NATUNA UK (KAKAP 2) LIMITED DIRECTORS' AND AUDITORS' REPORTS AND ACCOUNTS 31 DECEMBER 2010

(THIS FINANCIAL REPORT IS PREPARED IN UNITED STATES DOLLARS)

FRIDAY

232 30/09/2011 COMPANIES HOUSE

314

REGISTERED NUMBER 3115420

DIRECTORS' REPORT

The Directors present their directors' report and financial statements for the year ended 31 December 2010

Principal Activity and Review of Business

The principal activities of the Company remain unchanged and continue to comprise the exploration for and production of hydrocarbons in areas of Indonesia granted by the Kakap Production Sharing Contract

It is the intention of the directors that the above business will continue for the foreseeable future

Principal Risks and Uncertainties

The principal risks that the Company faces are

Exploration and development risk

There is no assurance that the Company's exploration activities will be successful and statistically few properties that are explored are ultimately developed into producing hydrocarbon fields. Accordingly, the Company provides a risked analysis and range of outcomes to the Board for consideration prior to any prospect being drilled.

The Company's operations may also be curtailed, delayed or cancelled not only as a result of weather conditions but also as a result of shortage or delays in the delivery of drilling rigs and other equipment which, at times, are in short supply. As the Company only owns a non operated asset, risk is mitigated to some extent by being in a joint venture with a number of other companies which have access to rigs and equipment.

Competition

There is strong competition within the petroleum industry for the identification and acquisition of properties considered to have hydrocarbon potential. The Company competes with other exploration and production companies, some of which have greater financial resources than the Company, for the acquisition of properties, leases and other interests as well as for the recruitment and retention of skilled personnel. The challenge to management is to secure transactions without having to over pay

Commodity prices, fiscal regimes and currency

The market price of hydrocarbon products is volatile and cannot be controlled. If the price of hydrocarbon products should drop significantly, or the fiscal regime change for the worse, the economic prospects of the projects in which the Company has an interest could be significantly reduced or rendered uneconomic. Currently the Company has a gas price contract, which will minimise the commodity price risk.

Exposure to foreign currency and commodity price risks arises in the normal course of the Company's business

REGISTERED NUMBER 3115420

DIRECTORS' REPORT

Principal Risks and Uncertainties (continued)

Financing

The development of the Company's properties will depend upon the Company's ability to obtain financing through the joint venture of projects, debt financing through Star Energy Holdings Pte Ltd or its subsidiaries, farm downs or by other means. There is no assurance that the Company will be successful in obtaining the required financing or attracting farminees. If the Company is unable to obtain additional financing as needed through the attraction of suitable farmin partners, some interests may be relinquished and/or the scope of the operations reduced.

Credit risk

Credit risk arises from cash on hand and in banks, deposits with banks and financial institutions, as well as credit exposures from trade receivables. The Company is subject to concentration of credit risk as its entire sales are to two counterparties. Oil and Gas sales are solely to BP Singapore Pte Ltd and SembCorp Gas Pte Ltd, respectively

Business Review and Future Developments

The Company operates predominantly in one business, namely the exploration, development, production, transportation and marketing of hydrocarbons. Revenue is derived from the sale of gas and liquid hydrocarbons.

The Company operates in one geographical segment being Indonesia

Oil and condensate production by the Kakap PSC, in the West Natura Sea, Indonesia averaged 2,993 boepd in 2010 (3,535 boepd in 2009) Gas production averaged 7,627 boepd in 2010 (6,047 boepd in 2009)

The results for the year to 31 December 2010 and 2009 are summarised below

	2010 US\$'000	2009 US\$'000
Revenue	13,046	9,770
Profit/(Loss) before tax Taxation	7,906 (2,745)	(2,582) (2,1 <u>8</u> 9)
Profit/(Loss) after tax for the year	5,161	(4,771)

There were no dividends declared and distributed during the year (2009 \$10,000,000)

REGISTERED NUMBER 3115420

DIRECTORS' REPORT

Business Review and Future Developments (continued)

As a consequence of the deterioration found in the hull envelope of the previous KN Floating Production Storage and Offloading ("KN FPSO") vessel which was followed by the cancellation of the certification from the American Bureau of Shipping on 28 July 2009, the Operator had temporarily stopped crude oil lifting activities until 23 March 2010, which was the date of the first oil lifting after the incident

Various efforts have been initiated and carried out by the Operator in order to remedy the situation, including implementation of a medium-term solution by replacing the KN FPSO with a new FSO namely East Fortune FSO. The contract to lease the new FSO was signed in October 2009 with PT Pulau Kencana Raya ("PKR") as an agent on behalf of Songa Production Pte. Ltd.

The contract with PKR had a total contract value of US\$14,115,000 and expired in September 2010 which was nine months from first oil on the new FSO and operations date of Single Point Mooring Buoy ("SPM buoy") on 9 January 2010 On 5 October 2010, the Operator extended the lease contract of the new FSO up to 31 December 2010 with the contract value amounting to US\$2,972,336 On 1 December 2010, the lease contract was extended up to 31 January 2011 (Note 23)

Key Performance Indicators

The Company's ultimate parent entity, Star Energy Holdings Pte Ltd, is the parent entity in the consolidated Star Energy Group. The Company holds a 6 25% non-operator interest in the Kakap Production Sharing Contract. The Star Energy Group has strategic targets for its base business including production targets and safety performance levels. The Company contributed to the attainment of these overall Star Energy Group strategic targets. As the Company is not the operator, management meets regularly with the operator through operating and technical forums to monitor the progress of the PSC against its strategic targets.

Going Concern

After reviewing the Company's budget and plans, the Directors consider that the Company has adequate resources to continue in operational existence for the foreseeable future and that it is therefore appropriate to continue to adopt the going concern basis in preparing the financial statements

REGISTERED NUMBER 3115420

DIRECTORS' REPORT

Directors' statement as to disclosure of information to auditor

The directors who were members of the board at the time of approving the directors' report are listed below. Having made enquiries of fellow directors and of the Company's auditor, each of these directors confirms that

- to the best of each director's knowledge and belief, there is no information (that is, information needed by the auditor in connection with preparing their report) of which the Company's auditor is unaware, and
- each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the Company's auditor is aware of that information

Directors

The Directors who served during the year and up to the date of the financial statements, unless otherwise noted, were

Bret Wayne Mattes	Director
Rudy Suparman	Director
Robin Gregory Baker	Director (resigned on 30 September 2010)
Paul Francis Winship	Director (resigned on 02 August 2011)
Hendra Soetjipto Tan	Alternate Director to Rudy Suparman
James Patrick Johnston Fairrie	Director (appointed on 09 March 2011)

Spencer Saffer Director (appointed on 23 September 2011)

Creditor Payment Policy and Practice

It is the Company's policy that payments to suppliers are made in accordance with those terms and conditions agreed between the Company and its suppliers, provided that all trading terms and conditions have been complied with At 31 December 2010, the Company had an average of 29 days purchases outstanding in trade creditors (31 December 2009 95 days)

Events since the Balance Sheet Date

Extended Lease Contract of EF FSO

On 1 December 2010, the lease contract of EF FSO rental service has been extended up to 31 January 2011. On 12 January 2011, the lease contract of EF FSO rental service has been further extended for a twelve months period starting 1 February 2011. However, since 9 March 2011, the EF FSO has been demobilized from Kakap field and has been replaced with the new vessel MT. Barunawati. Originally, the vessel that will replace EF FSO is MT. Badraini which is which was modified.

From July 2011, the vessel MT Badraini was available for use and so the Operator started using it for its oil liftings

NATUNA UK (KAKAP 2) LIMITED REGISTERED NUMBER 3115420

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE DIRECTORS' REPORT AND THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

The directors are responsible for preparing the Directors' Report and the Company financial statements in accordance with applicable United Kingdom law and those International Financial Reporting Standards as adopted by the European Union

Under Company law, the directors are required to prepare financial statements for each financial year which present fairly the financial position, the financial performance and cash flows of the Company for that period

In preparing those financial statements the directors are required to

- select suitable accounting policies in accordance with IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors and then apply them consistently,
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information,
- provide additional disclosures when compliance with the specific requirements in IFRS is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the financial position and financial performance, and
- state that the Company has complied with IFRS, subject to any material departures disclosed and explained in the financial statements

The directors are responsible for keeping proper accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that its financial statements comply with the Companies Act 2006 and Article 4 of IAS Regulation. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

NATUNA UK (KAKAP 2) LIMITED REGISTERED NUMBER 3115420

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NATUNA UK (KAKAP 2) LIMITED

We have audited the financial statements of Natuna UK (Kakap 2) Limited for the year ended 31 December 2010 which comprise the Balance Sheet, the Statement of Comprehensive Income, the Statement of Changes in Equity, Statement of Cash Flows and the related notes 1 to 23 The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRS) as adopted by the European Union

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the directors' and auditor's reports and accounts to identify material inconsistencies with the audited financial statements. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the company's affairs as at 31 December 2010 and of its profit for the year then ended,
- have been properly prepared in accordance with IFRS as adopted by the European Union, and
- have been prepared in accordance with the requirements of the Companies Act 2006

REGISTERED NUMBER 3115420

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- · certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

Ernst & Young LLP

Jacqueline Ann Geary (Senior statutory auditor) for and on behalf of Ernst & Young LLP, Statutory auditor London

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies

Natura UK (Kakap 2) Limited ("the Company") is a company incorporated and domiciled in the United Kingdom

The Company is engaged in a joint venture exploration and production of crude oil and natural gas in South Natuna Sea area, Indonesia, under a Production Sharing Contract ("PSC") with Badan Pelaksana Kegiatan Usaha Hulu Minyak dan Gas Bumi ("BPMIGAS"), the oil and gas regulatory agency of Indonesia. The Company's working interest in the joint venture is 6 25%

The original PSC was signed on 22 March 1975 An amendment to the original PSC was signed on 15 January 1999 and became effective immediately. On the same date, an extension to the original PSC (The "Extended PSC") was signed and became effective on 22 March 2005. The PSC extension will expire on 22 March 2028. The Operator of the joint venture is Star Energy (Kakap) Limited.

The financial report was authorised for issue by the Directors on 28 September 2011

(a) Statement of compliance

The Company's financial statements have been prepared and approved by the Directors in accordance with International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs")

(b) Basis of preparation

The financial statements are prepared under the historical cost convention

The financial statements are presented in United States dollars

The Company's activities are conducted in Indonesia under a Production Sharing Contract ("PSC") The Company accounts for PSC's on a net entitlements basis whereby hydrocarbon production, revenues and reserves are determined by reference to the terms of the PSC Expenditure on exploration and development activities are capitalised and depleted as described in Notes 1(e), 1(f) and 1(h) Production and other operating costs are expensed as incurred

Adoption of new and revised accounting standards

In 2010, the Company adopted the following standards, amendments and interpretations, which became applicable on 1 January 2010 Adoption of these standards, amendments and interpretations did not have any effect on the balance sheet or performance of the Company

- IFRS 2 Share-based Payment
- IFRS 5 Non-current Assets Held for Sale and Discontinued Operations
- IFRS 8 Operating Segments
- IAS 1 Presentation of Financial Statements
- IAS 7 Statement of Cash Flows
- IAS 17 Leases

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(b) Basis of preparation (continued)

Adoption of new and revised accounting standards (continued)

- IAS 18 Revenue
- 1AS 36 Impairment of Assets
- IAS 38 Intangible Assets
- IAS 39 Financial Instruments Recognition and Measurement
- IFRIC 9 Reassessment of Embedded Derivatives
- IFRIC 16 Hedges of a Net Investment in a Foreign Operation

The accounting policies set out below have been applied consistently to all periods presented in the Company's financial report. The accounting policies have been applied consistently by the Company

(c) Jointly controlled assets

The Company's exploration and production activities are often conducted through joint venture arrangements governed by joint operating agreements, production sharing contracts or similar contractual relationships

A joint venture characterised as a jointly controlled asset involves the joint control, and often the joint ownership, by the venturers of one or more assets contributed to, or acquired for the purpose of, the joint venture and dedicated to the purposes of the joint venture. The assets are used to obtain benefits for the venturers. Each venturer may take a share of the output from the assets and each bears an agreed share of expenses incurred. Each venturer has control over its share of future economic benefits through its share of jointly controlled assets.

The interests of the Company in unincorporated joint ventures are brought to account by recognising in the financial statements the Company's share of jointly controlled assets, share of expenses and liabilities incurred, and the income from the sale or use of its share of the production of the joint venture in accordance with the revenue policy in Note 1(t)

(d) Foreign currency

Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which it operates ("the functional currency") The financial statements are presented in United States dollars which is the Company's functional and presentation currency

Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the foreign exchange rates ruling at the balance sheet date. Foreign exchange differences arising on translation are recognised in the statement of comprehensive income. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the date of the initial transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to the functional currency at foreign exchange rates ruling at the dates the fair value was determined.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(e) Exploration and evaluation expenditure

Exploration and evaluation expenditure in respect of each area of interest is accounted for using the successful efforts method of accounting. The successful efforts method requires all exploration and evaluation expenditure to be expensed in the period it is incurred, except the costs of successful wells and the costs of acquiring interests in new exploration assets, which are capitalised as intangible exploration and evaluation assets. The costs of wells are initially capitalised pending the results of the well

An area of interest refers to an individual geological area where the presence of oil or a natural gas field is considered favourable or has been proved to exist, and in most cases will comprise an individual oil or gas field

Exploration and evaluation expenditure is recognised in relation to an area of interest when the rights to tenure of the area of interest are current and either

- (i) such expenditure is expected to be recovered through successful development and commercial exploitation of the area of interest, or alternatively by its sale, or
- (ii) the exploration activities in the area of interest have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves, and active and significant operations in or in relation to the area of interest are continuing

The carrying amounts of the Company's exploration and evaluation assets are reviewed at each balance sheet date, in conjunction with the impairment review process referred to in Note 1(m), to determine whether any of the following indicators of impairment exist

- (i) tenure over the licence area has expired during the period or will expire in the near future, and is not expected to be renewed,
- (ii) substantive expenditure on further exploration for and evaluation of mineral resources in the specific area is not budgeted or planned,
- (iii) exploration for and evaluation of resources in the specific area has not led to the discovery of commercially viable quantities of resources, and the Company has decided to discontinue activities in the specific area, or
- (iv) sufficient data exists to indicate that although a development is likely to proceed the carrying amount of the exploration and evaluation asset is unlikely to be recovered in full from successful development or from sale

Where an indicator of impairment exists, a formal estimate of the recoverable amount is made, and any resultant impairment loss is recognised in the statement of comprehensive income

When a discovered oil or gas field enters the development phase the accumulated exploration and evaluation expenditure is transferred to oil and gas assets – assets in development

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(f) Oil and gas assets

Oil and gas assets are usually single oil or gas fields being developed for future production or which are in the production phase. Where several individual oil or gas fields are to be produced through common facilities the individual oil or gas fields and the associated production facilities are managed and reported as a single oil and gas asset.

Assets in development

When the technical and commercial feasibility of an undeveloped oil or gas field is being developed for future production, the costs of oil and gas assets in the development phase are separately accounted for as tangible assets and include past exploration and evaluation costs, development drilling and other sub-surface expenditures, surface plant and equipment and any associated land and buildings

When commercial operations commence the accumulated costs are transferred to oil and gas assets - producing assets

Producing assets

The costs of oil and gas assets in production are separately accounted for as tangible assets and include past exploration and evaluation costs, pre-production development costs and the ongoing costs of continuing to develop reserves for production and to expand or replace plant and equipment and any associated land and buildings. These costs are subject to depreciation and depletion in accordance with Note 1(h)

Title of assets

Under the terms of the PSC, the Operator and the participants, including the Company, have no ownership interest in the oil and gas assets or in the oil and gas reserves, but rather have the right to operate the assets and receive production and/or revenues from the sale of oil and gas in accordance with the PSC. Proved reserves have therefore been determined on a net entitlement basis, which takes into account projections of the host government's share of future production calculated with certain price and expenditure assumptions. As the participants paid for and have the right to recover the costs for oil and gas assets through cost recovery, via Operator of the PSC, these balances have been recorded as assets in the Company's financial statements based on its working interest in the PSC.

(g) Plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses

The initial cost of an asset comprises its purchase price or construction cost, any cost directly attributable to bringing the asset into operation, the initial estimate of the decommissioning obligation, and for qualifying assets, borrowing costs. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given to acquire the asset. The capitalized value of a finance lease is also included within plant and equipment.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1 Significant Accounting Policies (continued)

(g) Plant and equipment (continued)

Subsequent expenditures related to an asset that has already been recognized are added to the carrying amount of the asset only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably

An item of plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the comprehensive income or expense in the year the asset is derecognized.

Depreciation of plant and equipment is calculated in accordance with Note 1(h)

(h) Depreciation and depletion

Depreciation of subsurface assets and some plant and equipment is calculated using a unit-of-production method based on barrels of oil produced over the total estimated proven reserves to be produced during the PSC term on net entitlement basis. No provision for depreciation is made on assets in development until such time as the relevant assets are completed and production commences. When the assets concerned are brought into use, the costs are transferred to the plant and equipment classification and depreciated in accordance with the stated policy.

Depreciation of other property, plant and equipment is calculated using the straightline method to allocate depreciable amounts over their estimated useful lives. The estimated useful lives are as follows

Plant and equipment

Furniture and equipment
 Asset under finance lease
 5 - 10 years
 5 - 10 years

The residual values, estimated useful lives and depreciation method of the assets are reviewed at each balance sheet date, and adjusted prospectively, if appropriate The effects of any revision are recognized in the comprehensive income or expense when the changes arise

(i) Derivative financial instruments

Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, derivative financial instruments are stated at fair value.

Embedded derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contract and the host contracts are not measured at fair value with changes in fair value recognised in comprehensive income or expense

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(j) Inventories

Inventories are carried at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Cost is determined as follows

- (1) Materials and supplies, which include plant spares, consumables and maintenance and drilling tools used for ongoing operations, are valued at weighted average cost, and
- (2) Crude oil produced and not sold is not recorded as inventory because title does not pass to the Company until the oil is lifted or off-loaded onto crude tankers

Management assesses the need for any allowance for slow moving and obsolete inventories at each balance sheet date

Under the term of the PSC, inventory becomes the property of the host government upon landing in the country. As the Company has paid for and has the right to use these assets and/or cost recover the costs, these balances have been reflected as assets in the Company's financial statements based on its working interest in the PSC.

(k) Trade and other receivables

Trade and other receivables are initially recognised at fair value, which in practice is the equivalent of cost, less any impairment losses. Trade receivables are non-interest bearing and settlement terms are generally within 30 days.

Long-term receivables are discounted and are stated at amortised cost, less impairment losses

Trade and other receivables are assessed for indicators of impairment at each balance sheet date. Where a receivable is impaired the amount of the impairment is the difference between the asset's carrying value and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the receivable is reduced through the use of an allowance account. Changes in the allowance account are recognised in the statement of comprehensive income.

(I) Cash and cash equivalents

Cash and cash equivalents comprises cash balances and short-term deposits that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and have an original maturity of three months or less

Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the cash flow statement. Bank overdrafts are included within interest-bearing loans and borrowings in current liabilities on the balance sheet.

Cash in bank balances which are restricted for use as stipulated under the terms of the loan agreement are presented as "Restricted cash in Bank"

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(m) Impairment

Plant and equipment are tested for impairment whenever there is any objective evidence or indication that these assets may be impaired

For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, the recoverable amount is determined for the CGU (Cash Generating Unit) to which the asset belongs

If the recoverable amount of the asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and its value in use. In assessing value in use an asset's estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash flows that are largely independent from other assets or groups of assets, the recoverable amount is determined for the cash generating unit to which the asset belongs

For oil and gas assets, the estimated future cash flows are based on estimates of hydrocarbon reserves, future production profiles, commodity prices, operating costs and any future development costs necessary to produce the reserves. Estimates of future commodity prices are based on contracted prices where applicable or based on forward market prices where available.

The difference between the carrying amount and recoverable amount is recognised as an impairment loss in the statement of comprehensive income, unless the asset is carried at revalued amount, in which case, such impairment loss is treated as a revaluation decrease

Exploration and evaluation assets are assessed for impairment in accordance with Note 1(e)

An impairment loss is recognised in the statement of comprehensive income whenever the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount

Reversal of impairment

An impairment loss for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. The carrying amount of an asset other than goodwill is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(m) Impairment (continued)

A reversal of impairment loss for an asset is recognized in the statement of comprehensive income, unless the asset is carried at a revalued amount, in which case, such a reversal is treated as a revaluation increase. However, to the extent that an impairment loss on the same revalued asset was previously recognized in the statement of comprehensive income, a reversal of that impairment is also recognized in the statement of comprehensive income.

(n) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value, net of transaction costs incurred. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the statement of comprehensive income over the period of the borrowings on an effective interest basis.

(o) Provisions

A provision is recognized in the balance sheet when the Company has a present legal or constructive obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Site restoration and abandonment costs

Provisions for future environmental restoration are recognised where there is a present obligation as a result of exploration, development, production, transportation or storage activities having been undertaken, and it is probable that an outflow of economic benefits will be required to settle the obligation. The estimated future obligations include the costs of removing facilities, abandoning wells and restoring the affected areas

The provision for future restoration costs is the best estimate of the present value of the future expenditure required to settle the restoration obligation at the reporting date, based on current legal requirements, the discount rate was based on the borrowing rate at the time of recognition. Future restoration costs are reviewed annually and any changes in the estimate (including impact of change in discount rate) are reflected in the present value of the restoration provision at the balance sheet date with a corresponding change in the cost of the associated asset

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(o) Provisions (continued)

The amount of the provision for future restoration costs relating to exploration, development, and production facilities is capitalized and depleted as a component of the cost of those activities. The unwinding of the effect of discounting on the provision is recognized as a finance cost.

(p) Capitalisation of borrowing costs

Borrowing costs, including interest and finance charges relating to major oil and gas assets under development up to the date of commencement of commercial operations are capitalized as a component of the cost of development. Where funds are borrowed specifically for qualifying projects, the actual borrowing costs incurred are capitalized. Where the projects are funded through general borrowings, the borrowing costs are capitalized based on the weighted average borrowing rate.

Borrowing costs incurred after commencement of commercial operations are expensed

(q) Deferred income

A liability is recorded for obligations under sales contracts to deliver natural gas in future periods for which payment has already been received

(r) Trade and other payables

Trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method

(s) Share capital

Ordinary share capital and share premium

Ordinary share capital and share premium are classified as equity

Dividends

Dividends are recognised as a liability at the time the Directors resolve to pay or declare the dividend

(t) Revenue

Revenues comprise the fair value of the consideration of contributions received or receivable for the rendering of services and sale of goods in the ordinary course of the Company's activities. Revenues are presented, net of value-added-tax, rebates and discounts, and after eliminating sales within the Company.

The Company recognizes revenue when the amount of revenue and related costs can be reliably measured, it is probable that future economic benefits will flow to the entity and when the specific criteria for each of the Company's activities are met as follows

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(t) Revenue (continued)

- Crude oil and natural gas sales revenue is recognized on the basis of the Company's interest in a producing field ("entitlements" method), when the physical product and associated risks and rewards of ownership pass to the purchaser, which is generally at the time of ship or truck loading, or on the product entering the pipeline
- Revenue earned under a production sharing contract ("PSC") is recognized on a net entitlements basis according to the terms of the PSC Differences between the Company's actual lifting of crude oil and gas result in a receivable when entitlements exceed lifting of crude oil and gas (under lifting position) and in a payable when lifting of crude oil and gas exceed entitlements (over lifting position) Under lifting and over lifting volumes are valued based on the annual weighted average sales price for crude (i.e. Indonesian Crude Price - "ICP") and gas (i.e. contract prices)

(u) Other Income

Other income is recognised in the statement of comprehensive income at the fair value of the consideration received or receivable, when the significant risks and rewards of ownership have been transferred to the buyer or when the service has been performed

The gain or loss arising on disposal of a non-current asset is included as other income at the date control of the asset passes to the buyer. The gain or loss on disposal is calculated as the difference between the carrying amount of the asset at the time of disposal and the net proceeds on disposal.

Interest income is recognised in the statement of comprehensive income as it accrues, using the effective interest rate method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset

(v) Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the leased asset to the leasee. All other leases are classified as operating leases

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(v) Leases (continued)

Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Assets under finance lease are depreciated over the shorter of the estimated useful life of the asset and the lease term if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

(w) Income tax

Current income tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date

Deferred income tax is recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor tax profit or loss at the time of the transaction

A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized

Deferred income tax is measured

- at the tax rate that is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date, and
- (ii) based on the tax consequence that will follow from the manner in which the Company expects, at the balance sheet date, to recover or settle the carrying amounts of its assets and liabilities

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(x) Significant accounting judgements, estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on management's judgement regarding estimates and assumptions of future events. The reasonableness of estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The key judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of certain assets and liabilities within the next annual reporting period are

Estimates of reserve quantities

The estimated quantities of Proven plus Probable hydrocarbon reserves reported by the Company are integral to the calculation of depletion and depreciation expense and to assessments of possible impairment of assets. Estimated reserve quantities are based upon interpretations of geological and geophysical models and assessments of the technical feasibility and commercial viability of producing the reserves. These assessments require assumptions to be made regarding future development and production costs, commodity prices, exchange rates and fiscal regimes. The estimates of reserves may change from period to period as the economic assumptions used to estimate the reserves can change from period to period, and as additional geological data is generated during the course of operations. Reserves estimates are prepared in accordance with the Company's policies and procedures for reserves estimation which conform to guidelines prepared by the Society of Petroleum Engineers.

Exploration and evaluation

The Company's policy for exploration and evaluation expenditure is discussed in Note 1(e). The application of this policy requires management to make certain estimates and assumptions as to future events and circumstances, particularly in relation to the assessment of whether economic quantities of reserves have been found. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised exploration and evaluation expenditure, management concludes that the capitalised expenditure is unlikely to be recovered by future exploitation or sale, then the relevant capitalised amount will be written off to the statement of comprehensive income. The Company has no exploration and evaluation assets at 31 December 2010 (2009 US\$nil)

Provision for restoration

The Company estimates the future removal and restoration costs of oil and gas production facilities, wells, pipelines and related assets at the time of installation of the assets. In most instances the removal of these assets will occur many years in the future. The estimate of future removal costs therefore requires management to make judgements regarding the removal date, future environmental legislation, the extent of restoration activities required and future removal technologies.

The carrying amount of the provision for restoration is disclosed in Note 14 and the accounting policy for providing for restoration is included in Note 1(o)

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(x) Significant accounting judgements, estimates and assumptions (continued)

Impairment of oil and gas assets

The Company assesses whether oil and gas assets are impaired on a semi-annual basis. This requires an estimation of the recoverable amount of the cash-generating unit to which the assets belong. The assumptions used in the estimation of recoverable amount and the carrying amount of oil and gas assets are discussed in Note 1(m).

(y) Standards issued but not yet effective

Standards issued but not yet effective up to the date of issuance of the Company's financial statements are listed below. This listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt those standards when they become effective

- IAS 24, Related Party Disclosure (Amendment)

 The amended standard is effective for annual periods beginning on or after 1

 January 2011 It clarified the definition of a related party to simplify the identification of such relationships and to eliminate inconsistencies in its application. The revised standard introduced a partial exemption of disclosure requirements for government related entities. The Company does not expect any impact on its balance sheet or performance. Early adoption is permitted for either the partial exemption for government-related entities or for the entire standard.
- IAS 32, Financial Instruments Presentation Classification of Rights Issues
 The amendment to IAS 32 is effective for annual periods beginning on or after
 1 February 2010 and changed the definition of a financial liability in order to
 classify rights issues (and certain options or warrants) as equity instruments in
 cases where such rights are given pro rata to all of the existing owners of the
 same class of an entity's non-derivative equity instruments, or to acquire a fixed
 number of the entity's own equity instruments for a fixed amount in any
 currency. This amendment will have no impact on the Company after initial
 application.
- IFRS 9, Financial Instruments Classification and Measurement
 IFRS 9 as issued reflects the first phase of the Boards work on the replacement
 of IAS 39 and applies to classification and measurement of financial assets as
 defined in IAS 39. The standard is effective for annual periods beginning on or
 after 1. January 2013. In subsequent phases, the Board will address
 classification and measurement of financial liabilities, hedge accounting and
 derecognition. The completion of this project is expected in mid 2011. The
 adoption of IFRS 9 will have an effect on the classification and measurement of
 the Company's financial assets. However, the Company determined that the
 effect shall be quantified in conjunction with the other phases when issued to
 present a comprehensive picture.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(y) Standards issued but not yet effective (continued)

- IFRIC 14 Prepayments of a minimum funding requirement (Amendment)
 The amendment to IFRIC 14 is effective for annual periods beginning on or after
 1 January 2011 with retrospective application. The amendment provides guidance on assessing the recoverable amount of a net pension asset. The amendment permits an entity to treat the prepayment of a minimum funding requirement as an asset. The amendment is deemed to have no impact on the financial statements of the Company.
- IFRS 10 Consolidated financial statements
 IFRS 10 as issued reflects the completion of the Board's improvements to the accounting requirements for off balance sheet activities. It builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The new standard is effective for annual periods beginning on or after 1 January 2013. The adoption of this standard will have no impact on the Company.
- IFRS 11 Joint arrangements
 The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method of accounting for interests in jointly controlled entities. The new standard is effective for annual periods beginning on or after 1 January 2013. The adoption of this standard will have no impact on the Company.
- IFRS 12 Disclosure of Interests in Other Entities
 IFRS 12 is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The new standard is effective for annual periods beginning on or after 1 January 2013. The adoption of this standard will have no impact on the Company.
- IFRS 13 Fair Value Measurement
 IFRS 13 seeks to increase consistency and comparability in fair value measurements and related disclosures through a 'fair value hierarchy' The hierarchy categorises the inputs used in valuation techniques into three levels. The hierarchy gives the highest priority to (unadjusted) quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The adoption of this standard will have no impact on the Company.
- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. The interpretation clarifies that equity instruments issued to a creditor to extinguish a financial liability qualify as consideration paid. The equity instruments issued are measured at their fair value. In case this cannot be reliably measured, they are measured at the fair value of the liability extinguished. Any gain or loss is recognised immediately in profit or loss. The adoption of this interpretation will have no effect on the financial statements of the Company.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

1. Significant Accounting Policies (continued)

(y) Standards issued but not yet effective (continued)

Improvements to IFRSs (issued in May 2010)
 The IASB issued Improvements to IFRSs, an omnibus of amendments to its IFRS standards. The amendments have not been adopted as they become effective for annual periods on or after either 1 July 2010 or 1 January 2011.

The amendments listed below, are considered to have a reasonable possible impact on the Company

- IFRS 3 Business Combinations
- IFRS 7 Financial Instruments Disclosures
- IAS 1 Presentation of Financial Statements
- IAS 27 Consolidated and Separate Financial Statements
- IFRIC 13 Customer Loyalty Programmes

The Company is still evaluating the effects of the above-mentioned pronouncements and expects that the adoption of these pronouncements will not have significant impact on the financial statements in the period of initial application

The Company has no employees in 2010 and 2009

In 2010 and 2009, the Company entered in an agreement with ATC Corporate Services (UK) Limited under a contract for the provision of director services for two (2) nominated directors

Three (3) of the directors are also directors of the immediate parent undertaking, ultimate parent undertaking and its subsidiaries. These directors received a total remuneration during 2010 amounting to US\$642,739 (2009 US\$193,978) from subsidiaries of the ultimate parent undertaking, Star Energy Kakap Limited and Star Energy Geothermal Wayang Windu Ltd. As of the date of these financial statements, the three directors agreed to provide director services to the Company without receiving any remuneration from the Company. As such, none of the total remuneration received by these directors from the subsidiaries of the ultimate parent undertaking was allocated to the Company.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

14. Provisions (continued)

Restoration

Provisions for future removal and restoration costs are recognised where there is a present obligation as a result of exploration, development, production, transportation or storage activities having been undertaken, and it is probable that an outflow of economic benefits will be required to settle the obligation. The estimated future obligations include the costs of removing facilities, abandoning wells and restoring the affected areas in accordance with the terms of the PSC.

Under the terms of the PSC gross abandonment costs needs to be provided for from 22 March 2005. Prior to this date there was no legal requirement under the PSC to provide for abandonment costs. The provision is based on the operator's assessment of gross abandonment costs.

These costs are currently expected to be incurred in 2020 of US\$900,000 (2009 US\$900,000). The provision has been estimated using existing technology at current prices and discounted at 5.50% (2009 8.81%).

Branch profits tax

The provision for branch profits tax is the additional tax imposed in lieu of dividends withholding tax on the excess of taxable income over ordinary corporate income tax. The current management of the Company is of the opinion that since the Company was establised in the United Kingdom, applying the 1993 tax treaty between the Government of Indonesia and United Kingdom, the Company is subject to BPT at a rate of 10%

The Company has applied the 10% BPT rate applicable under the treaty for the years 2005 to 2007, and accordingly made a provision for this obligation of US\$1,783,000

From 2008 onwards, BPT at the rate of 10% has been included as part of the income tax charge calculated in each period

15. Deferred Tax Liabilities

a Government audit claim

The accounting policies specified in the PSC are subject to interpretation by BPMIGAS and the Government of the Republic of Indonesia Annually, the accounting records and reports of the Company are subjected to an audit by BPMIGAS and/or the Government Claims arising from these audits are either agreed by the management of the Company and recorded in its accounting records, or are disputed Resolution of disputed claims may require a lengthy negotiation process extending over a number of years

As of the date of the financial statements, the PSC Operator has various disputed claims outstanding, amounting to US\$17,600,000 for the periods up to 2009. The claims consist of an AFE over-run of US\$3,700,000, insurance claim of US\$7,400,000, home-office overhead of US\$1,900,000, and various other matters totalling US\$4,000,000 which are still under discussion between the Operator and the auditors.

If these claims materialize, the Operator entitlement will be reduced by approximately US\$2,200,000 and will lead to exposure for underpayment of tax amounting to US\$900,000 Management believes that the claims are without merit, therefore no accrual has been recognized in relation to the claims in the financial statements

b. Legal claim

The Operator is facing a legal dispute with Tripatra - Sarku Consortium ("vendor") regarding a flexible flow line incident involving KRA South Gas Development Subsea Tie-In project. The value of the claim against the Operator amounts to US\$1,500,000 However the Operator counterclaimed against the vendor for the excess cost to complete the project, amounting to US\$1,000,000

The Operator is also facing a legal dispute with Seabulk Offshore Vessel Holding Inc ("SOVH") On 14 August 2008, the Operator received a letter from SOVH, owner of the vessel MU Seabulk Plover, claiming damages sustained by the Frontier Duchess oil rig as a result of a collision that occurred on 25 June 2007. The claim amounted to \$\$13,218,265 (an equivalent of US\$10,263,000) as of 31 December 2010 (2009 US\$9,420,000)

As of the date of completion of the financial statements, there has been no progress on the above cases and thus, the final settlement is uncertain. Management believes that the dispute will be resolved with no material impact on the Company's financial statements, accordingly no contingent liabilities have been recognized at the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

20. Commitments and Contingencies

c Gas supply agreement

The Operator, Pertamina and other gas producers entered into a Gas Supply Agreement under which each supplier agreed to make gas available for sale and delivery by Pertamina under a Gas Sales Agreement between Pertamina and Buyer The future contract quantity for the Company is 84 2 Btu with the following annual amount to be delivered

Year	Btu
2010	7 8
2011	7 8
2012-2023	68 92

The contract price is based on Index High Sulphur Fuel Oil ("HSFO")

d Contract for provision of FSO Rental Services

As follow up of the deteriorations found in the hull envelope of the previous KN Floating Production Storage and Offloading ("KN FPSO") vessel, various efforts have been initiated and carried out by the Contractors in order to remedy the situation, including implementing a medium-term solution by replacing the KN FPSO with a new FPSO namely East Fortune FSO ("EF FSO") under the contract signed in October 2009 with PT Pułau Kencana Raya ("PKR") as an agent on behalf of Songa Production Pte Ltd The contract with PKR is valid for a term of nine months up to September 2010 with a total contract value of US\$14,115,000

On 5 October 2010, Operator of the Kakap PSC had extended the lease contract of the EF FSO up to 31 December 2010 On 1 December 2010, the lease contract was extended up to 31 January 2011 (Note 19a)

Based on its letter dated 9 June 2010, No 0622/BPA4000/2010/S1, BPMIGAS has requested the Contractors to re-utilize KN FPSO for the next five to ten years, and the related Authorization For Expenditures (AFE) for the reutilization of the KN FPSO which covers the dry docking project and the operation cost for KN FPSO for the seven years has been approved by BPMIGAS in its letter dated 4 April 2011 amounting to US\$66,937,000

As of the completion date of these financial statements, the dry docking of KN FPSO is still ongoing

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

20. Commitments and Contingencies (continued)

e Provision for Branch Profit Tax ("BPT")

In December 2008, the Indonesia Development Finance Comptroller (Badan Pengawasan Keuangan dan Pembangunan or referred to as "BPKP") closed the audit of the Company for the years 1994 to 2004. As a result of the audit, the Company was required to pay additional BPT of 10% at the amount of US\$2,400,000. The Company paid US\$2,400,000 prior to its acquisition by Star Energy Group. With the payment of this additional 10%, the Company ended paying BPT of 20% during those years.

BPT is the additional tax imposed in lieu of dividends withholding tax on the excess of taxable income over ordinary corporate income tax. The current management of the Company is of the opinion that since the Company was established in the United Kingdom, it is subject to BPT at the rate of 10% based on the 1993 tax treaty between the Government of Indonesia and United Kingdom. Accordingly, there is no provision made from year 2005 to 2010 for the additional 10% rate on the BPT amounting to US\$7,014,000.

f Senior Term Loan Facility Agreement

On 14 January 2010, Star Energy (Kakap) Limited and Star Energy Kakap Holdings Limited ("SEHL") a shareholder (or together referred to as "the Borrowers") have entered into a US\$90,000,000 Senior Term Loan Facility Agreement ("New Loan") with Credit Suisse AG, Singapore Branch, and DBS Bank Ltd (together referred to as "Lenders" and also as Mandated Lead Arrangers with DBS also acting as Facility Agent and Security Agent) The initial utilization was on 3 March 2010 amounting to US\$82,500,000 and the remaining US\$7,500,000 on 7 May 2010

The purpose of the loan is to repay the remaining balance in the existing loan facility and on-lend the balance to SEHL for repaying the amounts outstanding under the Bridge Loan pursuant to the Company-SEHL Intercompany Loan Agreement. The loan will be repaid on a quarterly basis with the initial repayment date in September 2010 and the final repayment date in March 2014.

The New Loan is guaranteed by Original Guarantors and Additional Guarantors under the New Loan which are the following related parties

- Novus UK (Indonesian Holdings) Limited
- Novus Petroleum Canada (Indonesian Holdings) Limited
- Star Energy Kakap Holdings Limited
- Star Energy (Kakap) Ltd
- Natuna UK (Kakap 2) Limited
- Novus UK (Kakap) Limited
- Novus Nominees
- Kakap Holdings Pte Ltd
- Novus Petroleum Canada (Malacca Strait) Limited
- Novus UK (Malacca Strait) Limited

The New Loan contains several covenants which prevent the Company, from making significant changes in the nature and scope of its business

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

20. Commitments and Contingencies (continued)

g Gas Shortfall Event

In February 2010, Conoco Phillips as the Operator of West Natura Transportation System ("WNTS") consortium sent a letter to Sembcorp Gas Pte Ltd regarding the inability to deliver the Nominated Quantity based on the Gas Sales Agreement during 1 February 2010 until 31 May 2010 ("Gas Shortfall Event") The Gas Shortfall Event triggered shortfall gas liabilities for Kakap Block such that the Gas Sales Proceeds received by the Company will be reduced as a result of liquidated damages payable by the Company, pursuant to the Gas Sales Agreement and Gas Supply Agreement ("Revenue Gas Shortfall") On 29 July 2010, Conoco Phillips sent another letter to Sembcorp Gas Pte Ltd, notifying that it should anticipate the supply shortage in meeting the maximum rate (after being adjusted for maintenance) for August and September 2010 in a range of 0-45 Bbtud Total shortfall for the period from February 2010 through December 2010 was 2,144 Bbtu with the total decrease in the gas revenue of US\$5,285,000 for the Kakap Block Contractors in which US\$330,000 represents the Company's portion

On 1 March 2010, Star Energy Holdings Pte Ltd ("SEHPL") signed a letter of undertaking with DBS as Facilities Agent of US\$90,000 Senior-Term Loan Facility ("SEHPL Letter of Undertaking") Under SEHPL Letter of Undertaking, SEHPL agreed to advance cash to cover such Revenue Gas Shortfall, in the form of Affiliate Subordinate Loan to the Company and certain related parties. It is further agreed that in calculating the amount of Revenue Gas Shortfall amount, the gas price used is the lower of the contract price as defined under the Gas Sales Agreement or US\$13.00 per mmbtu. The SEHPL Letter of Undertaking will expire on the earlier of 31 December 2010 or when Kakap PSC joint venture and the WNTS joint venture are able to provide satisfactory evidence that Gas Shortfall Event has ended for at least 15 consecutive days and circumstances which could give rise to a Revenue Gas Shortfall have ceased to exist. During 2010, SEHPL has advanced the Company an amount of US\$3,000,000.

h. Hedging Transaction

On 18 May 2010, Star Energy (Kakap) Limited and Star Energy Kakap Holdings Limited ("SEHL"), the parent company, entered into an Interest Rate Cap hedging transaction with DBS Bank Ltd and Credit Suisse International with a notional amount of 80% to 100% of the outstanding loan at the strike rate of 2.5%. The effective date of this hedging transaction is 4 June 2010 and will be terminated on 4 September 2013.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

21. Financial Risk Management

The Company's activities expose it to market risk (which consists of currency risk, interest rate risk and commodity price risk), credit risk and liquidity risk. The Company's overall risk management strategy seeks to minimize adverse effects from unpredictability of financial markets on the Company's financial performance.

Risk management is carried out by the corporate finance department under supervision by the Company's Board of Directors Corporate finance identifies, evaluates and hedges financial risks

(a) Foreign currency risk

The Company is not materially exposed to foreign currency risk as it principally trades in US dollars through the sale of liquid petroleum products denominated in US dollars, incurs expenditure in US dollars and has US dollar borrowings from a related entity

(b) Interest rate risk

As the Company has no interest-bearing liabilities the Company is not exposed to changes in market interest rates

(c) Commodity price risk exposure

The Company is exposed to commodity price fluctuations through the sale of petroleum product. The Company may enter into commodity crude oil price swap and option contracts to manage the Company's commodity price risk.

At 31 December 2010, the company had no open oil price swap contracts (2009 nil), and is therefore not exposed to movements in commodity prices on financial instruments. The company continues to monitor oil price volatility and to assess the need for commodity price hedging

(d) Credit risk

Credit risk represents the potential financial loss if counterparties fail to perform as contracted. The Company has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

Credit risk arises from cash on hand and in banks, deposits with banks and financial institutions, as well as credit exposures from trade receivables. The Company is subject to concentration of credit risk as its entire sales are to two counterparties. Oil and Gas sales are solely to BP Singapore. Pte Ltd and SembCorp Gas Pte Ltd, respectively (note 12)

(e) Liquidity risk

The following table analyses the contractual maturities of the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date

	On demand US\$000
2010 Trade and other payables	1,552
2009 Trade and other payables	884

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2010

21. Financial Risk Management (continued)

(f) Fair values

The financial assets and liabilities of the Company are recognised on the balance sheet at their fair value in accordance with the accounting policies in Note 1

The significant methods and assumptions used in estimating the fair values of financial instruments are

Trade and other receivables

The carrying value less impairment provision of trade receivables is a reasonable approximation of their fair values due to the short-term nature of trade receivables

Financial liabilities

Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. Where the cash flows are in a foreign currency the present value is converted to US dollars at the foreign exchange rate prevailing at the reporting date.

22. Parent Entities

Star Energy Holdings Pte Ltd, a company registered in Singapore, which the directors regard as the Company's ultimate parent undertaking with respect to the financial year ended 31 December 2010, is the parent undertaking of the largest group of undertakings for which group financial statements are drawn up and to which the company is a member

Star Energy Holdings Limited, a company incorporated in Bermuda, is the parent undertaking of the smallest group of undertakings for which group financial statements are drawn up and for which the company is a member

23. Events Subsequent to Balance Sheet Date

On 12 January 2011, the lease contract of EF FSO rental service has been further extended for a twelve months period starting 1 February 2011. However, since 9 March 2011, the EF FSO has been demobilized from Kakap field and has been replaced with the new vessel MT Barunawati. Originally, the vessel that will replace EF FSO is MT Badraini which was modified.

From July 2011, the vessel MT Badraini was available for use and so the Operator started using it for its oil liftings
