which, subject to certain exceptions, share the same guarantees and security which have been granted in favour of the senior credit facility. The amount outstanding under the senior secured notes at 31 December 2012 amounted to £2,582 million (2011 - £2,575 million). Borrowings under the notes are secured against the assets of certain members of the group including those of the company.

On 7 June 2013, fellow group undertakings entered into a new senior secured credit facility agreement, pursuant to which the lenders agreed to provide the borrowers with i) a £375 million term loan (Facility A), ii) a \$2,755 million term loan (Facility B), iii) a £600 million term loan (Facility C) and iv) a £660 million revolving credit facility. With the exception of the revolving credit facility, all available amounts were borrowed under the new senior secured credit facility in June 2013, with an equivalent aggregate value of £2,733 million. The new senior secured credit facility ranks pari passu with the group's existing senior secured notes, and subject to certain exceptions, shares in the same guarantees and security granted in favour of its existing senior secured notes. The borrowings on the new senior secured credit facility were used in part to repay in full the borrowings on the previous senior secured credit facility.

### 16. Contingent liabilities (continued)

On 7 June 2013, upon completion of the merger, two senior secured notes issued by a subsidiary of Liberty Global, Inc on 22 February 2013, with an equivalent aggregate principal amount of £1,744 million due in 2021, were pushed down to Virgin Media Secured Finance PLC, a fellow group undertaking of the company. The notes are split into a \$1,000 million US dollar denominated tranche and a £1,100 million sterling denominated tranche. The new senior secured notes rank pari passu with the group's existing senior secured notes and senior secured credit facility, and subject to certain exceptions, share in the same guarantees and security granted in favour of its existing senior secured notes. On 11 June 2013, the net proceeds of the issuance of the senior secured notes were in part used to repay an equivalent aggregate amount of £55 million of the group's existing senior secured notes.

The company has joint and several liabilities under a group VAT registration.

### 17. Related party transactions

In accordance with the exemptions offered by FRS 8 "Related Party disclosures" there is no disclosure in these financial statements of transactions with entities that are part of Virgin Media Inc, and its subsidiaries (see note 20).
