In preparing these financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,

NOTES TO THE ACCOUNTS Year ended 31 December 2012

1. ACCOUNTING POLICIES

The following principal accounting policies have been applied consistently throughout the current and preceding year

a) Basis of accounting

The financial statements have been prepared under the historical cost convention as modified by the revaluation of fixed asset investments in accordance with all applicable law and United Kingdom accounting standards

b) Going concern

The current economic conditions have created a number of uncertainties which are likely to affect the Company's future performance. The financial position of the Company is as set out in the Balance Sheet

The Company has net liabilities as at 31 December 2012 and is reliant on the support of its ultimate parent company, Hammerson plc, to be able to meet its liabilities as they fall due. The Directors consider that the Company is an integral part of Hammerson plc's structure and strategy and this is evidenced by a letter of support from Hammerson plc, which states its intent to provide the necessary financial support to ensure that the Company is a going concern for at least twelve months from the date of signing of these financial statements. After making enquiries and taking account of the factors noted above, the Directors have a reasonable expectation that the Company will have access to adequate resources to continue in existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements

c) Cash flow statement

As the Company is a wholly owned subsidiary it has taken exemption under the terms of Financial Reporting Standard 1 (revised 1996) from preparing a cash flow statement, as its cash flows are included in the consolidated financial statements of Hammerson plc, which are publicly available

d) Investments in unit trusts

Investments in unit trusts are carried at the relevant share of the underlying net asset value of the trust. As the unit trusts have an obligation to fully distribute their income, any income accrued in the trusts is accounted as a distribution receivable by the investing company

e) Taxation

Current tax is the expected tax payable on the taxable income for the year, using tax rates applicable at the balance sheet date, together with any adjustment in respect of previous years

In accordance with Financial Reporting Standard 19 "Deferred Tax", deferred tax is provided in respect of all timing differences that may give rise to an obligation to pay more or less tax in the future
