The Directors' Report

Year ended 31 December 2006

The directors present their report and the financial statements of the company for the year ended 31 December 2006

Principal activities and business review

The principal activity of the company had intended to be the provision of broadband telecommunication services and run certain of the telecommunication systems over which they are provided. The franchise area however has yet to be cabled so is not connected to the group's network. As it is unlikely that this will be completed in the near future the network assets have been fully depreciated in the year.

The company is a wholly-owned subsidiary undertaking of Virgin Media Inc, which changed its name from NTL Incorporated on 6 February 2007. The Virgin Media group is an innovative and pioneering UK entertainment and communications business and is the first company in the United Kingdom to offer a quad-play package of television, broadband, telephone and mobile. The group is one of the UK's most popular residential broadband and pay-as-you-go mobile providers and the second largest provider in the UK of pay television and fixed line telephone services.

The loss for the year has increased to £47,585 (2005 - £39,525) due to the increased depreciation charged on network assets, which was partially offset by the fall in inter-company interest charged by group undertakings.

Results and dividends

The loss for the year amounted to £47,585. The directors have not recommended a dividend.

Financial risk management

The company's operations expose it to a variety of financial risks that include interest rate, foreign exchange and liquidity risks.

Liquidity risk

The Virgin Media group manages its financial risk via secure, long-dated and cost-effective funding for the group's operations in order to minimise the adverse effects of fluctuations in the financial markets on the value of its financial assets and liabilities, profitability and cash flows.

The Virgin Media group's external debt is used to satisfy the funding requirements of group undertakings via inter-company loans on terms which generally match those of the external debt. In addition, working capital is managed centrally within the Virgin Media group creating further inter-company trading balances, on terms which are generally interest free.

Interest rate and foreign exchange rate risk

The company is subject to financial risks where interest rates are not fixed or where the debt is denominated in foreign currency. The group's policy is to manage its interest cost using a mix of fixed and variable rate financial instruments denominated in sterling and foreign currencies, and to hedge all or part of the exposure to interest rate or foreign currency risk. However the group's policy is not to hedge against interest rate or foreign currency risk in respect of inter-company debt.

The company's financial instruments mainly comprise interest free inter-company debt. The company had no foreign currency denominated financial instruments during the reporting period or prior year.

The directors will revisit the appropriateness of these policies should the company's operations change in size or nature.

The Directors' Report *(continued)*

Year ended 31 December 2006

Directors

The directors who served the company during the year and thereafter were as follows

Virgin Media Directors Limited
Virgin Media Secretaries Limited

On 16 February 2007, the names of ntl Directors Limited and ntl Secretaries Limited were changed to Virgin Media Directors Limited and Virgin Media Secretaries Limited respectively

The directors had no interest in the share capital of the company requiring disclosure under the Companies Act 1985. The company seeks exemption under The Companies (Disclosure of Directors Interests) (Exceptions) Regulations 1985, not to disclose the directors' interests in the common stock of Virgin Media Inc, a company registered in the state of Delaware, United States of America, and the ultimate parent undertaking of the company.

Virgin Media Inc has indemnified the directors of the company against liability in respect of proceedings brought by third parties, subject to the conditions set out in the Companies Act 1985. Such qualifying third party indemnity provision is in force as at the date of approving the directors' report.

Disclosure of information to the auditors

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors and the company's auditor, each director has taken all the steps that he is obliged to take as a director in order to make himself aware of any relevant audit information and to establish that the auditor is aware of that information.

Auditor

Ernst & Young LLP will be re-appointed as the company's auditor in accordance with the elective resolution passed by the company under Section 386 of the Companies Act 1985.

Notes to the Financial Statements

Year ended 31 December 2006

1. Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention, and in accordance with applicable UK accounting standards

Fundamental accounting concept

The financial statements have been prepared on the going concern basis because the ultimate parent undertaking has given the necessary assurances that sufficient resources will be made available so that the company can meet its liabilities as and when they fall due, for at least the next twelve months

Cash flow statement

The company has taken advantage of the exemption under FRS 1 (revised) not to prepare a cash flow statement as it is a subsidiary which is at least 90% controlled by the ultimate parent undertaking (see note 12)

Tangible fixed assets

Depreciation is calculated so as to write off the cost of a tangible fixed asset, less its estimated residual value, on a straight line basis over the useful economic life of that asset as follows

| | |
|----------------|--------------|
| Network assets | 3 - 40 years |
|----------------|--------------|

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold, and

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

The directors' remuneration is paid by Virgin Media Limited (formerly ntl Group Limited) and disclosed in the group accounts of Virgin Media Finance PLC (formerly ntl Cable PLC)

Certain expenses are specifically attributable to the company. Where costs are incurred by other group companies on behalf of the company, expenses are allocated to the company on a basis that, in the opinion of the directors, is reasonable.

Auditor's remuneration of £1,000 (2005 - £1,000) represents costs attributed to the company by the fellow group undertakings that pay all auditor's remuneration on behalf of the Virgin Media group. The company is exempt from disclosing additional information regarding non-audit services, as the disclosures required under Regulation 4 (1) (b) of Section 390B of Companies Act 1985, are made in the group accounts of Virgin Media Finance PLC on a consolidated basis.

3. Staff costs

5. Taxation

(a) Analysis of charge in the year

The tax charge is made up as follows

| | 2006 £ | 2005 £ |
|--|-----------|-----------|
| Current tax charge: | | |
| Current tax on loss for the year | - | - |
| Capital loss relief surrendered | - | - |
| Deferred tax | | |
| Origination and reversal of timing differences | - | - |
| Total tax charge on loss on ordinary activities | <u>-</u> | <u>-</u> |

(b) Factors affecting current tax charge

The difference between the effective statutory rate and the actual current tax charge is reconciled as follows

| | 2006 £ | 2005 £ |
|---|-----------|-----------|
| Loss on ordinary activities before tax | (47,585) | (39,525) |
| Loss on ordinary activities multiplied by the rate of tax | (14,276) | (11,858) |
| Depreciation in excess of capital allowances | 14,276 | 3,851 |
| Utilisation of tax losses and other deductions | - | 8,007 |
| Total current tax charge (note 5 (a)) | <u>-</u> | <u>-</u> |

(c) Factors that may affect future tax charges

Deferred tax assets of £69,684 (2005 - £80,441) in respect of tax losses and £81 (2005 - liability of £14,167) in respect of depreciation in excess of capital allowances have not been recognised as there is insufficient certainty as to the availability of future taxable profits
