# **Directors' responsibilities statement**

### Year ended 31 December 2019

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss of the company for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

These financial statements have been prepared and delivered in accordance with the provisions applicable to companies subject to the small companies' regime and in accordance with Section 1A of FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

In accordance with section 444 of the Companies Act 2006, the statement of income and retained earnings has not been delivered.

These financial statements were approved by the board of directors and authorised for issue on 12, 2,22, and are signed on behalf of the board by:

W Bridgman Director

Company registration number: 03081991

## Notes to the financial statements

### Year ended 31 December 2019

### 1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is 2 Brickfields Way, Brickfields Way, Thetford, Norfolk, IP24 1HX.

### 2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

### 3. Accounting policies

### Basis of preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in sterling, which is the functional currency of the entity.

### Going concern

The financial statements have been prepared on a going concern basis. Along with many businesses in the country, the company has been affected by the impact of coronavirus and measures taken to combat this.

The company has been able to adapt well and has continued to operate throughout the pandemic. The company has implemented new working practices in order to maintain production levels whilst keeping the safety of staff and customers as a priority.

The situation is continually evolving and is being regularly assessed by the directors, who have considered various potential scenarios. Despite these unprecedented times, and for the reasons stated above, the directors feel the company is in a position to continue to trade for the foreseeable future.

# Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The judgements that management has made in the process of applying the entity's accounting policies and that have the most significant effect on the amounts recognised in the financial statements are as follows:

# - Stock impairments

The company establishes stock impairments based on reasonable judgements. The impairment is calculated and adjusted for on a quarterly basis. This impairment is based on management's experience and judgement whether a particular stock line is likely to be used in the future.

### Revenue recognition

Turnover represents income received from the provision of engineering services and the manufacture of goods, stated net of discounts and of Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer, usually on despatch of the goods.

# Notes to the financial statements (continued)

### Year ended 31 December 2019

### 3. Accounting policies (continued)

### Income tax

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences.

### Foreign currencies

Foreign currency transactions are initially recorded in the functional currency, by applying the spot exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the reporting date, with any gains or losses being taken to the profit and loss account.

# **Operating leases**

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

### **Tangible assets**

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

### Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Leasehold property

improvements

20% straight line

Plant and machinery

10% - 33% straight line & 15% - 33% reducing balance

Fixtures and fittings

10% - 20% straight line

Fixtures and fittings Motor vehicles

- 10% - 20% straight line

# Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

# Finance leases and hire purchase contracts

Assets held under finance leases and hire purchase contracts are recognised in the statement of financial position as assets and liabilities at the lower of the fair value of the assets and the present value of the minimum lease payments, which is determined at the inception of the lease term. Any initial direct costs of the lease are added to the amount recognised as an asset.

Lease payments are apportioned between the finance charges and reduction of the outstanding lease liability using the effective interest method. Finance charges are allocated to each period so as to produce a constant rate of interest on the remaining balance of the liability.

# Notes to the financial statements (continued)

### Year ended 31 December 2019

### 3. Accounting policies (continued)

### **Government grants**

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised using the accrual model. Under the accrual model, government grants relating to revenue are recognised on a systematic basis over the periods in which the company recognises the related costs for which the grant is intended to compensate. Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs are recognised in income in the period in which it it becomes receivable.

Grants relating to assets are recognised in income on a systematic basis over the expected useful life of the asset. Where part of a grant relating to an asset is deferred, it is recognised as deferred income and not deducted from the carrying amount of the asset.

### Invoice discounting

The company has an invoice discounting agreement in place. It is considered that the risks and rewards of ownership are substantially transferred to the invoice discounting company at the point the sales invoice is raised. Therefore the amounts owed from customers have been derecognised, and a debtor recognised in relation to amounts owed from the invoice discounting company.

# **Defined contribution pension plans**

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

### 4. Employee numbers

The average number of employees during the year was 108 (2018: 105).

Later than 1 year and not later than 5 years	_	6,908
	6.908	17.270
	<del></del>	17,210

### 10. Events after the end of the reporting period

Since the year end most of the world has been heavily impacted by the coronavirus and measures taken by governments to mitigate or halt its spread.

The company has been able to adapt well and has continued to operate throughout the pandemic. The company has implemented new working practices in order to maintain production levels whilst keeping the safety of staff and customers as a priority.

The situation is continually evolving and is being regularly assessed by the directors, who have considered various potential scenarios. Despite these unprecedented times, and for the reasons stated above, the directors feel the company is in a position to continue to trade for the foreseeable future, and no adjustments have been made to the results for the year or the statement of financial position as is presented.

# 11. Summary audit opinion

The auditor's report for the year dated 15 September 2020 was unqualified.

The senior statutory auditor was Neil Orford FCA CF, for and on behalf of Lovewell Blake LLP.
