STRATEGIC REPORT

FOR THE YEAR ENDED 31 MARCH 2021

The directors present the strategic report for the year ended 31 March 2021.

Fair review of the business

Clearview delivered revenues of £7.66 million (2020: £8.68 million) and a profit before tax of £78k (2020: £30k). Clearview continued to develop a portfolio of innovative Intelligent Transport Solutions whilst market conditions remain challenging.

Key financial performance indicators

| | 2021 | 2020 | Measure |
|---------------------|-------|-------|--|
| · | | | |
| Return on assets | 2.9% | 1.3% | Operating profit/tangible & net current assets |
| Sales per employee | £187k | £189k | Turnover/average no. of employees |
| Gross profit margin | 46% | 46% | Gross profit/turnover |

Like many other businesses in the sector and across the wider economy, Clearview's trading performance was significantly impacted by COVID-19, particularly in the first half of the financial year.

The directors responded accordingly, utilising to an extent the Government Job Retention Scheme to protect staff in the medium to longer term whilst also taking the opportunity to re-evaluate the structure and future strategy of the business.

Having navigated the first half of the financial year, trading conditions improved and Clearview secured significant projects with Local Authorities whose need to understand more about the multi-model shift of transport on their respective networks during COVID-19 became of much heightened importance.

Clearview have continued to invest significantly in research and development, ploughing back profits into this development stream and securing access to client sponsored funding through strategic clients such as National Highways and Transport Scotland.

Clearview also maintained relatively strong revenues via it's DBFO client base and renewed some of these concessions to the end of their 30 year term.

Investment has continued in the development of the next generation intelligent road studs and the Insight Smart Mobility platform, which harnesses different real time traffic and environmental data sets to optimise journeys across the UK road network.

Clearview's core strategy to continue the development of key relationships within National Highways, Transport Scotland and their respective supplier base has proven prudent, whilst increased traction in the Urban stream, fuelled by the growth of Active Travel as a direct result of COVID-19 has presented a number of new opportunities for growth.

Clearview International operations has been significantly impacted by COVID-19 and Brexit. The inability to travel and develop new partner relationships has presented very acute challenges with each partner country responding to the pandemic in very different ways. Similarly, Brexit has resulted in problems with the movement of freight, impacting both imports and exports and huge volatility on costs and import duties.

However, both in the UK and abroad, It is anticipated that ongoing investment in R&D via development of the Insight data platform, Connex hardware architecture including new Artificial Intelligence based solutions and the next generation of the Solarlite Active road stud will secure Clearview's revenue growth over the next 3 years.

STRATEGIC REPORT (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2021

Principal risks and uncertainties

Other than the market risks outlined above, the principal risks facing the group are set out below:

Interest risk

The group has limited external borrowing which is limited to fixed interest finance leases and is therefore not exposed to LIBOR changes.

Currency risk

The group is exposed to currency risk as certain assets and liabilities are held in non-GBP currencies. Clearview adopts a limited policy of hedging and takes out forward exchange contracts as required.

Credit risk

The group's principal financial assets are trade debtors, which represent a risk which is managed by considering the financial strength of all customers, and applying appropriate credit limits and payment terms. All cash balances are held with well established banks with a good credit rating.

Liquidity risk

The objective of the group in managing liquidity risk is to ensure that it can meet its financial obligations as and when they fall due. The group expects to meet its financial obligations through operating cashflows.

Covid-19

The long-term economic impact of COVID-19 is still yet to be fully understood. Whilst there appears to be a degree of resilience within the Highways and Infrastructure sector, the potential impact on spending over the next 5 years will have to be closely monitored. Recent budget cuts in road infrastructure spend could signal a change in approach by Central Government to investment in the Highways sector.

Brexit impact

The impact of Brexit has already been felt in terms of impaired trading conditions, movement of freight and acute Supply Chain issues. Whilst these can be mitigated to an extent, the ongoing uncertainty and apparent increasing insularity within the EU countries, make for an uncertain future.

On behalf of the board

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 MARCH 2021

The directors present their annual report and financial statements for the year ended 31 March 2021.

Principal activities

The principal activity of the group during the year continued to be that of the design and development of road safety solutions including active road studs and the provision of Intelligent Transport solutions via the remote collection and analysis of traffic data providing actionable intelligence to optimise client assets and enhance road network performance.

Results and dividends

The results for the year are set out on page 8.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Sir John Madejski OBE DL DLitt N A Lanigan W G Abatt I Smith A Salotti

Qualifying third party indemnity provisions

The company has made qualifying third party indemnity provisions for the benefit of its directors during the year. These provisions remain in force at the reporting date.

Auditor

In accordance with the company's articles, a resolution proposing that Mercer & Hole be reappointed as auditor of the group will be put at a General Meeting.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the auditor of the company is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the auditor of the company is aware of that information.

On behalf of the board

N A Lanigan Director

Date: 17/12/202

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 MARCH 2021

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and company, and of the profit or loss of the group for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CLEARVIEW INTELLIGENCE GROUP LIMITED

Opinion

We have audited the financial statements of Clearview Intelligence Group Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 March 2021 which comprise the group statement of comprehensive income, the group balance sheet, the company balance sheet, the group statement of changes in equity, the company statement of changes in equity, the group statement of cash flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 March 2021 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
 and
- · have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the group's and parent company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF CLEARVIEW INTELLIGENCE GROUP LIMITED

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of our audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit
 have not been received from branches not visited by us; or
- · the parent company financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, the directors are responsible for assessing the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

We gained an understanding of the legal and regulatory framework applicable to the group and the industry in which it operates and considered the risk of acts by the group that were contrary to applicable laws and regulations, including fraud. These included, but were not limited to, the Companies Act 2006 and tax legislation.

We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements and the financial report (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate entries including journals to overstate revenue or understate expenditure and management bias in accounting estimates.

INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF CLEARVIEW INTELLIGENCE GROUP LIMITED

Audit procedures performed by the engagement team included:

- discussions with management, including considerations of known or suspected instances of noncompliance with laws and regulations and fraud;
- gaining an understanding of management's controls designed to prevent and detect irregularities; and
- · identifying and testing journal entries.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. In addition, as with any audit, there remained a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

A further description of our responsibilities is available on the Financial Reporting Council's website at: https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

Company information

Clearview Intelligence Group Limited ("the company") is a private limited company domiciled and incorporated in England and Wales. The registered office is Aurora House, Deltic Avenue, Rooksley, Milton Keynes, MK13 8LW.

The group consists of Clearview Intelligence Group Limited and all of its subsidiaries.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1,000.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

The company is a qualifying entity for the purposes of FRS 102, being a member of a group where the parent of that group prepares publicly available consolidated financial statements, including this company, which are intended to give a true and fair view of the assets, liabilities, financial position and profit or loss of the group. The company has therefore taken advantage of exemptions from the following disclosure requirements for parent company information presented within the consolidated financial statements:

- Section 4 'Statement of Financial Position': Reconciliation of the opening and closing number of shares;
- Section 7 'Statement of Cash Flows': Presentation of a statement of cash flow and related notes and disclosures;
- Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instrument Issues': Carrying amounts, interest income/expense and net gains/losses for each category of financial instrument; basis of determining fair values; details of collateral, loan defaults or breaches, details of hedges, hedging fair value changes recognised in profit or loss and in other comprehensive income;
- Section 26 'Share based Payment': Share-based payment expense charged to profit or loss, reconciliation of opening and closing number and weighted average exercise price of share options, how the fair value of options granted was measured, measurement and carrying amount of liabilities for cash-settled share-based payments, explanation of modifications to arrangements;
- · Section 33 'Related Party Disclosures': Compensation for key management personnel.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

1.2 Basis of consolidation

In the parent company financial statements, the cost of a business combination is the fair value at the acquisition date of the assets given, equity instruments issued and liabilities incurred or assumed, plus costs directly attributable to the business combination. The excess of the cost of a business combination over the fair value of the identifiable assets, liabilities and contingent liabilities acquired is recognised as goodwill. The cost of the combination includes the estimated amount of contingent consideration that is probable and can be measured reliably, and is adjusted for changes in contingent consideration after the acquisition date. Provisional fair values recognised for business combinations in previous periods are adjusted retrospectively for final fair values determined in the 12 months following the acquisition date. Investments in subsidiaries, joint ventures and associates are accounted for at cost less impairment.

Deferred tax is recognised on differences between the value of assets (other than goodwill) and liabilities recognised in a business combination accounted for using the purchase method and the amounts that can be deducted or assessed for tax, considering the manner in which the carrying amount of the asset or liability is expected to be recovered or settled. The deferred tax recognised is adjusted against goodwill or negative goodwill.

The consolidated group financial statements consist of the financial statements of the parent company Clearview Intelligence Group Limited together with all entities controlled by the parent company (its subsidiaries) and the group's share of its interests in joint ventures and associates.

All financial statements are made up to 31 March 2021. Where necessary, adjustments are made to the financial statements of subsidiaries to bring the accounting policies used into line with those used by other members of the group.

All intra-group transactions, balances and unrealised gains on transactions between group companies are eliminated on consolidation. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

1.3 Going concern

The financial statements have been prepared on a going concern basis. The directors have prepared detailed trading and cash flow forecasts to March 2023 which take into account the possible impacts of COVID-19 restrictions on trading activities over that period and the mitigating actions that can be taken to control costs as required. The directors have a reasonable expectation that the group has adequate resources to continue in operational existence for the foreseeable future and have therefore adopted the going concern basis of accounting in preparing the financial statements.

1.4 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised on delivery when all of the following conditions are satisfied:

- · the significant risks and rewards of ownership of the goods have passed to the buyer;
- the group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- · the amount of revenue can be measured reliably;
- · it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

Rendering of services

Revenue from contracts for the provision of professional services is recognised in the period in which the services are provided in accordance with the stage of completion when all of the following conditions are satisfied:

- · costs incurred and costs to complete can be estimated reliably;
- · the amount of revenue can be measured reliably; and
- the stage of completion of the contract at the end of the reporting period can be measured reliably.

The stage of completion is calculated by comparing costs incurred, mainly in relation to contractual hourly staff rates and materials, as a proportion of total costs. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that it is probable will be recovered.

1.5 Research and development expenditure

Research expenditure is written off against profits in the year in which it is incurred. Identifiable development expenditure is capitalised to the extent that the technical, commercial and financial feasibility can be demonstrated.

1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Leasehold improvements

Over the period of the lease

Plant and equipment

2-5 years

Office equipment

2-3 years

Motor vehicles

3 years

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the profit and loss account.

1.7 Fixed asset investments

In the parent company financial statements, investments in subsidiaries, associates and jointly controlled entities are initially measured at cost and subsequently measured at cost less any accumulated impairment losses.

A subsidiary is an entity controlled by the group. Control is the power to govern the financial and operating policies of the entity so as to obtain benefits from its activities.

1.8 Impairment of fixed assets

At each reporting period end date, the group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The carrying amount of the investments accounted for using the equity method is tested for impairment as a single asset. Any goodwill included in the carrying amount of the investment is not tested separately for impairment.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.9 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.10 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.11 Financial instruments

The group has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the group's balance sheet when the group becomes party to the contractual provisions of the Instrument.

Financial assets and llabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the group transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including creditors and obligations under finance leases, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future payments discounted at a market rate of interest. Financial liabilities classified as payable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derecognition of financial liabilities

Financial liabilities are derecognised when the group's contractual obligations expire or are discharged or cancelled.

1.12 Equity instruments

Equity instruments issued by the group are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the group.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

1.13 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset if, and only if, there is a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

1.14 Provisions

Provisions are recognised when the group has a legal or constructive present obligation as a result of a past event, it is probable that the group will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting end date, taking into account the risks and uncertainties surrounding the obligation. Where the effect of the time value of money is material, the amount expected to be required to settle the obligation is recognised at present value. When a provision is measured at present value, the unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.

1.15 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense, unless those costs are required to be recognised as part of the cost of stock or fixed assets.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received.

Termination benefits are recognised immediately as an expense when the group is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.16 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2021

1 Accounting policies

(Continued)

1.17 Share-based payments

Equity-settled share-based payments are measured at fair value at the date of grant by reference to the fair value of the equity instruments granted using the Black Scholes model. The fair value determined at the grant date is expensed on a straight-line basis over the vesting period, based on the estimate of shares that will eventually vest. A corresponding adjustment is made to equity.

The expense in relation to options over the parent company's shares granted to employees of a subsidiary is recognised by the company as a capital contribution, and presented as an increase in the company's investment in that subsidiary.

When the terms and conditions of equity-settled share-based payments at the time they were granted are subsequently modified, the fair value of the share-based payment under the original terms and conditions and under the modified terms and conditions are both determined at the date of the modification. Any excess of the modified fair value over the original fair value is recognised over the remaining vesting period in addition to the grant date fair value of the original share-based payment. The share-based payment expense is not adjusted if the modified fair value is less than the original fair value.

Cancellations or settlements (including those resulting from employee redundancies) are treated as an acceleration of vesting and the amount that would have been recognised over the remaining vesting period is recognised immediately.

1.18 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessees. All other leases are classified as operating leases.

Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the balance sheet as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to profit or loss so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Rentals payable under operating leases, including any lease incentives received, are charged to profit or loss on a straight line basis over the term of the relevant lease except where another more systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

1.19 Government grants

Government grants are recognised at the fair value of the asset received or receivable when there is reasonable assurance that the grant conditions will be met and the grants will be received.

A grant that specifies performance conditions is recognised in income when the performance conditions are met. Where a grant does not specify performance conditions it is recognised in income when the proceeds are received or receivable. A grant received before the recognition criteria are satisfied is recognised as a liability.

1.20 Foreign exchange

Transactions in currencies other than pounds sterling are recorded at the rates of exchange prevailing at the dates of the transactions. At each reporting end date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting end date. Gains and losses arising on translation in the period are included in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

2 Judgements and key sources of estimation uncertainty

In the application of the group's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

Critical judgements

The following judgements (apart from those Involving estimates) have had the most significant effect on amounts recognised in the financial statements.

Accrued costs

The support costs and capital costs accrued at the year end for specific customer contracts are based on management's best estimate of the costs incurred at the year end which have not yet been paid using a model of total expected costs across the life of the contracts.

Provisions

Provisions have been made for slow moving and obsolete stocks. Management estimates the net realisable value of stock based on sales history and other reliable evidence available at each reporting date.

Warranty provisions - Management analyse trends in warranty claim rates and associated product problems to estimate the level of warranty claims which are expected to arise on products which have been sold.

| | | 21 | 34 | - | - |
| | | | - | | == |

Finance lease payments represent rentals payable by the company or group for certain items of plant and machinery. Leases include purchase options at the end of the lease period, and no restrictions are placed on the use of the assets. The average lease term is 4 years. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent rental payments.

20 Provisions for liabilities

| | |

The above provisions represent an estimate of the potential claims in respect of products sold under warranty. The provision is expected to be utilised over the next 24 months.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE YEAR ENDED 31 MARCH 2021

21 Deferred taxation

The following are the major deferred tax liabilities and assets recognised by the group and company, and movements thereon:

| Group | Liabilities 2021 £'000 | Liabilities 2020 £'000 | Assets 2021 £'000 | Assets 2020 £'000 |
|--------------------------------|------------------------------|------------------------------|-------------------------|-------------------------|
| Accelerated capital allowances | 8 | - | 21 | 25 |
| Short term timing differences | (2) | - | - | 2 |
| • | | | | |
| | 6 . | - | 21 | 27 |
| | === | | | |
| | Liabilities | Liabilities | Assets | Assets |
| | 2021 | 2020 | 2021 | 2020 |
| Company | £'000 | £'000 | £.000 | £'000 |
| Accelerated capital allowances | • | - | 21 | 22 |
| | | | | |
| | | | Group | Company |
| | | | 2021 | 2021 |
| Movements in the year: | | | £'000 | £'000 |
| Asset at 1 April 2020 | | | (27) | (22) |
| Charge to profit or loss | | | 12 | ` 1 |
| | | | | |
| Asset at 31 March 2021 | | | (15) | (21) |
| | | | | |

The deferred tax asset and liability set out above is expected to reverse within 2 years and relates to timing differences that are expected to reverse within this period.

22 Retirement benefit schemes

| Defined contribution schemes | 2021 £'000 | 2020 £'000 |
|---|---------------|---------------|
| Charge to profit or loss in respect of defined contribution schemes | 105 | 123 |
| | | |

A defined contribution pension scheme is operated for all qualifying employees. The assets of the scheme are held separately from those of the group in an independently administered fund.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

23 Share-based payment transactions

The company operates a share option scheme for certain of its employees (including directors). The options are exercisable on the earlier of the date on which the ownership of the company changes hands or the 7th anniversary of the grant of the shares.

On 13 August 2013 options over 13,888 A Ordinary shares of £1 each were granted with an exercise price of £0.216 per share.

Details of the number of options and the weighted average exercise price outstanding during the year were as follows:

| Group | Number of share | re options | Weighted average exercise price | |
|---|-----------------|----------------|---------------------------------|-----------|
| | 2021 Number | 2020 Number | | 2020 £ |
| Outstanding at 1 April 2020 and 31 March 2021 | 13,888 | 13,888 | 0.22 | 0.22 |
| Exercisable at 31 March 2021 | 13,888 | | 0.22 | <u>-</u> |

The directors do not consider the value of the options to be material and as such no charge has been recognised in the financial statements.

24 Share capital

| Ordinary share capital | 2021 | 2020 | 2021 | 2020 |
|--|---------|---------|-------|-------|
| | Number | Number | £'000 | £'000 |
| Issued and fully paid Ordinary shares of £1 each | 250,000 | 250,000 | 250 | 250 |

25 Reserves

Profit and loss reserves

This reserve records the amount of profit after tax retained by the company and not paid out as dividends.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 MARCH 2021

26 Operating lease commitments

Lessee

At the reporting end date the group had outstanding commitments for future minimum lease payments under non-cancellable operating leases, which fall due as follows:

| | Group | Company | | |
|----------------------------|-------|---------|-------|-------------|
| | 2021 | 2020 | 2021 | 2020 |
| | £'000 | £'000 | £'000 | £'000 |
| Within one year | 181 | 213 | _ | - |
| Between two and five years | 85 | 239 | - | - |
| | | | | |
| | 266 | 452 | - | - |
| | | | | |

27 Controlling party

The ultimate controlling party is considered to be Sir John Madejski OBE DL DLitt by virtue of his majority shareholding in the company.
